Price of the former is now \$2 25 and of the latter \$1.75 to \$1.80, a price that cannot more than cover the cost of production under As last season was a very poor one for refrigerators, on account of high-priced ice, the coming season promises to be extra good for the opposite reason. Already orders are coming in much more freely from retailers for retrigerators than at this time a year ago.

Wheat Very Irregular, but Closes Lower-The Smallest Prices for Corn Also the Last-Oats Firmer-Provisions Firm-Other Markets,

CHICAGO-The refunding influences in the wheat pit were on the foreign advices and the free prespects for the growing crop here. The offuence of bullish cables was noted at the opening. The starting price for May wheat was anywhere from \$1 05% to \$1 05, with the majority of the transactions at \$1 05%. majority of the transactions at \$1.65%. July was still more irregular, having a range in different parts of the pit at the same moment of from \$1.04% to \$1.04%. \$1.04% being the most general. A private cable reporting the edge off the demand for wheat at Antwerp was the cause assigned for a temporary disappearance of the early desire to bur here. May, which sold as high as \$1.06%, and even \$1.00% for one or two small lots, gradually declined to \$1.05% and looked weak for a time, a recovery to \$1.05% being slowly brought about by the buying in of lines put out at the opening.

t the opening.
The closing cables were bullish. The realming of the boldings of long wheat during the session had been enormous, and the selling on short account was also very heavy. The feeling was generally heavy throughout the latter part of the session, and the lowest prices were

make close to the end.

There was the same brisk demand for cash price for slay delivery as was noted yesterd ax, and that, ngether with the wet weather, made an excited and higher marker for about 20 minutes at the beginning of the session. The opening for May was from 65%c to 57c. The price was held around those figures for a time, after which the tendency was downward, and the lowest prices of the day were current as the business closes.

The unfavorable weather gave a firmer tone to the oats market until near the close, when prices were barely steady. Some of the short sleek sought cover, and some of the longs took alwantage of the early advance to realize.

The diminishing receipts of hogs and the strength of corn were the cause of a firmer market for hog products. There was a good deal of nork for sale on the advance, but ribs and lard were held with more firmness. The high price of corn being so much over the equivalent value of hog flesh, makes the latter an attractive purchase of country operators, but in view of the chormous stocks the appreciation of the price of provisions in April is 80 ments.

Besides, if the embargo were removed there is not a pound of American pork products in process of curing that would be admitted to termany under the stringent laws of inspection adopted by that country. Even live hogs are admitted under careful inspection, and the laws concerning hog products are much more stringent.

The only legitimate basis for the late bull movement is the high price of corn. This will be fully offset by the large stocks of provisious in the country and the serious labor troubles all over the land, which will have the effect of lessening demand.

Time will soon tell whether bulls or bears will gain most in the tassle which is now fully on. A settlement of labor troubles and Germany's action will have an important bearing on the final issue. At present, however, it looks as though the bull movement had spent its force.

At the annual meeting of stockholders of the P. C. C. & St. L. Railway Company in this city yesterday, the following directors were elected: First class, for term ending April, 1892: William A. Patton, George Willard and Briggs S. Cun-ningham. Second class, for term ending April, 1893: W. L. Scott, J. T. Brooks and John E. Davidson. Third class, for term ending April, 1894: James McCrea, Thomas D. Messler and W. H. Barnes. Fourth class, for term ending April, 1855: George B. Roberts, Frank Thomsen, J. N. DuBarry and John P. Green. Reports of business for 1890 showed an increase of \$388,911 71 as compared with 1889. There was an aggregate expenditure of \$1.188,186 16 in betterments and improvements and in additional equipment, which was all charged to capital account. The work of extending the double track between Pittsburg and Columbus was continued during the principal part of the work being the three and a quarter miles between "Philadelphia Roads and Bowerstown" and in widening and arching of tunnel No. 10.

The annual meeting of stockholders of the Allegheny Valley Railread was also held yesterday. The fortseth annual report showed that the total earnings for the year 1890 amounted to \$2.582,100 51; for the year 1899, \$2.380,985 60; increase, \$222,149 91; total expenses for 1890, \$1.457.449 27; expenses for 1890, \$1.477.588 65; increase, \$24.856 62. The old Board of Managers were re-elected.

Mr. Westinghouse and His Work. Dullness and weakness were the salient features of speculation all over the country yesterday. The weakness, however, was not specially pronounced, and was due to the elimination of buying orders and not to adverse changes in conditions. There was no change of an unfavorable nature in the outlook. Realization is still too prominent a fac-tor to admit of expectations of a quick and permanent upturn. Total sales on call here were 250.

# MONEY MARKET.

Clearing House Exchanges Denote Steady Improvement in Financial Circles. Although speculation was slow and no special pressure from regular lines of trade, business at the banks was well up yesterday, checking and depositing being the best features. Bank-ers, as a rule, are of the opinion that the labor trouble will be settled somehow, and think that business will be in full swing before May is very old, and, thus believing, they are not muon disturbed by the accumulation of funds, as they think the upturn will bring employment for all they care to put out. Clearing House exchanges were \$2.64s,255 22 and balances \$529,-207 82—both items an improvement over the previous day.

Losses in the General List. NEW YORK, April 14.—The stock market to-day was comparatively dull and heeltating. and, after frequent and complete changes in temper, but few wide fluctuations, ended gen erally within small fractions of yesterday's final prices. The situation both at home and abroad is calculated to give the bulls a temporary pause at least, while encouraging the bears to feel the market frequently, and generally to some purpose.

North American came in for a vigorous at-

North American came in for a vigorous attack, which was rewarded by a material decline. The local operators were undoubtedly bearishly inclined for the moment. The movements in the Villards and the Industrials were most important, but of the latter, while Chicago Gas was strong, Sugar was weak; but outside of Sugar and North American, there was no material downward movement during the day, notwithstanding the slight flurry in money, which sent the rate on call up as high as 5½ per cent. In marked contrast to Sugar, Chicago Gas was specially strong, the general list, after an irregular opening, suffened up, but later retired before the raids of the bears, and the market closed heavy, but at insignificant losses in most cases from last night's prices.

TURSDAY, April 14. |
Country Produce—Jobbing Prices.

At the regular Monday meeting of the Elgin Butter Board last week's prices of creamery butter were reaffirmed and markets were steady. Advices from Eigin indicate that atocks are very light. There will, therefore, stocks are very light. There will, therefore, be no change in prices of choice creamery this week. Country rolls, on the other hand, are coming in freely and markets show drooping tendencies. Our prices on eggs are reduced ic per dozen, in accordance with general sales. Southern eggs are selling a shade below our quotation. The new crop of vegetables is fast displacing old stock. Potatoss, however, of good quality are steady. Lemons are firm at the advance noted a few days ago. Other the advance noted a few days ago. Other tropical fruits are quiet. There is still more than enough of maple syrup on the market and prices are weak.
