King, nothing dismayed, made the same motion in regard to Water street, and was voted down again. No changes were made in the schedule. At this point the Chair announced a com-

To the Select and Common Council: GENTLEMEN-I desire to direct the attention

rent year, as reported by the Fisance Committee in the pending appropriation ordinance. The brief time at comband is insufficient to enable me to obtain from the committee an ex-

planation of the sources of revenue which will bring the no-scellaneous items to the amount they estimate, which is \$136,000 more than was received last year, and I have no information which will lead me to expect any increase in the item whatever.

The amount the committee estimates from city tax is based upon an allowance of only city tax is based upon an allowance of only fid_000 for discounts, lost taxes and taxes not collectable before the end of the fiscal year. This, in my opinion, guided by my own and the experience of all former Controllera, is not half sufficient, especially as the committee estimates the revenue from uncollected taxes of previous years at about the full strength of the receipts, thus depriving themselves of every margin of safety to make their aggregate estimates good. Without the latter item the \$107,000 referred to mirrh uass without comment, but as the without the latter item the \$10,000 referred to might pass without comment, but as the items water rents, engineering and liquor licenses are in my opinion \$50,000 too large, I cannot but form a deficit on the face of the bill as reported by the committee of hardly less than \$500,000.

bill as reperted by the committee of hardly less than 500,000. Now, as any proposed curative legislation which the city may obtain, in relation to the street and sewer assessments may itself be set aside by the Supreme Court, thus finally im-posing upon her a debt of perhaps \$1,500,000, it seems to me nuwise to permit now a certain deficiency of so large amount as the ordinance before you will make. In this situation-you should sufficiently increase the rate of tax to meet the appropriations reported from com-mittee, or else correspondingly cut down the appropriations to a figure which the present rate of tax will produce. Respectfully, E. S. MORHOW, CONTRIER. Estimated Receipts All Approved. The letter was received and filed and estimated receipts were taken up. They were all approved. The only point raised was by Mr. Ferguson, who ridicaled the estimate of \$1,000 for all the street railways, when vehicles, which have to pay \$45,000 in licenses, have to get out of the street car The ordinance was then taken up in prope form. The millage as published in yester day's DISPATCH was approved except the o'd city special tax of 4-10 mills. This was stricken out, as the debt has been paid. The ordinance was passed finally by vote of 38 ayes to no noes, and Council adjourned.

Judge Pardee Says the Best People of New Orleans Condemn the Mob.

Thomas B. Kerr, formerly patent lawyer of the Westinghouse Electric Company, passed through the city last evening bound for New York from New Orleans. He was there arguing a cave before the United

States Court when the mob killed the Italian prisoners. Mr. Kerr said he never saw such a crowd of men work so orderly without a break. The excitement was intense, but it was not

visible. Some of the best and most respect-able people were in the mob, but the ma-jority were workingmen. There was an absence of negroes and boys, and it was too early in the morning for them to get drunk. The mob is ready and quick to answer any argument against the killing. The people claim that the outside world is una-

be to judge of their conduct, and only those who have lived for years in the city can understand the situation. When Polizzi was hung he was dressed in his night cloth-ing, and part was torn off. One of the men placed his coat around the body with the remark that they wanted no indecency. Mr. Kerr said when he bade the Circuit Court officials goodby, Judge Pardee told him to tell his friends in the North that the best citizene of New Orleans did not approve the work of the mob. He talked also with a number of prominent lawyers, and they expressed the same opinion.

ALDERMAN CASSIDY DEAD.

Unexpected Result of a Case of the Grip-A Well-Known Face and Figure That Will Be Missed-Conscious to the Last-Brief Sketch of His Life.

The death of ex-Alderman M. F. Cassidy esterday morning was a shock to a great number of people in this city, who have, in their outgoings and incomings, been familiar with the 'Squire for the greater part of the last half century.

'Squire Cassidy's death was unexpected. So far from this being the case, he had only to point to the extreme orderlipess which pre-vailed to discount any such idea. The speak-er characterized the "massacre as an out-

rage, and not only an outrage on humanity and the government of New Orleans, but also as a violation of the Constitu-tion which gave to every American subject the privilege of a fair trial for any alleged offense against the law." IN THE SELECT BRANCH.

A Late Start Made on the Appropriation Ordinance-Mr. Keating Answers the Controller-The Question of Curative Legislation-Members Who Want to Go Slowly.

It was after 4 o'clock when Select Coun cil got its turn at the appropriation ordinance. After the first reading of the ordinance, the Chair, read the communication from Controller Morrow, Mr. Keating then began a long statement in answer to the Controller. He said the larger part of the in-Simpson, he said: "If the Lord doesn't know Jerry any better than I do Jerry will be lost crease of \$136,000 in the item of miscellaneous expense was covered by the money the Finance Committee expected would be paid in by the curative legislation to be secured. As to the valuation and taxation he said that the Assessor's figures, if all taxes were collected, would bring in \$2,800,000, and the committee only counts on \$2,700,000 being collected, after all exoperations, lost taxes, etc., are accounted for. Mr. Warmcastle asked a number of questions and Mr. Keating produced figures to show that these expectations were well founded and were carried out by the experience of past years. The Controller thought the estimates for engineering, water rent and liquor license were \$50,000 too high. As for water rents, which the committee estimates at \$600,000, last year's receipts were \$520,000, and \$129,000 are delinquent, of which \$50,000 had been paid yesterday. Licenses, he thought would bring more than last year, as the new act gives all the fee to the city. Engineering was an uncertain quantity, and depended on the street work done. The question of curative legislation was referred to

with his young wife to Dinwiddie street. He had been married only a short time to a young lady of Allegheny. They rented out several rooms to young men friends of Mr. Harvey and lived in comfort and happiness until a few weeks ago when the young couple had some difficulty. It culminated Wednesday in the extent mentioned in the papers. He said that there was no reason to suppose that the victims of the massacre belonged to the Mafia or any other society. It was rather Mrs. Harvey leaving the house and going to her mother's home.
