"Hemmed In by the Hostiles"

51% 15 83q

Is one of the headlines that appeared in the newspapers at the be-

ginning of the Indian troubles. The jolly night editor that wrote it had no idea what a wide application his alliterative headline would have. There are hundreds and thousands of people who have never seen the Indians, who may be said to be hemmed in by the hostiles. They are the long-suffering victims of disease-of Blood Poison, Skin Cancer, Rheumåtism, Scrofula, Mercurial and Potash Poisoning, and all the various ills that attack and rack the human system. These are the hostiles. With the chief of them Swift's Specific-S. S. S.-deals as effectually as the police of the plains dealt with Sitting Bull. In fact, S. S. S. is more active than any police could be. It arrests, drives out and destroys all blood poisons and diseases of the blood. It promptly makes victims of the ailments just mentioned, and is a remedy for many others, as hundreds of testimonials show.
