The article was just what I had been looking for for a long time. Six months ago, when the mills and furnaces began going back to coal. I said to myself: Will it be possible that the people of Pittsburg, after fre or six years' immunity from coal amoke, will tamely permit a resumption of the old order of things without a protest? As I waited month after month, I began almost to despair, but your recent editorial has inspired me with fresh hope. People of Pittsburg, are you willing to go back to the old days of smoke and grime with-out a struggle? Do you not know that cleanli-ness to our city means health, prosperity and happines; and that a smoky pall means dirt disease and disgust? The reason given for the rearrangement of the board, immediately after Mr. Westinghouse's appearance on the scene, are as already given in these columns, but there had been arrested and heard on a charge of burglary, and that falling to the ground, he was committed as a suspicious character. Judge Magee expressed himself somewhat plainly in this method of doing business, and Detective Steele stated that he wasn't the Mayor of Allechery and hed is, in addition, alleged to be grave reason why the change should be made. One of the greatest hardships some dealers

Mr. Westinghouse feels that he has now been freed from all responsibility concerning the management of the business, and naturally cannot and probably will not be asked to give any further advice or help of any kind. He has no intention of nominating any person to represent him on the new board, and will take only such reasonable action as may be needed o protect his interests. He is unable to igarn to protect his interests. He is unable to tearn that the new management have made adequate provisions to carry forward the business, and to properly protect the credit of the company, which has been well maintained in the past. In the event of a failure on the part of the new management to protect the credit of the com-pany, there will be required the united efforts or the stockholders to prevent serious losses

that will result. Mr. Westinghouse, mindful of the possibilities, has already perfected a plan for the reor-ganization of the business of the company that i cuard the interests of all in an equitable anner, should such a course become neces ary in order to maintain the business which is been brought to a prosperous condition. Concerning the proposed resignation of Mr. Rowand, and the election of Mr. Goodman, it may be said that Mr. Goodman enjoys the con-fidence of the customers of the company and of the community at larger but his election to succeed Mr. Rowand is not by arrangement with Mr. Westinghosne, though he pointed out at the interview referred to that if they had selected Mr. Goodman instead of Mr. Rowand they would have done wisely, because Mr. Goodman enjoys the fullest confidence of him-nelf and associates. off and associates

Mr. Rowand Still in Poor Health.

Mr. Rowand was unable to be present at the Philadelphia meeting, by reason of the sudden Illness referred to in yesterday's issue of this paper. He was still confined to his bed last night, but his relatives said that he was improving, and not in serious danger. A dispatch from Philadelphia re-garding the meeting of the company, says: garding the meeting of the company, says: The directors of the Union Switch and Signal Company met here this morning in the law offices of H. A. Terry, and reorganized, as out-hered in yesterday's Disparticle. A. T. Rowand becomes Vice President, with limited power, and E. H. Goodman succeeds him as President. O. B. Jenkins resigned as a director. The new arrangement is regarded as particularly pleas-ing to the Westinghouse adherents, as well as the most beneficial to the interests of the stockholders. Among many of the stockholders in the city Rowand's position toward West-inghouse is hitterly denomiced. The reason urged for A. T. Rowand's withdrawal was the refusal of the Pittsburg banks, holdhup the company's collateral, to do business was the refusal of the Pittsburg banks, holding the company's collateral, to do lucisiness with Roward. Henry C. Terry said, in speak-ing of the matter: "I regard the outcome of the meeting as a compromise between Rowand and Westingbonse, and one which will undoubtedly result in the financial betterment of the com-pany. In my opinion Rowand, by resigning the Presidency, gave abundant evidence of his entruest desire to further the interests of the company. It is undoubtedly true that with Mr. Rowand as President, there would have been considerable difficulty with the Pittsburg banks, which have loaned large sums of money to our company. The most assicable spirit was manifested throughout the whole meeting." An Unpleasant Episode Passed Over.

An Unpleasant Episode Passed Over.

The impression in financial circles vesterday was that a very unpleasant episode has been disposed of. Mr. Goodman's reputation is such as will restore confidence in the minds of the business community, and it is expected that the affairs of the company will now proceed with smoothness. Mr Westinghouse was busy in his office all day yesterday. Advantage was taken of his presence in the city to hold a quarterly eting of the directors of the Airbrake Company for the purpose of declaring the quarterly dividend. This was done, and 4 per cent, or 16 per cent per annum, declared, pavable on the 16th of April.

The Flucky Young Faster Has Anothe

With the aid of one of the students Dr. Moyer fought sturdily for the enforced end-ing of Collins' attempt. But for Dr. Heus-tis, who interfered with a compromise, the police surgeon might have carried the day. It was finally agreed to proclaim a truce for the time being, thus giving the faster all today for rest.

RIVALS IN A PHONOGRAPH.

Jefferson and Florence Preserve Their Voices for Future Generations.

Yesterday afternoon Messrs. Jefferson and Florence recited a part of the third scene of "The Rivals" in a phonograph, and when the cylinder was turned on it repeated the words of the two great actors with wonderful distinctness. The comedians tackled the phonograph with as much ease as though it was their daily task, or as though they were before their audience in the Duquesne Theater

Mr. Jefferson "talked a letter" to daughter, who is now in England, and Mr. Florence also put his voice in the machine, which will be ground out for his wife, who at present has all London at her feet.

NO BIRTHDAY CELEBRATION

Mayor Gourley Says He Will Not Issue a Procla

Although the city of Pittsburg will be 75 years old on Wednesday, March 18, there will be no celebration by the city or ordered by the city. Only the usual routine will mark the birthday of Pittsburg. The main cause for there being no celebration is that the time is too short to make any kind

of preparations, Mayor Gourley, when asked about the matter, said it might have been practicable if it had been agitated a month ago, but no kind of celebration could not be arranged in three days, and he will therefore not issue any proclamation.

DROPPED DEAD ON MAIN STREET.

Paralysis of the Heart Ends the Life William Oakley.

William Oakley, 62 years old, dropped dead on Main street, West End, yesterday afternoon. Oakley had been suffering for some time from injuries received at Painter's mills and had been ill with ervsipelas. Saturday afternoon Mr. Oakley went out for the first time and just as he reached Fo-

ley's livery stable he sank to the sidewalk and expired in a few minutes. An inquest was held and a verdict of death from naraly. sis of the heart superinduced by erysipelas, was rendered.
