was issued yesterday. About all of it has been taken. It sold at 11%, but closed a fraction lower; large lots would bring more. There was a good demand fore bank stocks, but bids and offers were irreconcilable. Insurance stocks were neglected.

Outside news was more encouraging. The feeling was better in New York. Penusylvania Railroad stock was up, which is a pretty good index to the state of the speculative pulse. In London trading was active and prices strong. Rates of sterling exchange were advanced. Short crops in Europe are a strong bull card. Sales were:

First call—No sales.

Second call—24 M. & M. National Bank at 66%.

After call—80 Luster at 1134, 20 Luster at 1134.
After call—50 Electric at 1134, 15 Philadelphia
Gas at 1134, 10 at 1134.
Before call—10 Electric at 12.
Bids and offers at each of the three calls are

At New York yesterday the total sales of stock were 262,611 shares, including: Atchi-son, 9.815; Chicago and East Illinois, 3.785; Lackawanna, 3,900: Louisville and Nashville, 16,603; North American, 6,668; Northern Pacific, 4,610; do preferred, 18,820; Richmond and West Point, 3,870; St. Paul, 35,535; Union Pacific, 13,-455.

forrowers Welcomed With Open Arms

Figures Show Steady Improvement.

Bank clearings continue to show improve

ment in the monetary movement. Yesterday they were \$2,317,118 86, and the balances, \$431,

they were \$2,317,118 86, and the balances, \$431,-085 95. Bankers reported a plethoric condition of funds, with a moderate call for loans, and rates unchanged. Good paper received prompt attention. Depositing was up to the good average of late, denoting an active cash business in regular lines of trade.

At New York yesterday money on call was easy, ranging from 3 to 3½ per cent, last loan 3, closing offered at 3. Prime mercantile paper, 6898. Sterling exchange quiet and steady at \$4 88% for 60-day bills and \$4 88% for demand.

NEW OIL TERRITORY. ANOTHER EXTENSION TO THE NORTH-WESTERN OHIO FIELD.

Two Spraying Wells at McDonald-A Theory Connecting Mt. Nebo and Wexford-McCurdy's Production Increased One-Third-A Clarion Test Well.

Another extension of the big Northwestern Ohio field is agitating the people interested in that territory. This time the breaking out is up near East Toledo, in Lucas county. Some time ago the Little Star Oil and Gas Company drilled in a little producer: then the East Toledo Oil Company made a venture on the Miller farm, about a mile southwest of the original well. This well was shot with 80 quarts, with

This well was shot with 80 quarts, with the result of filling it with slate; but while the production of shale exceeded all expectations, there was no increase in oil.

Webber Brothers were more fortunate with their No. 1, 80 rods northeast of the Little Star, securing a well which has been making 18 barrels a day for some time without the aid of sucker rods. Eagan & Mook did still better, getting a 33-barrel well on the Fassett farm, 80 rods northeast of Webber's No. 1 Reynolds. It is Webber's No. 2, on the Reynolds, which has set everybody to talking, however, as it came near filling a 250-barrel tank the first 24 hours. It is on the northeast corner of the Reynolds farm, and lines up east of all the others. There is now a rush for territory through all the country east, north and south, with fair chances for the development of another transcounty belt.

Spraying McDonald Wells.

McDonald, April 7 .- The Royal Gas Company's well, on the Robb farm, is drilling in the Gordon sand. At seven bitts in the sand it got a little oil and some gas, and began spraying. Deeper drilling failed to improve it. In fact, the spray of oil has stopped. The sand is of in-factor on site.

the spray of oil has stopped. The sand is of inferior quality.

The same company's well on the Danters
farm is shut down near the top of the fourth
sand, the contractor claiming to have a broken
stem, and that drilling will be resumed as soon
as he can get another stem on the ground.
This well has quite a strong flow of gas and is
spraying a little oil, thought to be from the
Gordon sand. They are putting up a tank, to
be prepared for what they may get.

A Theory About Mt. Non and Westerd

A Theory About Mt. Nebo and Wexford. WEXFORD-The well on the Carl farm has passed through the 100-foot sand and is drilling

been shut down at a depth of 1,000 feet, owing to trouble with salt water. A good flow of gas was struck at 850 feet, and the well has been spraying since the salt water was struck. An

attempt to pull the casing to ream down proved futile, and the well is shut down until small Tottle, and the well is snut down until small casing and jars can be produced. McCurdy's Production a Third Greater. McCurdy—Another producer has been ad-ded to the McCurdy field on the Jane Riddle

farm. The field presents no startling feature, but the production has been increased from 2,000 to a total of about 3,000 barrels a day from the advent of wells within defined limits.

McC.

It is too early to expect improvement in oil trading as a result of changing the by-laws. A broker said yesterday: "Give us a little time, say a week or two, and I think we will be able

Advertising it is said will sell anything, this is true in a measure; but for staying qualities,- merit is the test. Extensive advertising may sell anything where it is new or unknown, but after it comes into general use, it is judged according to its worth. The continued and steady growth of Swift's Specific

SSS is the best evidence of its excellence.

It is most popular where it is best known. Every bottle sold, sells ten others. Every one that takes it becomes its friend, and recommends it to their acquaintances.

PRINCIPALLY FROM THE FAR WEST

The Quality of Trepical Fruits on the Market Below Par.

BACKWARD SEASON FOR GARDENS

OFFICE OF PITTSBURG DISPATCH, TUESDAY, April 7.

Creamery Butter. It will be seen by reference to our domestic market column that supply of country butter is on the increase, and prices on the decline. Creamery butter is active, but prices tend lower, in sympathy with weakness of country. There are in round num-bers about 2,500 tubs of creamery butter handled by Pittsburg jobbers weekly, or an equivalent of 150,000 pounds. Nearly onehalf of this amount is from the region which centers at Elgio. All made within 20 miles of Elgin carries the Elgin brand, and, alas! for the weakness of human nature, some that

is made hundreds of miles away is sold as Elein creamery. Said a member of a Pittsburg firm which handles from 300 to 400 tubs weekly: "Our trade is now at its best. We cannot rely much on supply of butter from nearby sources at

The Product Is Moving Westward. "As the path of empire is westward so is the manufacture of creamery butter tending in the same direction. Ohio manufacturers of the article are not prepared to do much in this

in freely the past week or two, but quality of arrivals is generally low. As to bananas, very little good fruit is showing up. Good stock is worth \$2.50 per bunch, but a large proportion of that now coming is worth less than half this amount. The trouble is that consumers are not willing to pay the high prices necessary to secure the prime stock. The only article in our line that is on the boom is the lemon. In the past two or three weeks lemons have advanced from \$1 to \$1.50 per box. Suchy is the chief source of supply in this line, and untimely frosts of late in that Island have been very injurious to oward maturity was frozen on the trees. It is now difficult to get good stock, and the out-ook for the balance of the year is for scarce and high-priced lemons. Until the Rodi

and high-priced lemons. Until the Rodi lemons appear, which will not be for a month or more, I look for a scarcity of good stock." Market Gardening. A Neville Island gardener reports that the season for early vegetables is unusually back-ward. There have been fewer days of sunshine the past month or two than for the corretwo of sunshine in a week's time is a mighty two of sunshine in a week's time is a mighty help to hothouse plants. The last two or three weeks the days of bright weather have been few. Continuous cloudy and wet weather at this time of the year is adverse to the interests of the market gardener, as his great point is to get his stuff to market early in the season. According to general views of market gardeners in this vicinity, early vegetables will be a couple of weeks later than the average time in coming to the front.

LOCAL LIVE STOCK Condition of Markets at East Liberty Stock

Yards. OFFICE OF PITTSBURG DISPATCH, TUESDAY, April 7. TUESDAY, April 7.

Cattle—Receipts, 540 head; shipments, 546 head; market firm at yesterday's prices; no cattle shipped to New York to-day.

Hogs—Receipts, 850 head; shipments, 700 head; market steady: Philadelphias, 55 6005 70; good mixed, \$5 3005 50; best Yorkers, \$5 20 30; pigs, \$4 0003 50; l car of hegs shipped to New York to-day.

Sheep—Receipts, 1,100 head; shipments, 400 head; market firm at yesterday's prices.

OMAHA—Cattle—Receipts, 2,050 head: mar-ket opened firm on best handy fat cattle; others steady; closed slow and weak; butcher stock unchanged; good feeders in strong demand; others slow; fancy, 1,400 to 1,500-pound steers, of which has a liberal.

same direction. Ohio manufacturers of the article are not prepared to do much in this line during the winter season. The general run of them shut down for three months of the year. But in the regions which contribute to Eigh markets provision is made to produce the cream all the year round. In the early part of last winter a prominent firm of Eigh arranged to furnish 1,500 fresh cows to the different farmers from whom the supplies were obtained.

The winter feed necessary to keep the fresh cow in good condition is of course less expensive in the far West than in this vicinity. Illinois, Wisconsin, Minnesota and lowa are steadily gaining in the amount of production in this line, while Ohio and other Eastern States are barely holding their own."

Tropical Fruits.

A leading dealer in tropical fruit lines had this to say of trade yesterday: "There are very few good bananas or oranges coming to our markets of late and trade is slow principally for this reason. California oranges are coming in freely the past week or two, but quality of arrivals is generally low. As to bananas, very little good trait is showing up. Good stock is winch as to hand higher; com-

5 80; Texaus, \$4 90; lambs, \$5 2506 40.

CINCINNATI—Hogs scarce and higher; common and light, \$2 75625 15; packing and butchers, \$5 15635 50; receipts, \$20 head; shipments, 1,685 head. CHANGE of life, backache, monthly irregularities, hot flashes, are cured by Dr. Milea' Nervine. Free samples at Jos. Fleming & Son's, Market st.

To a new suit. The ones we sell at \$2 25 are wonderful value, sizes 4 to 14, made from checks, plaids and plain goods.
P. C. C., PITTSBURG COMBINATION CLOTHING COMPANY, corner Grant and Diamond streets.

The Market in Better Shape Than It Appears on the Surface. OPINIONS OF LEADING BROKERS.

POINTS ON REALT

Local Stocks Moving Slowly, With Encouragement From the Outside.

OFFICE AND STREET NEWS AND GOSSIP

Longfellow wrote, "Things are not what they seem." This is true of Pittsburg real estate. The market is better than it looks, as the following interviews with many of of the leading brokers clearly demonstrate:

Baltens perger & Williams—Trade has been slow for some time, but the inquiry is improving, and if the eight-hour matter doesn't result in a strike there will no doubt be a good summer business.

Charles Somers & Co.—The market is in a good, healthy condition, The disposition to invest in real estate is greater than it was a year ago. With the return of good weather and good health that will follow, transactions will assume liberal proportions. Values are naturally hardening and will keep pace with the growth of the city. The opinion entertained by some that the financial flurry and strikes would depress values has proved fallacious. The effect has been rather the reverse, for the drawn from speculation and invested in real estate.

estate. Samuel W. Black & Co.—The market is in good condition. One reason for the lull is advancing prices. There are investors ready to give real estate the preference, but are not disposed to pay a premium for the privilege of buying. We think the outlook is good for a

disposed to pay a premium for the privilege of buying. We think the outlook is good for a fair summer trade.

J. C. Rellly—There is a good inquiry, but sales are rather slow on account of bad weather, bad roads and the grip. I think business will revive assoon as the weather settles.

J. E. Glass—The market has been slow for some time so far as closing sales were concerned, but the outlook is encouraging. The buyer is still around, and a few bright days will bring him out. Improvement in the weather will change the situation altogether.

M. F. Hipple—I think the lull of the past few weeks will have a good effect. It will prevent anything like a boom, and restrain factitious values by keeping the market in a normal condition. The outlook is very good. George Schmidt—If the eight-hour agitation passes off without a strike business will at once pick up. There is a good inquiry for building lots and also for houses. I have just sold II lots in Eureka place plan to persons who propose to build at once, strike or no strike.

Alles & Bailey—We think business will soon be in good shape. The present lull is due to causes well understood and is only temporary. There is no reason for dull times here. Nearly everybody wants houses, rents are being promptily paid and values are steady. The outlook is as good as in any previous year at this season.

Baxter, Thompson & Co.—We have been do-

outlook is as good as in any previous year at this season.

Baxter, Thompson & Co.—We have been doing a good business right along. Good properties are in demand. Houses are very scarce. There is no indication of a break in prices.

Ira M. Burchfield—I think business is improving, and will be all right when the weather settles and the grip disappears. I have had considerable inquiry lately. The outlook is good for an active movement during the summer.

mer.

Magaw & Goff—We find the market very good, having about all we can do. The outlook is as good as it was last year at this season. We have a number of houses under way and inquiry for more.

Black & Baird-The market looks fair, With

Black & Baird—The market looks fair. With good weather and retiring grip things will be all right. The element of speculation in the outlying districts has materially decreased. Good residence property for use of buyers is ready sale at a fair value. For downtown properties buyers are more numerous than sellers.

W. A. Herron & Sons—We think it is too early to indicate what the year will be. This is a season of chauges that necessarily make business dull. So far as the season has progressed we see nothing to indicate other than a fair year's business. Inquiry has been very good, and with the opening of spring and good weather we expect to see considerable real estate change hands.

C. H. Love—I think all that is needed to put the market on its feet is good weather. There is a general disposition to invest in real estate, and there is plenty of money for that purpose. Inquiry is fair and values stiff. I have sold eight houses in the lower part of the old city within six weeks at prices ranging from \$5,000 to \$10,200—in each case an advance on any former sale. Good business property is in request.

Straub & Morris—With half the people sick,

are having as many inquiries as usual at this season, and are selling considerable property. The outlook is improving.

Tressel & Tener—The market will soon be out of the rut. Inquiry is increasing and the outlook growing brighter.

James W. Drape & Co.—We have nothing to complain of. Inquiry is good. Transfers show that a good deal of property is moving. There is every indication of an active movement during the summer.

Business News and Gossin.

James W. Drape & Co.—We have nothing to complain of. Inquiry is good. Transfers show that a good deal of property is moving. There is every indication of an active movement during the summer.

Business News and Gossip.

The new electric cars on the Second avenue line are handsome and convenient.

Trading-No Material Gains or LossesSales and Fluctuations - Things
Looking Better Outside.

Total sales of local stocks on call yesterday
were 189 shares. The active properties were
M. and M. National Bank, Luster, Electric and
Philadelphia Gas. There were no material
price changes. Philadelphia Gas was, perhaps,
the weakest feature. It closed a good fraction
below the opening, but sold at the highest.
Electric was quoted at 12 in Boston, and sold
here in a small way at the same price. It
closed at 11%. As the support was local, the
inference is that buyers are satisfied with the
situation. Switch and Signal preferred was 5456 27 70% 2714 27 21 3214 193 17%

than those of last evening. Outside of the activity in the issues mentioned, however, there was no teature of interest.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISPATCH by WHITMEY & STRPHENSON, oldest Pittsburg members of the New York Stock Exchange, 57 Fourth
