## For the Adverse Result of an Election the Reading Company

## DISCHARGES SEVERAL EMPLOYES.

The Coroners Jury on the Wheeling Tragedy Returns a Verdict.

## MINOR NEWS FROM THE THREE STATES

INPECIAL TELEGRAM TO THE DISPATCH. READING March 9 - About one week ago there was a ripple of excitement among the Reading employes when about 70 of the men at the shops were discharged. That surprise was nothing, however, to that when the men quit work last Saturday evening, and 120 of them were notified their services would no longer be required. Of about 30 fires in the blacksmith shops only four are in operation this morning.

There is a great deal of indignation expressed in the Eleventh ward, where the citizens and discharged employes say this action is the result of the recent Council election, when the Reading was worsted in election, when the Reading was worsted in the ward. There is a movement on foot by some of the discharged men to secure the as-sistance of the men discharged a week ago, and rame sufficient money to onter suit against the company to compel it to refund the money the men have been compelled to pay into the Relier Association. It is also removed on the streets to-day that a number of the men em-ployed in the machine shops will be suspended this week.

## MORE OPERATORS GIVING IN.

Part of the Coke Strikers' Defense Fund Ready for Them.

SPECIAL TELEGRAN TO THE DISPATCE ! SCOTTDALE, March 2.-Robert Hogsett, operator of the Mt. Braddock Coke Works, is the next operator to propose a settlement of the coke strike at his plant. The Scale Com-mittee of the United Mine Workers claim to have received a letter from him containing this offer: He proposes a resumption on the same terms tendered Operator John L. Dillingar, of the Pennsville plant. The Percy Mining Company, who made a settlement with their men Saturday evening, resumed in full this even-ing. The Percy and Pennsville firms are the only two minor companies that have as yet ef-fected a satisfactory agreement with their em-

ployes.

To day Secretary Parker received a telegram from National Secretary McBride, stating that a large part of the defense fund of the order was at their disposal. This evening the Mine Workers Scale Committee are in secret session, dealing with the officers of the coke companies who are desirous of settling the strike. One of the companies in question operates sev-eral hundred ovens, but the committee desire the name withheld.

SPECIAL TELEGRAM TO THE DISPATCH. WHEELING, March 9 .- The Coroner's jury having in charge the inquest on the remains of Dr. George Baird this morning heard the report of the post mortem. One shot had entered behind the right ear and emerged through the left eye, and the other entered near the upper part of the breast a little to the right of the center and emerged under the left shoulder, after severing the great artery leading from the heart.

After listening to this evidence the jury returned a verdict that the deceased came to his death from revolver wounds, the weapon being fired by one George I. Garrison.

ing in the Lennox Lyceum. All the different health foods will be represented by the leading houses in the country. All the available space in the Lyceum will be occupied by exhibits. To be nervous. Starting at the slightest sound, uneasiness by day and fiftui slumber by night, unreasonable apprehensions, edd sensations, constant restlessness—these are among its diabolical symptoms. Dyspepsia is the fountain head. Remove this with Hotelter's Stomach Bitters, and the food is assimilated, the body nourished, the sleep grows trangul, nervousness vamoses. ## YESTERDAY'S COURT NEWS.

More Alleged Cases of Water Wells Being Spolled by Salt and Oll From Gas Wells-A Great Aqueduct Scheme-Notes From the Criminal Court.

It is possible that oil and gas producers will soon begin to regard the decision of the Supreme Court holding them liable for salting or oiling water wells as the opening of a Pandora's box. W. T. Kennedy and others of the borough of Coraopolis have employed At-torneys W. T. Treadway and Young & Trent to bring suit against the Glenfield and Bellevue Natural Gas Company for damages alleged to have been sustained by reason of the drilling of the great gas roarer on the Jolly property in

of the great gas roarer on the Jolly property in that village.

They say that not only did salt water and oil from the well percolate into their water wells, but that they were put to inconvenience and expense by the gas filling the circumambient air, which was rendered unfit for breathing purposes, and further prevented them from making fires in their houses for several days when the weather was very inclement.

Unless means are adopted to shut off the salt water when this county has a few thousand more holes bored into it, it looks as though water works for town and country alike will be needed. It is just possible that such a state of affairs will assist the project of those who urge that floods be prevented and a supply of water be made permanent in the Ohio for navigable purposes by storing the surplus in the Allegheav mountain guiches. If this were done all this section might be supplied with pure spring water by means of a great aqueduct.

The will was believed to be fraudu-lent, but Miss Douglass and Myers had no money to contest it. They went to the plain-tiff, and he agreed for 25 per cent of what might be recovered to pay the expenses of the contest.

contest.

He did so, and conducted the contest and the will was set aside, Miss Douglass and Myers receiving the property. Myers was a minor when the agreement was made, but ratified it when he became of age. He frequently promised to pay, but never did, and the suit is now brought for the amount.

I HAVE no hesitation in recommending Dr. D. Jayne's medicines, having used them in my family for over 30 years, and always found them to act beneficially. They have indeed been a great help in raising my family. I experienced myself the remedial qualities of Dr. Jayne's Expectorant, being at one time troubled with an obstinate cough of long standing. Indeed I had gotten into such a state of health that my physician said nothing short of my taking up a residence during the winter in Cuba would do me any good. The Expectorant, however, first helped and evantually cured me; so that now some years have elapsed, and I have had no return of the bad symptoms. My cough is cured and my lungs are sound and healthy, and I am apparently well and hearty.— Mr. William Davis, Ashland, Kan., April 24, 1889. Kan., April 24, 1889.
