OFFICE OF PITTSBURG DISPATCH, THURSDAY, March 5. 1222 **Country Produce-Jobbing Prices.** Cold weather proved adverse to trade in this 238183101722481081849179337017149 line. There is a great scarcity of creamery butter in this market, and prices have advanced about 5c per pound this week. Our quotations are advanced to 38c for fancy Eigin creamery, and at the advance there is little to be had. The cold weather of the past few days has checked the downward movement of eggs. Markets are steady at quotations. Poultry is scarce and very firm. All choice grades of cheese are strong at prices quoted. With the exception of choice potatoes, all vegetables are slow and markets favor the buyer.

Everybody expected that Pardridge, the largest short in the market, furnaces in Northern New York are beginning to teel favorably the absence of compewould be a beavy haver as soon as the board tition from the Mahoning and Shenango Valopened and they were not disappointed. His brokers were buying right and left at the outleys; and, so far as foundry grades are conset. Before the session was a half hour old it was the popular impression that he had bought in all of his line, which was estimated at fully 2,500,000 bushels. He succeeded in getting it cerned, the offerings on the part of the Southern furnaces are comparatively light. The proportion of these grades made by the majority of the Southern furnaces has been all within a range of Ic. The reason of this surprisingly small for some time past, and was that many of the longs who have been since this market takes very little forge iron sweating on a loss for many weeks were perfeetly willing to sell. Mitchell and Hutchinson bought at the outset and sold on the rise that followed. Driver let go of 400,000 bushels. Linu of 300,000 bushels, and Bloom and Cudahy they have not done much lately. The ex-treme range on Northern brands is \$17@18 for No. 1, \$16 00@16 50 for No. 2 and \$14@15 for Linu of adding bushels, and bloom and Cudany also solid a great deal of wheat. In addition to this there was heavy selling by the large com-mission firms on foreign and domestic orders. sold freely and the houses with English ac-counts were sellers. Despite the free selling by foreigners the cables were almost unanimously buillish. This was so to such an extent that, taken in con-nection with the selling orders, the trade con-cluded that it was being "worked." The domestic news was certainly bearish. The re-ceipts in bushels at the 11 leading points, Kan-sas City not included, were 273,000 bushels against shipments of 122,000 bushels. May wheat started out at \$1, sold for a moment at 299<sub>4</sub>c, and then bulged speedily to \$1 009<sub>4</sub>. At \$1 009<sub>4</sub> and higher the offerings of wheat were enormous. The market ultimately felt their effects and broke down to \$99<sub>4</sub>. It ralled to \$1 009<sub>6</sub>, closing cables announcing the Liver-pool market was excited and 3d higher. At the latter price the offerings were again large, and the market got down to \$99<sub>4</sub>. There was a wild look in corn at the outset. As we under-stand the immediate cause of the disagree-mont, it was, that on Saturday last, when the papers were ready for final signature, that representatives of the Scranton company asked that the understanding be reduced to writing and that their company be given two representatives on the board of the new consolidated company named by them. The committee of the Lackawanna Company claimed that they could not commit their stock-holders to a point of that kind, since it was not a part of the original agreement, and deprived

There was a wild look in corn at the outset, The excitement prevailing in wheat, the light-ness of the local receipts and the knowledge that there would be little selling on the bulge, caused many bulls to exert their influence in holsting values. May started at 58%c, sold to 58%c, broke to 58%c, when Baxter tried to sell a little, and then improved to 58%c. It held around 58%c for some time. Oats sold to 50c again for May, but eased off to 48%c. a part of the original agreement, and deprived a part of the original spectroment, and depresent in stockholders of rights. The committee ex-pressed willingness to accept any two stockhold-ers of the Scranton company upon whom both parties might spree. The rep-resentatives of the Scranton comny, however, held that as minority holders,

pany, however, held that as minority holders, they must be allowed to name two directors, and that for their protection in that right the clause must be made a part of the agreement. Such was the last and comparatively trivial cause of the suspension of the negotiations, which confessedly were to lead to a result bene-ficial to both concerns, and which unquestion-ably would have been of great importance to the whole Eastern rail trade. the Only Interesting Features. The city banks did an average amount of business yesterday. There was a good supply of money. Rates were unchanged, 6@7 per cent being the extremes. The week's checking so far has been up to the best level of the year, in spite of the worst the best level of the year, in spite of the worst weather of the season. Depositing was liberal, as usual, Currency was rather short, but no particular complaint was made. Clearing House exchanges were \$2,313,047 67, and bai-ances \$424,368 68. R. J. Stoney, Jr., banker and broker, has made a comparison of the condition of Pitts-burg national banks under the present call and that of December, 1890. THE NEWS AND GOSSIP OF THE CITY There was considerable vim in the real estate market yesterday. Several deals were brought to a head. Two of them for \$20,-000 and \$14,000 respectively, were not quite ready to report. C. Beringer & Son sold for Mrs. E. J. Nisbett to Julius Richter, a tarm of 101 acres on the West Penn Railroad, near Tarentum, for \$5,000, being at the rate of \$50 an acre. Mr. Beringer said: "There is a better demand for farms than for

two or three years past, but no material change in values. There are quite a num-ber in the market, and offers to exchange for city property are frequently made. These offers are seldom accepted, however, as few city people care to engage in agriculture."

### Hog and Hominy.

The total sales of stocks at New York yester-day were 125,308 shares, including Atchlson, 6.782; Lackawanoa, 14,928; Lake Shore, 3.730; Louisville and Nashville, 8,475; Northern Pa-cific, 3,660; do preferred, 10,250; St. Paul, 12,770. One of the pleasing prospects of the year is the probability that food supplies will be cheaper. A gentleman who has studied up this subject pretty thoroughly said yesterday: "The cost of living has been enormous this winter. Everything has been sky high, almost beyond the reach of people of small means. This was due to light crops last year. Fruits and vegetables were almost a total failure in the coun

tables were almost a total failure in the coun-try tributary to Pittsburg. It is too early to say much about the crops, but indications are favorable. The wheat plant is strong and healthy. Heports from Chicago and other Western points show a full sunply of beef cat-tle and hogs. Meat should be cheaper. With plenty of other things less of it will be needed. I think the cold snap through which we are passing is the salvation of the fruit and heavy crops. It is certain that sugar will be cheaper, and this will reduce the cost of canned goods. Without an unexpected backset of some kind, I think people will have money to spend this year for something besides food."

is the large number of workingmen who have purchased or are inquiring for cheap building lots. This fact being brought to the notice of Mr. A. B. Kennedy, of J. B. Larkin & Co. yesterday he remarked: "This feature of the real estate market is not new to me. I have

Ship-ments for the week under review took another terrible tumble, and it seemed for awhile that even Rainey's trade was going to collapse. The indications are that shipments may be sugmented somewhat next week if Operator Dulinger, of Pennwille, succeeds in staring his plant, and for which the has announced his de-termination. The coke which is now shipped from the region is principally consigned to Youngstown and Cleveland, where W. J. Rainey's works are incated. The Eastern fur-macemen are in had shape, and some big shutdowns are anticupated if immediate help in the way of fuel is not rendered them. The reported reduction on freight rates this week was gratifyingly received in the region, and, it is believed, will assist materially in the extraction of trade from the rut. The obstinacy of the tailroad firms in not granting these con-cessions earlier is thought to have hastened the shutdown. The lowest shipments per day of Operator Rainey since the imauguration of the strike was 40 cars. There are at least 200 active ovens in the region and L5400 idle.

Changes in Share Quotations Few, Small and Lower-Burlington and Lacka-wanna About the Only Sufferers -News From Abroad. NEW YORK, March 5.-The market for stocks today gave every evidence that the efforts to bring about a materially lower range of values in the general list had failed, and that the sellers of yesterday were industriously en-deavoring to get back their short sales. There was a great deal made of the shipment of gold, but in the face of the actual announcement this morning prices refused to yield. The better thelening in the list was very pronounced at the opening and first prices were generally from 1/20 to 1/475-pound steers, \$2 75@5 10; Westerns, \$2 50@4 30. <sup>1</sup>/<sub>6</sub> to <sup>3</sup>/<sub>6</sub> per cent better than last evening's prices. London was a moderate seller at the open-ing, and the disquieting news from abroad in-duced some selling for local account, aided by the effect of the ordering of \$60,000 gold for shipmer / to Europe. The impression made upon a ces was very light, hewever, and Lon-don afterward became a buyer on the report of a satisfactory adjustment of the difficulties abroad. This checked the selling of all sorts, and dulheess, with a firm tone and slight fluctu-ations, followed, many of the active stocks again regaining all the early loss. The publication of the statement of the net earnings of the Burlington for the mouth of January, with its loss of \$341,000, precipitated the attack upon that stock, and it yielded 1 per cent on heavy selling. Upon the cessation of the pressure it railled slightly, and became again dul, whils the remainder of the list, which had sympathized to a limited extent only.

the pressure it railied sightly, and became again duil, while the remainder of the list, which had sympathized to a limited extent only, displayed the same firmness which had marked the morning transactions. The general hist showed no feature through-out the day, and the market finally closed dull but firm at insignificant changes from last evening's prices, though most of them are losses. Even Burlington and Lackawauna, in which the most weakness was noticed, were only fractionally lower. Railroad bonds were dull, and like the share list, unusually featureless to-day, the total day's business of \$857,000 developing nothing of interest beyond the activity in Northern Pacific 5-, which furnished \$12,000 to the total.
