Hearing the Plaints of Kickers.

The assessors have heard this sort of thing before, in fact, if such a statement was not made to them at least once a day, they would miss it as they would the song of birds in the spring. After the aggrieved man has made his blandest manner possible to name bis price, or the amount of business be has done. That is only too easy, and he gives his estimate. Then he is asked, as blandly as ever, to swear to it. Sometimes this staggers the kicker; he hesi-tates and demands with some asperity to know thates and demands with some asperity to know that is end the gives the kicker; he hesi-tates and demands with some asperity to know thates and demands with some asperity to know that is end the gives the kicker; he hesi-tates and demands with some asperity to know that so that the physicians declared there was the heat the worty aggravated his father's fil-mess so that the physicians declared there was that the physicians declared there was the heat the worty aggravated his father's fil-mess so that the physicians declared there was the next day and night looking for the missing thates and demands with some asperity to know that the physicians declared there was that the physicians declared there was the next day and night looking for the missing that so that the physicians declared there was the next day and night looking for the missing that the physicians declared there was that the physicians declared there was the next day and night looking for the missing the next day and night looking for the missing the physicians declared there was the physicians declared there was that the physicians declared there was the p The assessors have heard this sort of thing

two years ago he was attacked by a nervous disease which developed about a year ago into a mild form of dementia. Gradually his condi-tion grew worse until last August he became afflicted with attacks of nervous paralysis minch would last only a day or two hat affected his mind to such an extent that in November he became unfit to go about. He remained at home with his father and the attending physi-cian bad hopes of his recovery. Last Monday afternoon the doctor advised Daniel to re out for a walk. He went out anything around a well is wanted it

"Keep me out of it, that is all I ask, for no one can tell just what will be the hatching. The hen is on the nest." The assurance being given, the Beaver statesman slipped into the Pennsylvania ticket office and proceeded conluentially: ficientially: "The county has been offered \$50,000 for the present fair grounds at Beaver. That is the root of the evil. From that offer arose the guestions, 'Will we take it? or 'Will we let the grounds remain where they are?' From that sprang two factions—these working in the in-terest of the persons making the offer, they wanting the grounds moved from Beaver; and those who want the town to keep the fair, for it is a great thing for Beaver. The 'move' crowd is divided now —one faction favoring the purchase of a farm back of Rochester and the other wanting the grounds located on a farm beyond Beaver Falls. Both these places are over a mile back from the railroad, but the people of the two towns to be benefited are very active canvassing for their respective sites, while the Beaver people are just as energetic in their efforts to keep the grounds where they are. The mem-hers of the association are to meet on the Sat-urday just preceding the opening of next term of court-they will assemble at the Court House in Beaver, when the questions 'move' or 're-artil be the people and the other water of the sate of the start of the association are to meet on the Sat-urday just preceding the opening of next term "The county has been offered \$50,000 for the in Beaver-when the questions 'move' or 're main' will be voted on and decided."

if his word isn't good enough. The assessor demeans himself with becoming humility and terret, but points out a section in the city code regret, but points out a section in the city code which says: "Any person, firm, corporation or agency which shall feel argrieved by the amount of any assessment may appeal there-from to the Board of Assessors. All such ap-peals shall be by affidavit, which shall be filed with the board on or before June 1 of each year. That in the consideration of appeals and for the purpose of ascertaining the facts in each case the board is empowered to make requisition on the Mayor for Subpean or com-musary process for the attendance of witnesses shall deem the same necessary, and under oath or affirmation, any

Where They Hesitate and Think.

The merchant hesitates sometimes. Occasionally his first guess was right, and he sticks to it as one sure of his ground but not infrequently he raises his estimate before he swears to it. Perjury has an ugly sound, and the penitentiary is not a pleasant place for a summer resort for a man who enjoys nature m her ever-varying moods, at Atlantic City, for instance, where it is possible to temper The fervid rays of the sum with the fragrant mint julep, and subdue the taste of brine with deep draughts of cool lager. Looking at it in this light, the kicker names the correct figure, swears to it and goes away, probably meeting at the door a dozch more who are prepared to go

the door a dozen more who are prepared to ge through the same programme. The clerks who deliver the blank forms have trouble occasionally. They have to enter on a book the name and address of the person to whom the form is presented, and the business in which the person is engiged. On Saturday one lady in the East Lad, who runs a little grocery int has no sign above the door, re-fused to give her name. Coaring and threaten-ing were allow unavailing. The woman in-sized that her name was her own, and she did not have to give it away, and what was more, not have to give it away, and what was more, she had no use for tax collectors, anyway. The

clerk obtained her name from a neighbor. Other persons indist they are exempt from the payment of this tax, while still others insist that it is an unwarrantable intrusion into a man's private affairs. Merchants Who Get the Best of It.

Chief Assessor Frank P. Case, in speaking of the exemption of some persons from this tax, said yesterday: "Judge Slagle's decision last year exempting persons from the payment of this tax when their works are located outside of the city, except for the amount of goods actually delivered within the city, is undoubtedly good law, but is hardly fair in its workings. There are large in its workings. There are large firms in Chartiers, Braddock and other places just outside the city lines who are ex-empted under this decision. Yet the offices of these firms are located right in the city and enjoy all its privileges, such as banking, tele-graphic and postal facilities. While they do not make their wares here, yet all their business

Transacted here, your all their business is transacted here, contracts made and sales consummated. They receive all the privileges offered by a great municipality, but contribute nothing toward its becessary running expenses. "The increase in the number of saleous in the receiving toward its becessary running expenses, its will make but little difference in the re-ceiving from the business tax. Our experience has been that an increased number of saleous does not necessarily mean an increase in the inguor business, but merely a division of the sales. We expect to have all the blanks de-inverted in a few days, and we already have sev-eral hundred of them returned to us with the blanks filled."

A Tribute Generally Collected.

The business tax covers pretty much every form of business. It is imposed on the amount of sale of all goods, wares, merchandise and articles of commerce sold in any manner, and then particularly specifies the sales of viaous, fermented or distilled liquors at retail, which pay a 10-mill tax. Auctioneers pay the tax on the amount of their sales, whether of stocks, the amount of their sales, whether of stocks, real estate, steamboats, and of all goods, wares, merchandise and articles of trade or com-merce. The tax is imposed upon the amount of grost commission or brokerage as merchan-dise broker of forwarding and commission merchant, upon the amount of average line of discounts done as broker, banker or banking institution, and upon the amount of gross re-origins as express, telephone, electric light, con-duct, ielectriph or gas fail companies. A broill tax is imposed upon the amount of gross receipts from billiard tables, pool tables, ten-pin alleys, bagatelle tables, shooting gal-lertes or skating rinks kept for public use. Last year the two largest contributors to this flord were Jones & Laughlins and Joseph Horne & Co., who each paid tax on \$4,000,000 worth of business. worth of business

least, he claimed, his presence stirred up more enthysiasm in Atlanta than in Pitteburg, but he admitted that it was more the result of curiosity to see a President than from genuine good teeling for Mr. Harrison. "This spring in the South" he said, "has been the most backward for 20 years. The weather was cold and wet, and it was useless to try to plant cotton. For the last week the days have been bright, and the trees have com-menced to bud. It is difficult to predict any-thing now about the fruit crop. I can't tell whether it has been killed, injured, or not touched at all. I think the supply of peaches will be as large as ever, and 1 never saw the apple trees in better condition than they are between Chattanooga and Atlanta, Agricui-tare in the South has not been for some time the best of paying institutions, but the country Bad Little Boys. For a number of Sundays past the police hav received numerous complaints about several gangs of hoodlums who congregate in Virgin and Strawberry alleys, and by their noise and loud swearing disturb the congregations of several churches in that vicinity. The police have been trying to put a stop to the racket, but whenever they approached the boys were a'ways warned by their friends, and running into convenient courts and alleys escaped.

Yesterday after on they were at their old practices when Officers Thompson and Welsh went after them. Daniel Nirelly, a young man of 18, saw the officers and whistled to the ture in the South has not been for some time the best of paying institutions, but the country is experiencing a big commercial boom, and with the growth of industries the farming inothers, who ran and escaped. Nirelly ther ridicaled the officers, for which he was arrested and taken to Contral station on a charge of disterests will improve." BELIEVES IN BLAINE.

A MOTHER IN THE CHURCH.

Death of Mrs. Elizabeth Coulson, Mother of

the Veteran Detective. Mrs. Elizabeth Coulson, aged 77 years, died the Anderson yesterday, and left for Cincin-nati at night, to be present at the Convention at 1255 o'clock yesterday atternoon, at her home on the corner of Kirkpatrick street and Wylie avenue. Mrs. Coulson was the mother of Detective Sol Coutson, and was well known

by the residents of the Hill district, in which she has lived for 50 years. Mrs. Coulson was born in Liverpool, and came to this country and to Pittsburg 55 years ago. Her husband was a well-known stone con-tractor, and died a number of years ago. She was a prominent member of the Centenary M. E. Church, on Wvile avenue, from which she will be buried at 20 clock to-morrisw afternoon. She leaves a family of four sons and two daughters, who are living in different parts of the country. Death came to her painlessly and quie ily after 15 weeks of illness, caused by a general collapse, due to her advanced years. to this country and to Pittsburg 55 years ago.

A PAIR OF SUNDAY EXPLOSIONS.

Natural Gas Creates Disturbances in Pitts

burg and Allegheny.

A natural gas explosion occurred at the Pittsburg Locomotive Works in Manchester vesterday afternoon, in which a heating fur nace was blown to pieces and two men injured About 2 o'clock Steven Ramaley, Chief Engineer, had just turned up the gas in the furnace and had gotten about 15 feet away when the explosion occurred. He was blown against a brick wall and badly bruised about the face brick wall and badly bruised about the face and body. James Badders, who was standing near the furnace, had his hair and mustache badly singed. Luckily he was not struck by any of the firing bricks. If the accident had happened on a week day, when the shop is full of workmen, a great many men would have been injured. Flying bricks were scattered all through the shop, and the furnace, which is 25x15 feet, was a total wreck. About 9:30 of lock yesterday morning there was an alarm of fire from Box 132, which was occasioned by a slight fire in Oliver & Roberts' rod mill on South Ninth street. The fire was caused by a slight explosion in one of their oil furnaces, and the biaze was done. No per-son was injured by the explosion.

WILL HELP HIS PARENTS SOME DAY.

of Republican League clubs to-morrow. Mr. Young is a Blaine man, but he thinks that Little John Ryder Stops at Central Statio En Route From Tennessee to Butler.

A 15-year-old boy named John Ryder applied to Central station for lodging last night on his way from his former home, at Whitwell,

Young is a Blaine man, but he thinks that President Harrison will be rénominated. He says the President is very unpopular in his sec-tion, because he retained Democrats in office for a much longer period than was necessary to ind successors to them. Mr. Young believes that Blaine will not ac-cept a nomination. He bases this belief on Blaine's action when he stood aside to let Gen-eral Harrison obtain the nomination. He says that Blaine has been a consistent supporter of Harrison, and will continue so. The Presi-dent may have become upopular with the people, and given offense to some of the lead-ers, but he yet had time to make himself solid with both. way from his former home, at Whitwell, Marion county, Tenn., to his grandfather of the same name, a blacksmith, at Butler, Pa. The hoy said his father had once been prosper-ous and well-to-do, but met with reverses which reduced him to poverty. Recently he was very badly injured and incapacitated from work by the fall of a building. As a result his family was broken up, his wife going to relatives in Ohno with a small child, and the remaining children being sent to other relatives. The boy who came here is a bright, manly and intelligent little fellow, and as he told of his father's troubles, concluded by saying: "When I get big enough. I intend to pay all father's debis and take care of bim and mother as long as they live."

Woman Commits Suicide Rather Than Die of Hydrophobia.

Mrs. Virginia Huepner, aged 54 years, com-nitted suicide yesterday by taking a very large dose of arsenic and ammonia. She lived at 22 Penn avenue, and at 1 o'clock in the afternoon made a mixture of those two drugs and drank the dose. She was taken very sick immediately and suffered intensely. A phy-sician was called, but despite his efforts she died about 9 o'clock last night. The Coroner was notified and will hold an inquest this monther.

Mrs. Heupner was bitten on the hand three Mrs. Heupner was blitten on the hand three weeks ago by a dog, and was in constant fear that hydrophobia would set in. This fear so possessed her mind that she took her own life rather than endure the thought of death from hydrophobia. She leaves a husband, who is the night watchman at the Carroll-Porter Boiler Works, on Penn aversite, and who has lived at the Point for a long time. ceny.

that there is, or at least was, a cream factor the hepatica are already beginning to drop. The not far from the city; not an ice cream factory pendant "Dutchmans' Breeches" are in their early prime. As every lover of nature knows, nor a four-legged one. The railway agent a the station accommodated some city milk dealers by sending orders for their native beauty and grace is sadly maligned by their provaic and practical name. In the short, green grass of the pasiures the exquisite "bluets" bloom in dainty blue clusters ready milk dealers by sending orders for cream to the various milk producers from time to' time, and some of them either from lack of skill or an excess of conscience sometimes could not fill the orders. But there was one dairyman who was always equal to the emergency, and, though some squeamish peo-ple were disposed to grumble and assert that his cream was not always up to the standard, we by filling all the orders that chers could

nis cream was not always up to the standard, yet by filling all the orders that others could not be drove a thriving trade. Finally some envious people set an investiga-tion on foot which well-nigh ruinsd the man's trade. They found near his spring-house, in a secluded ravine, a wagon load of egg shells, and the secret spread all over the country in a short time. Had the enterprising cream maker known the value of egg shells and used them he would doubtless have maintained his cream trade. Thus it is seen that "a little knowledge is a dangerous thing." Then arration of this story stimulated a dealer who once delivered milk on Wyhe avenue to give his experience. He said he kept close run of all the new people who came to reside on the avenue and always tried to secure their custom before any other dealer got around. He said he made it a rule to serve such new cus-tomers for a time with a better grade of milk than ordinary, and gradually lowered its quality as they succumbed to his blandishments. One morning he noticed that a tasty new house was occupied, and calling found to a newlymarried counting installed yet by filling all the orders that others could

short, green grass of the pastures the exquisite "bluets" bloom in dainty blue clusters ready for the picking. People on their homeward trip carried, in many instances, bouquets of the wild flowers. It was curious, and sometimes even touching. to note the eager attention with which they were regarded by women and children in city streets, doorways and windows-people who had not been able to get beyond brick walls and pavements, and yet to whose weary cyse these tup messengers brought visions of the sweet beyond and wistful memories of the woods and by ways of bygone days. The devotees of aquatic exercises were not slow in accepting the mild weather and smooth water to streich their muscles after a long idle-ness. Skiffs and hoats of all degrees shot to and fro on the Allegheny and Mozongahela, and brilliant patches of many hues denoted where some fond young man was proving his devotion to his best girl. Neither was the small boy leit out of it, and dozens of them paddled about near shore on extemporized rafts. The dudes and mashers were out in force

than ordinary, and gradually lowered its quality as the succumbed to his blandishments. One morning he noticed that a tasty new house was occupied, and calling found a newly-married couple installed. He solicited the young wife to become a cas-tomer and though he found she was a city-bred girl and knew buf little more about country life than the girl who wanted the farmer to show her the cow that gave the buttermilk, yet he gave her a quart of milk almost equal to cream in richness and she informed him that if they liked his milk they would take a quart daily. The next morning he called, and the young wife told him she didn't want the milk, as they didn't like it. For a time she refused to specify the objection, but finally stated that it made their gorge rise on account of having ac-cumulated a nasty yellow scum during the night. The dairyman explained that such things did sometimes happen, but he assured her that if she continued her custom be would be found on the milk, and though the couple were patrons for years a fireward they ouple were patrons for years a fireward they couple were patrons for years a fireward they the scum. A great many accidents formerly happened One dapper little chap took up his position, a very awkward and painful one, it must be con-fessed, in the lobby of the Anderson, and was fessed, in the lobby of the Anderson, and was for some time a quiet gay for everybody who saw him. He wore a tall hat, glasses on his nose, white vest and a hign collar that rubbed his chin and screwed his neck out of shape. He couldn't sit in a comfortable position and his back was as straight as a board, as if held in position with prous. He was harmless, how-ever, though he occasionally glanced at the prety girls passing the doors. "I like to see a man well dressed," remarked a sensible drummer, "but the individual who is conscious of his clothes is a tiresome mortal and should get off the earth." The greater portion of Chief Bigelow's menagerie will be kept in the winter quarters at the old Fifth avenue market house for a month yet at least, and will not be sent out to Schenley Park until cool weather becomes an

Schenley Park until cool weather becomes an absolute impossibility. The roats were sent out last week, and a few of the hardler animals will follow soon, but the elephant, monkeys, will follow soon, but the elephant, monkeys, tropical birds and other denizens of the South-ern climates would suffer in outdoor apart-ments even in the weather of the past few the scum. A great many accidents formerly happened to milk, even in the best regulated families who went to church regularly. It seemed im-
