KING HAS JUMPED.

The St. Louis Pitcher's Position No Longer Remains in Doubt.

The new charge preferred against Mark Baldwin by Von der Ahe leaves no doubt regarding the position of Pitcher King. It is now charged that Mark "did induce King to jump his const tract with the St. Louis Browns." This means that King has engaged to play with a League

stated that King had expressed himself to the effect that he did not want to play in the Association, and that his contract with the St. Louis club was invalid because of being wrongly drawn up. But it can be proven that Balawin had nothing whatever to do in influencing King's mind against the Association, because King has for a very hong time past declared his hatred toward Von der Abe and his gang. It is to a great extent a mystery as to the League club King will play in. One authority hames Chicago, and Chuchman and Pittsburg

MORE ABOUT KING.

He Is Said to Have a Big Offer From a League Club.

Sr. Louis, April 4 .- Pitcher Charles King has not yet reported for duty. It is said that he has stated that he has not been properly treated by the St. Louis management, and does not intend to play here. King signed to play here the coming season for \$3,200, and at the time is alleged to have been very anxious to sign for that amount.

Since then he is believed, however, to have been offered considerably more by some League been offered considerably more by some league clubs to pitch for them, and he wants to get this increase of salary. If King violates his contract he can not only be enjoined from play-ing, but can be made to pay any judgment for damages the St. Louis club may secure against him, as he is worth considerable money, and owns several houses here. Von der Abe made avoilier application to-day for conspiracy against Baldwin, who is still here, but the war-rant was refused, as the first case has not yet been tried. been tried.

ANSON IN HARD LUCK.

Miserable Weather Prevents His Team From Practicing Out at Denver.

DESVER, April 4.- The miserable weather o the past week has given Adrian C. Auson a fit of the dumps. He is not favorably impressed with the beauty of Colorado's climate. For nearly a week his corral of colts has not been let loose, and the players have had no opportunity for getting to shape for the big struggle they will soon engage in. Ryan, Willmot, An-son, Kittridge and Foster find relief at the son, killings and Foster find relief at the billiard table. The others read, play cards and induige in professional reminiscences. There is relief in sight, however, for the ball grounds are already rai of the bed of snow. The chances are now very favorable for a ball game Satur-day. It is more than probable that Chicago and Derver will play every day next week. Anson will start East one week from Saturday, and must have some practice before that time.

ALTOONA, April 4.-It looks as if this town is going to have a baseball club for the coming season. The members of the Altoona Driving Park have taken hold of the matter. E. K. Myers, of Harrisburg, who is one of the owners of the Cuban Giants, has made a proposition to locate the team here as representative of the

Atlatic Association. The Park Association beld a meeting Thurs-day evening and discussed the matter. There is a strong probability that the Giants will be located here. The club is composed of fine ball players, who were the leaders in the Inter-biate Loague last season. The grounds at the park will be put in shape as soon as the weather normits

It is a matter of wonder, as well as of general congratulation, that the bitter partisan feeling which existed about a year ago and continued all of last summer has died away-disappeared as the morning fog vanishes before the rising sun. There may be a fool crank here and there who occasionally fans the expiring coals or his "war" passion with the bellows of a weak mind. But even he is not in his baseball heart

mind. But even us is not in a structure of base-ball cranks again this year, and will discuss scores after a game and forget about the rela-tive sizes of the crowds except to remember that they were all immense.

The two cases, however, are interesting in the way of getting at the characteristics of the disease. It proves that la grappe is no re-spectrr of persons; it attacks the great and tho small; the kingly and lowly; the handsome man and the man of comely looks. It can't be frightened off by halo of glory or a mask. Since the grip seized Kelly, none of us are safe.

Since the grip seized Kelly, none of the safe. safe. But what I started out to say was that the ball player's peculiar mode of living must go far toward exempting him from colds and discasses of the respiratory organs. How many professional players have you ever heard of who died from exposure, accident on the field or in railroad accidents? Seems to me they make good life insurance risks. O. P. CAYLOR.
