Great Prospects for the Inaugural Baseball Game of the Season in This City.

O'NEIL'S PLEASING FORECAST.

The Cleveland's Again Defeat the Local Team in an Interesting Contest at Atlanta,

CAYLOR'S ESTIMATE OF THE SEASON.

Friesimmons und Smith Fail to Make a Match .- Gentral Eporting News.

Of course everybody who is a baseball admirer is waiting anxiously for Wednesday, as far as Pittsburg is concerned. That day is the opening day of the National League season. A day that many authorities tell us will open one of the most enthusiastic seasons in the history of the game. It is needless to say that Pittsburgers are brimful of the brightest anticipations of the season and President O'Neil and his colleagues are certain that the opening games, provided there is fine weather, will be very creat events indeed.

Wednesday's game, the opener, which will be of the two teams, representatives of the press and a few friends. The parade will cover the principal streets of the two cities and will start out at 2 o'clock in the afternoon. Everything is being done to make the affair a great success. Reserved seats will be sold to-morrow at ordi-nary prices and the grounds have been put into really first-class condition. The infield is all souded close up to the grand stand and the seats generally have all been improved. The private boxes will not all be finished until the club goes East. Speaking of the matter yester-day Presiden O'Neil said: "We expect to have ne of the greatest opening days ever seen in citisburg in the history of baseball. I canno: Pittsburg in the history of baseball. I cannot say, of course, who our battery will be as that belongs entirely to Manager Hanlon. He knows what condition our pitchers are in, but he thinks we cannot fail to break even with thicago. He even goes further, and thinks we can win three of the four games. Now, I will be content if we can only keep even for a few neeks. If we can manage to win as many weeks. If we can manage to win as many games as we lose until about June, we will win the pennant, because I am certain that we will have the greatest team in the country before the season closes. Anson will have his men in good shape. I never underestimate Anson, but I'm sure that he will not get the better of us. "I have nothing now along. Kung" continued. In sure that he will not cet the better of us.

"I have notified new about King," continued Mr. O'Neil. "There is a little hitch, but it will come out all right, I cannot explain what it is."

A gentleman interested in club affairs stated that King wants some extraordinary conditions in his contract. The club has made three important concersions already, and he wants more, which will not be granted under any consideration. His desire for \$500 advance was granted, and so was his request to be exempted from the reserve rule. His latest demand relates to principles that President O'Noil feels he is not justified in violating. But it is expected that King will be here to witness the opening game.

WILL BE A GREAT SEASON.

That's What O. P. Caylor Says About This Year's Baseball-A Few Words About the Prospects of Pittsburg and Other Cities.

SPECIAL CORNESPONDENCE OF THE DISPATCH. NEW YORK, April 18.—The attendance so far upon all the American Association champion-ship games, upon the League exhibition games, and at the opening games of the Western Association season leaves little or no doubt of the restoration of old-time interest in the national game. The impression is abroad and prevails most universally that the great sea 1889 will be repeated so far as popular attend ance is considered, if it be not excelled. When the National League season opens nex

week you will find the first proof of the pad-ding. Should the weather be propitious the four games will draw out multitudes on Wednesday.

Here in New York there will be a crush About everybody who ever saw a game of ball played intends to be present when the Bostons and New Yorks come upon each other for the first measure gof strength u The new Polo Grounds—last year's Brotherhood Park—will seat 10,000 people easily. When I say 10,000 In mean 10,000 and not an exaggerated figure, as is so often used when speaking of a grounds' seating capacity. The grand stand and pavitions of the Polo Grounds should be seen to be appreciated. They beat anything in extensiveness to be seen on the baseball fields of the United States.

Well, I want to foretell that should the weather next Wednesday be favorable there will not be a vacant soat on the Polo Grounds. And that would be a crowd which, in some cities where exaggeration is the order of the day, would be announced as 20,000 people. Grounds-last year's Brotherhood Park-will

I presume the crowds in Philadelphia and Pittsburg will be proportionately large. In. Philadelphia the League club drew out 2,500 spectators to an exhibition game last Monday, and the interest in the Athletics' games at between Pitisburg and Chicago, will commence at 3:30 and it will be preceded by a grand parade do not suppose the most skeptical man in Phil adelphia will deny me the right to say that never has a baseball season opened in that city with greater interest shown by the devotees of

the game.

In Pittsburg the crowd ought to excel any that has ever attended the opening of a game. There are two reasons for it: First, The home team's attractiveness. Pittsburg has never been honored with such a netable team of star attractive and the star attractive and the star attractive attractiveness. been honored with such a notable team of star players. It is an "aggregation," to use a slang expression, upon which the eyes of the baseball world are centered. If that team pulls together, that is, proves itself capable of doing good team work, there will be no League rival with a warrant to defeat it in a majority of games played. It is certainly a most remarkable collection of good players. Whether a strong team can be fashioned out of them remains to be seen, for you cannot always make a successful team from all star players, any more than you can make a watch from nothing but gold. The players must fit their positions—must harmonize with one another and be strong in every position—to make a successful team.

The second element of attraction in that opening game at Pittsburg is the popularity of the visiting team under the charge of the most very ball that where it America. the visiting team under the charge of the most notable ball player in America A. C. Anson. The Chicagos have always been a fine card in Pittsburg, and no team in the League would do etter to open the season there.
I look for a great turnout in O'Neilsburg

As for Cincinnati, there is not so much cer tainty. That city has always been a good base ball center, and its people have been extremely loyal to their club and its players. This spring, however, sees that city in almost the same base ball position which was occupied by New York, Chicago, Cleveland and Pittsburg last spring. I am hoping, however, that the result will not be the same. There is no conflict of dates, and oth teams should be treated fairly. I cannot

both teams should be treated fairly. I cannot believe that such faithful players as McPhec, Reilly, Rhines, Harrington, Mullane, Halliday, Marr and the rest will be treated shabbily by the people of my old home.

The situation in Cincinnati does not seem to be one of promise any way I look at it. A city of that size to support two clubs should have the two clubs well up in their championship races. I cannot convince myself that either of the Cincinnati clubs has a team which will get the Cincinnati clubs has a team which will get

races. I cannot convince myself that either of the Cincinnaticlubs has a team which will get into the first division of its class.

It was a mistake to boom Kelly's team as a possible Association winner, or even as one of the Association leaders, Kelly himself is a great player, but one or two or even four or five rood players cannot win games. Outside of Kelly, the team has not one first-class player. Seery, Johnson and Andrews are great outfielders, but weak batters; and it is a well-settled axiom in base ball that a valuable outfielder, but weak batters; and it is a well-settled axiom in base ball that a valuable outfielder must also be a good, hard bitter. It is a mistake to engage outfielders who are not away above the average in batting strength.

The infield of the Kelly team is also weak in batting and but fair in fielding, and, comparatively speaking. I do not believe the team is strong in batteries. Its pitchers are an uncertain quantity, with the exception of Crane. He would be a strong man for the Association if he could withstand all the peculiar temptations that are thrown around base ball players in that city. Let us hope he can and will. If he does, he will be the club's mainstay,

Kelly, while a great player, is not a good captain. Kell is too excitable. No good captain will desert his team in the face of defeat. That sort of thing will take the heart out of the best of players. Kelly's fault in this respect is also Exinc's You never see Ward quitting the

sort of thing will take the heart out of the best of players. Kelly's fault in this respect is also Ewing's. You never see Ward quitting the game in the presence of defeat. No captain should give up a game until the last man is out. Kelly and the Association club dud remarkably well in getting such a team together under the circumstances. But it was a mistake to make people believe that it was to be a leader in the race, or even a possible leader. It needs a year's experience, at least, and mostlis of op-portunity to strengthen the weak places before it can hope to take a place as a leader.

As for the Cincinnati League team, I cannot see where it is any stronger than was the team of last season. Radbourne may help it in the pitching department. But if Mullane could be nduced to nitch every other game during the season it would help the team wonderfully. Mullane is one of the few pitchers who do Mullane is one of the few pitchers who do better the more work they have to do. He has a wonderful arm, and his full use as a fitcher I think should be utilized,
George Smith will strengthen the team in the field, but he is not as "good a batter as was Beard. The vacant outiled position may be filled by the signing of Slattery. The latter is a fair hatter, but a poor fielder, and a still poorer base runner. He is, however, Knight's superior in one sense, and one only—his arm is all right, and he can throw from the outfleid to the diamond.

Manager Loftus' team, while no stronger than it was last year, will have teams to face this season, every one of which are from 20 to 100 per cent stronger than it was last year. Under all these circumstances, I cannot imagine how he can force his men into as good a position as they occupied in the race last year.

Cincinnati people should look at these circumstances surrounding its two clubs in a philosophical way. But I fear they will not. It is not the nature of men to do so. If it were not for the fine opportunities the two clubs have under the division of gate receipts to earn have under the division of gate receipts to earn large sums away from home, the Cincinnati situation would, indeed, look very black. As it is, I do not see how both clubs can expect to survive. One or the other will be forced out as sure as the sun rises and sets. I have faith enough in the Cincinnati people to believe that they will decide wisely as to which of the two is most worthy to survive and become the city's representative baseball club.

DIDN'T MARE A MATCH.

The Smith Party and Fitzsimmons Agree to Wait Until To-Morrow. John Quinn, the backer of Ed Smith, met Bob Fitzsimmons and Mr. Ross yesterday after-noon at the Seventh Avenue Hotel to try and make a match for a battle between the two pugilists referred to. Mr. Ross represented

Fitzsummons in the conversation that took

stated that he would not put up a cent to make a match, as he was not in a position to do so. But he offered to pay the expenses of Mr. Quinn to Chicago and back, and would guarantee a match to be made there on Mouday under the following conditions: That Smith fight Fitzsimmons at 154 pounds, Queensberry rules, for any purse offered that may be satisfactory to Fitzsimmons. Each man to put up a guarantee that he would not weigh more than 154 pounds at the ring side.

These conditions, although extremely unfair, were agreed to by Smith's representative except that part which referred to Mr. Quinn's going to Chicago. He stated that he would find a representative there to meet Mr. Ross on Monday, and it will easily be seen that Fitzsimmons has unlimited latitude, as he insist on not fighting until some club offers moneyenough to suit him. That may never be. He was asked by the writer why he refused to fight at 158 pounds under Queensberry rules, and he replied:

"I'm champion and Smith must fight me at 154 pounds. That's how Dempsey and I fought."

Thus the matter stands and the men are no nearer being definitely matched than they ever were. It is only fair to the Smith party to say that they offered to put up as low as \$100 for-feit to bind a match. This was refused.

SLAVIN AND MITCHELL.

Few Kind and True Words About the Australian Heavyweight.

BY CABLE TO THE DISPATCH.] LONDON, April 18.—Frank P. Slavin and Charles Mitchell are on the Germanic sailing toward New York accompanied by George Washington Moore, better known as Pony Mitchell's father-in-law, backer and chief admirer. It is only just to say for Slavin that the reputation he seems to have in America as a braggart has not been earned. On the ica as a braggart has not been earned. On the contrary he is a man who talks but little of what he is going to do and generally does what he says he wilf. He is one of the best tempered of the "pugs" outside of the ring and a tremendously hard nitter in it. His courage is extraordinary, as any person will testify, who witnessed his fight with Jem Smith at Bruges, where a gang of ruffians hired for the purpose struck him with brass knuckles and clubs whenever he got close enough to the ropes.

On the whole, it is a pretty sure thing that Shavia, if he keeps up his present form, will carry the championship away from America. He and Mitchell intend to give exhibition porformances, but Siavin challenges any man to fight to a finish anywhere in the United States with or without gloves for any amount of money. Mitchell intends to go on the stage after his American tour, so that the present engagement is a farewell to the ring. Both are under contract to a well-known sporting man.

WON BY A LAP.

Nevertheless, the Judge of the Match Decides the Foot Race a Draw.

SPECIAL TRUEGRAM TO THE DISPATORAL BEAVER FALLS, April 18 .- One of the most exciting walking matches that ever took place in Beaver county took place this evening at the Sixth Avenue Theater between Harry Kerr, of New Brighton, and William Wright of Beaver Falls. The match was an eight-hour heel and toe match for \$150 a side and an equal divide of toe match for \$150 a side and an equal divide of the gate receipts.

The race began at 3 o'clock this afternoon and ended at 11 o'clock. After the first lap Wright led. This was kept until fc:15, when Kerr made a spurt, passed Wright, and in a short time gained a lap on him until the finish. The record was—Wright, 40 miles 1 lap; Kerr, 40 miles 2 laps. Although Kerr clearly won the match, for some reason the judges decided the race a draw.

Powell was not so strong as he might have been, through having trained down too fine. Griffo scaled 109 pounds, and his opponent was half a pound lighter. Powell did more fighting than any other man ever did with Griffo, but there was no vim in his blows, and in the nineteenth round he was pitably weak, and in such pain that the referee stopped the unequal struggle and awarded the fight to Griffo. Griffo will probably visit America soon.

OIL CITY WITHDRAWS.

Lack of Suitable Grounds Knocks Baseball on the Head There.

The football game at McKeesport yesterday was one of the most exciting that has ever been witnessed in Western Pennsylvania. The contest was between the McDonald and the Mc-Keesport teams. If the former won they could claim the pennant, and if they did not Me-Keesport would tie with them.

As a result each team only scored one goal each and the contest was a tie. There was tremendous excitement and one of the biggest crowds ever seemat a game in McKeesport was present. Two doctors of an Eastern town, To learning much inclined, Were called to see a gentleman, Whose health was undermined

The first one used his stethoscope Upon the patient meek.
"I find," quoth he, "one lung is gone; You cannot live a week."

To this the other wise M. D. Vehemently objected.
"I see," quoth he, "as all may see,
Your kidneys are affected."

These wise men argued loud and long, Yet the patient owes recovery
(Not to those doctors, but to—
Pierce's Golden Medical Discovery).

There are some patent medicines that are more marvelous than a dozen doctors' prescriptions, but they're not those that profess to cure everything.

Everybody, now and then, feels "run-down," "played out." They've the will, but no power to generate vitality. They're not sick enough to call a doctor, but just too sick to be well. That's where the right kind of a patent medicine comes in, and does for a dollar what the doctor wouldn't do for less than five or ten.

We put in our claim for Dr. Pierce's Golden Medical Discovery. We claim it to be an unequaled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial Fevers, if taken in time. The time to take it is when you first feel the signs of weariness and weakness. The time to take it, on general principles, is NOW.

It's the cheapest blood-purifier, sold through druggists, no matter how many doses are offered for a dollar.

Why? Because it's sold on a peculiar plan, and you only pay for the good you get. Can you ask more?

LIFE'S PERILS.

Universal Disease and Inevitable Death Mankind's Portion.

TRUTH AND FACTS.

Disease and death attend, human existence Disease and death attend, human existence with unerring certainty. There is no spot upon the face of the earth where the grave does not claim its victims. Every member of the human family is born but to suffer and die.

Catarrh is the most frequent disease with which the human family is afflicted and its results most serious. Therefore, knowing these existing conditions, it is necessary to use some remedial agent which has shown itself able to results. lieve human suffering, caused by catarrh, rein-vigorate the weakened energies and check the progress of the disease.

Mr. Bernard McCue. Port Perry, Pa:

Mr. Bernard McCue, residing at Port Perry, II miles from Pittsburg, voluntarily made the following statement to the writer:

"I was a sufferer for over three years and I could get no relief. I suffered from occasional headaches. There were noises in my ears and upon raising after stooping over I became very dizzy. My nose was always stopped up and I constantly hawked and spit up a yellowish mucus. At times my throat was harsh and dry. I had pains in my chest; sometimes they were sharp, at other times they were dull. I never felt rested in the morning."

"Do you think the treatment benefited you?"

"Yes, decidedly—so. I feel better in every way and think I can truly recommend Drs. Copeland & Blair's treatment to all who suffer from the disease."
