An Opportunity to Step Into a Life Income.

Bids will be considered for the sale of the Michigan State Agency of one of the "Gilt Egge" old line Companies. Lumber, Sait, Copper and Jron have made Michigan a wealthier State than any other in Michigan a wealthier State than any other in the Union of its population, and as money is accumulated rapidly it is a rich field for the life insurance worker.

The pulicy contract of the Company is super-ior and sells easier than any other in the field,

There is about \$100,000 of business now on the books, and it could not be of a better class. The offices are located in the finest office building in Detroit, and are handsomely furnished. The Agency force is as strong as any in Michigan, and will write as many new premiums in 1891 as either the Equitable or Mutual Life—the leaders heretofore.

The purchaser must be of unimpeachable character and thoroughly capable to be acceptable to the Company. To one who can command the money to make this deal, there is the opportunity of a life time offered. Correspondents will please give bank references, as to their ability to produce the funds, as letters will not be answered to gratify idle curiosity. Good reasons given by present incumbent for selling. Address all communications to STATE AGENT, care Postman No. 50, Detroit, Mich.

Chief Bigelow Explains to Members

of the Coal Exchange That MARKETS WON'T INJURE SHIPPING.

WANT THE WHARVES.

Provision to Be Made to Protect Boats From Flood and Ice. SUPPORTING SENATOR NEED'S BILL

Chief Bigelow, of the Department of Public Works, was examined by the members of the Coal Exchange vesterday at the Advance Coal Company's office on Water street. Mr. Bigelow was requested to explain the provisions of Senator Flinn's bill allowing the use of the wharves for market purposes. Incidentally Mr. Bigelow's project to create parks along the Allegheny wharves was discussed by Captain John A.

Woods, President of the Coal Exchange. Mr. Bigelow made a statement, in which he set forth that the Allegheny river wharves were of but little if any use to rivermen. He claimed that outside of coal shipping there was little river traffic, and to strengthen this assertion quoted the fact that the boat yards at Freedom and Shousetown, which in the years gone by employed hundreds of men, had fallen into decay and had been abandoned. He assured the coal operators that the Point bridge w s really their bugaboo. He asserted that in high water no boats could get under the bridge into the Allegheny, and that when the water was low enough to let them under

there was not enough water to float them. No Danger to the Shipping. Mr. Bigelow said that the improvement of the wharves would not injure the coal men at all, as all they wanted was a place to tie' up. When the wharves were improved, whether devoted to market or park purposes, every provision would be made for the safety of boats. Strong posts would be erected, to which boats or tows could be tied. He gave as instances the improvement of the banks of the Mersey at Liverpool, the Thames at London, and several other places in Europe. In these places they had the

tide to contend with, but, nevertheless, nav-igators experienced no danger or difficulty securing their vessels.

Captain Woods thought that if the wharves were improved boats and tows would be in great danger from floods, especially when ice was running out in quantities. To this Chief Bigelow replied hat when ice was running out boats had to seek the shelter of a projection, anyhow, and stated that during the last flood a boat was wrecked on Duquesne Way, although the wharves in that locality had not been

Meeting the Demand for Markets. The Chief then went on to show how necessary were increased market facilities to meet the demands of the growing city, and assured his hearers that the only way to meet this demand was to devote some of the idle whatves to this purpose. He assured his hearers that there would be no interference with the shipping facilities of the port. The Chief did not touch very heavily on the project to make a park of the wharves, as that scheme is being kept in abeyance just

ment and withdrawn the members of the

sterfered with in the least.

Exchange discussed the matter. A majority of them thought that the Chief's arguments were forcible and convincing, while others, among them President Wood, were afraid that injury to shipping would result from the dedication of any part of the wharf to market purposes. A long discussion was held, but no definite course of action upon Senator Neeb's bill was decided upon. Some action will probably be taken to-day.

WOMEN AS NOTARIES PUBLIC.

Another Avenue of Escape From House-Woman's sphere continues to extend. While she is not learning the blacksmith, stone cutting and other trades, she is pushing man in all the lighter avocations, and when she begins to vote she will make him hustle, or else put on an apron and take the place new filled by her in domestic economy. Yesterday Lawyer A. M. Neeper tramed a bill to empower the Governor to make vomen notaries public. Some time ago Mr seeper applied to Governor Beaver for the appointment of a lady typewriter as a notary public as she had many documents to get up requiring the services of a notary, and the object was to save trouble. The Gover-

woman could not fill the position and de-clined to act, so Mr. Neeper proposes to have the matter cured by Jegislation

The Failure of the Supreme Court to Hand Down a Decision on the Street Laws Hinders the Passage of the Appropria-

There was much disappointment about the case of several taxpavers against the city, brought to establish the validity of the city charter and her position in relation to street improvements. The decision had been confidently expected yesterday. The delay is expected to further hinder the passage of the appropriations ordinance, and as a result there is considerable speculation as to the shape the city's finances will assume. As it is, the City Controller and Treasurer have

already made an arrangement to secure funds on the Treasurer's personal security for the payment of the school teachers' February salaries.

The Controller will to-day confer with the city depositories with a view to securing sufficient of the city's cash to pay the employes of the various departments. It may not be possible to do this, for while the State law requires and fixes the school appropria tions and the payment of her interest, mak-ing it perfectly sale to invest for those puroses, the banks may take a different view

when it comes to issuing money for the pay-ment of other claims, and the result is not Another point raised is that of payment of taxes. Under the law the tax duplicates should be in the hands of the City Trensurer in March, and during that month taxpayers are entitled to a discount of 5 per cent on half their taxes if the whole is paid at once. No provision is made for delays. If the appropriations ordinance is not passed in time to allow the assessors to hand the duplicates over to the City Treasurer during

this month, it is srgued that he cannot allow the discount after March 31. The Treasurer himself preferred not to give an opinion on this point. Controller Morrow said that it the Treasurer could not receive taxes in March, the taxpayer who offered his money when it could be received would be entitled to the discount, because would be entired to the discount, occause the law was for the city, and she could take advantage of it every year to shut off dis-counts if there were nothing to prevent her, which the law of equity would certainly do. Chief Brown rather believed that after March 31 no discounts could be allowed, no matter whether the Treasurer was ready before or not. Other officials seemed to share the Chief's views, while only two or three

agreed with the Controller. A solution of the problem will probably be had to-day. A CALL FOR CLOTHING.

More Relief Is Needed for the Sufferer From the Recent Flood. The semi-monthly meeting of the Board of Managers of the Association for the Improvement of the Poor was held yesterday afternoon. Reports were submitted showing that from February 2 to 16 there were 20 applicants, 583 families were visited, 371

families aided, 849 visits made to the poor, 7 children placed in Sabbath schools, 13 children placed in the public schools, 2 persons placed in hospitals, situations secured for 6 persons, day's work obtained for 19. The groceries distributed and other articles; 841 loaves of bread, 319 pounds of rice, 226 pounds of oatmeal, 286 quarts of beans, 500 quarts of cornmeal, 409 bars of sosp. Distributions through dispensary, 156 pints of beef tea, 2 pints of mutton broth, 1 pint of oyster broth, 427 pints of milk, 82 pounds of tea, 297 pounds of sugar. Other distributions were 6,775 bushels of coal, 1621/2 yards of material, 105 garments, 84 pairs of shoes, 8 comforts, 11 After Mr. Bigelow had made his state-
