AN EXCITING LOCAL FOOTBALL GAME.

The Proposed National Cricket League-General Sporting News of the Day.

SPECIAL TELEGRAM TO THE DISPATCH, > CINCINNATI, March 28.-The Cincinnati League club organization is now in chrysalis shape, and if the new officials are not named to-night Monday will see the club properly officered and all ready to enter upon

he year's campaign. When the League adjourned before midnight everything was about shaped up for a final settlement this morning. The chances are a thousand to one that the local capital secured by John T. Brush and his associates will be placed in control of Cincipnati affairs. That means that the club will at once be organized under the papers of incorporation secured some time ago by Messrs.
N. Ashley Lloyd, Clark D. Frost, J. C. Mason and Jim Dawson. That is the programme likely to be followed out. The League magnates are so sure of clearing up the calendar that they have been ticketed for the return The late night session was responsible for a

The late night session was responsible for a delay in reassembling this morning, and it was morn before the delegates were called together to take the last fail out of a question that has perplexed the local baseball world ever since the Players' League tumbled over the back stop anto the graveyard of dead organizations. The New York Brooklyn, Boston and Philadelmia delegates return home together tonight, John T. Brush and, in fact, all those at the meeting, will leave on early trains. Mr. the meeting, will leave on early trains. Mr. bush will doubtless return on Monday. President Kramer, of the America. cition alleges that Young is about to pay obnson the money, and the trustees, as beneficouries, have not been consulted or their rights protected. This is a ten-strike move on the part of the Association to stop the payment of the money until the application for a receiver is heard and a decision is rendered. President oung this afternoon said:
"This restraining order will have no earthly

effect on the Cincinnati club. We will have the order modified, and it will only keep Johnson out of his money for a few days longer than ong the earliest theories as to the effect

the Association to obtain an order for a re-ceiver of the Cincinnati club, with a sale of its effects, so that they can purchase the grounds now claimed by the League club.

NATIONAL CRICKET LEAGUE.

It Is to Be Organized and Pittsburg May Be in the Circuit.

It is believed that the league will comprise the cities of Philadelphia Baltimore, Boston, New York, Pitts-burg, Detroit and Chicago. It was at first in-

adopted by Mr. Wharton.

This is that the grames be played on the tie principle. Ph?adelphla would play faltimore, New York would play Eoston and Chicago would play Detroit or Pittsburg; the winning clubs would meet again, the idea being to save traveling as much as possible, while the final winning club my ht be known as the champion team of the United States. The committee appearance is look offer the matter in Publish. of the United States. The committee appointed to look after the matter in Philadel-phia have been unusually slow in settling down to work, but the energetic hustlers in Chicago would not let them rest, and, after waiting in vain for the Quaker City gentlemen to open correspondence, they took the matter into their own hands, and have since been in com-munication with the representative cricketers in the crites named.

munication with the representative cricketers in the cities named.

Mr. Wharton, however, is now back from Europe, and with M. C. Work, of the Belmont Cricket Club, is working energetically to place the scheme on a firm footing in cricketing cities throughout the country. A meeting of those interested in the project will be called for an early date, when it is believed the matterwill be finally settled and the first series of games arranged. The meeting will probably take place in Philadelphia or New York.

AN EXCITING GAME.

The McKeesports Defeat the Thistles in a Lively Foot Ball Match.

The most exciting foot ball game that has ever taken place in or about Pittsburg, was that of yesterday at Recreation Park. The contending teams were the McKeesport and Allegheny Thisties. The contest was one of the League champtonsip series and was witheard by nearly 1,000 people.

Hefere the game had proceeded far it was apparent that party feeling was extremely high
DISPATCH:

parent that party feeling was extremely high among the spectators, and as the game progressen several "rows" were threatened. Contrary to opinions the McKeesport team won and this tended to considerably dampen the champooship aspirations of the Thistles. During the first half of the game the McKeesporters failed to score, and the Thistles carbed one goal. When the half was ended it looked as if the Thistles were sure winners. But in the second half the McKeesport kickers completely out-stayed them and piled up four goals, while the Thistles only scored one. Thus the game coded 4 to 2 in favor of McKeesport.

Alexander Macpherson ably officiated as referee, although be had quite an unpleasant task to perform. A game was scheduled to task to perform. A game was scheduled to take place between the Eureka and Lawrence-villes. The former did not appear and the Law-revilles were given the game.

The Great Wrestling Match.

Interest in the Reilly-unknown wrestline match is becoming very great. The contest is to take place next Saturday evening in a hall to be selected this week. Both men are in excellent condition. Reilly was never in better form in his life and his friends are extremely confident of victory. He is a strong and courageous little fellow. The unknown is also as your little relief. The unknown is also as "in she can be made, and is now at weight, pounds. He and his friends too think they mot lose, and as a result the betting is alway quite lively. CAYLOR'S RACY CHAT

The Famous Baseball Writer Satirize Players' Characteristics - Cranks Enjoined to Keep an Eye on the Pittsburg Team This Season.

CORRESPONDENCE OF THE DEPATCH.

New YORK, March 28—It has been a great week in the workings of the whirling world. Mr. Twohase Greatform came to town and re-ported to his club for the season of 1891. Mr. Greatform spent the winter in Jayville, where he had a lucrative clerkship in a blackwhere he had a lucrative clerkship in a blacksmith shop. When his club manager wrote to
him a few weeks ago and made a request that
he should report promptly, six suns after St.
Patrick's day, Mr. Greatform wrote back for
the price of transportation. He explained that
his winter earnings had all been invested in
poorhouse preferred bonds, and were not
available for car fare.

I was at the depot to welcome Mr. Greatform
when he arrived. The gentleman ameaned

somewhat rocky on account of his inability to, get much sleep in an upper berth of the smoking car. Having grown bald-beaned in the service of the ball field, he was unable to get a scalper's ticket, and, though a first-class player, he was forced to travel second-class or walk quite a distance.

Mr. Greatform never felt better in his life. He is in superb condition, and will not have to work off more than 40 pounds to get down to his playing weight. He will probably play the game of his life. Such at least is his present intention. He believes his club will surely win the championship, if the umpires give him half a chance on balls and strikes. It should not be forgotten that Mr. Greatform's arm which troubled him last season is as good as it ever was, if not better; nor that he has not touched a drop of liquor since last Saturday. His eyes are ruddy: his cheeks are blue and he seems to be the very you-touch-the-button-we-do-thebe the very you-touch-the-button-we-do-the-rest-of health.

High-priced Hitemhard writes that he cannot possibly report before next Monday, as he has just purchased a railroad and will have to lift a few of the first mortgages and refund some of the bonded indebtedness. Phenomenal Outcurve is expected to-mor-

row. Last Saturday he led to the altar Miss row. Last Saturday he led to the altar Miss Bridgie Gilhooly, the belle of Onion Crossroads, where she moved in the best squares of society. Mr. and Mrs. Outcurve have rented a cottage in Harlem and will keep house until the biasters compet them to vacate.

The entire team will meet on Monday at the grounds, when Capitain Cantlose will take glarge and give them instructions. He will insist on every man doing his duty whether they will or not, and will demand harmony. The first member of the team caught in an attempt to member of the team caught in an attempt to

will-or not, and will demand narmony. The first member of the team caught in an attempt to blow up a comrade with gun cotton or dynamite will be fired.

All these things, and many more of like interest, have been broken to the public in gentle doses by the daily local napers.

And now all we have to do is to contain and restrain our swelling souls for geveral weeks while Greatform. Hitemhard. Outcurve, Cantlose and the rest of the darlings get not par excellent condition to open up the championship season. Then we'll hear the umpire yell: "Play—Streek—Ball tree—Yon's out—What's that?—Fine you ten?"

And the coacher's buzz-saw voice will make the grand stand rafters rattle with "Hi, there, Jin!—Now you're off!—Git-a-move-on-yer—Look out! Whoa—Take more room—Go!—Come back; slide!—Ah, who's holding yer?—Never touched him, Phi!—I say he didn't!—That's all right; why don't you make it fifty—You oughter be shoveling coal instead of tryin' to umpire—You give me distress in my kidners—See!"

Perhaps the "andience" may take a hand

neys—See!"

y Perhaps the "audience" may take a hand occasionally and bandy remarks like these. "Now, Roger, a home run—three strikes? Well! Well: Oh, you old stiff on third! Better put glue on your fingers. Say, Cap, where did you get that dub out in the field? Try tiddlewinks. Kill de umpire. Robber! Thief! Mafial Wow, wow, wow!"

Before I forget it let me say that Smythe Skyscraper of last year's O'Neillets is still dis-engaged. He has had 13 offers from managers, but doesn't want to be too hasty in signing. He

Mr. Johnson contracted his rheumatism by contact with the cold ground on which he was thrown so often during the winter, to say nothing of the change of baseball localities in which he has been residing of late.

All these things have given me a pain, too, and I may have to go to Hot Springs or Cold Springs to soak it out. And now we have the Gladiator and Gentle

That team is liable to make trouble for the sure pennant winners. If the pitcher4 will do what is expected of them the Pittsburgs will be in it right up near the front. And what a queer sensation that will be for you folks who live and have your existence at the junction of the Allegheny and Monongauela The anticipation of such things is calculated

to spoil the fond memory of the 115 heroes of last season—weren't there 115 of them? There was something of that denomination belonging to your last year's club, I am sure.

HALL AND FITZSIMMONS A Business-Like Effort to Get These Pugilists

to Fight. PORTLAND, ORE., March 28.-Jim Hall, of Australia, and Harris, the manager of the combination of which the former is the central figure, arrived in this city this afternoon in answer to a telegram requesting their presence to consult with local sporting men on the sub-ject of an offer of Grant Bros., of Astoria, of a \$17,000 purse to be fought for by Hall and Fitz-simmons. The Astoria men deposited the full amount of coin in the First National Bank of this city to-day.

Shortly after the arrival of Hall and Harris the latter deposited \$2,500 as forfeit money for Hall with responsible parties. These prelimi-nary arrangements are considered binding, and the fight will probably take place two months from date.

A Letter From Hawkins.

Ed Smith, the Denver pugilist, now in this city, received a letter from Billy Hawkins, the lightweight champion of the West yesterday. In the letter Hawkins terms Jack McAuliffe a "coward," and be (Hawkins) deciares his will-ingness to fight any lightweight in the world for a \$4,000 or \$5,000 purse. Hawkins argues that Smith would have defeated Godfrey had he (Smith) been in condition. The Western man further states that Smith will defeat either Hall or Fitzsimmons.

A copy of "Spalding's Official Baseball Guide" has been received at this office. The work is edited by Henry Chadwick, and he has done his work admirably. The "guide" this year is undountedly better in all respects than other boxers nearer his own weight ready to do battle, is a purele to all straightforward sportsmen. The affair is to be brought off in four mouths' time.

It is probable that the Olympic will offer a good purse for a go be-tween these feather-weights, to take place in May.

John Lovett, one of the contestants in the Homewood shooting handicap, yesterday issued the following challenge to G. E. Snyder: "I will shoot G. E. Snyder under the Homewood handicap rules for \$500 a side, A match can be made at any time by arranging a meeting at The Disparch office."

PAT FARWELL'S benefit at Braddock will take place Friday evening. He deserves a "big" house.

IF Brush and Johnson get the Cincinnati club between them they'll soon have excellent grounds and will be winners. If the Cincinnati ball grounds are to be sold at auction, surely the League has as much money as the Association to buy them.

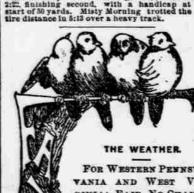

JIMMY WILLIAMS, writing in the Sporting Times, says that the outfield of the Pittsburg clusters one of the greatest in the country. It is said that Marcus Cartwright, who habeen the principal bookmaker at the New Orlean winter meeting, has lost over \$10,000.

MINOR NEWS FROM THE THREE STATES

SPECIAL TELEGRAM TO THE DISPATCH. HARRISBURG, March 28.-Governor Pattison to-night said that the visit of Dr. Orth, of this city, to the cell of Joseph Nicely was not by his direction. The Governor has not taken any action on the application for the respite of the murderer, and will not likely interfere with the execution of Joseph Nicely's death warrant. The evidence of the latter's alleged insanity is not sufficiently conclusive to justify the Governor in staying the execution, and as to the guilt of the Nicely brothers, nothing has been produced to convince him that they were

duced to convince him that they were wrongfully convicted. Governor Beaver spent several months investigating the case before his successor was inangurated, and he issaid to have been of the opinion, as the result of his inquiry, that the Nicelys were guilty of the crime for which they are to be hanged next Thursday.

A dispatch from Somerset says:

Joe continues to play the insanity dodge, though he slept well last night and atea hearty breakfast this morning.

The town is crowded with country people tonight, eagerly reading of the latest phases of this most celebrated case. Another report is that expert Dr. Orth, who examined Joe, decided that he was shamming. Others, however, have it that the reason for the report that the death watch had been ordered discontinued was that he has reported the man really insane. Meanwhile Sheriff Good appears unmoved by the rumors, and seems to think the men will be hanged on time and is completing his preparations for that event.

NO USE TO FRANCE. The Proposed Cession of Gambia by Eng

land Not Favorably Received. THY DUNLAP'S CABLE COMPANY. PARIS, March 28 .- Mr. Soller, a Southern river delegate to the Superior Colonial Council, being interviewed to-day on the cession of Gambia to France as compensation for the Newfoundland fishery rights, put forward in the English papers, said: The question of the Newfoundland fishery treaties is precise and formal. Newfoundland is unable to dispute our rights to arbitration. Whether it results to our advantage or not, it will not affect the right to fish. In order to prevent a conflict in future be-tween the French and Newfoundland fishermen, the English papers suggest as a solu-tion of the difficulty the cession of Gambia in exchange for the rights of Newfoundland. That compensation is insufficient. "Gambia is an insulate territory, sur-

rounded by our possessions, and is of no importance; in fact, it is nearly ruined. It has no value in itself, and would not even be of value to augment the colony of Sene-gal. Without doubt there should be a supplementary compensation, as a recompense to the 10,000 fishermen who would receive only about the product of a single year's industry, and in the following year inevita-ble ruin would come to them."

A SOCIALIST AGENT

He Is a Deserter and Carried Mrs. Parson's Portrait Next His Heart.

(BY CABLE TO THE DISPATCH.) LONDON, March 28 .- Early this week the police arrested in London William Mowbray, a deserter from the Norfolk Regiment, and in the course of their inquiries learned facts which caused considerable perturbation in high quarters. It has been ascertained beyond doubt that Mowbray entered the army for the express purpose of furthering the Socialist propaganda. His father is a very prominent Socialist, and Mowbray

is a very prominent Socialist, and Mowbray
was arrested when leaving the headquarters
of East End Socialism.

In a bag which he wore next his heart he
carried a portrait of Mrs. Parsons, of Chicago, and a card engraved with the emblems of the Universal Solidarity of Labor. Mowbray was taken before a magistrate to-day and committed to prison to await an escort from his regiment. The military authorities are thoroughly alarmed and inquiry will be at once instituted, with a view to discover other Socialist emissaries in the army. Mowbray will be deals with

THE WAR IN CHILE.

An Effort to Have the United States and England Stop 1t.

[BY CABLE TO THE DISPATCH.] LONDON, March 28 .- The prolongation of the civil war in Chile causes serious alarm to the British capitalists who have large interests in that country. Among them are Colonel North, the Nitrate King, and his courtiers. Efforts were made last week to induce Lord Salisbury to propose to the United States Government joint diplomatic interference, backed by a threat of the seizing of the insurgent warships by the British squadron. Salisbury wisely de-clined to have anything to do with the sug-gestion, a decision due no doubt in some measure to the fact that it was favored by Lord Randolph Churchill, whom he has no

cause to love.

There is reason to believe, however, that similar efforts are about to be made in Washington in the belief that Mr. Bla will prove more pliable than Lord Salisbury.

A HENRIETTA SUCCESS.

nson Howard's Play Enthusiastically Received in London

(BY CABLE TO THE DISPATCH.) LONDON, March 28 .- Bronson Howard's "Heprietta" was produced at the Avenue Theater to-night before a crowded and enthusiastic audience. The fine subtleties of stock gambling were not followed by the English audience with the quick perception which distinguishes the American play-goers, mainly because the vast majority of the English public knows little of stock operations, but the tragic and comic scenes were followed with most vivid interest and the actors' efforts were rewarded with un-

stinted applatuse.

Being in Lent, the audience was not aristocratic, but many noted English play-wrights were there. Mr. Howard was called before the curtain at the close and was loudly cheered. The concensus of opinion is that the success of the play was assured.

VICTORIA IN DANGER She Has a Narrow Escape From a Probably Fatal Accident.

IBT DUNLAP'S CABLE COMPANY.] GRASSE, March 28.-Queen Victoria had a narrow escape yesterday from what might possibly have proved a fatal accident. She had been driving to Georges de Loup, a resort in the neighborhood, and just as the carriage was about to cross a bridge, the landlord of a wayside inn near-by rushed forward crying: "For Heaven's sake don't go any further, Your Majesty; they are springing mines there," meaning that a force of navvies were engaged in rail-

way blasting.
The Queen thanked him for his thoughtfulness and the carriage was turned backward.

LONDON'S LOST COTTON TRADE. Trying to Find Out What Caused the De-

plorable Loss.

BY CABLE TO THE DISPATCH. LONDON, March 28 .- An interesting newspaper discussion is raging here respecting the reasons for the import trade in cotton having left London. The fact that the trade has been lost is beyond question, but the exact cause is difficult to determine, some critics blaming the dock laborers, others throwing the responsibility upon the railway companies, whose unreasonable rules and exorbitant freight rates are vehemently denounced.

Meanwhile there is some talk of establishing cotton mills on the Thames, but it is not probable that the prospects will attract cap-

Turkey Buzzards. CHARLESTON, S. C., March 28.-E. T. Legari, United States Commissioner and Trial Justice in St. Andrew's parish, where are situated the phosphate mines at which the alleged gross outrages have been perpetrated upon Italian miners, has made an official report to Governor Tillman. Mr. Legari says that he visited the miners with Italian Consul Castellano, of Charleston, and that they find that the Italians are Legari, United States Commissioner and Trial Justice in St. Andrew's parish, where

worked and controlled entirely by men of their own fationality.

As to their alleged ill-treatment, Mr. Legari says: "During the many years that I have been serving in this office I have never had but one man complain of ill treatment,

AFTER EFFECTS

Of La Grippe Can Be Eradicated From the System.

THE PROPER METHOD.

The dreaded La Grippe, which has again made its appearance in Pittsburg. Chicago and other parts of the country, is nothing more or less than a catarrhal fever. It is no new trouble, and belongs distinctively to that family of diseases in which Drs. Copeland and Blair's treatment has won distinction by its series of successful results.

It differs from the more typical cases of catarrh, in that the marked nervous depression which prevails is out of proportion to the gravity of the catarrhal symptoms. In the majority of cases where the results have been serious the patient has been a sufferer from chronic catarrh which left the system so weakened by its steatify action that it was in no condition to withstand the attack of La Grippe. We believe there are comparatively few instances where people free from catarrhal affections have felt any of the effects of La Grippe. In almost every case the disease leaves a systemic catarrhal condition, indicating by its action systemic poisoning, resulting in chill, bendache, great depression of both mental and physical strength and energy coupled with the usual catarrhal systoms.

Nearly every case of La Grippe renders the patient liable to chronic brunchitis, which invariably leads to consumption. There is no question but at this season of the year, when the disease is known to be prevalent, people should take means to check the progress of catarrhal troubles, and if possible eradicate from the system every symptom of catarrhal poisonine.
