SOUTHERN FURNACES WEAKENING

The Steel Rail Trade Is in the Same Lifeless Condition.

STATE OF THE FOREIGN METAL MARKET

SCHOOL TELEGRAM TO THE DISPATOR! NEW YORK, April 9,-The Iron Age reports the condition of the iron and steel markets as follows:

The abnormal dullness continues in every branch of the iron trade in this market. The only feature worthy of note is that the number of sellers is increasing who decline to make any further concessions to hold business, thus indicating that there is little room for a further decline. The only serious feature is the talk in the West that the Valley turnacemen will soon become sellers at low figures, say \$12 50 for forge and \$14 50 for Bessemer at furnace.

American Pig-This market is dull. Southern furnaces are reported to be weakening a little in certain grades, notably mill iron and No. 3. The extreme range on Northern brands 18 \$17 0 18 for No. 1, \$16@16 75 for No. 2 and \$14 60lb for gray forge. Southern from sells at 316 756 17 50 for No. 1, \$166016 25 for No. 2 and E14-01 Diorgray forge, Forro Minganese—The market is very dull. Steel rails—The market is absolutely lifeless. mly one sale of 5,000 tons having been closed juring the week by a Pennsylvania mill, Few regoliations are progressing for particularly arms lots. Rail sellers insist that a good deal of business must come out, both from the large lines for renewals and for the completion of roads upon which a good deal of work has al-ready been done. The opinion is quite general in the rail trade that no marked improvement can be expected for some months. We quote,

NEW YORK, April 9.-The foreign metal markets are thus reported by the Iron Age: In the London from market there has been little Sertember.

MARKETS BY WIRE.

The Speculative Boom at Chicago Brough to a Sudden Halt-A Drop in Prices All Along the Line-Fine Crop Prospects.

CHICAGO-The foreigners were firm and again sent buying orders to this country for liberal quantities of both wheat and flour; but it needed sensational doings to sustain yester day's prices here, and only a continuation of the former condition of things was advised, and holders here who have accepted the bids made by the shorts yesterday for large lines of their holdings were not years to a reaction. Wheat oldings were not averse to a reaction for May opened at \$1 00% and closed at \$1 04% bid. July from \$1 04% at the start sold off to \$1 02% and closed at the bottom of the day's

The early cablegrams showed that there was no abatement of demand for wheat in England and France resterday afternoon. An excited and higher market, which the circumstances and France yesterday afternoon. An excited and higher market, which the circumstances appear to warrant, was not forthcoming, however. Many of the more timid of the shorts had covered their lines yesterday, and the local crowd were doubtful if anything but the actual taking of more wheat, and that in large quantities, would be effectual in preventing a break. In this temper and in the changed position toward the market of many of the heavy operators, the opening price was about on a level with yesterday's close. The news which came in later was of the same general character as that of the previous day, but was not strong enough to overcome the general desire of the crowd for a decline. The price of May from around \$1.05% at the start worked gradually downward until it was selling at \$1.04% and July from \$1.04% receded gradually to \$1.00%. There was a sudden bulge following this, which sent prices horriedly back to the opening but the latter was deemed insufficient and selling once more was the dominating feature in the pit. The cause of the altrance was reported takings for export of some liberality at the Eastern and Southern seaboards and at Chicago, Minneapolis and \$1. Louis. Against this report fine crop prospects countervailed, and the prace went down and stayed at the bottom till the close.

The coru market was firm at the start, influenced by the wet weather and the strength

The corn market was firm at the start, in-The coru market was firm at the start, influenced by the wet weather and the strength of wheat. First traces were very irregular, prices ruling at that time not again succeeding. There was a gradual decline in symbathy with wheat until 67½c was reached, from which there was a sudden upturn to 67½c. A subsequent reaction following the lead of wheat left the market weak and near its lowest

wheat left the market weak and near its lowest point.

The fluctuations in oats were numerous, but not large, and a fair amount of business was transacted within a range of 3/c.

Provisions were heavy and for the most part duil. There were more hogs at the yards than had been looked for, and at six Western markets receipts exceeded those on the corresponding day a year ago by 12/000 head. The package in the West for the week numbered 50,000 against 190,000 last year. Prominent packers appear willing to supply anys-reasonable demand, and prices could not be sustained. The opening was under yesterday's closing figures, opening was under yesterday's closing figures, and the closing prices the lowest of the day. DOUBTING THOMASES.

A Transaction at Hazelwood Which Resulted in a Nice Turn.

GROWTH AND VALUE ABOUT A TIE. Deals in Business and Residence Properties

Brought to a Head. OFFICE AND STREET NEWS AND GOSSIP

Another transfer of down-town business property is to be noted. The Hawkins Bros. have purchased, as an investment, from Mrs. Mary McKee and Mrs. A. C. Dravo, No. 102 Second avenue, lot 20x80, with a brick three-story warehouse, for \$10,000.

Mr. David Carlin has sold his property on Crawlord street, lot 24x130, with a two-story mansard pressed brick dwelling, to Mrs. Annie Lowrie for \$6,000. Mr. Carlin will locate in Jeannette, to which place the Berlin Iron and Lead Works, of which he is manager, have

C. T. Beeckman, Secretary of the Larimer Land Improvement Company, recently organnzed, said yesterday: "Surveyors are at work on the ground, and will finish in a few days. The lots will be on the market by the middle of May. One of the managers of the Pennsylvania Glass Works, adjoining this property, says 200 houses will be needed this summer to supply the people employed there." Doubting Thomas at Hazelwood.

Some two years ago Messrs. Reed is. Coyle & Co. purchased 20 acres of hilltop land at Hazelwood for about \$1,000 per acre. The ground had been pletted by others, who took what they considered a "nice turn" and sold out. The knowing ones in that neighborhood thought Coyle would never get his money back, and predicted all sorts of trouble and disaster. In June, 1889, the first lot was sold, and by June of last year the firm bad nothing left of the original plan but a few scattering lots and a surplus of anywhere from \$25,000 to \$30,000. Last year a new purchase was effected, and the second "Marion Place" plan of lots was put on the market, with about the same results. Prices have advanced fully 33 per cent, and the gen-tlemen who at first predicted failure now claim that Mr. Covie made his mistake in not holding on to the ground, as the numerous industrial plants located at Glehwood and Hazelwood within the past year have very much enhanced the price of land and completely absorbed everything south of the Baltimore and Ohio

Railroad tracks.
A singular feature of this story is that at least six of the doubting Thomases have bought lots in the "Marion Place" plan at the rate of \$4,000 per acre, and they were glad to get them and then walk up a hill-side that at one time they regarded as a goat pasture. And so it goes. The material growth of the city and rapid settlement of the outlying districts are sufficient reasons for the gradual hardening of land values. There is nothing to show that buyers will gain anything by waiting. Any concession is a matter of conscience with owners.

Dressed Meats.

Last week

1,222 5,058 3,506

1, 134 4, 366 4, 485

With the advance in live stock comes an advance in Chicago dressed meat. Dressed beeves are now selling at Sc to 9%c per pound, an advance of 14c on the better grades in the past two weeks. Low grade stock has not changed in that period of time.

Dressed hogs are up 2c per pound since the middle of March. The whole hog now sells at 7c per pound and pork loins are selling at 10c per pound. There has been no change in price of mutton in the past two weeks. All canned meats show an upward tendency, and prices in this line promise to be much higher this season than last.

Drygoods Market.

Drygoods Market.

New York, April 2.—Jobbers are having a fair trade in drygoods, which is expected to continue on a fair scale for the remainder of the season. Jobbers are looked for in printed goods and possibly fabrics for special attractions. The market at first hands is in very good shape, and job lots are not very plentiful in any direction. An auction sale of low grade white goods took place, with very poor results for sellers. Nothing was expected of it, however, because goods of that grade have not been very salable for two years past.

Coffee Markets. NEW YORK, April 9.—Coffee options opened steady 5 to 15 points down to 5 up, and closed firm 10 to 20 points up; sales, 14,250 bags, including April, 17.05@17.100; May, 16.45@16.50c; June 16.75@16.80c; July, 16.45@16.50c; Angust, 16.15@16.50c; September, 15.65@15.80c; December, 14.50@14.60. WHEAT WILL BE HIGH.

The Shortage of European Crops Will Produce That Result. SAN FRANCISCO, April 9 .- One of the leading grain merchants of the State, regarding the shortage in the European wheat crop, says: "Everything indicates that the price of wheat will be higher this year than last." Six weeks ago prices commenced to go up gradually, and now wheat is from \$1.50 to \$1.60 per bushel. Our exporters are selling cargoes for August, September, October, November and December at the rate of \$1.50 or more here.

DOMESTIC MARKETS.

Butter and Eggs Tend Lower, as Quotations Will Reveal.

VEGETABLES WEAK AND QUIET. Cereals Continue Steady, and Hay and Flour

Are Strong. LIGHT STOCK OF HIGH GRADE SUGAR

OFFICE OF PITTSBURG DISPATCH, THURSDAY, April 9.

Country Produce-Jobbing Prices. Our quotations on Elgin creamery butter are reduced in accordance with the decline at headquarters the beginning of the week. Dealers in fancy brands report prices a shade above our figures. Supply of eggs at last exceeds demand, and prices are drooping. Our quota-tions are reduced, and probabilities are that there will be daily reductions for the week to come if pleasant, mild weather continues. Southern stock sold to-day at 16c, and nearby at 17c per dozen. As the supply of new vegeta bles from the South increases old stock grows more quiet. Even potatoes, which have been active and firm for weeks past, are somewhat quiet this week. Prices, however, are main-tained. Cabbage is dull, and onions are scarce

and firm.

CALIFORNIA'S INFANT INDUSTRY.

The Reduction of Tin Ore Begins in a Very Auspicious Mannet SOUTH RIVERSIDE, CAL., April 9 -The San Jacinto estate has commenced the reduction of tin ores. Unselected ores have yielded 10 per tin ores. Unselected ores have yielded 10 per cent of metallic tin, and were reduced by the use of crude petroleum oil from asphalt depositors in the vicinity.

The present openings in the Cajaleo mine, it is stated, will give a daily output of 100 tons of ore, and mill and reduction works will be in full operation June 1. The tin lodes discovered exceed 50 in number, and extend over 20 square miles. It is claimed the output will equal the total consumption of tin in the United States.
