## THE GRIP IS MASTER

Of Pittsburg, and Has a Very Tight Hold Upon the People Who Live and Do Their Business Here.

DOCTORS ARE AT THEIR WITS' END

In Their Endeavor to Control a Disease That Is of a Most Stubborn Nature.

THE EAST END A GREAT SUFFERER.

Work That Is Delayed to a Great Extent by Sickness Among Employes.

"A rising temperature and a depressed pulse," That means "the grip" provided there are several other things connected therewith; as, for instance, an ache that may strike you, either in the leg or in the head. But "grip" it is, and there are many thousands of people in Pittsburg and vicinity who are suffering from its effects. They are wearied looking and they "feel bad all

Men of business go from their homes feeling chipper as the lark. When they leave the cars, or their carriages, as the case may be, they have a "stitch" in the back. If at the same time there is a bad cold, influenza troubles, or kindred complaints, then, that is the grip. The grip is no imaginary disease, for there are so many thousands of cases in Pittsburg that there are physicians who say that certain lines of their practice have to be neglected in order that they may attend to the immediate wants of those who are sufferers from what they may term colds, but that physicians know is a well defined

No Part of the City Exempt.

exempt from the grip. The center of the | ing point to-day. city has its sufferers, and the East End has more than its quota. Downtown hardly seems to suffer so much as the outlying sections of the city. There is a theory that the working up of ground for the making of new streets may have an effect upon the health of people who live near by. At all events along Fifth avenue where they are tearing up the ground to make new streets there is no doubt a great deal of sickness of this kind.

Dr. Joseph N. Dickson has pronounced views upon the grip. His theory is that it is a germ of disease, and that it flourishes in a temperature of from 450 to 700, its best habitat, however, being in a moderate temperature. Dampness of the atmosphere, he said, coupled with just such a temperature as Pittsburg has had during the winter, made the conditions for the grip. He was of opinion that the disease was now more virulent than ever before.

"There is one peculiarity about the grip," said Dr. Dickson, "and that is that one sttack does not give immunity from another attack. It is a disease that will hunt out the weak parts of the human frame. Where muscles are weak it will find them; just as it will search out all the twigs of the nerves. The symptoms, or at least some of them, are

a suffused face and eyes. Some of the Sure Symptoms

"Again, and the main thing after all, is a rising temperature and a depressed pulse. Those are symptoms that cannot be found in any other disease. They are contradictory, and only in my practice with grip cases have I found them. I don't know that in all my years of practice in this city have I epidemic of grip as we had it here last winter everyone remembers. It is worse now.

"To show how bad it is, I want to tell you that I have been compelled to give up surgical cases for fear that the patients would suffer from the prevalent disease. And right purely by atmospheric conditions. The germs are kept within the human reach by such weather as we have had. As you know, there has been but little sharp, crisp atmosphere. Clear weather, whether cold or warm, will send these germs up above.

That's what Pittsburg wants, and when it comes there will be no grip." The effect of the grip is seen and felt more strongly in the large business establishments than in the resident districts. Many large concerns are running short-handed owing to the absence of their clerks. They are home with the "grip." That excuse goes with the proprietor or the manager, for the chances that he has been there himself, or may be suffering from the same disagreeable disease at the present time.

Out in the East End.

Common report says that there are fully 1,000 cases in the East End. The East End covers a large space of ground and various classes of people, but the grip has made no distinction. The physicians out there are suffering, in proportion to their numbers, to the same extent as the laymen, and it is no uncommon thing for a sick call to be answered with the reply from the physician's servant that "the doctor has the grip." Five of the members of the Highland

avenue engine company are laid up-with the disease, while classes in some of the publie schools have been dismissed owing to the sickness of the teachers. There is hardly a place where many people meet through busi-ness necessities that there is not a noticeable absence of some who would otherwise be present. Some of the doctors in the East End, while telling their patients that they must not be alarmed at the prevalence of the grip, can hardly move about themselves, and encourage their patients by remarking that they themselves have only a bad cold, and that it will wear away shortly. They sometimes are more sick than the people who pay them for their services.

Sufferers on the Southside. Notwithstanding the high altitude of Allentown, Mt. Oliver and Mt. Washington the grip seems to have a firm hold on the people over there. A visit yesterday to the hills showed a large number of cases. A short list of those who have been laid up with an attack is as follows: H. J. Alt and wife and Charles Alt and

wife, of 99 Washington avenue. J. G. Chartener, 80 Washington avenue, the wellknown druggist, had a severe attack. E. T. Schaffner, the real estate agent, 72 Washington avenue. Jacob Smith and Patrick Carlin, also of Washington avenue, have had evere attacks. Frank Kuss and wife and two children are laid up. They also live on Washington avenue. Theodore Swartling and wife and three children, 88 Washington avenue. William Krebs, of Beltzhoover borough, had a severe attack but is recovering. His wife and three chil-dren are still laid up. George Shafer and wife, of Beltzhoover, also William Keilen and Sebastian Arnoid, of Allen avenue, are aufferers.

Almost every house in Allentown has a case of the grip either light or severe. One physician said be thought the windstorm of last week was the cause of the disease being so prevalent, especially in the hill districts, where the wind got a fair whack at them. "A great many of the cases reported are very light ones," said he. "I find that persons who had an attack last year are very susceptible this year, and a sudden change in the weather affects them." Another physician thought it was not so bad as reported. While acknowledging that the grip was here, he thought that not more than one in ten cases were the genuine grip. "It is getting to be the fashion now to have the grip, even if it is the slightest cold imaginable," said he.

#### THEODORE THOMAS IN HOT WATER.

But the Musical League Takes No Action on His Alleged Boycott.

MILWAUKEE, March 20 .- The National

League of Musicians to-day discussed resolutions bearing on the charges of Theodore Thomas' alleged boycott of Chicago musi-cians. They declare that, in view of another impending importation of foreign musicians, in violation of the rights and privileges of American citizens under the alien contract law; and in view of the Chicago Orchestra Association's scheme of securing Theodore Thomas and colonizing in Chicago his so-called orchestra recruited in New York and called orchestra recruited in New York and European musical centers, and expressly stating that in their contract with Mr. Thomas no Chicago musicians were to be contracted with as regular members of his said orchestra; and whereas, the Chicago Musical Society denies the lack of capable performers on any instrument, making importations unnecessary, and whereas, Mr. Thomas, as a member of Local Union No. 1, New York, is amenable to the laws of this body, that is amenable to the laws of this body, that union is instructed by the resolutions to call on Thomas to annul such contracts as con-trary to the spirit and laws of the league, and in case of his refusal, to discipline him to the extent of its laws.

After a heated discussion the resolutions were finally withdrawn at the urgent request of the New York union, because the Chi-cago delegates did not have any document-ary proof of their charges against Mr. Thomas. The proposition to join the Fed-eration of Labor was finally ruled out of order, and a resolution to make low pitch the standard musical pitch of the United States, was adopted.

HOWARD FIELDING, the popular young humorist, will have one of his very best stories in THE DISPATCH to-morrow. There is a laugh in every line.

#### A NICE POINT RAISED.

A Lawyer Holds That Chinese May Legally

Cross Over in Rowboats. UTICA, N. Y., March 20 .- In the trial of James A. Miller, alias James Muldoon, for smuggling Chinamen into this country, now in progress before United States District Judge Coxe, in this city, Attorney DeAngelis, of this city, who was assigned There is no section of Pittsburg that seems | to defend the prisoners, raised an interest-

> The Chinamen came to this country by a rowboat across Niagara river. The statute provides that it is a misdemeanor to aid or abet any Chinese person to enter the United States by land, or to aid or abet any such to land from a vessel. Mr. De Angelis argued, and the Government admitted, that the rowboat was not a vessel within the meaning of the statute. Mr. De Angelis argues that coming by rowboat could not be construed to mean coming by land. The effect of this construction of the statute would enable Chinamen to come to this country by rowboats. The court held that, for the present ent, he would hold the statute broad enough to cover coming to this country by whatever means, but promised to give the question further consideration, and change his ruling, if wrong.

MURRAY has sent bright, short interviews with people who drift to New York, Read to-morrow's big DISPATCH.

#### THE WESSELS COURT MARTIAL

The President Sustains His Objections, but Reprimands Him.

St. Louis, March 20 .- President Harrison has sustained the objection to Captain Henry Wessels in the court martial case against him. A court martial had been ordered to try Captain Wessels at San Antonio for insubordination and language unbecoming an officer and a gentleman, but objection was made on the ground that the order had not received the President's signature, and was, therefore, invalid.

In sustaining Captain Wessels' objection, the President severely reprimanded him.
