JUNES & CROWE, Fifth st., Southside. mhi5-123 There is a law now existing which makes it optional for a district to have free text books optional for a district to have free text books or not. During the week Superintendent Luckey has sent out circulars asking each school principal how many books are used in his building, so that the Text Book Committee can track an estimate of what the cost will be to supply the Pittsburg schools with free text books.

Several well-known school principals were Several well-known school principals were asked for their views on the question yester-day. The principals, while in favor of free text hooks, are not in favor of the State sno-plying them. Prof. S. A. Andrews said it would throw a much greater responsibility on the teacher. For places where the people owned their own homes it could be put into operation, but where there is a floating popula-tion it would be a difficult thing to keep trace of the school books, for home study is necessary for the grammar grades of the city schools. Under the provisions of the law now in ex-plander there is no need of children being kept out of school for the want of books, as the local boards have the power to supply all indi-gent children.

Prof. H. W. Fisher said: "I am not in favor of free text books. I think we appreciate most highly that which costs us a struggle to obtain. As a rule I find the text book bought by the build is kept in better condition than that

Prot. J. K. Bane is in favor of the plan pro-rided it can be put into operation in an honest way. "I am in favor of free text books." Prof. J. M. Logan declared. Mr. Charles Tainter, a member of the firm of Tainter Bress, publishers of New York, was at the Central Board of Education rooms, yes-terday, He had heard of the more Pittsburg is contemplating. This firm now supplies the Pittsburg trade, and be came to look after the interests of his firm and put in a had for sup-plying the free text books. Mr. Tainter has been in Harrisburg and was before the Book Trust Investigating Committee. He thinks in should be belt to each district whether it shall have free text books or not, just as it stands at present. He is much opposed to a State com-Prot. J. K. Bane is in favor of the plan prohave free text books or not, just as it stands at present. He is much opposed to a State com-pulsory free textshook law. He considers it a step toward socialism. Free text books, he said, are also a promoter of disease, as bookf cannot be fumigated. He thought the idea of having the books at home, instead of leaving them in the schoolroom, has an educating in-fluence on the home.
