BERLIN, March 18 .- Owing to the untiring efforts of the United States Minister here, Hon, William Walter Phelps, Chanceller Von Caprivi has removed the embargo placed upon American cuttle landed at Hamburg, and it is likely that Mr. Phelps will be able to obtain the removal of the restrictions placed upon the importation of the American hog. Already 300 American beeves have been landed at Humburg as an experiment. This landing of American cattle has been carried on for weeks, and has only been known to the Imperial Government, to Mr. Phelps, and to the authorities of the port of Hamburg. All parties concerned are pleased with the success of

Fed His Guests American Beef,

Mr. Phelps, at a series of dipners which he has given at his residence here, has given his guests American beef, and has thus intraduced its use in the families of many distinguished members of the fashionable circles of Berlin. In turn the Hamburg local officials are making costly permanent improvements in the landing facilities now at their disposal for the importers of Ameri-can cattle. The object of the Hamburg offi-cials in making the improvements referred to is to encourage and develop the trade in American cattle.

The American course followed in landing cattle at Hamburg is as follows: After the eattle have been examined by the veterinary sucgeons of the port they are, when pro-nounced entirely healthy, landed from the steamships and are driven to a large, airy building built of iron and stone, where they are immediately sold to the butchers.

Great Slaughter House Being Built. The custom, up to quite recently, has been to seep American cattle under a sort of surveillance or quarantine for four months previous to killing them. Model abattoirs (slaughter houses) are now being built at Humburg. The cost of the buildings will be \$800,000. Then there is a separate house tor hogs, which is already completed and ready for trade, which, it is expected, will develop into American hogs as soon as the restrictions upon their importation are removed. The erection of this hog house shows the confidence which the officials of Hamburg place in the ability of Mr. Phelps to obtain the removal of the obnexious restrictions.

the ability of Mr. Phelips to obtain the removal of the obnoxions restrictions.

Chancellor Von Caprivi is now considering the point made by Mr. Phelips, who asks that American hogs be allowed to land in the same manner and under the same inspection as American cattle. The interview with Jeremiah M. Rows, Secretary of the United States Department of Agriculture, in which he is quoted as saying that the United States "does not ask, but demands, the repeal of the hog restrictions," is largely quoted by the hostile press, and may delay matters."

Mary Goodal Taken to the Homeopathic Hospital With a Deep Gash in Her Back

-Says She Fell Against a Hot Stove. A peculiar case was brought to the attention of the police of the First district yesterday. A colored woman named Mary Goodal, 28 years old, was reported by Dr. Christler, one of the poor district physicians, as having a severe cut or stab in her back which she alleged to have received by falling on a stove, which in the doctor's opin-

applied to Chief Elhot, of the Department of
Charities for aid for the woman, whom he said
was sick in a house near the corner of Bedford

Dr. Christier found a gash in her back about
7 inches long and 4 inches deep. She was weak
from the loss of blood. She alleged she had
fallen last Monday in trying to escape from a
lamp explosion. Officers Carr and Terry investigated it and learned the same story at the
house. Miss Goodal refused to show them the
clothes she wore that day and they hunfed
them up. They were found to have been cut

picions of the officers that the accident was not sustained by falling on the stove.

Lieutenants Lewis and Waggoner were notified of the finding and they had the woman sent to the Homeopathic Hospital. There the physicians reported last night that her condition was not dangerous. She refused to tell the police anything of the affair. The police believe there was a fracas in the house on Monday. Eight months ago she was arrested on Fifth avenue with another colored woman, both masquerading in men's clothes. Judge Gripp sent her to the workhouse for four months. Two years ago she was shot twice by a colored man during a trouble at Sewickley.

SPECIAL TELEGRAM TO THE DISPATCE.1 CUMBERLAND, MD., March 18.-In pursu-CUMBERLAND, MD., March 18.—In pursuance to a call issued March 6 by John B. Rae, President of the United Mine Workers of America, a convention was held here to-day. Twenty-five members were present, representing the Clearfield, Myersdale, and other Pennsylvania and West Virginia regions, though Gerge's Creek region was not represented. Several addresses were made, in which the grievances were brought out very forcibly, and some suggestions made as to how they might be remedied. The inequality of prices in the different regions was discussed, and called a wrong that should be righted. The convention adjourned at 12 o'clock without having made much headway.

At 2 P. M., after disposing of some business matters, Mr. Crisp, representing the Berwin-White Coal Company, stated to the convention that, as he was the only operator present, he desired to withdraw. After this all reporters were excluded, and they heard nothing from the meeting direct. The convention adjourned, the members not stating what they had done, if anything. The reason the George's Creek miners were not represented was that they were satisfied with their wages, and say they will not seek trouble by joining with the others. There was a great deal of dissatisfaction expressed by the miners, and a private meeting of the Executive Board was held afterward. ance to a call issued March 6 by John R Ree

That Acquitted the Italian Assassins of Chief Hennessey.

HOPES OF DISCOVERING BRIBERY. O'Malley Certain of Being Indicted by the

Grand Jury. NEWSPAPER MAN KILLED BY A LAWYER

ISPECIAL TELEGRAM TO THE DISPATCH. 1 NEW ORLEANS, March 18 .- The committee which had enarge of the movement against the men accused of the assassination of Chief Hennessey is now investigating the jury, in the hope of finding if there were any members of it bribed. The jurors will be assembled and will be asked to give their explanation of their verdicts and be subjected to a vigorous cross-examination, in the belief that it will develop all the facts. Nearly all the jurors, including the foreman, Seligman, who has left town, have given statements of what took place in the

jury room. Those who voted for the acquittal of all the prisoners in est that they were justified in so doing; that the Judge instructed them to give the prisoners the benefit of a doubt, and that their verdict was based on these instructions. They voted for acquittal because they did not think the State had made out the case, and because they did not believe one of the State witnesses. The refusal of the District Attorney to summon as witnesses, the men who were the first at the scene of the assassination, who picked up Hennessey when he was shot down and who pursued the murderers, including Officer Roe, who was shot in the ear by one of the assassins, impressed them unfavorably.

O'Malley Will Be Indicted. So far none of the jurors have shown the slightest weakening, and they repudiate emphatically the proposition that any money was used to influence their verdict. The grand jury to-day also began its investigation, of the killing of the Italian prisoners and the causes which led to the miscarriage of justice. Bribery has been accepted as the answer to the latter question, and Detective O'Mailey and the jury came in for a large share of the day's inquiry. No findings were returned, but it is said O'Malley will be indicted. It is understood that the citizons' committee will make a thorough investigation of the bribery matter, and will leave no stone unturned until all the facts in the case are brought to light.

Colonel T. N. Boylan, who was Chief of Police at the time, in an interview to-day states positively that Hennessey did arrest Esposito in Jackson Square while Mooney, the New York detective, waited outside with a carriage, and Esposito was hurriedly driven to the police station and held all night, and the next morning spirited aboard a steamship and taken to New York. Upon arrival there, Mooney claimed all the credit for the arrest, and Hennessey never received a cent of money for his services.

Ten shots were fired. Waters was killed and Dunn seriously wounded.

A dispatch from Washington says: Baron Fava, the Iralian Minister, to-day received the first reports from the Italian Consul at New Orleans in relation to the killing of the Italians there last Saturday. These reports, it is said, sustain the position taken by Baron Fava in his protest to Mr. Blaine of March 15, with relation to the inaction of the authorities of New Orleans before and during the shooting.

In transmitting a copy of the reports to Secretary Blaine, Baron Fava repeated tiffst the conduct of the local authorities at New Orleans was in the highest degree blamable, for the reason that it was not in keeping with their duties to protect the life of the Italian subjects, according to the terms of the treaties existing between the two countries, as had been called etween the two countries, as had been called the attention of the Governor by Secretary Blaine with an unquestionable spirit of justice to which the Baron said he bore cheerful wit

FRESH RUMORS ABOUT THE MONON.

New York Report Says the Change In Management Has Taken Place. NEW YORK, March 18 -- It was announced or Wall street this morning that the long-rumored change in the management of the Louisville. New Albany and Chicago Railroad Company had taken place. The officers of the company were reticent, but a gentleman familiar with the affairs of the company said: "At the request of the Brice-Thomas party, Messrs, Poo and Greenough have formed a syndicate to buy the \$2,800,000 bonds in the treasury." The present condition of the road is due to wretched present condition of the road is due to wretched mismanagement by the present party in power, and any change will be welcome."

A dispatch from Chicago says: President Breyfogle, who has been back from New York only two days, said this afternoon that the Wall street story, so far as he knew, was entirely without foundation. He was quite certain that there was no intention of making any changes in the management of the Monun at present, and he was equally positive that no negotiations were in progress looking to the transfer of the property or to the absorption by it of any other road.

The first contest was between Champion Mc-Laughlin and J. H. Cline, both from Philadel-phia. They made a very exciting contest of it. Mc Laughlin soon went well to the front and in the early part of the game it looked as if he would be an easy winner. But in the last hun-dred he went considerably out of form and dred he went considerably out of form and Cline began to get dangerously near to him. McLaughlin apparently became rattled and in 11 breaks he only scored 13 points. This gave Cline an excellent opportunity, but he, too, "went to pieces" and even failed to play up to his ordinary form. During the game Cline made some splendid shots around the table which drew forth rounds of applause. But Mc-Laughlin was much his superior in nursing the balls and Cline's inability on that point causes him to work much harder than his opponent. The contest altogether was well worth seeing although neither man played in his best form. Following were the scores of

The contest proved to be an exciting one and, singularly enough, the score was the same as in the preceding game. Mr. Walker started out very badly, indred, as in his first 18 breaks he only scored 34 points, while Mr. Boschert, in the same number of breaks, piled up more than 100. Mr. Walker began to getnerved and really did some fine playing, but it was too late. He played a plucky losing game, but Mr. Boschert was too sleady to be caught and finally landed a good winner. Following were the scores:

Boschert's highest run, 26; average, 5 10 58. Walker's highest run, 29; average, 4 31-57.

Walker's highest run, 25; average, 5 10-5s. Walker's highest run, 25; average, 4 31-57. The evening's game was probably the most exciting of the series so far. The rink was filled with an enthusiastic audience who showed their high appreciation of the contest by frequent applause that was both loud and long. The contestants were ex-State Champion William Dodds, of this city, and Ed Burris, of Philadelphia, Mr. Dodds was in splendid form and won a great game.

The visitor started out with a good lead, but shortly after the first "century" was passed the home player settled down and made a run of 31, which put him in front. From that on he played a strong game which surprised his friends even, Burris went sadly out of form when Dodds went to the front, and the former played very poorly, indeed.

There is considerable rivalry among the local men, and Mr. Walker bet \$100 last evening that Mr. Dodds would not beat his (Walker's) average of vesterday afternoon. The contest was a close one, as it will be seen there is only a small fraction difference. During the evening the Stroup trophy was exhibited. It is, indeed, a handsome piece of workmanship.

There will be three games to-day. Messra. Burris and Cline will play this afternoon. In the evening the contestants will be: Walker versus McLaughlin, Dodds versus Boschert. JACK O'CONNOR'S CASE

The Local Club Directors Mean to Have Their Money From Him. Whether or not that very fine specimen of morality and honesty, Jack O'Connor, will ever eturn the money he obtained from the Pittsourg club by promising and signing to play here may be conjectured, but it is certain that a man of Mr. O'Connor's ilk will never play in the Pittsburg club. This is no case of "sour grapes," ecause no effort at all will be made to hold him to his contract. The truth is the club is fortunate in having escaped such a character, judging from his public utterances and private judging from his public utterances and private telegrams from him. He certainly has not injured the local club, but he has greatly injured his prospects, it may be, ruined them, in the baseball profession. There is no toleration for a man who obtains money under false pretenses and keeps it. O'Connor could have had his release from Pittsburg honorably any time he asked for it.

asked for it.

But the directors of the club mean to prosecute him on the charge of obtaining \$750 under
false pretenses. That was the amount of advance money he received from the Pittsburg
club, and it will be well for Mr. Jack O'Connor ciub, and it will be well for Mr. Jack O'Connor if he given it up as soon as possible. To obtain money under false pretenses is a criminal offense, and Mr. O'Connor and his advisers should not forget this because Jack can be "pinched" even in Columbus on the charge. He

While the betting fraternity were awaiting the result of this race the police made a wholescale raid upon the betting clubs and arrested scores of the proprietors, employes and patrons of those establishments.

Another St. Louis Rumor. A report reached the city yesterday to the effect that the case against Mark Baldwin at St. Louis, had been withdrawn by Von der Abe on the understanding that Baidwin is to return to play in the Association. The report is charac-terized by local club officials as absurdly false. They have no fear whatever of Baldwin "jump-ing." Von had no case against him. Mark is expected home to-day.
