## A GLOOMY OUTLOOK.

State of the Great Pittsburg Oil Exchange, Past and Present.

LOOKING FOR HUMBLER QUARTERS.

The Speculative Fraternity of Other Places in the Same Boat.

### NEWS PROM THE PETROLEUM FIELDS

It has long been said that the speculative trade in petroleum has gone to the dogs. To this assertion the public most generally interested in the industry have paid but little attention, at the same time realizing how it nffected their interests. THE DISPATCH scout vesterday dropped into the Oil Exchange, and the transformation apparent was wonderful to behold. In times gone by this floor presented an animated scene, and the Pittsburg Oil exchange bore the distinction of being one of the first in the land. As the reporter stepped inside the railing, one of the old officers slapped him on the

shoulder, saying: "Do you remember in 1884, one bright morning in April, when this Exchange was dedicated to the use of Pennsylvania's greatest industry amid excitement and solemnity? This beautiful speculative temple was then given to the trade in the most solemn invocation by one of the most noted divines in the city of Pittsburg, and all felt that its life and usefulness to the city would be as lastng as the industry itself.

## The Scene Far Different Now.

"But look around and count the haif dozen crokers present, the empty seats, and not a dealer in sight. I tell you things have changed mightily since those days. As I said before, this beautiful temple, which cost us \$168,000 in 1884, now goes begging for a good tenant. The Chamber of Commerce has an option on the building, but whether they will take it or not is

a question.

"We had lively times here once, and many tortunes were made and lost on this floor. In those days corperate power did not control the market, and everybody had a show. Our light, est day's lusiness aggregated over 21,000,000 harrels, and our membership sold at \$1,250. When we were in our zenith it numbered over 300. We have done no business here for some time, and we have concluded to shut up shop.

The Speculative Spirit Dead. "The speculative trade will soon be a thing of the past. It will only be a few short days until Bradford and Oil City will follow in the wake of the Pittsburg Exchange. The signs rioration are already manifest in the ork Exchange, and the end is nigh. We expect to go out of business altogether,

"In speaking of the trade in general, every-thing is changed from the speculative days of yore, and the situation is controlled by circum-stances that are irrevocable. It is not necessary to go into detail on the matter, for every well informed gentleman in the business under-stands whither we are drifting. The reduction in stocks has sounded the death knell of the speculative trade."

#### Pittsburg Will Be Beadquarters.

That Pittsburg is destined to become headrters for all the oil business cannot be de-l. Capital from the northern and middle fields is daily being invested in APegheny county, and it is only a question of time when all of the heavyweights, so to speak, will be in

our midst.

The latest purchase is by H. Suhr & Company, of Oil City, who bought from John M. Patterson and Jenning, in the Chartiers field, Il producing wells and one drifting well. This embraces 168 acres, and includes the May, Ward, McKee and Brown farms. The production is about 420 barrels a day, and the consideration is private.

#### Wells Fail to Materialize.

SPECIAL TELEGRAM TO THE DISPATOR. WILDWOOD, April &-News from oildom is very meager to-day, owing probably to the fact that several wells due to-day have failed to materialize. Calboun & Co.'s No. 1 well, on the Silas Sample farm, and their No. 2, on the Charles Gibson farm, are the two thus mentioned. They are both drilling in the top of the sand, but as yet have found none of the coveted fluid.

dicted are Byron Masse Helen Crooks. The Howard Belcher and Cassie Helen Crooks. The first three are charged, with subornation of perjury, and Miss Brooks with perjury. Dasken is still in Connecticut, but will be extracted. Cohen is out on ball.

Murry lot well late last evening, which is now doing 15 burrels an hour. The same firm also

doing 15 burrels an hour. The same firm also shot their No. 2, same lot, which made a showing, and owing to the fact that they were cleaning the well out no accurate gauge was taken of the well.

Bowman & Co.'s No. 3 Whitesell is drilling in the 190-footpand. The Griffiths & Porest Oil Company is nearing the same in its Whitesell No. 12, and expect to bring it in by to-morrow or the day following. Its No. 13, same farm, will be in the bentinning of next week. Finnegan, Downing & Co. shot their No. 4 Wallace well yesterday, which increased its production about 50 per cent. The well is to-day doing at the rate of 40 larrels a day. The Roth Oil Company is in the bowlder sand in its Peoples well No. 2, and expect to get it in this week. J. M. Guffy & Queen are still fishing for a string of tools in their Heidelburg well, in advance of developments. Leidicker & Co. have begun to spud on their Lindow well No. 1. This well is one-half mile in advance of the Alston well. Patterson & Co. on the Espey farm, are through the 160-fout sand.

Progress of the Callery Wells, CALLERY-Collins & Heasley's Nos. 1 and 2. Sarah Kaufman farm, are both in the sand and showing for small pumpers. Guckert & Co's No. 3, S. Davidson farm, are in the sand and drilling, with a small show of oil. The sand is criting, with a small show of oil. The sand is very firm. Schmick & Co.'s No. 2 Christie, shot in the first part of the week, is nearly cleaned out, and has made several flows through the water. The appearances are for a good wel. Wahl, Bishop & Co. have located a new rig 600 feet east of McKee's No. 8, on the W. S. Cashdollar. Amos Sheelsmith & Co.'s No. 1, Crawford farm, has settled down to 50 harrels a day, Osborne Brothers' No. 2 and Wing & Co.'s will commence spudding in a day or two. The locations are about 70 rods east of the Dutihl tract.

set. Johnson & Price's No. I, Douthett heirs, is 85 Johnson & Price's No. 1. Douthett heirs, is 85 feet in the 100-foot. The sand is not as good as that found in the Coonskin Or. Commany's No. 2, 25 rods west, although the indications point to a fair producer when drilled through the sand. Beers & McKee are in the gas sand on the William Gowin farm about a mile northeast of the Dombach Oil Company's producer. Colline and Heasiey are putting up a new rig 200 feet east of their No. 1, on the J. M. Miller farm: I will be ready in a few days. The same firm have about closed a deal with Grazier & Co. for their lease and the No. 1 Miller farm: consideration, 85.300. This is the well at which the tanks were hurned last year. When Goehring & Co.'s No. 1 was struck they intended to shoot and clean it out. Coltins & Heasley have timbers on the ground for a rig to be located from the creek towards Evans City, about 1,000 feet north of present developments. 1,000 feet north of present developments

Jefferson Center Wells Like Rockets. JEFFERSON CENTER-During March this field furnished some old-time geysers, but they have been dropped like the proverbal stick, as will be seen by the table of production given

Jefferson Oil Company No. 1, 125 barrels per Phillips No. 1, Burtner farm, 125 barrels per hillips No. 2. Fisher farm, 70 harrels per day, hillips No. 2. Fisher farm, 70 harrels per day, hillips No. 5. Fisher farm, 25 tharrels per day, artman & Sons No. 10, Byerly farm, 125 harre

veral of these wells started, off at the rate of 2,000 barrels. Jefferson Oil Company's No. 4, on the Kornrumpf, 500 feet east of the old No. 1, is in the sand one bit, and has made several flows. The indications are they will have a nice well. T. W. Phillips has started a test well on the Barr farm, about a mile southwest of present developments. Hartman & Son's No. 12, Byerly heir's farm, is about due.

A Dispatch Prediction Verified. ELIZABETH-Frill & Co.'s well, near this place, has, as THE DISPATCH predicted some time ago, proven itself to be a duster of the first water. The well was drilled all day yesterday, with no increase in cas, of which it is yielding a small amount; and as to oil, it is alsolutely dry, thus proving the theory of your scout that the well never produced any oil from this sand.

Wretched Roads and the Grip. BUTLER COUNTY-The roads leading to the

& fierent oil fields in this district continue in FEICK BROS. E SIXTH ST. Surgical Instrument Striggent instrument
Establishment
Specialties: Scientific firtung
of IRUSSES, appliances for
DEFORMITY and ARTIFICIAL
LIMBS. Largest stock of surgical instruments in Western
Penn. Large flustrated catalogue free to physicians, wretched condition and this is keeping the new work down to a minimum point. The grip is also getting in its work on the producer, num-bering among its victims many of the active operators. The outlook for the first half of April is not of an encouraging nature, viewing it from any standpoint.

A Dry Hole in the Burgettstown Sand. HANLIN'S STATION-The wildcat well one ile porthwest of this place, which was being drilled by the Lawrence Gas Company, last night drilled through the Burgettstown sand and is reported a dry hole.

Progress at Mt. Nebo. Mr. NEED-Patterson & Co.'s Morrison wel is doing 15 barrels a day, and the McCrea well, of the Forest Oil Company, is doing nine barrels a day. Calhoun & Co., 1½ miles east of this place, on the English farm, on Lowrey's run, is outting in the second casing.

The Production at Muddy Creek MUDDY CREEK-The total production of this field now aggregates 100 barrels a day. The weil on the Ripper farm will be heard from this week. The farm adjoins the English heirs' Property.

Harmony and Little and Big Creek fields are

Oil Coming From Two Sands. McDonald-The big fifth sand well at Mc Donald station has so far proved a flasco. There is nothing here in the situation to-night to justify any conclusion of another kind. The Royal Gas Company, on the Robb farm, is Royal Gas Company, on the Robb farm, is strilling in the Gordon sand with only a small suray of the oil, perhaps from one to two barrels a day. The same company, on the Lautens farm, has been drilling in the fifth sand all day, and the well has sprayed at intervals. This well has been shut down from Friday last week until last night, during which time it put about three inches into a 250-barrel tank. This oil is unquestionably coming from both the Gordon and fifth sands.

### LATE NEWS IN BRIEF.

-Special Envoy Foster was banqueted in Madrid resterday by Premier Castilio. -It is claimed that the Brazilian authorities are not observing the new reciprocity treaty

—The World's Fair Construction Department will soon invite bids on the mines and mining building. -Correspondents continue to report activity among the Russian troops on the Austro-Hun-garian frontier.

-The Fierida Legislature organized Tues-day. The officers elected were the Democratic caucus nominees.

—Rumored that the Mexican Congress will create the offices of Vice President and Min-istry of Posts and Telegraphs. -General Horace Porter will be the orator on the occasion of breaking ground in New York City for the Grant Monument.

—While crossing a bridge in a Kansas City suburb. Thomas Beard, a railroad employe, grasped an electric light wire and fell dead. The New York grand jury yesterday reindicted Exciso Commissioners Alexander Meakim, Edward T. Fitzpatrick and Joseph Koch.

-The Czar is greatly displeased with the marriage of his cousin, Grand Duke Michaelo-vitch. The imperial consent to the union had been refused. vitch. The im been refused.

-Unemployed Saxons and Bavarians at-tacked a gang of Polish workmen laying a cable at Munich yesterday, and in the scrim-mage 25 men were wounded. -Representative Kansans of wealth are in Sircago negotiating for space for a World's fair exhibit, notwithstanding the failure of the

Legislature to make an appropriation. —A well-known Kansas City woman, arrested for securings goods under false pretenses, claims she was hypnotised by an unknown man whom she met on the street each time she committed the offense.

committed the offens.

—The Wiscowsin Assembly passed the Congressional apportionment bill yesterday. A uniform text book bill was defeated. A resolution favoring the election of United States Senators by the people was adopted.

—In a manhole beneath the Richmond City Hall cupola yesterday morning, John Belton, a workman, was found dead from suffocation. A companion was found unconscious, and when he revived his mind seemed to be affected.

—A new World's Fair bill was introduced in he revived his mind seemed to be affected,

—A new World's Fair bill was introduced in
the Lower House at Springfield this morning.
It excludes the State Board of Agriculture
from the management of the State exhibit and
makes an appropriation of \$500,000 instead of
\$1.000,000. The point is made that there will be
another session of the Legislature before the
Fair is held, and that an additional appropriation can be then made if necessary.

—The conspirators who tried to get held of

The conspirators who tried to get hold of Loring A. Robertson's millions were all indicted yesterday by the New York grand jury, except Lawyer John F. Baker. He proved that he was not in league with them. Those indicted are Byron W. Cohen, James Daskem, Howard Belcher and Cassie Heien Crooks. The

## THE BODY CREMATED.

Rev. Mr. McKay Preaches at the Funeral o

Prof. Arbogust. The body of Prof. Sigismund Arbogast wa cremated vesterday afternoon. The funeral services were held at Samson's undertaking rooms. A large number of friends and fellowmusicians were present. Rev. J. W. Mackay preached the sermon, as Father Wall had refused to deliver the last rites of the Catholic Church, since it was against the creed to have a body burned.

A band composed of musicians from various organizations was improving and played and played.

organizations was improvised, and played some sweet music out of respect for the deceased. The ashes were deposited in an urn and will be buried in the Allegheny Cemetery. The floral offerings were very beautifu.

## HOW TO DETECT IT.

me Valuable Hints Regarding the Grippe-Signs of Its Approach and How to Counter-

The discusson as to the cause of the Grippe s of course interesting, but gives little satisfaction to its unfortunate victims. Whether

s of course interesting, but gives little satisfaction to its unfortunate victims. Whether caused by microbe or vagaries of the weather, its ravages continue and the country still bends under the scourge. In Chicago, recently, the deaths from this cause were so great that the undertaking facilities of the city were insufficient to meet the emergency. The death rate is correspondingly high all through the Northern and Eastern States.

It cannot be too strongly impressed on people that, in order to ward off the disease, warning symptoms must be regarded and prompt action taken. It becomes extremely difficult to dislodge the disease if allowed to take its course. Hence its name. It generally commences with a slight headache, or pains in the small of the back or limbs. It does not always give one even as plain a him as this—a feeling of tightness across the forehead, buzzing in the ears, or peculiar feeling about the eyes, may be all the caution one gets, so it is culpable carelessness to neglect even these slight signs.

The remedy lies in a stimulant, and the preference should be given to whisky. All the doctors of the country are agreed on this point, but are very careful to impress on their patients the fact that pure whisky alone must be taken. Duffy's Pure Malt Whisky is the purest on the market, and can be readily obtained at all drug stores. This preparation, which is indorsed by all the leading doctors, scientists and chemists of the present day, is this year adding to the first-class reputation which it won during the epidemic of the Grippe last year. There are many imitators who say their whiskies are "just as good," Do not be deceived. They are not. Duffy's Pure Malt is the only medicinal one.
