

**WEST VIRGINIA OIL.**  
 What Some Of The Better Wells Down There Are Turning Out.  
**EXCELLENT SHOWING BEING MADE.**  
 The South Penn Company Still Has Some Of The Best Of Them  
 IN THE SOUTHWEST PART OF THE STATE

**SPECIAL VERDICT TO THE DISPATCH.**  
 FAIRVIEW, April 27.—This portion of the West Virginia field is furnishing a pretty good proportion of the production credited to that division. The South Penn Oil Company's O. J. Sutton is a good well. Its exact production is not known outside, but it is rated at 200 barrels or better. The Jim Yost No. 1, which cut loose unaccountably some days ago, as reported in this DISPATCH, is still doing over 300 barrels. This is the best well yet struck in West Virginia, barring the prehistoric burners of the Little Kanawha Valley at Burning Spring and Oil Rock. P. W. Yost No. 2, of the same company, was thought to be one of the best located wells in the Fairview district, but is showing very little. It is still drilling in the sand, but there is little hope of finding any pay rock below the present point of contact of the sand.

South Penn in the Mannington.  
 MANNINGTON.—South Penn Oil Company's No. 4, on the Frank Blackshire, which is located with a new to finding the connection between the Mannington and Mads Run developments, is in the Big Injun and should be completed this week. It is regarded as important, though all the territory is not yet drilled. The Frank Blackshire No. 4, located on the north extension of the field, is in a good well. It is probably making over 300 barrels. The South Penn's venture on Captain W. B. Sine's farm is below the level of the Gordon and is a complete failure. The well was drilled to a depth of 100 feet and was supposed to be a great salt water producer and nothing more. If there is any extension south from present developments this well should find it. The Brown's Mills well of White, Jackson & Company, which was the pet geological location about 10 miles southwest from Mannington is a rank duster.

In Southwest West Virginia.  
 WILLIAM S. EDWARDS, an attorney of Charleston, W. Va., was in the city Saturday on business connected with the oil development in that section. Mr. Edwards is interested with the Augusta Oil Company, Rufus H. Herron, of W. A. Herron & Sons, and E. Lloyd, all of this city, in various tracts of land in Jackson, Boone, Kanawha, Putnam and Boone counties. He says others are operating also in that territory, among them Fred Hayes, of Warren, and Mystery Mike Murphy, George Henckler, Fred Frenton, Palmer and others and the South Penn Oil Company.

Hayes & Murphy are drilling two wells in Putnam county, Henckler one in Kanawha, Palmer Bros., of Oil City, one in Putnam. Although Mr. Edwards says his friends have drilled two wells, one of which has had a small showing of oil, and they will drill at least 20 more before giving up on the possibilities. At present there are about 15 wells drilling in the counties named. Mr. Edwards says the "oil break" of his state follows the popular 49° line very closely from Mannington southwest, and both the "Big Injun," or Putnam and Mads Run sand, or Sierra graptolite province of good wells.

Looking Out For Nineveh.  
 NINEVEH.—The South Penn Oil Company has three wells on top of the sand, on the McCollum, Putnam and Well farms. Superintendent John Worthington, ex-Mayor of the flourishing city of Uray, Cal., is on hand to see if these wells cannot be put in producing condition out of the mists of the past. The wells have been drilled to a depth of 100 feet and are producing quantities when successfully completed. The range is from 200 to 300 barrels a day at the start.

In the Middle Field.  
 GRAND VALLEY.—Grand Valley, too, like the other parts of the middle field, has almost relapsed into obscurity. It seems, so to speak, that its race is run, and but little available territory remains to be drilled here. The best well in the field is the one on the Ben Garvin farm, which has produced a few barrels since it was drilled in the latter part of the year. It is thought to be good for 100 barrels a day.

The Production at McCurdy.  
 MCCURDY.—A gauge of the wells in the McCurdy field shows a total production of 3,500 barrels from 20 wells. This is one of the Southwest wells that is now on the increase. A couple more wells are due at the end of this week and the middle of May will show results on eight or ten more. R. B. Campbell, on the Hutledge, is shut down at 1,400 feet, and Switzer, on the Slater, has lost the rig by fire.

A Good Well In Prospect.  
 NOLANSTOWN.—Gully & Jennings's Nolanstown well, located about one mile north, 30 miles west from the Moret farm, and about two miles northeast from McDonald, has not been drilled since last Friday. It is thought to be one of the best in the field. The rock is of fair quality and the hole showed 100 feet of sand. The well was run the last time. It is thought to be good for 100 barrels a day.

What Is Doing at Wildwood.  
 WILDWOOD.—The most important development in this field is the oil company's No. 2, on the Campbell, considerably in advance in the southwest. It is making 1 inch an hour or 60 barrels a day. Same company's No. 3 is on top of the sand and also is showing. The best well in the field is the one on the Ben Garvin farm, which has produced a few barrels since it was drilled in the latter part of the year. It is thought to be good for 100 barrels a day.

To Drill at Hookstown.  
 HOOKSTOWN.—George Dawson and other Pitts- burg parties are getting ready to drill two miles in advance of the Hookstown field, by finding a connecting link between that and Turkey Foot.

New Work at Clayville.  
 CLAYVILLE.—The incoming of the Victor Oil Company's No. 5, on the Carson, has given considerable impetus to new work. The Victor Company is starting No. 6, Carson, and No. 7, Goulet. J. B. Allen & Co. are starting at the south. Condon, Fall & Co. are starting one on the Irwin farm and another on the Carson.

Drilling for the Lower Sand.  
 GREENE COUNTY.—The Shannon Oil Company's well on the Hendley farm, northeast from Mt. Morris, and a showing of oil in the Big Injun and will drill on for lower sands.

Waiting for Tankage.  
 CALVERT.—Lents & Houghton are in the sand on the Ben Garvin farm and the hole has been filled up 100 feet with sand. It is shut down waiting for tankage. Houghton & Co., on the William Garvin, are drilling at 60 feet in the "hundred foot" and have a showing for a few barrels. Name parties have a rig up on the Emmitt farm. W. H. Bishop, on the south, is 20 feet on the Hancock farm, and Reuben & Co. have one up on the Albert Graham.

Imported Robe Patterns—\$10 Ones for \$5.  
 This is one of the many dress goods bargains we are offering this week in our store.  
 JOS. HORNE & CO.,  
 609-621 Penn avenue.

**JOHANN HOFF'S**  
**MALT EXTRACT**  
 For Dyspepsia, Indigestion, Coughs, Colic and Lung Troubles. It is the beverage for Nursing Mothers, the Sick, the Debilitated, and during convalescence.

IT STRENGTHENS THE SYSTEM.  
 None is "just as good" when you can obtain the genuine imported article, which must have the signature of "Johann Hoff" on the neck of every bottle.

**DISNER & MENDELSON'S**  
**HOFF'S MALT EXTRACT.**  
 SOLD BY—  
**JOS. FLEMING & SON,**  
 412 Market Street, Pittsburgh.

**NEW ADVERTISEMENTS.**  
**HE-NO TEA.**  
 Stimulating yet Sustaining.  
 Strong and Flavorful.

Therefore Saving in Quantity.  
 A Drink for a King at less than 1-4 cent per cup.  
 5 Cups One Cent.

**AGAIN SHOWN.**  
 That Our Treatment Is Eminent-ly Successful.  
**SURE RESULTS.**

Those changeable spring days, so hard upon afflicted mankind, are past and bright, warm days, so beneficial to sufferers, have taken their place.  
 To those who are afflicted with catarrh and its kindred troubles, which are numerous, we say, avail yourselves of the opportunity the season offers by adopting means to thoroughly eradicate all catarrhal conditions from the system. This means is only found in Dr. Copeland & Blair's treatment. Read the statement of one who has been relieved of his many troubles by our method.

Dr. James White, a fireman at the chain works of James McCoy, residing on Penn avenue, near Thirty-ninth Street, said:  
 "For a year I have been a constant sufferer. My head pained me terribly. My eyes were weak and watery. Sometimes I could scarcely see. My nose was continually stopped up. My throat became raw and sore. I had both sharp and dull pains in the chest, and my limbs ached. I suffered from palpitation of the heart. My stomach was affected and I never had an appetite. I was subject to a dizzy feeling upon rising in the morning. Scarcely sleep at night and always felt tired in the morning. In fact, I never felt well for a day.  
 "Now, for the benefit of those who suffer from catarrhal troubles, I truly recommend Dr. Copeland & Blair's treatment. I feel better to-day than I have for years, and the credit belongs to their treatment."

**INDORSEMENTS**  
 Of Dr. Copeland's Home Treatment for Catarrh.
