

LEWIS ISLAND CROFTERS WILL BATTLE FOR THE HOMES WRESTED FROM THEM BY A HEARTLESS LANDLORD.

Who Aims to Convert the Farms into a Boundless Deer Park. MORE UTOPIA BODIES RECOVERED. Captain McKeeague Is Found Guilty of an Error of Judgment.

EDINBURGH, March 25.—Considerable interest is taken in the present doings and in the possible future of the determined crofters of Lewis Island, who are in a state of open rebellion against the local and other authorities.

On Monday night, it will be recalled, a host of 100 crofters of Lewis Island, of the west coast of Scotland, marched from one point of the island to the other, and arrived yesterday morning at Orisay Park forest, from which they have been ejected by the owner of the land in order to enable him to convert the forest into a deer preserve.

Upon reaching the forest the crofters entrenched themselves in the ruins of their former homes and prepared to stand a siege. They formed a camp, posted sentinels, who will announce the approach of any strangers, and have announced that they intend to cultivate the land which they formerly held as tenants of the landlord who purchased them out of their homes in order to gratify his pleasure in hunting; and in addition, the crofters said that they were prepared to resist by force any attempt that may be made to oust them from the land of which they have regained possession.

The rebellious crofters to-day have been engaged in doing their utmost, with the limited means at their disposal, to rebuild the ruined, demolished homes which they formerly occupied by their families. While the majority of the crofters are occupying themselves in this manner, others of the same party have been out hunting in the forest, and have had the good luck to find plenty of game.

A large force of police has been collected and is already en route to Orisay Park forest, with instructions to drive the crofters out of their homes and to camp at any and all costs. If the crofters resist, as they have defiantly announced that they will, there is a possibility of some bloody work being done within a day or so hence in the forest of Orisay Park. The sympathy of the people in general is with the crofters. Unfortunately for them, the stern laws of the land cannot be trampled with in the manner in which they were trifled with in the days of Prince Charlie and Robin Hood.
