Harry Boschert Easily Wins the First Game of the Local Billiard Tournament.

FOUR CONTESTANTS FOR TO-DAY.

THE HOME BALL TEAM WILL GO SOUTH.

Meetings of Local Amateur Athletes-General Sporting

The local billiard tournament commenced excellently last evening in the Grand Central Rink. A good game was played, and Pittsburg came gloriously out shead, The attendance was large and fashionable, but the atmosphere was somewhat cold, and this not only affected the comfort of the audience, but the skill of the players. This evening, however, there will be plenty of large stoves in the building, and as far as warmth is concerned comfort will be first class. The seatthe arrangements are excellent, and no expense has been spared to make everything as pleasant

Last evening's contest was between Harry Boschert, of this city, and John H. Cline, of Philadelphia. It was thought by the talent that on account of lack of practice the Pitts-burger would be defeated by the Easterner, but this was not the case, as Boschert almost at the beginning took the lead. He held it to the end, winning by 70 points. The winner played a good game, considering the cold. At times he was unsteady, but when he got nicely warmed up he played remarkably well. Some of his draw shots merited rounds of applause, Cline did not appear to be at all in form, and on several occasions what may be called luck was

From that point on he stead-ily gained until he was 160 when Cline reached his first hundred. When the local representa-tive had reached his second hundred Cline was still 60 in the rear. very unpleasant feature cropped up in local baseball affairs resterday afternoon, resulting in the unconditional release of Galvin, Berger and Hecker. The cases of the two first named have caused a deal of dissatisfaction among the patrons of the club, because it has all along been understood that both Galvin and Berger were to play on the team. The truth is, both players have been repeatedly told by Frestient O'Neil and others that they would be an the team. Now that they have been re-leased they claim that they have been unjustly ealt with by being kept waiting until other good clubs have made up their teams. SPECIAL TELEGRAM TO THE DISPATCIL SCOTTDALE, March 16 .- To-day a large and enthusiastic mass meeting of strikers was held at Fairchance. Addresses were made by Peter Wise and Secretary Parker. The aim of the meeting was to persuade the Martin employes to quit work, but their efforts were truitless. It is understood at labor headquarters that Martin will make an

effort to import men to replace the striking workmen at his plant. He is the only coke

man in the region, except Rainey, that has tried

to break the strike. To-day Secretary McBryde sent \$9,000 to the coke region. The amount which has been reeived has been distributed among the hungry strikers. The district officials are also receiving aid from other districts. It is not likely that any more attempts will be made to induce Rainey's men to strike, although a mass meeting is being talked of for Wednesday.

rious Charges Brought Against Captain Cattley, of the Second Infantry.

OMAHA, March 16 .- The court martial to try Captain Henry Cattley, Company C, Second Infantry, on the charge of cowardice, convened at department headquarters this morning. Charges were read which allege that Captain Cattley feigned sickness when there was prospect of fighting at Pine Ridge and shirked duty when it was dangerous. There were four specifications, to all of which Cattley pleaded not guilty.

The only witness examined was Lieutenant Turner, who testified that Captain Cattley rdered him to take command of the company when it was ordered to go after the hostiles on the White river, as he was not feeling well. On other occasions when danger was apparent Cattley reported himself not feeling well and unable to command. but when the duty was not dangerous he was on hand. The court martial adjourned until to-morrow after the cross-examination of Liutenant Turner had been concluded.

through the mist. The Dexter's officers would not speak of her condition or prospects, but say they are much worse than they were yesterday. They think all three vessels will be broken up.

The Gallatin Was Too Late. The Gallatin which left Boston vesterday arrived at the Vineyard at 1 o'clock last night, where she lay until the morning, when she put out into the sound, but because of rough weather and impossibility to be of service she returned. It was then she sighted the Dexter and accompanied her to

A dispatch from Washington says: A number of telegrams have been received at the Navy Department in regard to the condition of the Galena and the tugs Nina and Triana, and the efforts being made to save them from destruction. From these it ap-pears that the Galena and Nina are ashore about a mile from Gay Head, and the Trians is aground at Cuttvhunk. The Galena has lost hee rudder and rudder post

and part of her keel.

The Nina is entirely out of water and is thought to be only slightly damaged. Lieutenant Commander Bicknell reports that the Nina can be saved and that the Galena may possibly be floated again. The Triana went aground Sunday morning at 3 o'clock. She was on her way to Gay Head with supplies for the officers and crews of the other vessels. In response to telegraphic appeals. made by Assistant Secretary Soley the tug Mercury, at Woods' Holl, the revenue cutter Exeter and a powerful tug of Boston started this morning for Cuttyhunk for the relief of the Triana, and it is expected that they will be able to drag her into deep water before serious damage is done.

The Triana May Be Floated. A telegram was received this morning from Lieutenant Commander Lyon, in com-

mand of the Triana, saying that she can be floated if the proper means are promptly em-ployed. The officers and crew were still on the vessel when this telegram was sent. Lieutenant Commander Lyon was executive officer of the Trenton when she was wrecked at Samoa. Assistant Secretary Soley, who is now acting as Secretary of the Navy, said this morning that a court of inquiry will be appointed to investigate all the circum-stances attending the accidents to the three vessels with a view of placing the responsibility therefor and determining the necessity

for a general court-martial.

It is stated at the Navy Department that facilities for the repairing of wooden vessels.

SPECIAL WEATHER BULLETIN. Fair but Colder Weather Is Promised for This Section.

PREPARED FOR THE DISPATCH.

The storm that was over the upper lakes on Sunday traveled due east to the mouth of the St. Lawrence yesterday, causing snow to fall in all the upper part of the States bordering on Lakes Erie and Ontario, and in Canada and Maine. On the Middle and South Atlantic coasts the winds were fresh, with gales promised for to-day. The storm that came in from lower California passed into the gulf with rain falling in all the States bordering the guif and South Atlantic coasts. The fall in Texas was from one to two inches; the winds were 26 miles an hour at New Orleans. There was a third storm developing over Montana, causing rain and snow in the Northwest and warmer weather in the Rocky Mountain region. Through Minnesota and the Mississippi Valley the weather was clear and becoming decidedly colder. An area of high pressure coming down from Manitoba lowered the temperature 4° at St. Vincent to 18º below zero and ran the freezing line down DR. NARDYZ says he is not the president of the Garibaldi Society. He is but an honorary member of that organization, and therefore couldn't hold office. To-day promises to be fair and colder; to-morrow fair with stationary temperature. For District of Columbia, Eastern Pennsylvania, New Jersey, Delaware, Maryland and Virginia, fair, cooler, northwesterly winds

A Woman Best Understands a Woman's Ills. The experiments of Lydia E. Pinkham that years ago gave to the world that blessing, the Vegetable Compound, were made through a feeling of sympathy for the afflicted of her sex. She discovered that nearly all the diseases of woman have a common origin, and therefore may have a common cure. As a result, thousands of women in all parts of the civilized world cherish grateful remen brance of Lydia E. Pinkham's Vegetable Compound, and ever bless its discoverer.

"My Work Shall Be Perpetuated."

The perpetuation of Mrs. Pinkham's work was guarded by her foresight from the start. Every suffering woman

applying to her received personal attention, and the details of every case were recorded. These records are to-day the largest in the world, contain facts not to be found elsewhere, and are now available to the women of the world. A Savior of Her Sex. When pain becomes a constant companion; when there is no repose for the sufferer by day or night; when life itself

seems to be a calamity; and when all this is reversed by a woman, whose only ambition is to do good to others, has she not won the above title? Suffering women who seek Mrs. Pinkham find both a helper and friend. A Record of a Life's Work.

The entire facts connected with every case ever treated by Lydia E. Piukham are on record. With the assistance of lady clerks writing at her dictation, over one hundred letters per day have been disposed of, the answers going to ladies in all parts of the world, and the facts compiled in a library of reference for the benefit of suffering women. Here is a life's practice of a woman among women, and represents the largest collection of facts the world has ever known.
