A new discovery seems to have been made in the manufacture of green glass bottles,

Union from a firm in New Jersey, and with it came the statement that it was muchine made. The officials of the organization were asked to examine it and return an expert opinion as to the merits of the article. The bottle was an ordinary 12-ounce one, and really had the appearance of being President Smith and Secretary Dillon both examined it carefully, but have not yet replied to the firm's request. In fact, they have not yet been thoroughly satisfied that the bottle is made entirely by machinery. They think the bettle is blown by a machine and finished by hand. Not being able to indorse the article they thought their opin- be drawn on the \$1 weekly payments. It is ion would be of little value to the firm mak-

Making Bottles by Machinery.

Inquiry into the matter developed the fact that the firm from which the bottle had been received was the American Bottle Company, a new concern incorporated a few months ago at Woodbury, N. J. For years the glassowers have predicted that bottles could not be made by machinery, but it is understood that the new company is prepared to show the men where they have been wrong. to Consider Them. The five charter ordinances for Allegheny ere turned over to the printers on Tuesday afternoon and were yesterday returned to Clerks White and Dilworth. The law requires Cierks White and Dilworth. The law requires that a copy of every new ordinance must be in the hands of each member of Councils 48 hours before the meeting of that body.

Select Council meets to-morrow night, and, it has been a hustling job to get the documents ready, the printers having worked all Tuesday night. If the bills are passed by Select Council, a meeting of the Common Chamber will be called for next week.
