none too great. It is understood the 'Squire will put up a good business house on the lot, perhaps the coming summer.

Talk About Real Estate.

People go to the lawyer for legal lore, to the parson for spiritual consolation, to the banker for points on finance and the politician for al-most everything. To get a correct idea of the trend of real estate, experts in the business-sellers, buyers or agents—should be consulted. They make it their business to keep posted, and their opinions are always important. With a view to a correct understanding of the situa-tion and outlook of the market in general, and on the Northside in particular, Mr. John K. Ewing, of John K. Ewing & Co., was interviewed yesterday, with the result of bringing some interesting facts to the surface. Mr.

The demand for property has been fairly The demand for property has been fairly good all winter, and is improving steadily. All indications point to a period of great activity. The investment demand for Allegheny City property was never greater, but it is extremely hard to get. An arest has a difficult task to convince capital that a piece of property is a bargain when the rent rolls show an income of only 6 to 7 per cent. But the shrewdest buyers calculate less on the present income-producing ability and more on the possibilities of development. Some of the largest sales of investment properties that have been made recently have, on the basis of present income, been worth to the purchaser not over 6 per cent, but the point that sold them was their capabilities for development.

"One of the most notable features of Allegheny City property is the large number of buildings undergoing reconstruction. They have passed into the hands of owners who are able to see how a property yielding but 5 or 6 per cent can be made to produce 10 or 12. The builk of the money made from investments in real estate goes, not to the most conservative buyers, who figure radiues on a present income buyers, who figure values on a present income basis, but to those who have original ideas and can plan and execute improvements that will double the income-paying power and add but little proportionately to the cost."

Protected by Electricity.

The National Bank of Commerce yester day removed to its new building. The banking room is very handsome and conveniently arranged, but the vault is the main feature. It is constructed entirely of steel and fron. Its walls, ceiling and floor are nearly 15 inches thick, the object being to give a burglar plenty of work before he gets to the treasure within. The outer door is unique. It has no keyhole, and the massive belts are through the product of the pr holts are thrown by electricity by means of Ho volt current. This door is a new departure being the first of the kind ever made.

NEW YORK STOCKS.

The Dullness of Monday Continued, and the Operations in the Hands of the Traders-London Doing but Little in the American Stocks. NEW YORK, March 10-The stock market to-

day was still dull, the trading being purely professional, and the movements accomplished were evidently the result of the operations of John Pierce, frame two-story dwelling, 20x30 the traders alone. The covering of shorts test, on Kincaid street, Nineteenth ward. rise of the past two days began, which, as usual, brought in more selling for the short account as soon as it became evident that the rise was checked. The selling by London was checked a few days ago. That center is doing nothing in our stocks at present and this morning the arbitrage houses were sellers on the advance like the domestic operators, The dealing, outside of the professional opeight-roomed two-story and mansard brick erations in the Grangers and Louisville, developed only one feature, which was the renewed selling of Atchison securities. The general opining has now become settled that from the way the earnings have been running of late there will be nothing this year for the incomes, and the weakness in the bonds was the one point of interest in the transactions. The stock but was weak and led the afternoon decline ter and Trent streets, Eleventh ward, with lot to Burlington, St. Paul, Rock Island and to Burlington, St. Paul, Rock Island and Louisville, but Lackawanna was attacked later, and Atchison followed. The general list showed a few marked movements among the inactive shares, among which the drop of 5 in New Haven, equally large fluctuations in Oregon Navigation, and loss of 1½ in Buffalo, Rochester and Pittsburg were most prominent. The declaration of a quarterly dividend of 1½ per cent was the immediate cause of the movement in Navigation and terly dividend of 1½ per cent was the immediate cause of the movement in Navigation, and other movements among the general list were from special causes. The coal stocks were the last to feel the pressure, but after moderate losses the attack was discontinued, and it is believed that the resistance was too stubborn to warrant any further effort to get them off. The reneral list railied fully in the afternoon after losses which extended to 1½ per cent, but the final dealings were again rather hesy, and the market so closed with a very moderate volume of business. The final changes are in all cases slight and quite irregular, the most important being a decline of ½ per cent in Lackawanna. The railroad bond market was enlivened by a heavy selling movement in the Atchison incomes and those bonds retired to 35½ but recovered at the close to 35½, a loss of 1½ per cent from last night's figure, the sales reaching \$450 out of a territory and the sales reaching \$450 out of a territory and the sales reaching \$450 out of a territory. comes and these bonds retired to 38%, but recovered at the close to 39%, a loss of 1½ per
cout from last night's figure, the sales reaching
\$21,600 out of a total day's business of only
\$85,000. There was little animation in the general
ist, and as a rule the movements were on the
same limited scale, though Louisville. New
Albany and Chicago consols continued its rise,
reaching 31 after selling at 87%.

Government bonds have been dult and steady, State bonds have been dult and featureless. The Post says: The reported improvement in the aspect of financial affairs in London is corroborated by the facts that the foreign exchange is easier, that the Continental demand on the Bank of England appears to have ceased, and that at the request of the Bank of England Messis. J. S. Morgan & Co. have signed a contract for the agency of the Argentine confederation, acting as bankers for a commission. This looks as though the Bank of England would, to a large extent, assume the financial management or direction of Argentine affairs, and if any stability can be imparted to the Argentine Government there is no reason to doubt that the losses on Argentine investments will be comparatively small. ments will be comparatively small.

Country Produce-Jobbing Prices. Contrary to general expectation of dealers, creamery butter was a shade lower at the Elgin weekly sale on Monday afternoon. The sharp advance last week was overdone, and a reac-tion has come. It is only a question of a week or two when butter must come down. Receipts of eggs are still large, but prices are fairly well maintained, with 17c as the outside for job lots. Cheese of choice grade is very firm, and Swiss make shows an npward tendency. There is a continued good demand for good potatoes, but prices remain as quoted before. Tropical fruits are slow. Oranges are higher in Eastern markets the past few days, but there has been no corresponding advance here. The maple syrup crop is reported above average in this section

MARKETS BY WIRE.

Longs in Wheat Take Their Profits-A Better Tone at the Finish-Corn and Oats Stronger-A Small Boom

in Provisions. CHICAGO-Holders of wheat devoted most of the day to selling. Those who were short or who had none of the grain on hand were doing more or less buying on the weak spots. The market responded very readily to bullish news, but each rise tempted many of the holders to sell out. The fear of what the Government report might show induced many of the longs to hold their wheat, and also induced many to do a little buying. The majority of the longs, however, seemed to think that it was a good

time to take their profits.

May wheat started at \$1 025%, or precisely where it closed yesterday. The first rush of selling carried it off to \$1 01%. Heavy purchases by Russell-Barrott, which were presumed to be for Hutchinson, lifted it to \$1 05% again, but it did not hold. After reacting to \$1 01% and hanging around \$1 01% 103% until

again, but it did not hold. After reacting to \$1 01½ and hanging around \$1 01½01 01½ until nearly noon, it improved to \$1 02½ because of the official closing cables, which quoted Liverpool prices I per cent upon wheat and 6d upon flour.

This little rise showed that nearly all of the local talent was loaded with wheat, as the offerings at the top price, and all the way up, in fact, were enormous. May broke \$1 01½ shortly after noon, but was checked here by purchases against puts. The receipts northwest were again large. Receipts at the II leading markets were 367,000 bushels, against suppments of 156,000 bushels. New Yorkers sold wheat heavily through Walker, Milmine-Bodman, Boyden and Haiely. Cudaby sold ouise a quantity of July wheat. Mitcheli was a heavy seller of May. The closing cables from Paris quoted prices a trifle casier. There was an increase of 1,536,000 bushels last week in the quantity of wheat and flour as wheat on ocean reassage.

Receipts of corn were 90 cars more than the trade anticipated. The market for this reason opened a trifle weak. Liberal purchases by several of the receivers and sharp bullish tactics by Bryant soon started values upward. May corn started at 60½c, sold for a moment at 60%c, advanced to 61c, fell back to 60c on attempt by several of the longs to sell out, and then was worked speedily up to 622. The sell-thereafter and the weakness of wheat broke it to 60%c.

thereafter and the weakness of wheat broke it to 60%c.
Oats followed corn. May started at 50%c, sold to 52c and off to 51%c. The volume of business was not as large as the wide range of prices would indicate.

There was quite a little boom in provisions. It was caused by the advance in corn, by the light receipts of hogs at the yards and by the buying of shorts. Myn bough: 10,000 barrels pork, 5,000 lard and 1,000,000 pounds of ribs. Eggleston sold 10,000 barrels perk. May pork started at \$10 10, sold to \$10 000 for the close.

MINNEAPOLIS — There were millers buying wheat for home use to-day and acting as agents for others, buying some for outside milling concerns to be shipped atonce. On the whole, the market for cash wheat was not called alive, but the buying for various purposes took it away quite well during the session. It was not cleaned up early as at other times for there are fears that the bottom will fall out of prices. Receipts continue large for the sesson. The early price of May was about 1923984.c. Too many longs were selling out for the price to remain there, and it fell below 183/c about 12 o'clork, with prices fluctuating later and some sharp changes. Drygoods Market. New York, March 10.—Cotton goods are in fair average request, and the tone of that class of goods continues steady, particularly all such goods as control the market. There is not so much doing in wash fabrics, because of the large business already secured and the scarcity of many articles. Prints were in fair demand, Woolens quiet.

LATE NEWS IN BRIEF.

-Ex-Senator Spooner says he is not a candidate for any public office. -The funeral of Bishep Paddock will take place at Trinity Church, Boston, Thursday. -There is a strong probability of a general strike and lockout of plastere's at Milwaukee. -The Idaho Legislatura has appropriated \$20,000 for Idaho's exhibit at the World's Fair. —Bill Crawford, who will be hanged Saturday, at Decatur, Iil., for the murder of Mrs. Mathias, objects to a stay of execution.

also refused to allow his name to be used.

—Martin Shafer, in fail at Logansport, Ind., for killing Edward Lowry, wrote a letter to his wife, telling her that he intended to feign insanity. The Sheriff opened it, and Judge McConnell denied a motion for a new trial and sentenced Shafer to 15 years' imprisonment.

The Portrait of a Lady

Painted on paper by the pen of such a novelist as Henry James will do very well, but the real portrait of a real lady is a very different affair. Has she pimples on her face, or blotches? Is her complexion sallow? If so, the conscientious artist in this realistic age will have to put them all down. The lady's remedy for her pimples,

features are rendered piquant and interesting by a beautiful complexion restores strength and vigor to the system, gives tone to the digestive organs, and cures all nervous disorders. The potency of this wonderful blood medicine is unquestionable, and yet, powerful as it is, it may be taken by the feeblest child and by the most delicate female. It has no rival in the wide field which
