THE BUILDING ALL BIGHT. Superintendent Morrow Says the Alleghe Building Is as Safe as Any.

day by stories to the effect that the Allegbeny High School building, being on made ground, was sinking on one side and becoming unsafe for occupancy. Superintendent John Morrow, of the Allegheny schools, was seen last night and asked about the matter.

"There is no truth in it," he said. "The High School is just as safe as any building in the State. It is true it has sunk slightly and there are cracks in the walls, but all heavy buildings settle more or less. You may rest assured that if there was anything dangerous about the building we would know about it and have it remedied."

Progress. It is very important in this age of vast ma-terial progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gen-tle diuratic known.

How to Cure a Cold.

It may be a surprise to our readers to learn that a severe cold can in many in-stances be completely cured in one or two stances be completely cured in one or two days' time. To do this, however, prompt action is necessary. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. If Chamberlain's Cough Remedy is taken in double doses every half hour after the first appearance of these symptoms it will counteract the effect of the cold and restore the system to a healthy condition within one or two day's effect of the cold and restore the system to a healthy condition within one or two day's time, in almost every case, and when the cold is not completely cured in this time its severity will be greatly lessened and a com-plete cure insured in a very short time. When no action toward curing the cold is taken the dry, loud cough is followed by a profuse watery expectoration, and that by a difficulty of breathing, a peculiar tightness of the chest and a slight expector-ation of very tough and tenacious mucus.

ation of very tough and tenacious mucus. Few persons pay any attention to a cold until in this condition, that is, until the cold has become settled in the system. The first action should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough and tens-cions mucus and causes its explusion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows, in some cases, however, several days are required, but the experience of thousands of persons in the use of this remedy has been that it will cure a severe cold in less time than any other treatment and that it leaves the system in a natural and healthy condition. The promptness and certainty of its cures of severe colds have given Chamberlain's Cough Remedy the name of being the best made. WSu

SENSATIONAL DETECTIVE FAKES. A Heroic Fireman Races With His Locomo-

INPECIAL TRANSPART TO THE DISPATOR.1 WHEELING, W. VA., April 21.- A Logan county paper says that the lovely stories of marriage and peace between the Hatfields and McCoys make beautiful reading, but that those in that vicinity look on the whole matter as a huge joke. For the past two years the Hatfields have been living quietly on Island creek, near Logan Court House, and the McCoys have been

living near Pikeville, and there has been no trouble between them. Some years ago there had been trouble and several were killed on both sides. Detectives tried to keep the excitement up for a time. More than nine-tenths of the bloodcardling stories that have been told are lies out of the whole cloth. Peace has reigned for two years, and none of the parties have met

during that time. A RACE FOR A LIFE.

How a Little Child Was Rescued by a Herol

Railroad Fireman. PAPECIAL TELEGRAM TO THE DISPATCH. HINTON, Pa., April 21 .- A thrilling incident occurred to-day at Dimmock station as No. 13 sestbound accommodation train dashed into this place, Eugineer Fox saw a 2-year-old child standing on the track about 100 yards ahead. He did all he could to stop the train, but in vain, and it seemed as if the child was but in vain, and it seemed as if the child was doomed, when Fireman McAlhattan fairly snatched it from the jaws of death.

Leaping from the cab, he ran like a deer, while a score of anxious eyes watched the race between the fleet-footed fellow and the scarcely elack-uning speed of the engine. The brave man won the race and gained a life for the prize. He sprang at front of the engine, snatched the child from the wheels and handed it saidly to its mother. The latter murmured a few bracen words of thanks, took a few steps, then sank to the ground sowerless. One cheer was given for the fireman and the baby, and the train swept on.

Few diseases cause more pain and suffer ing than rheumatism; persons afflicted wit that disease, or who have friends trouble by it, will, we believe, he delighted to lear that it can be cured. The following from Mr. J. A. Stum, Des Moines, Ia., is onl one of the many severe cases that hav promptly yielded to Chamberlain's Pai Balm. Mr. Stum says: "I suffered with the terrible disease for four weeks and used everything I could think of without success until I commenced using Chamberlain's
