Rome Shaken to Its Foundations by a Gunpowder Explosion.

LIKE AN EARTHQUAKE

THE FAMOUS VATICAN DAMAGED.

Many Buildings Completely Demolished With Loss of Life.

FRANTIC PEOPLE PRAY IN THE STREET

Bome, April 23 .- This city was shaken to

its foundations about 7 o'clock this mornng by a terrific explosion. The people rushed from their homes into he streets, houses rocked, pictures fell from the walls, thousands of panes of glass were broken, crockery was shattered, furniture verturned, chimneys crashed down on the roofs, and in some instances toppled over into the streets. The cupola of the House of Parliament, immediately after the explosion, shook violently and collapsed with a crash, which added still

further to the feeling of horror. All the thoroughfares were strewn with bricks, stones, timbers and other debris hurled there by the force of the powerful concussion. In the houses doors, windows and cupboards were burst open. Rents and cracks appeared in the walls, plaster fell from the ceilings and general desolation prevailed.

Mistaken for an Earthquake.

The general opinion that prevailed was that Rome had been visited by an earth-quake shock, and that a second shock might reduce the city to ruins. Many fell upon their knees and prayed aloud. Finally it was discovered that the immense powder magazine at Pozze Pantaleo, four kilometers from here, had exploded, and that it had caused enormous damage to the neighboring caused enormous damage to the neighboring fort, which was filled with soldiers. The reports of the affair which have reached here add that, happily, the officer in command of the fort heard a rumbling sound previous to the final explosion, and, hasuly ordering the soldiers to leave the fort, he succeeded in averting a terrible disaster. As it was, fire peasants, who were in the vicinity of the scene of the explosion, were killed outright, and a number of others were more or less injured.

King Humbert and his military staff, accompanied by the Marquis of Rudini and all the members of the Italian Cabinet, have left the city for the scene of the disaster.

Many Buildings Damaged and Demolished, All the houses within a radius of a kilometer of the scene of the explosion are seriously damaged. Two officers were dangerously in-jured, and fully 120 civilians have been taken to the different hospitals, suffering from inuries caused by the explosion. King Humbert, who was heartily cheered whenever his presence became known to the populace and soldiery, gave his own carriage to convey

soldiery, gave his own carriage to convey wounded people to the hospital. The shock did not spare the Vatican. That vecerated pile shock with the rest of the buildings when the force of the explosion was felt, and several of the famous historical stamed glass windows of the old buildings were shattered. The windows of the ancient Baphael chambers, and the stained glass in the royal strinease, presented to Pope Pius IX, by the king of Havaria, were also seriously injured. The full amount of damage is not known. Forty small houses have been reduced to heaps of rulns by the shock. The magazine contained 250 tons of powder. The cause of the explosion is unknown.

LETHARGY IN OILDOM:

A NOBLESTOWN WILDCAT VENTURE TURNS OUT WELL

Wildwood Disappointed by a Dry Hole-The Standard's Powerful Rival in Ohio-McCurdy's New Gusher Decreasing-The Old Butler Field Now in the Shade,

The field situation is marked to-day by a state of lethargy. The festive operator is beginning to hunt for available territory to drill, and it now looks as if they will be a while finding it. Reports from Wildwood to-night are not very encouraging for an extension on the southwest line, while the same may be said of almost every section. There is, however, a ripple of excitement and some interest manifested in a withcat venture three-quarters of a mile west of Notilestown. Alleghenv county, and two miles northeast from McDonald station, and also five or six miles southwest of the McCurdy field. The well belongs to Gatley & Guffy, and is on the Joseph Mathew farm. Wednesday they tapped the Gordon sand and the hole filled up 1.700 feet with oil. The well is still writing and the rated its still writing and the still writing and the still writing and the writing and the still writing and the writing drilling, and the result is awaited with no little

Two miles north of this well McFarland & Co. are drilling between the Gordon and fifth sands on the Gormley farm; this venture is also a wildcat.

Wildwood Disappointed.

SPECIAL TELEGRAM TO THE DISPATCH. 1 WILDWOOD, April 23.-The Heidleberge well, on the southwest line, so far is a sad disappointment, and the indications to-night are by no means encouraging. The well is 18 feet n the sand, with no improvement, and unless its owners soon find better digging it would seem that an extension of the great southwest

pool is at an end.

Evans, Mandeville & Co.'s No. 3 Marks is through the fourth sand, but found nothing of a very encouraging nature. However, they will shoot the well to-morrow in the third sand, where they have some hopes of making a small producer out of the venture. The toois have been taken out of the Kohlbar well. The Peepbies well has declined to three inches, which is only one-half what the well did when first struck.

The Standard's Biggest Rival. FINDLAY-An interesting contest is being waged between the Standard and Manhattan Gil Companies for the control of the Ohio oil field. The Manhattan is the most powerful in-

field. The Manhattan is the most powerful independent company operating in the field, and
what makes the fight nore hitter is the fact that
the Manhattan is composed of the same men
who a year ago sold to the Standard the Lima
Oil Company for \$1,000,000, and then at once reinvested the money in new oil territory. The
Standard has commenced selling Ohio cili for
use as feel at 30 cents a barrel delivered.
In Titusville, Pittsburg and other Pennsylvania cilies, and in New York and New England, 20 cents in the rate made, although it had
heretofore been solling at 60 to 75. The price
at the tanks here is 30 cents. The Manhattan
and the other independent companies in the
field here are beginning to feel the effects of
the cut seriously.

Old Butler to the Rear.

Old Butler to the Rear.

BUTLER-In no section of the old banner county is there any news out of the old panner.

Unless Butler should soon rise up in her oldtime dignity and bring forth another gusher,
she will be relegated to the rear. The 100-100is fast decliping, and a mouth hence will show
a most wonderful decline in the production.

The county is dotted over with small pools with
limited producers, which in the aggregate cost
more to produce the oil than is ever realized
out of the stuff.

Figures of Bakerstown's Production. Bakeestown—The well on the W. J. Canning farm, owned by the Natural Gas Company, and finished and reported dry some time last January, has recently been shot and cleaved out, and is now making 12 barrels a day. In this pool there have been completed six wells and one dry hole the present month, with a daily production of 180 barrels. At present there are four wells being drilled and but two rigs up. BAKERSTOWN-The well on the W. J. Can-

The Work at Little Creek.

LITTLE CREEK-On the Cable farm, Word & Young have a well 80 feet in the 100-foot, but it is thought they are not deep enough in the sand to find the pay. Two wells on the John Dambach farm were shot yesterday, which will make ordinary pumpers for this locality. One belongs to the Forest Oil Company, and the other is owned by Schlegel. No. 8 Cable, Patterson & Co., is making 25 barrels a day.

McCurdy's New Gasher Declining. MCCURDY-Patterson & Jones' No. 6, Me-Curdy farm, has declined from 75 barrels an hour yesterday to 45 barrels an hour to-night, and in the next 24 hours it will unquestions ble show a still further decline. The Fisher Oil Company's well on the Riddle has dropped to 850 barrels a day.

The sand Not Yet Found. CORAOPOLIS-The Kanawha Oil Company's neil, on the Onstott farm, did not find the sand to-night, as was expected.

Mars of Muddy Creek oil field; price \$5. Address J. A. Beydrick & Son, Butler, Pa.
