A MUCH BETTER TONE To Haltimore. This will ma Frevails in the Iron Market and the and S. Valle Feeling Is Firmer. uffalo. THE STEEL RAIL COMBINATION East St. Louis Will Doubtless Prove a Beneficial Thing for Boston

the Rail Mills.

STATE OF FOREIGN METAL MARKETS

STRUCAL TELEGRAM TO THE DISPATCE. (NEW YORK, March 12 .- The Iron Age reports the condition of the iron and steel market as follows:

"American pig-There has been more activity, and a slightly better tone prevails. Sales agents report that it is less difficult to secure prices asked. The supply of foundry irons con-tinues limited, so far as the South is concorned, and it is by no means large as to Northern makes. The extreme range on Northern brands is \$17 00@18 00 for No. 1; \$16 00@16 50 for No. 2,

cording to brand, Ferro manganese-The only sale of consequence has been one lot of 400 tons of ferro manganese, deliverable 100 tons monthly to a el works in Eastern Pennsylvania at private teel works in Eastern Fennsylvania at private erms. We quote the market 561@62. Im-exters claim that the markerial cannot be laid lown at such figures, and that sales made on such a basis are speculative. Billets and rods — In sympathy with the

narket, the feeling is firmer, although into effect of the steel rail combinawe heard of is a small lot for immediate de rery at \$38 50 at seliers' mill, Manufactured iron and steel—Competition

Mainiffactured from and steel - Competition in plates continues sharp, although at least one leading Western solier has practically with-drawn for the present. We quote angles, 2006 2.10c; sheared plates, 2006 2.25c; tees, 2.002 75c, and beams and channels, 3.1c on dock. Steel plates are 2.0062.75c for flange on dock. Bars are 1750 for sheal, and 2.6622.7c for flange on dock. Bars are

I fastenings-A moderate amount of business has been done. We quote, \$180@135 for spites; 1.75@1.80; for angles, and 2.65@2.75c for

spites; Long LSC: for aspect, and balts. Old rails—The market continues lifeless. Oue feature is pointed out as deserving con-sideration and that is that the rising tendency to much bars may cause more attention to be Steel rails-When we last wrote the rail mar-

Steel rails—When we last wrote the rail mar-ket was in a condition bordering on demoral-ination, and it was probably only the prospect of an early sharp decline which prevented a heavy business. On Thursday, however, the first efforts were made to bring about an ad-justment of the trivial differences between the Lawkawama and Scrantou companies, and the papers were finally signed which makes their consolutation an accomplished fact. As we have repeatedly explained, it was only this which s ood in the way of putting into force the agreement of the mills entered into pro-visionally some time past. That agreement does not attempt to fix the price at which the mills must sell. It provides merely for an alils must sell. It provides merely for an al-ment by fixed percentages, each month's ag-grate sales at the end of the month being An excess is paid for by the mill, while deficiency entitles the works to an allowance ta fixed rate per ton. While it is certain that tra dement will not add a ton to the demand, its squally certain that it will not reduce con-omption by more than an insignificant frac-tion. It will prevent rainous slaughtering of ruces, but will not allow any undue advance in bem. ncy entitles the works to an allo

re can be no complaint among consumers the price, \$30 at mill or \$30.75 at tidewater, ich is now generally asked, since it is as low as consistent with a fair profit to the mills. e cost at Eastern works, with partial em the cost at Eastern works, with partial em-loyment and at present cost of raw material, spenerally estimated in the trade to be \$776 8, which heaves a moderate profit on myest-tent and a fair allowance for depreciation of have. During the week there have been sales y Eastern mills of about 15,000 ions in small pis. We quote \$33 75 at tidewater.

McCurdy.

SPECIAL TELEGRAM TO THE DISPATCH. CORAOPOLIS, March 12 .- In yesterday's DISPATCH mention was made of the fact and \$14 000216 00 for gray forge. Southern sells at \$16 250017 50 for No. 1 foundry; \$15 5000 16 00 for No. 2 and \$14 000215 00 for No. 3 ac-the Ohio river. The building of a three-the Ohio river. inch line from such a promising field as Coraopolis looks to be is of no little significance, and for the benefit of the oil fraternity THE DISPATCH scout interviewed Mr. Mellon to-day upon the matter.

Mt. Mellon is embarking in the manufacture of refined and petroleum products on

his own hook in a very unostentations manner. He is going into the business with no tregarded as an argument for stiffen-filets. In rods the only transaction we red of is a small lot for immediate de-principles and for what revenue there is in it. view of antagonizing the Standard, as has been reported, but is actuated solely by business principles and for what revenue there is in it. He is not posing as a benefactor to the pro-ducers, but is looking strictly after W. L. Mellon's interests. Mr. Mellon will not build a refinery at Coraopolis, as a morning paper some time since informed the trade: but he has recently purchased the refluery at Freedom from Hentle and others, and will conduct this branch of his business at this point. The plant has a capacity of over 300 karrels a day, and will soon be running in full blast. The line from the field to the river has been completed, and at its terminus a large amount of tankage has been erected. The oil will be transported down the Ohio to the works in barges of 2,000 barrels capacity, requiring two days to make a round trap. Mr. Mellon may eventually become a buyer in this field, but at progressent will confine humself to the manufactur-ing of his own production, of which he has about 1,000 barrels a day in this pool. As time progresses, however, he contemplates enlarg-ing his plant at Freedoux, at which time he will where he now has a daily production of 1,200 harrels, and the cuterprise that is now com-paratively embryoite bids fair to develop into an industry of no small proportious. Wells Due Delayed by Weather.

that the advance wells on the southwest line would have been drilled in, but owing to drawbacks and bad weather but little progress was mane. There are many anxiously awaiting the result of the McGinnis & Co. well, on the Au-gust Kyle, and J. M. Guffey & Queen Kretzer farm well. Both of these wells will most likely, be arilled in to-morrow. The Herdly-berger well still has the tools fast, and some tune will elapse before the hole is clear, as they are now running the spear. The McGinnis & Co. well, August Kyle, had not got started to drill again up to 3:30 this afternoon. Since struck it has flowed 250 bar-rels from the top of the sand, and in its present status is good for 150 barrels a day. The Duva & Beer well is 30 feet in the sand, and this morning made one six-inch flow, most of which backs and bad weather but little progress was

& Beer well is 30 feet in the sand, and this morning made one six-inch flow, most of which was accumulated fluid. The owners are not very sanguine of getting a big well; in fact, the indications so far are for a small pumper. J. M. Guffy & Queec had not, when the representative left the field, commenced drill-ing in their Kreizer No. 1, so there is nothing further to report from this well to-mght. This is certainly a very important well, being located west of a 45° line. Should this well come in in good shape it will act as an incentive to another batch of new work and make things lively in this locality.

SOME MORE ABOUT THE NEW PIPE

few years, and has become a recognized financial as well as manufacturing center, there is one thing in which she is sadly de-

shows more vitality. Her push and pluck are subjects of remark all over the country.

She is rapidly accumulating population and wealth. But she ought to grow faster and would were it not that the very thing needed to secure this result is lacking. What is it that stands in the way of more rapid development? It has been stated time after time that a great many outside business men are desirous of locating here. Nearly every real estate broker in the city has applica-

tions of this kind. But as they cannot be accommodated with the sort of stands they want they are compelled to stay away. These people

would be valuable accessions. They would supply new blood, energy and capital, which would give business a forward impulse and be of great benefit to the entire community. Every other city in the country is soliciting business by holding out inducements of one sort and another, but Pittsburg, by a shortsighted policy on the part of property owners, is repelling it. This is a plain but correct state-ment of the case.

The remedy is easy if property owners could be brought to see it. Outsiders wanting to locate here should be afforded such facilities for business as they require. It may be true,

as claimed in some quarters, that the city has enough office buildings to satisfy the present demand; but the most casual observer must admit a scarcity of business houses. It is this that is keeping outsiders away. What is needed above all things else just now to facilitate material expansion is a large number of com-modious, well-arranged warehouses to supply the demands of trade. There are good open-ings for buildings of this description in all parts of the city from Grant street to the Point. It is not the city from Grant street to the Point. It

matters little whether they be on main or side streets. The tendency of business is toward segregation, and by putting the right kind of buildings on them, side streets would be brought into prominence and property values en-

Unfavorable Influences Combine to Make a Bearish Market-Electric Improves

at the Finish on Confident Talk by Mr. Westinghouse.

The feeling in local stock circles was bearish yesterday, the elements being in favor of that side of the market. The fire and news that a big financial concern in Paris was in straits were discouraging factors. The Switch and Signal complication was the subject of some tall talk, but the only thing new that came of

into prominence and property values en-hanced. This is a matter of special interest to owners of downtown lots encumbered with antiquated suractures that are bringing in a rental amount-ing in some cases to not more than 2 per cent on the valuation, and will never yield more, since, as they are fit for nothing but small shops and stores, the occupants cannot stand an ad-vance. These buildings are at the top of their rent-producing capacity. Their substitution by good warehouses would be a dis-tinct rain to the owners and to the city. There is no danger that they would not be promptly taken. They would be snapped up as fast as they could be finished. But a few unoccupied buildings of this sort would not be amiss. They would be hanny in case of emergencies, such as that caused by the Wood street fire. Where will the people burned out there find quarters? it was that the election would not be contested. Stocks, almost without exception, were featureless, and trading was of very small propor-tions. Sales were 255 shares, of which 135 were tions. Sales were 255 shares, of which 135 were Electric. It sold in a small way at 11 at the first call, dropped to 10% bid at the second, firmed up a little, and finished at 10%-due, no doubt, to the presence of Mr. Westinghouse in the city, and his confident talk of ultimate success in his negotiations. There were more sellers than buyers. Switch and Signal was weak at the opening, but it was bid up half a point at the last call, with none offered. This indicates that the change of management is not regarded as a disaster in a business point of view. Philadei-phia Gas was seady on the good business record of last month. There was quite a break at the fast call in Underground Cable, but it was said to have been made for a purpose, and really had no sig-

Total in February last year, 0 tons, of which 18,000 tons went to the Note, of which is defined work went to the lat-ionary. Ship places are in botter demand, cross are firmer, but there is no improve-in either steel or finished iron. At a ing of creditors of the Maryport Hema-Company, a deficiency of C53,389 was n. Goodwin's Jardine Works are in detice.

Metal Market.

Nuw YORK - Pig iron dull: American, imperi 52 Copper heavy; lake, March, \$13 90, ad quota and rather firm; domestic; \$4 3755, h dull and a shade easier; straits, \$20 15.

UNCERTAINTY OF PRICES.

It Has a Depressing Effect on the Demand for Coke-An Increase in Shipments for the Past Week-The Modification o Railroad Eates. TURCIAL TELEGRAM TO THE DISPATCH.

SCOTTDALE, March 12.-The general situaa in the coke market has changed a shade since last report. Instead of one producing equipany ruling the current market, there are w two or three. The Percy firm will likely scame shortly. Late developments tend to myrove the general outlook. The reduction eight rates, to take effect formal-March 30, is expected to revive the market, which will have a stimulating The matrice, which will have a simulating Beet on the core trade as well. As previously willned in THE DISPATCH, by the new scale process, the tariff from Puttsburg to Chicago fill be 15 cents per 100 pounds in carloads, and by cents in less than carloads. The tariff the the Mahoning Valley and Chicago has been reduced accordingly, amounting to 13 years in carloads, and 15 cents in less than car-oles. The modification of the rate schedule ionds. The modification of the rate schedule will lower the cost of coke to the fur-minition materially. The production of the mants winch resumed last week is chiefly confined to Eastern consumers. Strate, as viewed by officials of the larger companies, is in a more depressed condition than ever. They say that the demand, instead of stiffering on, is rapidly declining. A sum-ber of the operators say they are not entertain-ing any Mex of running under the old scale of wages on account of the duliness of business and apparent uncertainty of prices. Shipuechts last week increased over 100 cars, with every indication of a further upward he modification of the rate schedule

every indication of a further upward this week. The idle number of ovens has diminished from 15,400 to about 15,200. en diminisheri from 15,400 to about 15,200, in fist of actives is estimated at 900, represents last week averaged about 50 cars to day, as against only 52 cars the previous set. Theincrease stima up to 101 cars. Fol-wing was the record of consignments: To justs week of Pittsburg, 150 cars; to points st of Pittsburg, 150 cars; to points st of Pittsburg, 150 cars; to Pitts-rg and river tipplet, 5 rais; to Pitts-its marg. H5 cars; to bit, 101 cars, Pitces are as Hower Furnace coke, \$1 90; foundry, \$2 30; mines, 32 45.

ht rates are yet as follows:

oneg. and Shenango Valleys. . N. Wis.

Mellon, Gailey & Co. in Luck.

MCCURDY-Another good well has been added to the completed list at McCurdy. Last night at 6 o'clock W. I. Mellon, Gailey & Co., at six feet in the sand, tanned the nay in their Scott No. 2, and the well commenced flowing at the rate of 400 barrels a day. Further drilling was suspended until the boiler could be moved out and connections made. This well is almost due east 1,200 or 1.500 feot of McCurdy No. 1, and came in similar to old McCurdy and Pal-mer No. 1. Laning this well with Scott No. 1 and Mc-

Liming this well with Scott No. 1 and Mc-Curdy No. 1, it would seem that if a beit exist here at all its direction is east and west. The truth or error of this theory, however, will be more fully demonstrated by Saturday, at which time the same company expects in their No. 1 Dougherty. S00 feet northwest of Scott No. 1. The old Riddle well, at best, is a sad disap-pointment, and coming as it has will have a tendency to lessen the interest in the fight for the possession of the Riddle farm. This well has only made five inches since struck, and has no indications to warrant a conclusion of more attic dwellings, 18x32 fest, on Mayflower street, Twenty-first ward. Cost, \$6,000. teenth ward. Cost, \$2,300. Mrs. Wilkinson, frame two-story dwelling,

no indications to warrant a conclusion of more than a 30-barrel well. It will be tubed as soon as possible, and what effect a vigorous churning process will have upon its production re-It is rumored to-mght that the Scott No. 2 had been drilled deeper and is flowing at the rate of 80 barrels an hour. This report THE DISPATCH representative was unable to con-

Nothing New at Westvie

WESTVIEW-Beautiful Westview presents nothing new to-day. The Bowman well from 7 o'clock last night to noon to-day made 3 feet and 6 inches in a 250-barrel tank. The well has but very little gas and will be tubed in a few days. Bowman & Co, have located two wells on the strength of their Sheedle producer.

A New Pumper at Zelienople.

ZELIENOPLE-Thompson & Co. struck a well last night on the Muller farm, which is show-ing for a fair pumper. It is located only 400 or 500 feet from the Marsh well, and no import ance is attached to the strike. The well has made one or two small flows, and by the over-sanguine has been estimated at 100 barrels a day, but this figure is away off.

A Well Drilling at Callery.

CALLERY-The B. Forst Oil Company is in CALLERY-The B. Forst On Company the the sand with the No. 2 Staples, and is reported at 20 barrels an hour to-night. It is located about 300 feet nearly east of its No. 1 Staples, H. MCC.

New York Coffee Market

They also sold at Emsworth station, on the Pittsburg, Ft. Wayne & Chicago Railway, a lot 200x140 for \$1,200. S. A. Dickle & Co. sold for J. W. Kirker to Mrs. E. M. Stoner three vacant lots on Grafton street, near Highland avenue, 75x141 feet, for \$2,800. Black & Baird sold for Mr. G. T. Lawman to New York Collee Market. New York, March 12.-Coffee - Options opened barely steady and unchanged to 10 points down, closed barely steady 5630 points down: sales, 46,750 bags, including March, 17,60 @17.36; April, 17.40@17.70; Max, 17.30@17.55; June, 17.00@17.25; July, 16.80@16.95; August, 16.40@16.45; September, 14.10@16.29; October, 16.50@16.55; December, 14.50@14.55; Spot Rio quiet and steady; fair cargoes, 20c; No. 7, 185ge.

Drygoods Market.

New York, March 12.-Little change or new feature was to be noted in the drygoods market. A great many articles for fall trade are beginning to receive some attention, as dress good shawis and cotton flauncis, but nothing significance has yet transpired; the outloo seems good.

Price of Bar Silver.

 The Building Record.

The following permits for the erection of new buildings were taken out yesterday: John C. Knipp, three frame two-story and *EX-dly.

NO TRADING. W. R. Siedle, frame two-story and attic dwelling, 19x32 feet, on Boquet street, Four-Nothing Doing in Oil and the Price Consid

erably Clipped.

Yesterday passed without a barrel of oil 17x32 feet, on rear of Dauphin street, Nine-teenth ward. Cost, \$1,000. changing hands. At the start 74% was bid. This was, later on, raised to 74%. At the close teenth ward. Cost, \$1,000. Samuel C. Wall, frame one-story kitchen, 12x 14 feet, on rear Tecumseb street, Twenty-third ward. Cost, \$200. Samuel C. Wall, frame two-story dwelling, 16x32 feet, on Tecumseb street, Twenty-third ward. Cost, \$1000. Henry Reichold, frame two-story dwelling, 16 x32 feet, on Grazier street, Twenty-first ward. Cost, \$955. John Kenworthy, brick two-story stable and dwelling, 15x35 feet, on Spring alley. Twelfth it was offered down to 73%. Oil City did about all the hammering, pre-

sumably a Standard maneuver, as that con-cern is said to be short of the stuff and load-

Refined was steady at the advance noted yesterday. Average runs, 69,688; average ship-ments, 65,073; average charters, 29,611. McGrew, Wilson & Co., 90 Fourth avenue, quote: Puts, 723; calls, 743.

Oil Markets.

John Kenworthy, brick two-story stable and dwelling, 15x35 feet, on Spring alley, Twelfth wasd. Cost, 5000. Universal Refrigerating Company, frame one-story evaporating panhouse, 17x30 feet, on Lemon alley, Second ward. Cost, 550. Henry Hugus, frame addition one-story kitch-en, 12x14 feet, on Pearl alley, Sixteenth ward. Cost, 5100. Bernard Magill, frame two-story dwelling, 14 x81 feet, on Lauora street, Twenty-first ward. Cost, 5825. OIL CITY, March 12.-Petroleum opened at 74%; bighest, 74%; lowest, 78%; closed, 78%; sales, 121,000 barrels; clearance, 380,000 barrels; runs, 8%;011 barrels; shipments, 57,626 barrels; charters, 97,147 barrels.

Cost, \$825. Leonard Walter, brick five-story warehouse, 2434x100 feet, on Penn avenue, Ninth ward. c: closed at 73% thighest, 74%; lowest, 73%; arances, 520,000 barrels. NEW YORK, March 12-Petrolenm

NEW YOEK, March 12.-Petroleum opened weak on the unsettled condition of refined oil, but rallied 3/c on a few Western buying ordera. Then the market broke under pressure sup-posed to come from refiners and declined 13/c, closing weak, with offers at the lowest price. Pennsylvania oil, April options opening at 74c; highest, 74/c; lowest, 73c; closing, 73c. Total sales, 78,000 barrels.

Sanuel Black, frame two-story dwelling, 14x Sanuel Black, frame two-story dwelling, 14x 18 foet, m Fifty-third street, Eighteenth ward. Cost, \$250. A Leggate & Son sold the property No. 206 Arch street, Second ward, Allegheny, lot 20x 110 with a small frame dwelling, for \$2,550.

NEW YORK STOCKS.

The News From Paris Checks the Bull Movement-National Cordage a Strong

Feature in a Lifeless Market-Colorado Coal Is Up.

street, near Highland avenue, 75x141 feet, for \$2,800.
Black & Baird sold for Mr. G. T. Lauman to Dr. E. A. Woods a large new brick residence, in Irving place, near Roup station, with lot 30 feet front on Elisworth avenue by 160 feet in depth, for \$14,500. They also sold to James simpkins lot No. 32 in the John A. Roll plan, at Linden station, Baltimore and Onio Bailroad, fronting on Wakefield street, for \$425.
W. E. Hannet & Co, sold a house and lot on Center street, Wilkinsburg, to John G. McConnell for \$5,200.
Baxter, Thompson & Co, sold through the real estate firm of Conton & White, Allopheny, to 20x55 feet, for \$2150 cash.
Samuel W. Black & Co, sold for the Blair estate, Glenwood, Twenty-third ward, a lot situate on Almeda street, size 2ix120 feet, for \$600, on easy payments.
At New York yesterday the total sales of stocks were \$5,031 shares, including Achison, 3855; Larkawana, 14,800; Louisville and Nashville, 6150; Northern Pacific, 3,855; St. Paul, 11,-762.
W. A. Herron & Sons sold an investment property o Colwell, near Logan street, 104 485. NEW YORK, March 12-The stock market to-day was even more contracted than usual of late and the dealing unusually barren of feature, while the movements in all cases were insignificant outside of a few specialties. This morning the bullish feeling among the traders was suddenly checked by the announcement that a large firm in Paris was on the verge of suspension, and that great diffculty was being experienced in obtaining the accommodation needed to carry it through. This fact was also reported as creating great uneasiness in London, and London prices were no better than yesterday and no buying orders were given out by the foreigners. The news checked the small buying of the
