Individuality will be apparent on every hand and there will be more outside capital invested than for some time in the past. The disposition of the Standard toward the curtailment of the drill and production is more marked in Venango than at any other point.

The Standard people, while holding a large average of the prolific territory in the county, will not push the drill on account of the general outlook. In the gray sand territory the activity will be most marked. The individual to justify much drilling, the shallow territory

Up old Oil Creek there will be the usual amount of operations, and it is questionable whether the production can be maintained. In this locality of the county the drill frequently strikes backed up oil and brings forth 40 or 50 barrel wells. This same condition of affairs may properly be said to exist in the Pitthole and Picasaniville fields. Around Oil City Hoal capital will work the small territory they have had under their thumbs for some time.

Brokers who favor changing the manner of trading by going back to the cash system and cutting loose from all entangling alliances think it will broaden the market by interesting out-iders, and causing sufficient fluctuations to make trading attractive. These seem to be good reasons for the change. It can do no harm in any event, and may do good by lifting a great interest out of the rut.

Demand for goods in this line has been un made up their minds some time ago to build an independent refinery and pipe line. Upon more mature consideration they came to the conclusion they had taken the wrong hora of the dilemma and have called a balt. It is not now definitely understood whether they will go ahead with their project or not. The possibilities of a fair production in this district during the summer are good. Marisville is liable to bring forth a rich pool of small proportions, while Richey Han and Squaw Valley annexes are liable to materialize. A retrospective view of the open ations and production for the past month clearly indicates that Venango county is no important factor in the trade. SPRING TRADE OPENS UP VERY SLOW

OFFICE OF PITTABURG DISPATCH. SATURDAY. April 4.

In Groccery Lines.

The feature of the week past in grocery lines was the drop of 2c per lb. on sugar, a fact due to the drop of the United States tax. Prior to the removal of the tax jobbers were carrying as light stocks as possible, and the quantity of sugar in this market during the latter past of March was smaller than it has been in the memory of the oldest inhabitant. On April 1 about 18,000 barrels were thrown into market and very little of this is left. Supply of some grades is not up to demand, notably coffee sugar. Refineries are so pressed with orders that none are taken for immended delivery.

With sugar at 20 pounds for a dollar in a retail way, one important item in household expenses is reduced to a minimum. Prespects are good for a good fruit year ahead, and with a resultion of \$7 per barrel on sugar there will, without doubt, be an extraordinary consumption the coming fall. Outside of sogar, jobbing groccry trade has been only fair the week past. The first week in April being urving the delivery, the first quarted than last.

The situation in this line is practically as it was a week ago. Beef hides and calf-skins are quiet and steer hides fairly steady. Quality of hides offered accounts somewhat for the depression. Grain, Flour and Feed.

There was but one sale on call at the Grain Exchange, namely, a car of No. 1 timothy hay, \$10 50 spot. Receipts, as bulletined, 16 cars, of which 14 were by Pittsburg, Ft. Wayne and Chicago Railway, as follows: 8 cars of hay, 1 of wheat, 4 of flour, 1 of oats; by Pittsburg, Cincinnati and St. Louis, 1 car of corn, 1 of hay. Receipts of grain and hay have been very light the past few days, and markets are strong. Hay is particularly firm, and prices are a shade higher than at last report. Prospects are for higher than at last report. Fros-pects are for higher priced flour. There were sales of extra No. 2 wheat here Friday at \$1 10. Wheat must either come down or flour go up. NEW YORK STOCKS.

Comparatively Live Day on Wall Street and Entire List Higher-Bonds Also Active - An Unfavorable Bank

Statement Accounted For. NEW YORK, April 4.-Stock market Saturday was more active than on any previous day of the week, and in the main showed a decidedly strong tone, and some marked advances were scored among the few stocks which led the market. The bank statements were not as favorable as expected, but the decrease of over \$2,000,000 in the surplus reserve was nearly accounted for by the increase in loans, and the statement, on the whole, indicates that the movement of money from this center is nearly

over
Railroad bonds were also comparatively active, the sales of all issues reaching \$817,000, which was very evenly distributed. Louisville, New Albany and Chicago consols made another spurt of 2 per cent to 98, but there were no other movements of importance throughout the session.

A Physicians Advice.

I suffered for years from general debility.

Tried other remedies, and got no relief.

My Physician prescribed S. S. S. I increased in flesh;

My appetite improved; I gained strength:

Was made young again:

It is the best medicine I know of. MAHALEY TURPEN, Oakland City, Ind Send for our book on Blood and Skin Diseases.
