M. Tirard Says the French Will Exhibit, if Our Tariff Law Is Modified.

PARIS, March 4 .- Senator Tirard, who, as Minister of Commerce in 1889, was the official head of the Exposition of that year, was asked by a correspondent whether he thought many French exhibitors would make displays at the Chicago World's Fair. Tirard said: "That depends, in my opinion, upon the attitude of America toward tariff legislation. It, after March 4, it becomes evident that the severities of the present tariff may be mollified and our merchants see that it will be to their advantage to go to Chicago in 1893, you may be sure that France will make a grand display there. Reasons of sentiment and trade make this certain, but the tariff obstacle is not to be

The Coming Moscow Exhibition.

At this moment efforts are being made to have France well represented at the coming Moscow Exhibition. But, notwithstanding the very strong political regions why we should like to see our manufacturers flock to this Russian fair, they hold back on account of the strong protective system which pre-valls in Russia. But Chicago is much farther away than Moscow, and American duties are much higher than Russian. So, from what is taught by this Moscow lesson, It is easy to see what will happen in the case of Chicago. But I repeat, if it be explained to our merchants, and it the tariff is to be modified, then Chicago may expect many exhibitors from France. There should be no time lost, however, in making this fact

When asked if the French Government will be represented at Chicago officially, he said: "Certainly. The Chamber of Deputies is sure to appropriate a good sum for this purpose, and when the measure comes up in the Senate it will meet with no opposition.

France Remembers Our Assistance. "Then we will send over a creditable delegation, as we did to Philadelphia in 1876. I may add in a general way that efficial circles always keep in mind the prompt and generous way in which the Washington Government came to our support in 1889, and if there was any danger of this being forgotten, I should be the first to remind our Government of the fact; but I assure you that the most friendly feeling to-ward Chicago exists in high Governmental circles here."

Circles here."

One of M. Tirard's colleagues, Senator Krantz, who was Pirector General of the Paris Exposition of 1878, was asked to-day if he thought Chicago could be ready in 1808. He said in reply: "Why, of course! I was just 18 months including the exposition of 1878. When I was appointed to organize the fair not a single step had been taken, and yet all was ready in time. Now the Americans have lots of money, a multitude of workinen and remarkable push, so that I see no reason why all should not be comidered in due season. You may say to the organizers that I speak from experience and as an engineer when I say this, However, there is no time to lose."

THE QUEEN HOLDS A DRAWING ROOM AT BUCKINGHAM

in Honor of Her Daughter, the Ex-Empres in Brilliancy Since the Far-Famed Jubi lee-Some Distingueshed Guests.

LONDON, March 4.- The "drawing room" held by Queen Victoria to-day at Buckingham Palace was notable for the unusually large and brilliant attendance. This state of affairs undoubtedly was due to the presence at the drawing room of the Empress Frederick, of Germany, and ot a desire upon the part of courtiers and others to be presented at Buckingham Palace upon this occasion as a token of sympathy with the Em-press after her recent unpleasant experience in

Every member of the royal family now in England made it a point to be present, and as the court is out of mourning, the drawing room held to-day may be said to have been one of the most successful ever held in Buckingham Palace. The approaches to the palace were lined with long rows of carriages containing members of the diplomatic corps, army and navy officers, cabinet ministers, all in full dress, together with ladies in the most rich and bewirching of court dresses, fairly blazing with diamonds, bours before the palace gates with diamonds, hours before the palace gates were opened for the passage of equipages. The Prince and Princess of Wales drove in state from Mariborough House down the Mail, past St. James Palace to Buckingham Palace, being greeted with hearty, honest cheers. It was fully 3 o'clock in the afternoon before the was fully 3 o'clock in the afternoon before the Queen, amid a truly royal scene, was, with much ceremony and in almost deadly silence, usuered into the immense drawing room. Immediately behind the Queen came the Prince and Princess of Wales and the other members of the royal family. The members of the diplomatic corps presented to the Queen included the United States Minister, Hon. Robert T. Lincoln; Henry White, First Secretary of the United States Legation, and Mrs. White: R. McCormick, Second Secretary of the United States Legation, and Mrs. McCormick, and Mr. Gwurts, First Secretary of the United States Legation in St. Petersburg. It was renerally acknowledged that the number of debutantes to-day exceeded that in any "drawing room" held since the famous Jubilee reception.

THE RESULT WILL BE CLOSE. A Sensational Deal Between Sir John and the Railrouds

NEWFOUNDLAND TO ACT INDEPENDENT

SPECIAL TELEGRAM TO THE DISPATOR. TORONTO, March 4.—Supporters of the Government say they have no doubt of the result of the election to-morrow, and prediet a majority for Sir John Macdonald all the way from 40 to 75. But it is a remarkable fact that from British Columbia to Prince Edward Island they are working for re-election as they have not worked for many elections in the past, and although they are betting odds of 4 to 5 on the return of the Government, most of the bets are not on majorities, but on the Government being ustained. Sir John Macdonald, they say, never was beaten but once through confeder ation, and then it was because of hard times. They say depression of trade could not again secure the election of the Liberals.

Laurier appears to be quite confident of the result to-morrow, but all the chiefs don't appear to share his sanguine views. For instance, Sir Richard Cartwright said in a speech last evening that from all the signs by which public men are wont to judge, the Liberal party would win the campaign; but even if the sinister forces at the back of the Government, the plunder and unlimited boodle, should inflict a temporary check in the progress of the Liberal policy the Liberals need not be discouraged. Predicting Sir John's End.

It was as sure as the coming of summer, he said, that the national policy and its prophet, Sir John Maedonald, would surely come to a disgraceful end. The prospective Finance Minister of Canada also said that bridging over the chasm between the United States and Canada would do more for the British nation than if they sent thousands of soldiers to fight her battles, and it would be done by free and unrestricted reciprocity with the United States.

Cartwright gives an emphatic denial to the charges in the letter of Hornee Crawthe charges in the letter of Hornee Crawford, of Winnipeg, in reference to the intriguing at Washington, and very little attention is paid to the charge here. The fact is recalled that in 1874 the Liberals converted a Conservative majority of 6 into a Liberal majority of 80. It is felt by many that if Sir John Macdonald had said nothing about reciprocity with the States, when appealing to the people, but had simply put forward his national policy and nigh protection tariff platform, his chances would have been much better, but the Conservatives are building somewhat upon the chances of approaching the new Congress for reciprocity, which they seem to think will offer better chances than the last Congress.

Fearful of To-Day's Result.

Fearful of To-Day's Result. All interested in the national policy and th industries brought into life under the aegis of Sir John Macdonald's policy, are very fearful Sir John Macdonald's policy, are very fearful of the result of to-morrow's election. Being aware of the very narrow majorities by which many of the Conservatives hold their seats, they think that their struggle for continuance of the present policy means life or Jeath for the concerns in which they have invested their capital. A total loss throughout the country of 26 seats would completely wipe out the Ministerial majority.

majority.

Hon. Mr. Mercer declares the Liberals will redeem Il seats in the Province of Quebec at the very least. Some think there is a possibility that they will also capture four in the Maritime Province and two in Manitoba. A further gain of 10 seats in Ontario would give two in the House. It would take but a very small change of opinion in this country since 1887 to effect such a chance in the House. All prognostications, however, are largely guess work and this is more than ever true on the present occasion. present occasion.

The issue is one which may have the effect of causing a revulsion of popular feeling, such as swept the country in 1878 at the birth of the National policy, or which, on the other hand, may fall to have any marked effect at all.

Newfoundland Will Cut Loose, A dispatch from St. Johns, N. F., says that Newfoundland is taking deep interest in the Dominion election. There is intense feeling against the Macdouald-Tupper adminis-tration. The members of the Newfoundland Government confidently assert that a convenion with the United States will be ratified after the Dominion election, whether Canada is included or not, but the bait act will be rigidly enforced during the coming fishing season. The Government here is so incensed against the Macdonald government that they loudly declare they will not permit Canadian vessels to obtain bait on the Newfoundland coast.

foundiand coast.

There is strong sympathy with the Liberal party, and in the case of their return, Newfoundiand will make overture for trade relations with the United States and the Dominion, giving free access for bait.

The Mail (Independent) says: "There is a wide difference between the election forecasts of the two parties. The Liberals expect a majority of not less than 17: the Conservatives look for an increase of their late majority to not less than 57. A Liberal majority of 17 would mean the loss by the Government of 33 seats. oundland coast.

A Sensational Deal Arranged. A dispatch from Montreal says: The sensational disclosure was made last night, from an unquestionable source, that the Canadian Pacific, taking advantage of the predicamen in which Sir John Macdonald finds himself placed by the uncertainty of the outcome of to-morrow's elections, has forced an "amicable" adjustment of the differences existing beadjustment of the differences existing between the railway and the Government.

The Government, it is said, asis the assistance of the railroad company in the forthcoming elections; will abandon the \$1,000,000 claim on the North Shore Railway; will continue permanently the Government guarantee on Canadian Pacific Railway stock which expires in 1893, and will settle the company's claim for \$5,000,000 under arbitration in connection with the Kamloop's or "Onderdonk" section of the Canadian Pacific Railway in British Columbia. A FARMERS' VICTORY

IN THE OHIO LEGISLATURE OVER THE MANUFACTURERS.

An Important Amendment to the Pending Tax Bill Adopted-A Bill to Compel Electric Light Companies to Put Their Wires Underground.

INPECIAL TELEGRAM TO THE DISPATOR. COLUMBUS, O., March 4.- The Senate spent the greater part of the day in a discussion of the tax bill, which has claimed so much attention since the beginning of the session, developing into a fight between the Farmers' Alliance people and the of the State. The most important amendment to the original bill, and the one about which all the controversy has been had, was passed by the Senate, and after one or two more minor amendments are agreed

to the bill will be place upon its passage.

The farmers won a victory in the action of to-day, as it was agreed that the manufacturers shall list and pay tax upon all raw and fluished material at the time the assessor makes his annual visit. The amendment, as it now stands, requires that manufacturers shall list all raw and finished material of any kind at their true value in money, whether it is purchased, on hand or in store at other points. Eogines, machinery, including the tools, are also required to be listed. The farmers claimed this was necessary in order to put the manufacturers on an equal footing with the farmers and with the manufacturers of Indiana, Michigan and other States. As an argument, it was urged as a special instance that Cincumati pays no tax on \$204,000,000 of property, which should be taxed as raw material under this bill. Auditor Hagerty, of Hamilton county, however, claims Cincinnati pays \$9,000,000 for manufacturing processes. The bill will be up for passage next Wednesday.

1. J. Miller, of Cincinnati, to-day won a vietory over the Consolidated Street Hailroad Company, of that city, in securing the passage of a bill which permits him to establish an independent route in that city.

The House Committee on Municipal Affairs has agreed to recommend the passage of a bill requiring all electric light companies of cities of the first and second class to place their wires underground. The House adopted a joint resolution authorizing the Governor to appoint four Senators and six Representatives, equally divided politically, as delegates to the Commercial Congress, called to meet at Kansas City April lö. urers shall list and pay tax upon all raw

PEACEFUL END OF THE STATE BOARD OF CHARITIES ROW.

James B. Scott and Mr. Barton Explai Things in Defending the Board-M: Wherry Expresses His Deep Sympathy and All Hands Embrace

(FROM A STAFF CORRESPONDENT.) HARRISBURG, March 4.-The State Board of Charities had its innings before the House Ways and Means Committee to day, and came out considerably on top. The charges relative to the investigation of the Philadelphia Blind Asylum, made by Mr. Wherry in the debate upon his resolution last week, were taken up by Mr. James B. Scott, of Pittsburg, and Mr. Barton, of Philadelphia.

Mr. Scott denied that there had been serious division in the board as to their re-port. Each member of the board had been requested to prepare a report embodying his own views upon the matter. This has been done, and from these a general report had

done, and from these a general report had been framed. There had been, of course, some differences of opinion, but none were vital, and all had agreed upon the general report. Neither had the publication of this report been purposely delayed. It had been in the hands of the State Printer for two months, but a press of work prevented its being laid before the Legislature.

Barton explained the action of the board in all its transactions, showing that it had worked in strict accordance with law and without sufficient funds for traveling expenses or clerk hire. Relative to the charges made by the authorities of the Danville Hospital, published in The DISPATCH last week, he showed from their own letters that the board had only followed the plain requirements of the law, and that the charges were utterly groundless.

At the conclusion of the discussion, Mr. Wherry said that no word of his could be construed into a criticism of, or reflection upon the board. He had the highest respect for is members, and appreciation of their labors. He was in perfect sympathy with their ideas, and would be glad to co-operate with them. So the lon and the lamb laid down together and after all the fuss, everything was serene. all the fuss, everything was serene.

By Steel, Allegheny, making women eligible as notaries public. (Similar to a bill introduced in the House by Mr. Graham.)

By Penrose, Philadelphia, appropriating \$3,000 in addition to the sum here of ore appropriated for the compilation of the provincial laws of the State.

CARE OF THE INSANE.

Dr. Morton Argues in Favor of an Asylus

for Chronic Cases. PROM A STAFF CORRESPONDENT.1 HARRISRURG, March 4-Dr Thomas G. Morton, Chairman of the Committee on Lunacy of the State Board of Charities, made an argu of the House to-day in favor of an asylum for the chronic insane. There are now over 1,300 patients in the five State hospitals in excess of the capacity of these institutions, and the enormous sum of \$1,300,000 is asked to enlarge that to increase the size of the hospitals is but to increase the evil. The chronic insane should

to increase the evil. The chronic insane should be placed in an asylum for them alone, and the present hospitals be used for those whose malady can be relieved or cured.

There are now 4.81 chronic insane in the hospitals, 3.720 of whom do not require or receive medical treatment. For these an asylum should be established with a capacity for at least 2,000, it being thought that the rest could be cared for in such court, almost the Start for in such county almshouses as the State might select. Sufficient land should be bought, and workshops fitted up at this asylum, w turnish employment to these patients. The asylum or department for the criminal in-ane as it is not right that respectable and reflued people, suffering from menial disorders, should be compelled to associate with criminals.

McPHERSON, KAN., March 4.- The myster surrounding the shooting of C. A. Heggelund, President of the Second National Bank, was partially cleared away to-day. Mr. Heggelund was shot in the breas: Monday last, since which time he has been in an unconscious condition and unable to unconscious condition and unable to make any statement. Soon after he was sho; the bank of which he was president closed its doors and suspended payment. Although the bank was in a solvent condition it was supposed the failure was a bad one, and that Mr. Heggelund had for that reason shot himself in an attempt to commit suichte. Mr. Heggelund regained consciousness to-day for the first time since Monday, and dictated the following statement, which he signed with his wife and statement, which he signed, with his wife a physician as witnesses:
"Sunday evening I went on the II P. M. Rock Island train as far as Harrington. I was on my way to Kansas City. I went into the lunch room at Harrington and when I came out my train had gone. I came on the Rock Island passenger train Monday morning between 5 and 6. I started immediately for home. I came up Katsas avenue, passing the rear of Charles Wheeler's and Hubbell & Baker's stores. There someone placed a revolver at my breast and shot. I could not tell who it was. It was too dark.

THE MAGNATES A LITTLE BIT SHY.

Weeks, Owing to Bad Weather. GENERAL SPORTING NEWS OF THE DAY

MPECIAL TELEGRAM TO THE DISPATCH.: NEW YORK, March 4.—The advisability of placing a club in Cincinnati to oppose the Association club there was the subject under discussion when the National League delegates adjourned at midnight, and it was taken up as soon as the delegates got together to-day. Nothing else was considered during the entire day. The League was perfectly willing to go ahead and place a club in Cincinnati, but when the delegates learned the exact status of affairs the ma-

ority were not so anxious. They found that John T. Brush was as grasping as ever, and a tough nut to deal with on financial problems. Brush received \$67,000 for taking his Indianapolis club out of the National League. In the fight against the Players' League all the clubs lost money, but Brush sat viewing the situation with smiling austerity, safe in the knowledge that he couldn't lose anyway. After the fight was ended Brush got the Cincinnati franchise. It was thought that he would manage matters with Al Johnson and the other stockholders of the Cincinnati club, but this was not done. Now Brush wants the League to put up the money to establish the club. Whether he wants the profits or will let the League have them has ot been said. To put a club in Cincinnati to fight the As-

ciation club will cost at least \$30,000. The

New York club opposed the outlay of any money by the League, thinking that Brush, having already got a good thing, should see to the outlaying himself. The Brooklyn club also set its foot down on the scheme. So did the Boston and Fhila deliphia clubs, composing all the Eastern circuit. The Western clubs were Boston and Phila delphia clubs, composing all the Eastern circuit. The Western clubs were in favor of it. Finally a committee was appointed, composed of Reach, of Philadelphia; Robinson, of Cieveland, and O'Neill, of Pittsburg, to consider the matter and report.

In the meantime Messra. Thurman and Rogers, of the National Board, took possession of Parlor F and reviewed the International League delegation, who had been appointed to request a hearing on securing protection for their players under the national agreement. The committee presented the claim that having made application to Secretary Nick Young on February 18 for protection, they should receive protection from that date. The National Board recognized the claim as a just one, and they received protection to date from February 13, the date of application. The National Board has adopted two new forms of contracts. These contracts will go into effect on March 15, and will be used by all clubs that are members of the national agreement. In the first form of contract provision is made for a seven-months season, with a renewal clause for one or more successive seasons. The second form is more comprehensive, and provides for a term of years without any renewal clause. The League adjourned at 11:15 for the night. They announced that the Cincinnati people had been authorized to go shead and perfect the organization or their club and they would be protected. They were engaged in the discussion of the gate recepts division when they adjourned to to-morrow morning.

Pitcher Baldwin Smartly Does His Work and Is Coming Home. Manager Haulon, of the local club, received rord from Mark Baldwin yesterday that the latter was on his way home, quite free from the clutches of Von der Ahe and the St. Louis onstables. As stated in yesterday's DISPATCE constables. Asstated in yesterday's DISPATCH, Baldwin signed O'Connor for the Pittsburg club, but at a salary much less than the telegraph reports state. Speaking on this question yesterday, Mr. Hanlon said:
"O'Connor's first demand was \$2,850 and \$1,000 advance money. We refused this, and he finally signed at a much less figure. These stories about \$4,000 salaries are all false and misleading. We cannot pay any such salaries. Broweling was never offered \$4,000 by us. The figure we agreed to pay him was more than \$1,000 less than \$4,000. These false reports cause many players to be discontented, and the ridiculous guessing about salaries ought to be stopped."

SPECIAL TELEGUAN TO THE DISPATCH CAMBRIDGE, MASS., March 4.—Represent: ves of the Harvard and Yale boat clubs met the representatives of the New London Board of Trade at the Crocker Hon e, New London of Trade at the Crocker Hou e, New London, yesterday and drew up a set of stipulations under which these colleges agree to row on the Thames course for five years more.

Much dissatisfaction has arisen over the unfair advantage taken by the New Londoners in the matter of hotel rates and the exhorbitant prices demanded for seats on the observation train, as also minor acts of amoyance. New London is still eager to gain the profits from the races and will in all probability agree to the stipulations which include that two-thirds of the observation train will be controlled by the two colleges, who shall have the power of regulating the price of tickets for the same.

DRY ITCHING SCALES THAT CRACKED

AND POPPED OPEN. LINDLEY, STEUBEN Co., N. Y., April 11, 1890. FOSTER, MILBURN & Co., Buffalo, N. Y. GENTLEMEN:-When about ten or twelve years

old I was troubled with cracks across the palm of my left hand, and when they healed the trouble broke out on my head, and every winter it would come out as a sort of tetter and make scales all over my head. I have not been free from it a single winter since, but it was worse last winter after I had the grippe, for then it came out in spots all over my body. I had a doctor examine me, and he told me

that there was no cure for me. I got worse and Scales would form over the sores and then dry out until they would crack and pop open, showing a watery matter. My skin was all like a dry wrapper. It felt as though it had dried on me. The scales were so bad that they would collect in the bed and have to be shaken out. It was about this time that I commenced using B. B. B. I was so bad that I was ashamed to take my hat off before a neighbor. I had used five bottles of another medicine without noticing any effect; but when I commenced to take B. B. B. the sores came out thicker than before, and they burned like fire; they were immense blotches of fire that would burn so I could not sleep. The way they burned and itched can not be told, and I hope no one else may ever know from experience. The only relief I could get was from washing the sores with some B. B. B.

I stuck to the medicine and was on the fourth bottle before I could see that I was really better, although I knew that it was better to get such rottenness out of my blood than to have it stay there. I did say once that I wished I had never commenced taking B. B. S., but my wife encouraged me, and to-day I thank her for the advice, for I am in good health now, and I don't believe I ever would have been with my blood in such a condition as it was. My scalp now is clean and clear of all scales and tetter, and on my body there are only small spots to show where the sores were, and these spots are free from

scales. I do not doubt but that the cure will be perfect. I am now on the sixth bottle and will take more until every spot is gone. I firmly believe that Burdock Blood Bitters will cure the worst disorders of the blood, for such certainly was mine.

The Cold Wave Still Remains in Complete Control of Things. PREPARED FOR THE DISPATCH. The storm vesterday had its center in Canada, just north of the lower lakes, traveling almost due north, with a slight increase of energy. The winds had diminished on the Middle Atlantic coast and shifted from northeast to northwest, but from Block Island north to Nova Scotia they continued high and blew on shore. A dense fog overhung the coast. The cold wave held control of all the Northwest States, keeping the temperature of Montana, the Dakotas and Minnesota between 20 and \$2 degrees below zero.
