CALL TO THE COURT

For Clemency, to Be Extended by the Local Trades Councils.

A CHARGE OF RACE PREJUDICE. Why Part of the Steel Plant at Unionton

The Locked-Out Corkworkers Reaffirm Their Posttion.

MISCELLANEOUS INDUSTRIAL NOTES

The Central Trades Council will be asked to-night to became a party to a petition to the courts asking for a rehearing in the case has excited considerable attention, not only among the local German and Hungarian laboring classes, but among all foreign elements in 6ther sections of the country. The finding of the local courts has been even severely criticized by German societies in St. Louis, Chleago and other large cities. Especially was this the case in Chicago, where the Socialists denounced the verdict rendered in the case, and resolutions were adopted demanding a new trial for the men.

Acting on an Attorney's Advice. So much interest has been created in the matter that the local German Trades Council took the matter up. During the fore part of the present week a committee was appointed to look into the matter and get the advice of an attorney on what would be the best course to pursue. Subsequent actions of the committee indicate the nature of the

The committee has prepared a petition to be presented through an attorney, setting forth the facts out of which the sait grew, the circumstances surrounding the riot at the Braddock Steel Works where Michael Quinn lost his life, and the claims that the verdict in the case was arrived at through a prejudiced feeling against the Hungarian defendants because of their nationality, and praying that the Court be leasent with them and grant a new trial when one is applied

It was the intention at first to denounce the Court and the jury which rendered the verdict, but this idea was abandoned through the better judgment of the members, and another plan was decided upon. The petition has been passed upon by the German Trades Council, and two delegates to the Central Trades Council, who were appointed tition be indersed by the English body,

Wise in Their Conservatism. Cal Wyatt, a prominent member of the Trades Council, was seen yesterday, but could not predict what would be done. He thought the Germans had acted very wisely in adopting the more conservative course, and that they will be likely to accomplish more in that manner than any other. He believes the verdict was unjust, but thinks the only part the labor organizations should do would be to ask for a fair, impartial and

unprejusted rehearing. Secretary Hienze, of the German Trades would not say anything until after to-night's meeting, until the English council explains their position on the question.

ALL HANDS PAID OFF.

Armstrong Bros. & Co.'s Locked-Out Corkworkers Renew Their Position.

The locked out onekwarkers of Armstrone Bros & Co. were paid off vesterday and were told that their union would not be recognized in the future. The employes held a meeting last night and voted unanimously to stand firm. Everyone pledged thems-lves not to go to work Monday, when the firm says the works will start, except as A member of the firm said yesterday that

they expected to resume operations on Mon-day with at least 200 hands. This fact was stated to one of the workers last night. He laughed and said: "The only evidence of weakness that ever was noticable in our ranks was among a few of our unskilled workers There was not a dozen of them altogether and most of them were women. They are all right now and not one of them will go to work Monday morning. Of course, if the firm says we can go back as a union all right, we will be at work, but under no other consideration. The firm must make the first undvances now. Their 'bluff' about moving the factory will not have the desired effect on our people,"

NOTHING OF MOMENT.

No Extraordinary Meeting of Allegheny County Light Company to Be Held.

Some conflicting reports have been printed regarding the Allegheny County Light Company, which officials desire to see set right. There has been no call for a special meeting of shareholders issued, because no reason for any such meeting exists.

The ordinary monthly meeting of the diery, which should have been keld last Tuesday was postponed, as a matter of conventence, until Thursday, and the meeting then proved abortive, because there was not a quorum present. The next meeting of the pard of Directors will occur on the third Tuesday in April.

WORK ON A NEW FACTORY.

The Glass Works of Phillips & Co. Are Going Up Rapidly.

Work on the new buildings of Phillips & Co., of the Southside, is progressing rapidly. The new furnace will be a regenerative one for 36 blowers. Eight gas producers will be employed, and they are expected to furnish enough gas to supply the whole

The firm has purchased a newly discovered white sand mine at Mapleton, Pa., where 75 tons of fine glass sand are now being pro-

UP AMONG THE CLOUDS.

Prof. Renard Explains the Principles of Aerial Navigation.

Quite a large crowd of interested spectators assembled in Old City Hall last night to listen to a lecture by Prof. J. Renard on serial navigation. The professor exhibited his new air ship, which has been described in detail in THE DISPATCH, and explained its construction and manner of operation. He went into the principles upon which be claimed serial navigation can be made possible, and presented his subject in a pleasing and forcible manner.

LOOKING MORE SERIOUS.

Steel Workers Locked Out at Joliet, and

Clerks Laid Off. The trouble with the Amalgamated men at Juliet is becoming more complicated. The scale for the ensuing year has not been settled, and the works are closed. The firm has auspended its clerical force indefinitely, and matters look serious.

The men who are out say it is no strike, and the mill officials say they are ready to start when the men will accept their terms.

Glass Packers Organize. The Glass Packers' Union predicted in THE DISPATCH a few weeks ago, has been organized on the Southside, and within the next few weeks other unions will be formed in Marion, Ind., Baltimore, Md.; Millvale. J.; Welisville, W. Vn., and Wheeling. A satisfied convention will be held in Pitt-burg in July, by which time it is expected all the glass conters will have been organ-

Plasterers in a Muddle.

The Pittsburg plasterers are in a muddle. The trouble is over the granting of cards unauthorized by the General Secretary. Members of the suspended union at Altoona have been coming to Pittsburg with cards secured in some illegal manner, and the Pittsburg unions have refused to accept them. There will be an investigation.

REASONS GIVEN FOR IT. Is Idle Half Time. A member of the Columbia Iron and

Steel Company stated yesterday in regard to work at their plant, that it was quite true, as claimed by one of their employes, that the Bessemer plant was only running half This is the reason it was necessary to make the contemplated improvements. The fin-ishing department had only half the capacity of the converting department, and it was necessary to increase the enpacity of the

cases of the Braddock strikers, who have former in order to keep both in operation been convicted of murder. This and keep up with the largely increasing business of the company.

The work on the big Chicago order is progressing rapidly. Two large lots of struc-tural iron have been shipped and the remainder is being gotten out as rapidly as

> BILL NYE has secured the diary of noted diner-out and constructs out of it one of his brilliant humorous sketches for THE DISPATCH to-morrow.

CHECKING PIG IRON RATES.

The Rock Island Announces a Reduction t St. Paul From Chicago. The Pittsburg committee met vesterday to check up the pig iron tariffs under the \$2 50 rate to Chicago. Some of the members being absent, the work was postponed until Mon-

Commercial Agent J. A. Hall, of the Rock Island, vesterday received notice that his road would adopt an 18-cent iron rate in carloads and 20 cents less than carloads from Chicago to St. Paul, going into effect March 30. This would make a through rate of 33 cents from Pittsburg to that point.

Making Electric Bulbs.

Electric bulbs are now being made by the Phoenix Glass Company, of Phillipsburg. They have 11 shops employed and are producing ware that is said to be of a superior quality. They have received a large order from an Eastern electric company.

Industrial Notes. WORK was resumed at the Baker Chair Works vesterday.

SECRETARY MCBRTDE, of the United Mine Workers, was in the city yesterday. to confer with their German brethren, will report to-night and recommend that the pe-

GEORGE A. MACBETH has let the contract

for his new chimney factory, to be erected at Eliwood, Ill. PRESIDENT GOMPERS has issued a call for aid for the miners' struggle for an eight hour work day, to begin May 1.

THE trouble at the Ivill mines, operated by James Jones, of Monongahela City, has been adjusted, and 400 men have returned to work. THE carriage makers will hold their final meeting on Monday night to complete arrangements for making their demands for nine hours, April 1.

PRESIDENT GOMPERS' ovation in the West ontinues. He spoke in San Francisco on the 10th inst., to over 2,000 men. He will, be in Pitts-

lRON MOLDERS' UNION No. 164, of Sar Francisco, has issued a circular to the trade asking men to stay away from that city until their strike is settled. THE case of W. J. Rainey against the labor

leaders and others in the mining district, which was to have been heard yesterday, has been postpoded until next Friday. PREPARATIONS are being made to resume operations at the Standard Oil Company's large barrel factory. A new machine for fin-ishing barrels is to be introduced.

THE Bombardment of Iqueque during the present rebellion in Chile will be described in THE DISPATCH to-morrow by that popular traveler and writer, Fannie B. Ward.
