ALL THE OLD TIME BALL PLAYERS.

Washingtonians Want Harmony Between the Two Factions.

YESTERDAY'S GOSSIP OF THE SPORTS.

CORRESPONDENCE OF THE DISPATCH. WASHINGTON, March 22.-Several of the members of the local ball team have put in an appearance with the expectation of beginning regular practice next week. Me-Guire, who formerly caught for Philadelphia, but more recently with the Rochester team, arrived here last Wednesday, looking the picture of good health. He says he is in excellent condition and his throwing arm is in first-class shape. He jokingly reman of the Baltimore club, who happened to be present that the latter would not be able to steal a base on him during the coming season. Perry replied good naturedly, that his Baltimore companions would shortly accom-

that there will be no repetition of last year's experience.

Baseball May Be Profitable.

He realizes that baseball can be made a profitable business for players and managers, provided the two classes combine their efforts to give the patrons of the game the worth of their money. The people do not care about ments. her money. The people do not care about he internal affairs of the various clubs, but

of the Washington club, according to Paul's report, was born in Hoboken, and although he ould readily pass for a "25-year-older" the substitutions show that he is 25, married and father of a family. Paul proposes to hold to the Government position until the champant position and the champant position and the champant pays of all-sence without pay, so he can reas cherical work when the fall puts an door work. He is taking regular exthe running, club swinging, putting the etc. and thus he has worked off over 20 as of superfluous flesh. as shows a level head in trying to hold on

THE OIL SITUATION.

A WELL-POSTED MAN SAYS THAT BET-TER PRICES WILL PREVAIL

He Predicts That the Fluid Will Go Up to a Dollar at Least Before the Year Ends -Many Hundreds of Thousands of Dollars Invested in the Business.

We invite the attention of the oil readers

of THE DISPATCH to the general situation and outlook of the industry. A gentleman whose experience in the business and whose association with the Standard Oil Company gives him a knowledge of the great subjects low occupying the attention of the trade, said to THE DISPATCH scout that he looked for better prices to prevail soon. In a very emphatic manner he said that the year would not pass out of existence without oil going to \$1.

"I have not," he said, "the least due that the great staple will stay at this figure for any length of time, but will recede as fast as it went up. I want to tell you that the oil situation to-day is very peculiar. There is more amateur capital engaged in the husiness at amateur capital engaged in the business at present than ever before. Within the past year, from Allegheny and Pritsburg alone, there has been over \$1,000,000 invested, which marked to Perry Werdon, the big first base- in a great measure is the cause for the high production, and upon the whole there has been but very little money made, as prices have been so low that one has got to strike a big well to get out even. The demand for foreign pe

season. Perry replied good naturedit, that his Baltimore companions would shortly accombany him to Washington to see what the Senators knew about hall playing.

Players and patrons of the game in this lecality are anxious to see harmony between the League and the Association, believing the best leterests of the game demand it. Perry Werden is a practical man with good judgment and an ambition to make a success in the profession. While conversing with me on the general situation, he expressed a sincere hope that there will be no repetition of last year's of. It is also an unfortunate fact in this field that the southwest line is not producing the

ments.

BUTLER COUNTY—Aside from the Jefferson to see their favorite teams made up est available material, and they expect for the past week has been of an uninteresting character. The low price for the commodity and the almost impassable condition of the this period, present ment outclasses past roads have a tendency to restrict operations in the fields not accessible to the iron horse, and the fields not accessible to the iron horse, and until these matters become a little more favorable the hunt for new pools will not be pushed with the usual vigorousness. That there is an absence of reasonably safe territory goes with out saying, but the Butler operator usually finds something about the time his obituary is ready to be written. The dealers in oil well supplies report an improvement in their business during the past week, which denotes more activity in new operations which will show up later on. The latest field news is appended: Joseph Hartman & Co., completed their No. 10, on the Byerly heirs farm. Friday, which proved to be a veritable gusher, starting off at 10 barrels an hour, Further drilling brought it to the 90 barrel an hour notch, from which, however, it declined quite rapidly to 32 barrels, at which figures it is holding remarkably well. Their No. 9, on same farm, proved to be a western on several of his 'venerable' companions, and figures it is holding remarkably well. Their they attempt to hold him up to public gaze as a veteran he will draw the official data on them.

One of Panl's Records.

ins No. 1, on the Burtner farm, located Phillips No. 1, on the Burtner farm, located several hundred fest to the north, is in and good for led barrels per day. His No. 2, Swaney farm, is also showing for a 100-barrel well. Fisher Oil Company have a rig under way for their No. 2, Knauer farm, about 1½ miles north of the developed field, with the hope of catching on to the prolific streak. McMichael & Co. 2, Joseph Logan farm, still have an intricate tabling experience. There is polyling experience. 2. Joseph Logan farm, still have an intricate fishing experience. There is nothing especially important at Muddy Creek north of Prospect. McFariand's Shanor No. 3 well is the best well in the field, with 30 barrels per diem. Innis & Criswell's Hockenberry farm venture has stopped flowing. It will be drilled through the sand and tubed. There are two wells drilling and four rigs up at present. With the advent of good roads this section of the county will be thoroughly tested, at present impossible to get material in. Lesses have a good value on account of shallow depth, making it inexpensive to operate.

on account of shallow depen, some pensive to operate.

ZELIENOPLE—McNally & Co.'s well, on the Fankerd farm, is holding up at 50 barrels per day. Marsh & Co.'s No. 2 Mullen farm, is 30 feet in sand of good quality, but without gas and very little oil so far. Deeper drilling may

find the latter.

CALLERY - Fors: & Co.'s No. 2 Staples farm, is complete at 74 feet in the sand, and tubed with prospect for only fair pumper. Carter & Co. No. 1, H. D. Cashdoll., completed at 65 feet in sand, tubing to-day; completed at 65 feet in sand, tubing to-day; a small pumper in view.

Petitions containing over 3,000 names of oil producers and citizens of this county will be sent to Harrisburg, asking that a further proviso be added to House Bill No. 32 excepting the drilling and operating of oil and gas wells from its provisions. A committee of three of the most prominent operators doing business in the one hundred-foot field will also go in the interest of the adoption of this amendment. Some of the salt water, as produced from wells, will be taken along to be analyzed, showing that it does not contain any substance deleterious to health. Samples of the different creek waters will also be analyzed. The producers are alive to the situation that an industry

employing an army of men, is being wrong-fully legislated against.

THE TREND OF TRADE

Creamery Butter Lower in Price and Eggs Rising.

A DECIDED ADVANCE IN MEATS.

Rides and Harness Leather Quiet and

Prices Tend Lower. ALL CEREALS ARE MOVING UPWARD

> OFFICE OF PITTSBURG DISPATCH. SATURDAY, March 21. Country Produce.

In produce lines the features of the week past have been the rise in eggs and drop in butter. Ten days ago eggs were selling at 16c to 18c per dozen in a jobbing way, and now they are firm at 26c. The cold snap which has visited all parts of the country the past week has had the effect of reducing stock at all trade centers. Supplies at this market have not been up to demand all this week. There have been sales as high as 28c per dozen for single cases. Our Easter eggs are certain to be higher this season than for several years past, but it is hoped that prices will drop a little before another week is over. As an offset to the advancing market for hen fruit, butter has been on the decline for the week past. Creamery butter is fully 5c per pound below its highest point. Cereals have been stardily moving upward all the week. have been steadily moving upward all the week. At this date the situation all along the line

Dressed Meat Higher. Chicago dressed meat has been steadily on the advance for a month past. Last fall dressed beeves were sold at 4c to 7c per pound, while now the range of markets is 7c to 9c per pound. There is a scarcity of the cheaper grades of cattle of late, and likely to be from now until June. High-priced grain has had the effect of top price last fall was 8c per m. Lambs are 10 Mile, an advance of le over the lowest point. Dressed hogs are 1c higher than a month ago, 34,26c per m being the present range. There are about 400 dressed sheep and lambs and 200 dressed lioes handled here weekly by the representations of Objects from

sentatives of Chicago firms. Hides and Leather. Light hides are 1/2 lower than last week's quotations, and heavy hides are barely steady. The hide market for the past week has been extremely dull. There has been a decline in the Eastern markets the past few days, and while Western advices indicate an unchanged market, it is plain that prices are off every-

market, it is plain that prices are on everywhere. Caliskins alone are firm, the stock in
this market being very light.
One of the leading causes of depression in
light hide market is found in the quality of offerings. This is the time for good hides, and
at present low prices of leather tunners are disinclined to lay in stock ahead of necessities.
Following are prices of hides as furnished by

l	James Callery & Co., for stock laid down h
ł	No. I green saited steers, 60 pounds and over
l	No. 1 green saited cows, all weights

MARKETS BY WIRE. Bearish Advices Unable to Hold Wheat Down-Free Selling Checks the Advance-A Great Scramble for

Corn-Oats Higher. CHICAGO-Everything went hopping when the bell tapped for the opening on the Board of Trade Saturday. The squeeze in corn was mainly responsible for the early troubles in the other pits. The wheat market was very active at the start. First prices for May wheat were from \$1 02 to \$1 0214, and the demand was such as to carry it quickly to \$1 0214, realizing sales on this rapid advance caused a reaction to \$1 02, and it fluctuated nervously for a short time between \$1 02% and \$1 02% before again starting to climb. The second splurge carried it up to

to climb. The second splurge carried it up to \$1.03. July wheat was even more irregular and stronger than the March delivery. It started at from around 90% to 95%, and before it stopped it sold up to \$1.01, eaining nearly Ic upon May.

The leading futures ranged as follows, as corrected by John M, Oakley & Co., 45 Sixth street, members of Chicago Board of Trade:

		10000		The second second

NEW YORK STOCKS.

Share Markets a Little More Bullish, but Dall-The Financial Situation Wields No Influence-The Exports and

Imports of Specie, NEW YORK, March 21 .- The trading in the stock market this morning was on even a more contracted scale than that of the past few days, but there was a general expectation of a better bank statement than usual of late, and the traders were, as a consequence, more disposed to take the bull side, and a cessation of the hammering operations in the late active spe-cialties was changed into a desire to cover ciatites was changed into a desire to cover some of the outstanding shorts.

The further engagements of gold for export seemed to have no influence for the time being, and there is a confident prediction by the bears that more will follow next week. The general list displayed the usual lack of feature. The final changes, though almost all in the direction of higher figures, are confined entirely to small fractions. The market closed dull, but steady to firm, at small fractions better than the opening prices.

The following were the closing prices of the New York stocks yesterday:

NEW ADVERTISEMENTS.

How About Your Mother?

Scrofula or Kings Evil is the most stubborn of all Skin affections. Whether inherited or otherwise, it is a blood disease and cannot be permanently cured by anything but S. S. S. ****

A GRATEFUL DAUGHTER.

My mother was sorely afflicted with Scrofula for three years and a half; during that time the glands on her neck burst open in five places. Three of the openings were small and healed right up, but the other two would fill up and break open anew, about every two weeks, always causing severe pain and often prostration. She was so reduced in strength, that tonics and cocca wines had to be generously used to keep her alive. She commenced taking S. S. S., and improved from the start; the first bettle gave her an appetite and by the time she finished the fourth bettle her neck healed up. She is now entirely well.

Mrs. E. J. Rowell, Medford, Mass.
