IN BEHALF OF THE HEBREWS,

A Big Memorial From Chicago Handed

President Harrison. WASHINGTON, March &-William T. Blackstone, of Chicago, to-day visited the President, company with Secretary Blaine, and presented a memorial in behalf of the Russian liebrews. He explained that the memorial was the result of a conference of Christians and Hebrews recently held in Chicago and called especial attention to the fact that it did not antagonize Russia, but only sought in a peaceable way to give the Hebrews control of peaceable way to give the Hebrews control of their homes in Palestine. He pointed out many evidences of the possibility of great development of that country, both agriculturally and commercially, under an energetic government, and said that the railroad now building from Joppa to Jerusalem, if extended to Damascus. I admor and down the Euphrates, cannot fail to become an international highway. He said that the poverty of the Turkish covernment gives emphasis to the proposed indemnity by funding a portion of the Turkish national debt through Hebrew capitalists, and that only peaceable diplomatic negotiations are asked for to the end that all private ownership of land and property be carefully respected and protected.

In closing, he said that being on such friendly terms with Rassia, and having no complications in the Orient, it is most fitting and hopeful that our Government should initiate the friendly movement, to give these

Simple Services Over the Remains at the Home in Washington.

WASHINGTON, March 5 .- Funeral services over the remains of Senator Hearst, who died Saturday night, were held at his late residence on New Hampshire avenue at noon to-day, and were of a brief and simple character. The Rev. Dr. Douglass, of St. John's Church, read the Epincopal services for the dead, after which he

recited the hymn, "Jesus, Lover of My Soul."
At the conclusion of the services many present filed through the room and took a last look at the deceased California Senator. The castet will be removed from the residence Saturday evening and will leave here on a special train over the Pennsylvania road at 7:30 o'clock for San Francisco.

SHIPMENTS OF GOLD

The New Sherman Law That Is Intended to Deter Them. WASHINGTON, March 5.-The Treasury De partment has already been called upon to act under the Sherman amendment to the legislative, executive and judicial apprepriation bill, authorizing the Secreapprepriation bill, authorizing the Secretary of the Treasury to exercise his discretion in the exchange of gold bars for gold coin, and also to impose a charge for such exchange. Heretofore the statute regulating this matter has been construed by the Treasury Department as against the imposition of a charge. Under the new law the policy of the department will be to charge 4 centsa \$100 in value for all gold bars required for shipment, and if this lails to deter gold shipments, the question will then be considered as to the advisability of refusing altogether to exchange gold bars for shipment, thus compelling shippers to use gold

TREATIES WITH INDIANS.

Some Eight Million Acres of Land Secured Through Them.

WASHINGTON, March 5.-The legislation en acted by the past Congress in the ratification of various treaties heretofore concluded between Commissioners on the part of the United States and the various Indian tribes, will result in the opening up of over 8,000,000 acres of the public land to settlement. The aggregate cost to the Government of this land aggregate cost to the Government of this land will be about \$9,000,000. About \$5,000,000 acres of land that will be thus thrown open is situated in the vicinity of Oklahoma, and includes lands occupied by the Sacs and Foxes, the lowar, the Pottawatomies, the Cheyennes and Arapahoes. The remaining \$3,000,000 is made up of lands heretofore occupied by the Sisseton and Wahpeton Indians in Dakota, the Cœur d'Alene in Idaho, the Crow Indians in Montana and the Sioux Indians on the Fort Berthold reservation in Dakota.

In some of the above cases the Indians have other reservations to which they will go, and in others they will take allotments in severalty of lands on their present reservations and surrender the remainder. render the remainder.

FAMOUS OLD TOMES.

Rare Books Bring Princely Prices at the Brayton Ives Sale.

GUTTENBURG'S OLD LATIN BIBLF.

Formerly Called the Mazarin Bible, Knocked Down at \$14,800.

THE CORRESPONDENCE OF COLUMBUS

NEW YORK, March 5 .- At the American Art Galleries this afternoon began the sale of the superb collection of rare and costly books and manuscripts of Brayton Ives. Every available seat was occupied when the sale opened. Among those present were Mr. Drake, of the Century Magazine; the senior member of the firm of Libbey & Co., of Boston; General McClurg, of Chicago, and J. W. Ellsworth and Rev. Dr. Gunsaulus, also of Chicago.

Mr. Ellsworth, a well-known collector of curios, to-day secured a valuable addition to his collection in the famous Guttenberg Bible, the first book printed with types. The price at which it was finally sold under the hammer was \$7,400 for each of the two volumes, or \$14,800 for the work. It was started at \$1,000 and went up to \$7,000, at which point Dodd, Mead & Co., of New York, dropped out, and Mr. Elisworth's bid of \$7,400 took the prize.

A Famous Bible Described. The book was printed at Mentz by Guttenburg in 1453, and is in Latin gothic type, with the prologue of St. Jerome. There are hundreds of illuminated letters, many of them heightened with gold. It is a two-volume folio, and in the original binding, oak boards covered with stamped calf, ornamented with brass, measuring 113ct 157c on the leaf. Without the tille pages of signatures there are fell. There are out the title pages or signatures, there are 641 leaves, printed in double column, 42 lines to a full column. The initials and rubrics are in

full column. The initials and rubrics are in manuscript throughout.

It was formerly known as the Mazarin Bible, from the fact that the earliest published description of it was based on a copy discovered by De Bure in the Mazarin Library. The only other copy of this Bible is in the Lenox library, and is of a much later date.

John Eliot's translation of the Holy Bible into the Indian language was also sold and excited great interest. The Mitchells, of this city, were the purchasers. It is bound in rich Harleran style, and enclosed in a Iolandor case of the blue English morocco.

Big Prices for Books. This is one of the copies having the dedica-tion to King Charles, of which 20 copies were printed. It is uncut, and brought \$1,650. Dodd, Mead & Co. bid off at \$1,700 a copy of : book believed to be the fourth book printed with a date. The book is Balbas (Johannes) de James. It was the first lexicon ever printed. The work is attributed to Guttenberg. The same firm also bid off a copy of Jacques Cartier's history of his voyages to the Northwest, for \$1,000, dated 1550 and translated into English by John Florio. This copy is the only one ever offered in this country, and but two others are known here. thers are known here. To the same firm for \$4,300 also went a letter of Columbus in Spanish, and Louis de Saint Angel, bound in silk. Saint Angel was the friend who secured the patropage of Queen Angel, bound in silk. Saint Angel was the friend who secured the patronage of Queen Isabella for the discoverer. Twenty-five years ago a copy in Spanish was found in the Ambrosia Library in Milan, and until then it was thought no copy existed. The present letter is supposed to be the one from which the Ambrockian was covided.

WHERE TIME WAS MONEY.

NO APPROPRIATION FOR THE NEW PHILADELPHIA MINT.

The Bill Passed Fails to Provide for the Necessary Cash-Th : Provision Left Out to Hasten the Passage of the Measure-Too Late to Remedy.

SPECIAL TRLEGRAM TO THE DISPATCH. PHILADELPHIA, March 5 .- The Philadelphia Mint bill, after all the efforts that have been exerted in its behalf, and the deals that have been made is almost as far away from the starting post as it was at the ning of the session. It has just been discovered that the Secretary of the Treasury is instructed by the bill to perform certain actions, which will require an expenditure, and for which no appropriation has been made. The bill passed on Monday last, and signed by the President on Tuesday, does not contain any

appropriation.

According to the bill, while the Secretary of the Treasury is directed to perform certain duties, he is not empowered to expend any money for the reason that no money was appropriated by this Congress. In other words the bill is not an appropriation act, and as such it is absolutely useless at this time or until Congress appropriates the sum of \$2,000,000 with which to carry out the provision of the

with which to carry out the provision of the bill.

The bill was drawn up by Mr. Dapray, the law clerk in the office of the Supervising Architect, and the omission of an appropriation is not the result of an oversight. The original bill drawn by Mr. Dapray contained the appropriating clause, but because of the question of jurisdiction between the Committee on Public Buildings and Grounds and the Committee on Appropriations it was deemed advisable to refrain from making any distinct appropriation, and thus save the delay in the consideration of the bill. At that time it was thought that there would be sufficient time allowed to incorporate the amount in the sundry civil bill, but by the time the President had signed the measure the sundry civil bill was in the hands of the Conference Committee, and nothing could be done in this direction.

EXTENSIVE ELECTRIC SUITS.

They Involve Every Company Using the

Ames Street Car Patents. St. Louis, March 5.-The Adams Electric Company, which is incorporated under the laws of Illinois with a capital of \$5,000,000, has perfected its organization. This company proposes to enter suit against all street railroad companies infringing the Adams patents. The first suit will probably be brought in Beston against the Sprague Company. Eminent coun-sel has been retained, and an attempt will be made to wrest the patents from such powerful corporations as the Thomson-Houston, Verder-poole, Bentley-Knight, Westinghouse, Shore & Westrom. Should the Boston suit be decided in their favor the Adams Company will then obtain writs of lojunction restraining all other com-panies from the use of the patents.

Direct Communication Between Central America and New Orleans Established by the Pacific Mail Company-The World's Fair Will Also Help Matters

PANAMA, March 5.-G. P. Scriven. Special Commissioner of the Colombian World's Fair, delegated to Guatemala, Salvador, Nicaragua and Costa Rica, arrived here on the 20th and sailed hence for his destination the following day. With one exception all the Central American States have ports on the Caribbean Sea, which are capable of being made important commercial centers. The long-felt want of an incentive to this being done is about to be pro-vided by the Pacific Mail Steamship Company, which is placing a special line on, to run along the Central American Caribbean coasts, and to connect with the various railroad termini at New Orleans.

New Orleans.

By this new line of direct communication, the city and adjacent regions of Chicago, which are possibly the largest fruit and coffee consuming center of population in the world, will be brought within five days' distance from Colon, and really much nearer than New York and other Eastern centers, to say nothing of more Northern ports. But this is only a single advantage. The great facilities of transportation that will be afforded two years hence will, in themselves, comprise a very great incentive to that will be alforded two years hence will, in themselves, comprise a very great incentive to the Central American people to seek their for-tunes at the great Pan-American Exposition. Eventually this fair will prove the founda-tion of a volume of reciprocal commerce, the possibilities of which are now scarcely sus-pected by those most interested in its develop-ment.

THE HENNESSEY TRIAL.

The Prosecution's Testimony All In, and the Defense Will Begin. NEW ORLEANS, March 5 .- The State closed the testimony in the Hennessey case this after noon. Several colored boys testified to the con-

noon. Several colored boys testified to the confession of the boy Marchesi, that he had been delegated to watch for Chief Hennessey's approach. Mrs. Peterson, the owner of the Monasterio shanty, testified that Jo Macheca rented the shop from her and gave the assumed name of Peter Johnson. The other residents of the yard identified Macheca as the party who rented the cottage, and as visiting Monasterio several times. The receipt to Peter Johnson was found in Monasterio's pocket after his arrest. Several witnesses testified to expressions by Macheca at various times that the fruit dealers would hold Hennessey responsible if the Provenzanos escaped through his assistance.

There was some other testimony of expressions of ill will against Chief Hennessey by Matrongo and Mecheca on account of the Provenzano case. The State then closed. The defense expects to occupy two days with testimony, endeavoring to prove an alibi and characters, and two or three days will be consumed in the argument.

ALL PLANS COMPLETE

League Magnates Will Put a Club in Cincinnati and Back It.

A CONTINGENCY FUND ARRANGED.

The Schedule of Games Showing How Many Miles Each Club Will Travel.

GENERAL SPORTING NEWS OF THE DAY

STRUCKLE TELEGRAM TO THE DISPLECE! NEW YORK, Murch 5.-The National League magnates completed all their plans to-day; adjourned their meeting subject to the call of the chairman, and most of them left for home. There was more harmony among the magnates to-day than there was yesterday, chiefly because the League has resolved to fight any effort there may be made to plant an opposition team in Cincinnati. This means that the dispute will once more be relegated to the courts.

One of the interesting features of to-day's proceedings was the resolve to establish a to \$5,000 a side. contingency fund, or in other words, a fighting fund. This will be done in a very satisfactory way. The money will be collected from the receipts. It was decided that each home team shall take 50 per cent of the receipts, the visiting club 40 per cent and 10 per cent will go to the fund in question. This will on make a very large fund. The work of getting together a good team for

Cincinnati has been left to Messrs. Abell, O'Neill and Robinson. Of course, Brush will also have a hand in it, but the three first asso have a hand in it, but the three hists amed will directly represent the League. It is likely that they will try and make arrangements to effect a compromise with Al. Johnson: in fact, that is quite understood here this evening, although none of the magnates would admit it. It is well known that if Johnson can be "fixed" the Association will be accordingly. "fixed" the Association will be completely knocked out. This fact will induce the League

knocked out. This fact will induce the League to treat with him.

There were several Association magnates about the hotel to-day and they all tried to look happy, but they failed to prove that their prospects were encouraging. They complained strongly about the League taking their players.

The League magnates are certain that everything will go along all right with them. Their surplus players will be handed over to the International League. President O'Neill, of Pittsburg, is sure that he will have a pennant winning team. There is still some kicking about the alleged "contract jumping," but in argument Messrs. O'Neill and Robison, of Cleveland, have the best of it.

Another Famons Dog Coming. Everything is going along beautifully for the dog show next week. The entries are now far beyond what was anticipated. One very interesting feature of the show will be the entry of the famous Italian greyhound, Cupid, owned by Miss Van Buren, of New York. This dog has never been exhibited entside of New York For five years in succession it has won first prize in its class in the New York show, and is valued at \$4,000. The dog is now in charge of W. L. Washington, of this city.

Messrs. E. E. Shaner and Crow have issued their programme for next week's live bird shoot at Exposition Park. The shoot is prosnoot at Experience Park. The shoot is promoted chieff as a feature of enjertainment to the visitors to the dog show. The shoot will last three days, and the programme each day will consist of three events, viz., two 5-bird shoots and a 10-bird shoot. The entrance for the two first-named events will be \$5 each, and \$10 for the 19-bird contest.

"The Ruthless Sex" Is a term applied to women by a Boston writer. It is a slander, of course, but it is an unfortunate fact that the women are the vic-

tims of nervous disorders and troubles which "The Brutal Sex"-

the Bostonese term for the men-do not understand or appreciate. For these troubles and many others that are peculiar to women Swift's Specific is the most potent remedy that has yet been discovered. SSS It restores tone and strength to all the organs, builds up the system, imparts luster to the eyes, clearness to the complexion, and urges into bloom the roses of health. Mrs. Alexander Vaughn, wife of a prominent merchant of Prescott, Arkansas, writes: "I owe the preservation of my life under Providence, to SSS. For four years my health was wretched, ruined one constant pain, misery and torture. Two doctors treated me faithfully these four years, but did me no good-In 1887 I began taking S.S.S. Five bottles of this truly won-derful medicine worked S.S.S. the miracle of my complete and permanent recovery." Treatise on Blood and Skin Diseases Mailed Free.
