

A DAY FOR THE GRIP.

The Weather Yesterday Had a Bad Effect Upon the Sick.

ONLY A FEW NEW CASES REPORTED

Physicians Still Say the Disease Is On Its Downward Path.

WHAT THE HEALTH STATISTICS SHOW

Yesterday was what may be termed grip weather, and a few more days of such low temperature with the corresponding dampness and bone-eating atmosphere, cannot fail to add heavily to the death list.

What the Sick People Need.

Of course, grip patients, or any other people who are suffering, care little or nothing as to what caused the storm or how wide its bounds may have been, or, in fact, anything else pertaining to it.

The effect of such weather as that of yesterday upon those predisposed to the grip was bad, but according to the statements of physicians and druggists, there is so few people who have not had the disease, in one form or another, that there is little upon which it could be said that such weather as that of yesterday could not affect any one who had thus far escaped the epidemic, unless through gross carelessness and the lack of common sense.

Head for the Grip Sufferers.

"Doctor, what effect will weather like this have upon the disease?" "It is unquestionably bad for those who are suffering from the grip. As to its effect upon those who have escaped thus far I do not think it will be serious. The fact that they have not been numbered among the sufferers should not make them believe that they are impervious to the disease. The

weather of last Sunday and Monday, which was clear and warm, in my mind, did much to stop the progress of the disease. Such weather again will have the same effect, and that is what is wanted. In Lawrenceville to-day I found two grip cases, but I have not heard of any elsewhere for several days."

The doctor was asked if he did not think the excitement over the grip had been the cause of a great many deaths. He replied that among nervous people there had no doubt been a considerable death rate that could be directly traceable to over excitement. "But," he continued, "while the grip has been epidemic there has been in my practice but little excitement, not as much as could have been naturally expected. Had it been small-pox or scarlet fever there would have been a run from town, and still the grip has proved itself to be as deadly as either."

Good for the Druggists. Quinine was in demand yesterday. The proprietor of a Penn avenue drug store said that it would only require another day of such weather to run up the sales as high as they were in the last week of March. The sales had increased yesterday, but not to any great extent. The callers were mostly those who were suffering from colds and who had the fear of the grip. A well-known specialist, speaking of the effects of the grip, remarked that it showed features this year that were not observable when it paid its first visit. It seems now to affect the nervous system in a variety of unusual ways, such as pains in the back and the head and a general depression. His opinion was that it did not so surely follow colds as last year, but seems to follow the milder weather. The trouble has been and is, insisted the doctor, that people have thought lightly of their colds, believing that they would wear themselves out and then the natural result came, affection of the lungs. The part of man's anatomy most subject to weather influences, the lungs, have been neglected.

Some Deaths From Friday.

Yesterday the following cases were reported as having occurred on April 3, in addition to those published in yesterday's paper: Christ Kufelt, aged 69 years, Bouquet street, died of the grip, secondary cause pneumonia; Bridget Smith, aged 62 years, an inmate of the Home of the Little Sisters of the Poor, died from influenza, preceded by pneumonia; Xavier Loeffler, aged 73 years, 172 Thirty-ninth street, pneumonia; Martha M. McKelven, 5 year old, pneumonia; Noah F. Grise, 20 years old, 3904 Mifflin street, pneumonia; Marguerite Kennedy, 3 months old, pneumonia.

Nearly all these cases are directly due to the prevailing epidemic. The report of the Bureau of Health for the week ending March 28 shows a total of 211 deaths. In the classification, 14 cases are credited to epidemic influenza, or grip. The cases that are allied to grip, either by following or preceding that disease, are as follows: pneumonia, 55; bronchitis, 16; asthma, 2; croup, 1; and laryngitis, 1. The cases of consumption numbered 18; cerebro-spinal fever, 6; meningitis, 4; typhoid fever, 7; scarlet fever, 1; whooping cough, 3; measles, 2; convulsions, 8; heart disease, 6; pertussis, 4; Bright's disease, 5; old age, 8.

Of the total death list, 29 persons were between 70 and 80 years, 13 between 60 and 80, and 1 between 60 and 100. The number of deaths in Allegheny last Saturday night is reported at 115, a greater number than for any week in the office has been opened. The majority of these cases are believed to be directly traceable to the grip. The cemeteries in Allegheny, Pittsburgh proper and the Southside show figures of interments that surpass anything ever known in Allegheny county. The undertakers are continuing to take a partial rest, but the weather of yesterday it is

thought will give them many funerals to care for.

Current Notes of the Grip.

Postmaster McKenna was out of bed yesterday for the first time, and if the weather is fair next week he expects to call at his office. Magistrate McKenna expected to be out of bed yesterday, but owing to the weather his physician insisted that he should remain just where he is. He will be up in a few days, the doctor says there is no further need for him to take medicine.

Colonel Boyer, proprietor of Hotel Boyer's, is a very sick man. On Friday the physician practically gave up all hope for his life, but yesterday he was in a much improved condition, and hopes are now entertained of his recovery. The wife of Vice President Bannister, of the Westinghouse Electric Company, who has been very ill for several days, had grown much better yesterday.

Rev. David Jones, of the First U. P. Church, has recovered from his recent illness, and will preach to-day. Attorney A. B. Stevenson went home yesterday suffering from an attack of the grip. Among the deaths reported yesterday from the epidemic was that of Mrs. George W. Murphy, of Ingram station, who was also well known as Sewitzky. She died of an attack of the grip. She was the widow of Major Murphy, a gallant soldier of the War of the Rebellion.

Three deaths were reported at the Poor Farm yesterday. They were Simon Lucas, No. 47 Sixteenth street, Joseph Papsyaki, No. 1830 Josephine street, and Andrew Clark, No. 219 Fifth avenue. Grip is said to have caused the death of the two former.

AND THE GROWTH FOREVER DESTROYED WITHOUT THE SLIGHTEST INJURY OR IRRITATION OF THE MOST DELICATE SKIN—DISCOVERED BY ACCIDENT.

In comprehending, an incomplete mixture was accidentally spilled on the back of the hand, and on washing afterward it was discovered that the hair was completely removed. We repeated the new discovery and named it MOPENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts mildly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on the arms may require two or three applications before all the roots are destroyed, although all hair will be removed at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. —Solely manufactured by electrolysis.

Always use Mopene on the face—used by people of refinement. —Gentlemen who do not appreciate nature's gift of a beard, will find a priceless boon in Mopene, which does away with shaving. It dissolves and destroys the life principle of the hair, thereby rendering its further growth an utter impossibility, and is guaranteed to be as harmless as water to the skin. Young persons who find an embarrassing growth of hair coming should use Mopene to destroy its growth. Mopene sent by mail, in safety mailing case, postage paid, (securely sealed from observation) on receipt of price, \$1.00 per bottle. Send money by letter, with your full address written plainly. Correspondence strictly private. Postage stamps received the same as cash. ALL ORDERS MUST BE ACCOMPANIED BY THE NAME AND ADDRESS OF THE BUYER. Variety! Style! Quality! Price!

These are the magic words that build up a large trade and gain the confidence of the patrons of every successful business house. No flaring illustrations of inferior goods, no loud and blatant boasting of cheap-trap stock can win the trade from a house that tells an honest story about honest goods, and nowhere is honesty the best of policy more than in the advertising of a well-established business house.

VARIETY WITHOUT END:

A finer and more varied assortment of Bedroom Suites, Dining Room Furniture, Odd and Fancy Pieces of Furniture, Curtains, Carpets, and, in fact, everything needed to bring comfort and beauty to the home cannot be found anywhere than at our popular storerooms.

STYLE FOR THE MOST EXACTING:

We always take pleasure in showing goods in our stock, because we know they are the newest, prettiest and most stylish goods to be had. It is our aim to keep our stock replete with the newest and most stylish designs from the manufacturers.

PRICE THAT SUITS YOU ALL:

How about our prices? Well, they are satisfactory, or will be made so. We are not selling cheap goods at big prices, neither are we giving away our splendid stock as some dealers would have you suppose they are doing. We know the value of our goods, and are sure the prices cannot be beaten for the same quality of goods in the city. As to payments? That is a matter for you to settle. We do either a cash or credit business, on terms that guarantee satisfaction, for we are the
