WANT THE MILITIA.

Coke Operators Threaten to Call Out the National Guard to

AVOID FURTHER INTERFERENCE.

Nearly Ten Thousand Strikers Will Hold a Mass Meeting To-Day.

TWO PLANTS STARTED UP YESTERDAY

Yesterday's developments in the coke regions place the strike in a position to swing either way. At the local office of the Frick Company it was reported that two new plants were being fired. These are the Adelaide and Leisenring. It is said that 56

Sunday are respectfully to attend. 2

Fires have also been started in the large Morewood and Leith, Redstone, Stirling, Jimtown, Leisenring Nos. 2 and 3, Adelaide, Broadford and Mutual plants. Every oven of the 154 at the latter plant is said to be in full operation and officials say they are flooded with applications for work. The McClure Company's plant of 70 ovens at coke will be shipped from the Lemont works

On the other hand, the workers' officials the men who have succumbed were compelled to do so under the most glaring misrepresentations, and when they come to understand the situation they will be glad to rejoin the strikers.

A Few Surprises Predicted.

The two leading companies expect to have more of their works fired to-day, and predict more surprises to the men. All the other companies in the district, large and small, are expected to follow the lead of the big Frick Company, by proposing to their men to go to work on the sliding scale. This movement will be inaugurated next week, and will embrace the Stewart, Cochran, Cambria, Hostetter, Heela and all the other companies in the region. The labor leaders are making great

for this reason a mass meeting of the strikers of the entire region will be held today, when 10,000 men are expected to gather together. President Rae and other heads of the organization will address the The operators say they will have the militia called out if any movement is made to interfere with the men who are now working. General Manager Lynch, of the Frick Company, stated yesterday very posi-tively that their works must be operated at the terms they proposed, and if the em-ployes, against whom there would be no discrimination, did not resume work within

preparations to checkmate the move, and

discrimination, did not resume work within a reasonable time, the management would get other men who would work. Determined to Resume Operations. This assertion simply means that new men are to be imported to replace the strikers if necessary. The managers of the other works talk in the same strain, and there will be interesting events ahead if the men remain firm. The charges made by the operators that the labor leaders had been dilatory in trying to effect a settle-ment has created a great deal of excitement, as they so stated in their notices posted, which certainly has had an effect on the

men. James McBride, a member of the miners' Wage Committee, said yesterday: GRUBBS-Tb "The operators are laboring under a mis-apprehension. At the last conference they made the astonishing statement that they would hold no other conference, except on the basis of a 10 per cent reduction. took them at their own words, and decided not to make the first movement toward another conference. Their late proposition The Opera House at Scottdale was packed with strikers yesterday and addresses were made by all the labor leaders, and resolu-

tions of faith in the cause were passed. Working Under a Special Guar I.

The men at the Leisenring No. 2 plant, who were raided by the striker, on Thurs-day, were working yesterday again and there was no interference. They were well guarded by special officers and deputy sheriffs. All was quiet at the Morewood plant, which was threatened by the strikers. This plant is also under guard to prevent any outbreak. Vice President Penna was seen last evening and he said: "The operators are pursuing the wrong course with the men of the region. I never saw so much en-thusiasm before, as I saw at the many meetings I have attended. The miners are exasperated at the efforts of the operators to force a resumption, and if they should attempt to use force in making the few who have gone back quit work all the officers in Pennsylvania could not prevent them from carrying out their wishes. We have counseled them to resort to no violence, and will continue to do so, yet everything of a friendly character that has heretofore existed in the region has been effaced by the operators' tactics this week."
