Ben Butler Thinks It Will Soon Be Sounded in This Country.

INEXORABLE LOGIC OF HISTORY

Points to It, and Canada May Be an Active Participant.

HIS DECLARATION FOR PREE COINAGE

SPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, March 2 .- "Ben" Butler, who has been in Washington a good deal of late, believes that the time is approaching for the United States to have another war. He delivered himself of this opinion while discussing the Canadian question, but declined to further connect the opinion with the subject of conversation. When asked, "Do you think the country beyond our northern boundry will ever be ours?" the General was not ready with a positive answer. "If it ever is," said he, "it will be in one of three ways-by gift, by purchase or by conquest. When we conby purchase or by conquest. When we consider that in the vast country beyond the Canada line lies by far the larger part of the fresh water of the entire globe, and that it is fully 40 per cent of the territory over it is fully 40 per cent of the territory over which floats the British flag, the man of intelligence will have some idea of the prospect of our getting the country as a egift from England, and he will be interested also as to the probability of our getting it by purchase.

Significant Fact of History.

"As to our obtaining it by conquest, that is a great question which men may study at their leisure." Then General Butler drew attention to the fact that ever since we began to have a history every generation has seen the United States engaged in war. "Unless the inexorable logic of history is about to fail," he said, "the time when we will have the next war on our hands is not far off. With whom, or about what it will be, I do not attempt to say. It may be slow and somewhat out of time in coming, but that come is will is the certain lesson of all our history. It may solve the Canadian problem, or it may not have anything to do the largest production of any of the fields,

"Be that as it may, the fact remains that the almost boundless country stretching northward from the Canada line is a vast empire of superb climate, great capabilities for commerce and population—a territory that is rapidly developing at the present time, and is bound to develop still more rap-

No Immediate Danger of It.

As to reciprocity between Canada and the United States, the General was willing to admit its likelihood at a comparatively early day; but as to a change of flags, be would venture no prediction as to the long future even. He did not see much to warrant it in the immediate prospect. On the silver question, General Butler is not saying much for the public ear, beyond that he is for the free coinage of the products of America as a proper measure of protection to American miners and a legitimate home

He leels a deep interest in agriculture and the effort it is making in its own behalf. On this and other developments of public opinion, General Butler is a close observer of the signs of the times. On some of these he will be heard from in due time. While here, the General devoted considerable time to collecting and arranging materials for his history of his own life and times, upon which he has been for some years engaged, and which is progressing satisfac-

REFORMING THE CIVIL SERVICE.

A Bi I R ported for the Reorganization of

GTON March 2-Re Lehlbach, of New Jersey, from the Committee on Reform in the Civil So vic , to-day submitted to the House the bill ag eed upon by a majority of the committee on Saturday for the reorganization of the Civil Service Commission. He submitted a report on the result of the committee's investigation into the workings of the civil service law. The report says, in

ings of the civil service laws and have come to the conclusion that certain improvements can be made. Since the creation of the Civil Service Commission, the investigation dis-closes that the public service has been greatly benefited, and the law, on the whole, well ex-

ocuted.

One objection to the present law is that the person who is appointed to a position after having passed a civil service examination may be discharged by his superior, even without cause. This is not the intent and spirit of the law, and your committee teel that there should be a remeily proposed. We have come to the conclusion that a remodeling of the civil service law is desirable, in order that the duties of a Civil Service Commission and those of appointing officers should be clearly stated and defined. We have therefore recommended is bill which We have, therefore, recommended a bill which

TESTING THE TARIFF.

Cases Which Impugn the Constitutionality of the McKinley Act.

WASHINGTON, March 2.- Four motions were made in the United States Supreme Court to-day to advance cases intended to test the validity and constitutionality of the customs, administrative and McKinley tariff laws. The first of these motions comes here on an appeal from the Circuit Court of the United States for the Southern district of New York sustaining a decision of the Board of General Appraisers in assessing duties on an importation of laces Boyd, Sutton & Co. Counsel for the importers contend that the McKinley tariff act is unconstitutional; first, because the bill signed by the President was not the bill that passed both Houses of Congress, a section having been omitted in its engrossment; second, that it contains provisions for bounties to sugar producers, which, under the Constitution, Congress had no power to enact, and third, that section 3 of the act assumes to delegate to the President the power impose taxes upon which power is vested exclusively in Congress and cannot be delegated.

The matter went over for a week in order that the Government might examine the

A CLEAR VICTORY WON.

The Myra Clark Gaines Case Settled Finally

by the Supreme Court. WASHINGTON, March 2 .- Justice Bradley to-day announced the decision of the Supreme Court in the suit between the city of New Orleans and William M. Whitney, as administrator of the estate of Myra Clark Gaines. This is a continuation of the old Gaines litigation. After the Supreme Court rendered its last decision sustaining the claim of Mrs. Gaines, the judgment was handed down with certain directions Master. From the finding of the Master the city brought the suit decided to-day, based it on the ground that the city should not be held liable in the matter of certain ground which had been the subject of compromise between Mrs. Gaines and the tenants. The Court bolds that Mrs. Gaines acquired the rights the tenants had as against the city; that the report of the Master was correct and that On additional, thus giving a vertict in the Gaines estate on all the points at issue.

Convalencence. Beware of imitations. The gradies has the signature of "Johann Hopp" on the neck of every bottle. Mrs. Gaines' estate should be awarded \$54.-

A New Appointment Made. WASHINGTON, March 2 .- The President to-day nominated Henry C, Ide, of Ver-

THE TOCSIN OF WAR. | mont, as Land Commissioner in Samos, vice | Henry B. Atherton, declined.

AN IMPORTANT CASE.

It Has a Great Bearing on the Inter-Stat Commerce Law.

WASHINGTON, March 2.-Attorney Gen eral Miller made a motion in the United States Supreme Court to-day to advance for argument the case of Charles Counselman against Frank Hitchcock, United States Marshal for the Northern district of Illinois, who has Counselman in custody for refusing to answer certain questions in re-gard to the inter-State commerce law.

The Attorney General, in his motion, said

that the importance of the case would be understood when it was understood pending a final decision, it would be impossible to continue any investigation into violations of the inter-State commerce law, "which are now so numerous and flagrant as practically to defeat the operation of that law."

THE ANTI-LOTTERY LAW.

A Habeas Corpus Suit to Test the Constitu

tionality of It. WASHINGTON, March 2.- Hannis Tay lor, as counsel for the publishers of the New Orleans States and Mobile Register, who were convicted of a violation of the antitery law might be tested.

OHIO'S OIL PRODUCT.

CORAOPOLIS DEVELOPING INTO AN EX-TENSIVE FIELD.

The Interest at Wildwood Still Continues-A New Field Coming to the Front-All Quiet at McCurdy-An Interesting Ven-

In the month or February the total new production of the Ohio field shows a decrease of 364 barrels, as compared with the new output in January. The statistics indicate that in the month just closed there were having a credit of 2,374 barrels, while the production of the other counties may be summa-rized as follows: Hancock, 275 barrels; Allen,

rised as follows: Hancock, 275 barrels; Allen, 321 barrels; Auglaize, 1,855 barrels; Sandusky, 555 barrels, and the production of scattering wells is about \$5 barrels.

While there is a slight decrease in completed work and new production, there is about the same increase in drilling wells and rigs. The total number of wells under way is 105, and the rigs up and building are 137, making a total of 242. This is an increase of 15 drilling wells, 17 rigs, or a total increase of 22 over January. As usual, Wood county leads, with 39 wells drilling and 80 rigs, while Sandusky and Auglaize are next in point of activity, the former having 21 drilling wells and 25 rigs, and the latter 19 wells drilling and 25 rigs, and the latter 19 wells drilling and 25 rigs up and in course of erection.

Activity at Newport.

TRECIAL TELEGRAM TO THE DISPATOR. NEWPORT, March 2-Ackerley & Sammel are still fishing for a bailer at No. 2, Hendershol farm. The well is in the sand showing for a good producer. Their No. 1, same farm, is doing about 40 barrels a day. On the Hays farm, ad-joining the Hendershot, the same parties are down 800 feet, and are drilling two more on the

down 800 feet, and are drilling two more on the Carles Green.

Smith, Allen & Co., on the Hendershot, have started to drill at their No. 2. The Orion Oil Company, on the Daney farm, and in advance of the Hendershot farm developments, is drilling at 1.200 feet. Still farther in advance, at Archie Forks, Mandeville & Co., on the Butler farm, are down about 1.400 feet, and will start their No. 2. Davis farm, to-morrow or next day. Their No. 1 Davis, drilled several months ago, is producing 38 barrels a day.

Their No. I Davis, drilled several months ago, is producing 38 barrels a day.

Cameron & Co., on the Ward farm, have reached a depth of 1,000 feet. Wheeling parties are starting a well on the Peter Hearld farm. Kenyon & Bly. on the Brade farm, adjoining the Davis, are building a rig. Dye & Rose are building a rig on the Pryor farm. Bainsdall & Co. bave recently made some purchases in the Newbort field.

Newport field. The Extensive Coraopolis Field. CORAOPOLIS — Developments in the Cora-opolis field for the past 30 days have conclu-sively shown that this field not only possesses wonderful staying qualities, but embraces a

wonderful staying qualities, but embraces a larger acreage than many of the best operators ever supposed existed. During the month of February there were completed 12 good producers, ranging from 10 barrels to 90 barrels, and in the aggregate about 55 barrels of new production. There are 17 or 18 wells drilling and 6 or 8 rigs up and building.

When good weather and roads prevail a large amount of new work will be started in the Coraopolis field, and it will not be surprising to see, six months hence, quite a large daily production. Among these who contemplate operating on an extensive scale are the Forest Oil Company, Black & Emerson and W. T. Mellon.

Ion.

To-night Mellon's No. 8 Kerr is in the sand, with 1,000 feet of oil in the hole. This well is 1,500 feet west of Kerr No. 6.

Continued Interest at Wildwood. WILDWOOD.-While there has been no new developments on the southwest line since the Alston well came in, yet there is no diminution in the interest in wells nearing the sand. Finnegan & Downing's Wallace heirs' farm well. No. 3, is drilling in the stray sand, and Dibert & Co., on the Semples lot, are from 10 to 12 feet in the sand, with a slight improvement in production since our last report. Dwyer & Co. are looking for the sand some time this week in their well on the Kyle farm, and the Roth Oil Company are still fishing for a set of jars at No. 5 Kutzer farm.

Oil Company are suit inshing for a set of jars at No. 5 Kutzer farm.

No change is to be noted at the Ireland & Hughes well on the Bryant, or the McDonald venture at Eberhart station. Greenlee & Forst's Peeble's heirs' well is doing 35 barrels an hour to-night. It is a noteworthy fact that the production of this well has been kept up by almost constant agitation.

almost constant agitation Bridgeville Coming to the Front -BRIDGEVILLE-The Bridgeville field, while yet in an embryonic state, is gradually forcing itself into prominence. Graham & Robbins' No. 2, Alexander farm, which was struck in the Gordon sand some time ago and rated as a 100-

barreler, is still holding out well. The hole is being tubed to-day and wil be set to pumping as soon as possible. This firm's No. 1 is making 15 barrels a day. No. 1 Donaldson is good for 30 barrels a day, and No. 2, same farm, has a production of 25 barrels in 24 hours. Harper No. 1 is doing five barrels a day. Production of 25 barrels and 25 nours. Harper No. I is doing five barrels a day. Unknown persons are building a rig on the Webster Morgan farm, while the owners are fishing for a string of tools on the Patterson farm in the fourth sand. The Harriett farm well is shut down at present on account of a disabled engine, but the drill will soon be started again. The well is down 2,000 feet. The Hockman well is doing ten barrels.

The Status Quo at McCurdy. McCURDY-There is no peculiar change in the aspects of hostilities at McCurdy. Everything is quiet on the Potomac. There is also but little innovation in the field situation from THE DISPATCH'S last report. The Kanawha Oil Company's Rutledge No. 1 is ten feet in the sand and making .30 barrels a day. The Church lot well is doing 650 barrels; Palmer No. 1, 550 barrels; Palmer No. 2, 600 barrels; Parsonage lots, 280 barrels, and the old McCurdy, 320 barrels and the old McCurdy, 320 barrels and the old McCurdy.

rels a day. An Interesting Venture in the Sand. ENLO STATION-West of Enlo station, in the Stewart farm district, Mechling & Co. have a well in the sand to hight, on the Jeffries farm, but at this writing its caliber cannot be esti-mated. The venture, however, is looked upon as of some importance, and if good will appar-ently open a little more territory in this neck of the woods. In this locality two producers are each averaging 75 barrels a day,

Wesley Webber Gets a Duster GLADE MILLS-The irrepressible Wesle

EISNER & MENDELSON CO. Sole Agents, 6 Barclay Street, New York. Webber did not show his usual good luck on the Kruikshank farm in Butler county. Mr. Webber was hunting for big oil in the third sand, but, unfortunately, scored a duster. Some two miles northeast of Valencia un-known persons are starting an experimental well which is regarded as a very important test,

COPPERS WITHOUT COINS.

The Absence of a Quorum Prevents the Approval of the Pay Rolls.

The Allegheny Committees on Parks and Police were to have met last night, but tailed for want of a quorum. The police pay rolls were therefore not approved, and the men of the department will have to do without money for a month unless the committee can be gotten together on Wednesday, which probably can be arranged.

Mayor Wyman asked that it be called for to-morrow night at least, and if the pay rolls are approved he will borrow the amount necessary to pay the men, \$7,400, on his own responsibility.

A BLOW ABOVE THE HEART.

Young Rodgers Killed by a Handle-Bar in

the Ft. Wayne Yards. Alfred Rodgers, of Nimick Station, was killed yesterday afternoon in the Ft. Wayne repair yards at Washington avenue. He was a carpenter, and was working with his brother. They had raised a car on jacks, and when they went to lower, one of the handle-bars struck him above the heart. The blow killed him instantly. He is 20 years old, and was to have been married this week.

Alderman O'Brien Rearrested. Ex-Alderman D. C. O'Brien completed his term at the penitentiary yesterday for fraud, but was rearrested and taken to jail in default of payment of the fine and costs imposed in his case. O'Brien will probably plead insolvency, which will release him-after serving three months in jail.

Yes, on top! That fine line of Ladies' Shoes we shall offer to close

TO-DAY AND TO-MORROW, These Two Days Only,

FOR \$139. No better value in Ladies' Shoes has ever been offered in this city. It's remarkable, marvelous, wonderful-almost incredible. Yet here are the goods-ready for sale at \$1 39 per pair. The line consists of 625 pairs of Ladies' Bright Dongola and Brush Kid Button Shoes, with French Kid button, piece and worked button hole, sole leather counters and smooth innersole, i. e. NO waxed thread or tacks that

LADIES, Remember this sale is for to-day and to so, if you want a pair, you had better call without delay.

hurt the feet; they are made on the "walk-well" last-one of the

most popular lasts in the country, because it insures an easy, comfortable yet perfect and shapely fit. Aside from this fact we guar-

antee these shoes to be solid in every particular, in and out-sole,

IN CONJUNCTION WITH THE ABOVE SALE WE WILL OFFER

1,500 PAIRS OF LADIES RUBBERS AT ONLY I5c.

Yes, and they're no trashy things, either, but

thoroughly good, waterproof shoes.

KAUFMANNS Fifth Ave. and Smithfield St.

PENNSYLVANIA RAILROAD. ON AND AFTER DECEMBER 29th, 1890.

Trains will leave Union Station, Pittsburg.
