A SHARP ADVANCE ON ALL CATTLE.

Run of Sheep Light and Quality Low, With Prices Strong.

CALVES AND SWINE DRIFTING DOWN

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, April 15. On Monday morning markets opened a East Liberty stockyards with about 50 car loads on sale, and five loads have been received since. The total for the week has been about the same as last week. There were more low grade beeves and fewer primes in this week's offerings than for several weeks past. Supply of good butcher stock was not up to demand. Many more than were of-fered would have found ready sale at 25c per cwt more than last week's prices. All along cwt over prices of a week ago.

The highest price obtained was 6c per pound, and only a few reached this price. Smooth, tidy butcher beeves of light weight, such as our markets call for, ranged in price from \$5 to 55 50 per cwt. More than were offered would have found ready sale at this price. There were few good fresh cows on the market, fewer than wants of trade demanded.

The range of prices was \$25 to \$45 per head. and at the outside price there could have been sold more than were offered of good stock. There were no stockers offered and none

The run of calves this week was the largest of the season. About 700 were received on Monday, and as many more on Tuesday. A few hundred more were expected to-day. As a esult of large receipts markets are off fully ic per lb fre prices of last week.

The te of the market for scalers last week

was 54c. This week the top price was 64c. aly a few of the choicest reached this figand only a few of the choicest reached this fig-ure. Last week's receipts of calves were 100 head, and this week's are close to 2,000 head. Sheep and lambs—There have been less than a dozen leads on the market all the week. In the offerings were very few good which could in largest charity be called prime. Farmers who have carried their sheep through the win-ter have done so for the wool, and as the weather so far this spring has not been favora-ble to clipping, sheep are being withheld from the market until after favorable shearing time. As the weather has been much more favorable for clipping the past few days, there is little doubt that next week will witness increased supplies.

Simplies.

The highest price paid for clipped sheep was 6 ½c, and lambs fic per fl. Only a lew choice honches were sold at these figures. A load or two of unclipped Western sheep were sold at 5 to 5½c. A few burches of fancy unclipped lambs were sold at 7½c. Hogs-Receipts for the week so far have been almost 30 loads. Markets were slow at a dealine of 50 per cert. Markets were slow at a decline of 25c per cwt rom prices of last week. Best Philadelphia and at \$5.50. There was little demand fo orners, and sales were only made by libera

Grain and Produce Duller, But Prices Fairly Well Sustained in Wheat and Corn-Oats Firm and Fairly Active-

* Provisions Heavy.
CHICAGO—The business in speculative com age. In provisions it was of a midsummer dul ness. Wheat at the close had gained 1/20%c on yesterday's latest quotations. Corn was up 1/4c, and oats 1/c. New York reported 31 carloads of wheat worked there for export, and houses

and oats %C. New fork reported at Carloaus of wheat worked there for export, and houses here with foreign connections had numerous bids and inquiries, but no local business for export was reported.

The market opened firmer, followed by momentary weakness, and that, in turn, by a further advance. The fluctuations during the first two hours in May were from \$1.05 to \$1.04 and off again to \$1.01%. The buts was done at within ½ on \$1.05. July began at from \$1.03% and \$1.03% sold at \$1.04, then gradually down to \$1.03% working slowly upward again until \$1.04 was touched. The foreign situation held the market to-day, as it has for some time past, against the rose-colored home position as regards the next crop. The cables all reported a good demand for cargoes of wheat for the Continent. The weather in the Northwest was much improved, and that was the inducement early in the session for some short selling in this market. The public cables reported the closing of the foreign markets as firmer in tone than for some time previous, and farther buying for export at New York sustained prices to the end. May sold up to \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% and closed at \$1.05% bid, and July closed at \$1.05% bid.

corn helped that market at the start. A good demand for the cash offerings at a considerable premium over May still further stimulated the premium over May still further stimulated the demand from the shorts. May opened at 69% 689%. July advanced from 66c to 66% before any trading to speak of was done. A suise-quent reaction, brought about by a temporary decline of wheat took May down for a mo-ment to 66%, but it afterward advanced to 69%, closing at 69%. July sold off to 66% 69%, and closed within % of the last named hours.

Deure.

Outs were firm and fairly active, at a narrow range of prices. Considerable strength was noticeable in the sask market.

The provision market opened slow and at a sight decline since the day preceding. The dailness and heaviness continued during the remainder of the day, except for a short time, when some buying by local shorts received encouragement from the advance in the price of cort.

THE FEATURES OF LOCAL SPECULATION

Real estate is moving slowly on account I the unsettled condition of labor, but there s enough going on to show it is not in a very deep rut. George T. Oliver sold a lot 105x150, with a large two-story brick dwelling, situated on Sylvan avenue, Twenty-third ward, to Mrs. Orrins yesterday consummated the sale of his property near Beltzhoover, lot 54x150, with a good frame dwelling, for \$9,000. A farm in Pine township changed ownership on Tuesday at \$65 an acre. William Adams was the pur-

Talk That May Materialize While nobody in a position to know all about it will talk for tear of saying something, it comes from a reliable source that two good business houses will, if present arrangements are carried out, adorn Fourth avenue before the world is a year older. They have been under consideration for some time and would have der consideration for some time and would have been put under contract early in the year, but for the labor trouble. One will be on a corner, which is owned by an estate, and the other in the middle of a block. Both are in the shadow of the new postoffice building. There is an active demand for property in this district with very little on the market. This denotes that owners will improve their holdings. The last reported sale on Smithfield street, below Diamond, was at the rate of \$2.500 a foot front.

It Came Too High. A physician of Washington, Pa., came to Pittsburg a short time ago to buy a place on Penn avenue. When informed that it would cost him about \$1,500 a foot front, or \$40,000 in all, he remarked: "I am surprised. I had no idea property was so dear in Pittsburg. Why, I can buy a town for that money in my county. I guess I don't want it." He went home and hasn't been heard from since. The figures look large, but in sizing them up the fact should not be overlooked that land values in Pittsburg are lower than those of any other important city in

Business News and Gossip. The Braddock National Bank has been elected treasurer of the borough of Wilkins-

burg.

Philadelphia Gas was the redeeming feature of the local stock market yesterday. If Mr. Watt had not nipped the boom there is no telling where it would have landed.

Ground on Carson street, the great business artery of the Southside, is held at from \$300 to \$400 a foot from, while on side streets in Pitts-burg proper, values range from \$500 to \$1,000. These figures should be reversed.

The Wilkinsburg Electric Light Company will soon begin the erection of a new plant. It will be of brick and be much larger than the will be of brick and be much larger than the present one.

The Pennsylvania Water Company is said to be doing a business that will soon place it on a dividend-paying basis. There is very little of the stock on the market.

Fourteen of 42 mortgages on file for record yesterday were for purchase money. The largest was for \$6,500. Each of 21 was for less than \$1.000.

than \$1,000.
At one time yesterday Philadelphia Gas and Electric were even in the trading.
Lake Eric and Western has declared a quarterly dividend of 1 per cent on the preferred stock, payable May 15.

Philadelphia Gas Continues Its Upward Movement - Electric Takes a Back . Scat-No Statement in Sight-The Miners Held Up.

Considerable business was transacted in local stocks on call yesterday in face of a bearish feeling in New York, due to further engagements for the export of gold and the probable advance of the Bank of England rate. There was a slightly better feeling at the close, but business was dull. The bullish influences were business was dull. The bullish influences were good weather, returning health and bright outlook for the crops. Total sales on call here were 853 shares, of which 713 were Philadelphia Gas. The features of local tracing were the strength and activity displayed by Philadelphia Gas, which, opening at 13½, sold up to 13½, and closed at 13½ hid. This stock has surprised a good many, who, not long ago, predicted its total collapse. The company is in far better shape than it was a year ago. It is not likely that the price will go much higher on the present buice, as during the warm weather receipts will undergo material shrinkage.

Electric was almost featureless. The last sale at Hoston was at 13½, and it finished there with 13½ bid. Here the opening was 13½, sold at 13½ and 13½ and closed at 13. Only 220 shares changed hands. Nothing was received from Mr. Westinghouse to throw light on the situation.

The Boston Taxeller of Monday makes some

The Boston Traveller of Monday makes some statements of special interest here at this time. They follow: "Westinghouse Electric stock has again been one of the bull cards of the local market to-day. The buying came from all quarters, and the talk on it has been very bullish. A bid of ly for the right to call it at 17 during the next 60 days was made at the local board. The deal which Mr. Westinghouse has been arranging although not as yet actually board. The deal which Mr. Westinghouse has been arranging although not as yet actually consummated, is so nearly so as to warrant the expectation of some kind of an official announcement about it within a few days. An important conference was held in New York on Saturday, and it is a significant fact that certain Thomson-Houston people were present thereat. If the plan that is now shaping shall prove to be all that is mitimated, the present built talk on the stock and the predictions for its immediate future would seem to be well warranted."

warranted."

There were no material changes in other parts of the list. The miners were strong, Luster and La Noria closing a fraction better than the opening, as did Switch and Signal. There were bids, but not satisfactory to holders, for Manufacturers' and Wheeling Gas. The latter will pay its usual quarterly divideod of 1½ per cent, on the 20th inst. Calls were:

First call—100 Philadelphia Gas at 1234, 40 at 13, 50 at 1334, 300 at 1334, 50 at 1334, 20 Airbrake at 91.

Share Market Retarded Both by Monetary and Railroad Affairs, But Strength and Rising Prices Later in the

Day-Tennessee Coal Weak. NEW YORK, April 15 .- The aspect of monetary affairs, both at home and abroad, and con tinued uncertainty as to the fate of the Western Traffic Association, owing to the inability to get a quorum of the Advisory Board together, hurt the stock market to-day, though there was no material decrease in the amount of business done nor decline in prices. A drooping tone prevailed throughout most of drooping tone prevailed throughout most of the day, however, and the trading element was confirmed in its tendency to work upon the short side for at least a short time further.

There was evidently little doing by the more influential operators, and outside of the Villards, the three leading Grancers and the Industrials, there was no animation. The news of the day was depressing rather than weakening, and no feature was shown in any of the specialties, except in Tennessee Coal, which dropped away 2 per cent, but recovered most of the loss later in the day. The final adjournment of the Advisory Board, subject to the call of the Chair, however, was met by a heavy buying movement in the Grangers, which seemed to come from Western sources, and all through the afternoon prices slowly advanced, while toward 2 P. Western sources, and all through the afternoon prices slowly advanced, white toward 2 P.

most positive strength was shown, all the
Grangers and the industrials moving up rapidly on large transactions.

The general list followed slowly, however,
and many stocks at the close were still below
their last night's figures, but in many of the
leaders material gains were scored even in the leaders material gains were scored, even in the face of the unfavorable news from the West and the further engagements of gold for shipment. Even the Villards, which had been the weak point in the market, rallied with the rest, and their losses were reduced to small fractions only. The market finally closed fairly active and firm at or near the best figures. The final changes of note include Chicago Gas, 5%, and Sugar, 1%, while Cordage, which sold ex-dividend of 4 per cent, recovered 1% per cent.

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, April 15. Country Produce-Jobbing Prices. Outside quotations on eggs are only obtained

for single cases. In job lots the ruling price is less than 14c. Said a leading jobber: "Our stock goes slow, as is always the case on declining markets. The sooner markets get down to bottom the better for dealers. It is probable that eggs will be selling at two dozen for 25 cents before the week is out, and when they get there markets will be more active." In the line of dairy products, choice creamery butter is steady and country rolls are weak. The old stock of cheese is practically worked off, and the fittle new that is offered is of poor quality. There is no new Ohio cheese as yet on the mar ket. California oranges have taken an upward turn. At sources of supply there has been an
