Subtath school room about as great. The two rooms will be se arranged as to be thrown into one when occasion requires. Work will be pushed forward as fast as possible, so as to have the building ready for occupancy early in the fall.

### Moving Up the River.

Concerning the report that one, perhaps two manufacturing concerns are to be located in the Nine-Mile Run bottom, near Brown's sta-tion, and with which the firm of Singer, Nimick & Ca. is associated, a well-known business man whose home is in Hazelwood, said yesterday: whese home is in Hazelwood, said yesterday, "I think there is something in the report. Business is moving up the river very fast. If it keeps up the present rate of advancement for a few years the entire Monogahela river front from Patsburg to McKeepport will be covered with factories. With such an outlet there is no danger of overcrowding the lower districts. This is a matter of interest to outsiders desiring a locate here, and who may be labering under the welcom that manufacturing sites are scarce."

DULL IN THE OIL REGION.

All Still Oniet at McCurdy

McCurdy-Nothing of an exciting nature has occurred in this field to-day. Patterson & Jones found the sand in their No. 5, McCurdy, which is reported to be doing 250 barrels a day. The same company expects the pay in another well to-night on the McCurdy, which, from its ocation, is important,

Perhaps It Is a Fake. BUTLEE-A producer from Butler to-day said to THE DISPATCH scout that he had seen by a morning paper that the independents were building a pipe line and refinery. Continuing, my informant said that he had made the most diligent inquiry, but could not learn of any enterprise of this kind.

The Operations at Westview. WESTVIEW-They got the tubing and rods in the Bowman well Tuesday, which is now mak-ing 125 barrels a day. Mr. Kleiman, the Super-intendent for the Westview Oil Company, is doing considerable hustling since the advent of the Bowman well, and he has his No. 6 rig of the Bowman well, and he has his No. 6 rig up and will start spudding to-morrow. He has his No. 7 rig on the way. This company's No. 5 has reached a depth of 1,300 feet, and broken jars are being fished for, but with good luck will be cased this week. HOGS ACTIVE AND UP, SHEEP LOWER

COFFICE OF PITTSBURG DISPATCH. WEDNESDAY. March 25.

There have been all told 85 carloads of cattle on the market, at East Liberty yards this week, against 68 loads last week and 60 the week before. About one-half of the offerings were from Chicago, the other half from Ohio and Indiana. Average quality, as for a long time past, was poor. A large proportion of the beeres were common and low grade. There were few good cattle on sale and none strictly prime. Market opened Monday morning, with good beeves 5c to 10c stronger than last week, and common grades weak at prices ranging 10c to 15c lower. Stockers were very slow, there being no customers for this grade of cattle. About a dozen carloads of stockers were on the market, but there was little or no inquire. Market closed week all along the line. About 15 carloads were sent on in first hands, and there were a few loads in the yards this morning cool Ohio 1,500-pound steers. That these were good Ohio 1,500-pound steers. That these were growed a fair amount of attention,

stronger than last week, and common grades weak at prices ranging 10c to 15c lower. Stockers were very slow, there being no customers for this grade of catile. About a dozen carloads of stockers were on the market, but there was little or no inquiry. Market closed weak all along the line. About 15 carloads were sent on in first hands, and there were a few loads in the yards this morning unsold. The highest price paid was \$5.75 for good Ohio 1,500-pound steers. That these were short of prime is evident from the fact that \$6.29 was paid in Chicago for a carload of cattle by one of our fancy butchers. Fresh cows were in fair supply and were steady at last week's prices.

The run of calves this week was the largest of the season, there being not less than 500 head on sale. The range of markets was 5c to 6c per ib, a drop of 1/c since last week. The season is now here for large receipts in this line, and, according to precedent, a steady decline in prices may be looked for the next few weeks. Sheep and lambs—Receipts for the week have been large, nearly double the number of last week. There were 20 loads on sale Monday, against a dozen loads the previous Monday. Markets onened slow at a decline of loc per; cwt, and have continued slow till the present time. Lambs were weak-est. Choice sheep, which were few, nearly held their own. A few bunches of Ohio sheen, weighing 100 to 110 lbs., were sold at 6c per lb., which was the top of the market. Too price of lambs was 61/c. A few spring lambs, weighing 40 lbs., were sold at 12c per lb. The run of hogs has been light, and markets were active and strong at a sharp advance all along the line. Philadelphias were sold yesterday as high as \$4.65 to \$4.70, an advance of 10 to 15c over Monday's price.

Chicago markets advanced 20c on Tuesday, but advises today are that the advance has

day's price.

Chicago markets advanced 20c on Tuesday, but advices to-day are that the advance has been lost and that \$4.20 is now the top price been lost and that \$4.20 is now the top price there.

That the recent sharp advance in pork and lard in Chicago is largely speculative must be evident from the facts given by a member of one of our leading firms. There were 200,000 more barrels of pork in sight on February 28, 1891, than at the same date in 1890; 100,000 more tierces of lard, and 58,000,000 more pounds of ribs.

Sharp Bull Attacks at the Opening Suc ceeded by a Breaking Market-Scalpers Short on Corn-Oats Comparatively Active-Other Markets.

CHICAGO-Bulls in all products made vigorous onslaught on their enemies at the opening of 'Change. The vigor of the attack showed that they considered their position temporarily week and that it needed bolstering up. Corn and provisions responded readily with a marked advance; wheat responded less freely. All of the markets broke badly before the day was far advanced. The bulge at the start was due to light local receipts. Re-sales caused the first break. A report of decrease in available supply turned the crowd locse on the
