Ribot's Official Letter Accepting the Fair Invitation. THE RAVAGES OF THE CRUEL GRIP. Arrangements for Music at the Dedication Ceremonies.

A VICTORY FOR MRS. POTTER PALMER

CHICAGO, March 9.—The correspondence announcing the first acceptance of the invitation to participate in the Exposition by a foreign Government has been received.

FRANCE FORMALLY ACCEPTS.

PARIS, February 14. "MR. MINISTER—Referring to my letter of the 10th of this month, I have the honor to announce to you that the Government of the Republic has accepted with the greatest pleasure, for France, the invitation which you have transmitted to it in the name of the United States, to take part in the Universal Exposition, which is to be held in Chicago in 1933, in commemoration of the fourth centenary of the discovery of America by Christopher Columbus."

ARRANGING FOR MUSICAL EXERCISES.

Upon invitation of the Committee on Ceremonies, Prof. Tomlins and the officers of the Apollo Club have taken charge of the musical work at the dedication ceremonies in October, 1922. The club is to work with the organization in the United States.

MRS. POTTER PALMER'S VICTORY.

Mrs. Potter Palmer, president of the Board of Lady Managers, is the credit for the favorable action in Congress. She summoned the finance committee of the board to Washington and remained there two weeks, presenting arguments for a more generous appropriation than the Senate had decided to make.

THE COMMISSION MEETS IN APRIL.

President Palmer has announced that the commission will meet in April, in pursuance of its by-laws. The exact date of the meeting is not generally understood, but it is to be held in the latter part of the month.

BETTER THAN EXPECTED.

THE BOWMAN WELL AT WESTVIEW

THE FORERUNNER OF JACK'S RUN HAS RE-RELEASED INTO OBSCURITY—ANOTHER VOLCANIC GUSHER PROBABLY AT SOUTHWEST WILDERNESS—BUT LITTLE IN AN ELIZABETH MYSTERY.

SPECIAL TELEGRAM TO THE DISPATCH.

WEST VIEW, March 9.—West View, the forerunner of Jack's Run, has relapsed into obscurity, and to the trade has become obnoxious. Time was when this beautiful section of Allegheny county bid fair to develop into a prolific producer of iron ore, and the territory, when the excitement ran high, was considered a good thing to invest in.

THE BOWMAN WELL AT WESTVIEW

At a meeting of the board and shoe workers of Boston Sunday evening, delegates present reported much dissatisfaction in the Boot and Shoe Workers' International Union, the cause of the present management, and it was decided to put a Knight Labor organizer in the New England district at once.

WILDWOOD—Wildwood is beginning again to assume its erratic character, and if the evidence of another breaking out, place today on the southwest line is followed up by the volcanic-like eruption so characteristic of gushers in that quarter, the little city of "vive Wildwood" will soon ring forth.

It is reported to-night that McGinnis & Co. opened the first day in No. 1 August Kyle farm, and was flowing on the ground at the rate of from five to seven barrels an hour and another report says the pot was just touched, and it will flow two spurs of probably 10 or 12 barrels. This well is located 1,000 feet directly east of No. 1 Kyle. They gave the well a name, and it is called the "vive Wildwood" well.

NEW ADVERTISEMENTS.

Baindall & Gillespie No. 11, Kress, got in Sunday, and has not started up again to drill. The tools have been taken out of the well, and the well is 10 feet in the sand to-night, with no oil. First & Greenlee commenced drilling to-day in No. 2 and 3. A. S. and Evans, Manderly & Co. will start the drill in morning No. 2. W. C. and W. C. expect the sand in their No. 1 Kress in about a week. The Sand in the Kress is about 10 feet on top of the sand, and is making nine inches an hour to-night. The Christie well on the Nancy Gibson farm, a mile north of Wildwood station, is reported 30 feet in the sand without any oil. Ireland & Hughes tubed their Bryant farm well to-day.

Much Ado About Nothing.

ELIZABETH—A correspondent from Elizabeth writes THE DISPATCH as follows concerning the Sues & Munhall well: "I see some one has succeeded in circulating a cock-and-bull story of the great possibilities of another big oil field near Elizabeth, about 25 miles southwest of Pittsburgh, in Lincoln township, and, as usual, a Pittsburgh morning paper makes a big thing out of nothing. The well in question is owned by Sues & Munhall, and located on the Edmondson farm. From the best information at hand, it is being worked as a mystery. The attempt, however, in this territory, of the strength of a mystified well, and that, too, in territory which has been pretty thoroughly tested and condemned, must fall a great way short of the mark."

Jack's Run a Flash in the Pan.

JACK'S RUN—But little nowadays is heard of Jack's Run. At one time it gave some promise of developing into an important pool, but it hardly has been counted among the producing fields of Allegheny county, if a comparison is drawn with Wildwood, Coropopolis or McCurdy. However, some good wells have been drilled here, and their careers as good producers were only transitory, and the territory has never shown any signs of being a producing field.

The New Cranberry Field.

EVANS CREEK—The Cranberry oil field, which Wab, Blinn & Co. opened lately by their wild cat venture on the Danbach farm, is assuming quite a lively appearance. Operators and farmers are engaged in a struggle to get the latter, as usual, where oil is found, for large bonus, the former to get the land on reasonable terms. Beers, McKee & Elbert have leased a large tract of land between the Danbach farm and the Daulton heirs' property. There has been quite a production of oil here, and several wells are being drilled. It will be thoroughly tested, as they have already two rigs up, one on the William Garlin farm and one on the Emmell, and will be drilling in a few days. Lentz and Mulholland are building a rig on the Benjamin Garlin farm, and Robert W. Garlin, Co. have a rig completed on the Covert farm.

Mellon & Co.'s Good New Well.

BAKERSTOWN—C. M. Millison & Co. struck a good well Saturday afternoon on the Patton farm. The well started on the 13th of this month, but during Sunday came down a peg or two. The well is not in order, but will be soon set right for a test. By the way, the first week or the first of next several wells are due.

A Mistake in the Depth.

MCCURDY—The Mellon & Gaitley well, on the James Riddle farm, was measured today and was found to be not as deep as reported Sunday night. Mr. Sparks, one of the owners, said it is 10 feet short of the well, and only one bit in the sand and as yet had found no oil. M.C.
