Organize for Business.

Tin Plate Manufacturers Meet and

TO PUSH THE TINNING INDUSTRY.

Mills Will Be Put in Shape for This Character of Trade.

OFFICERS OF THE NEW ORGANIZATION

SPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, April 29,-There was a meeting of tin-plate manufacturers in perior F of the Fifth Avenue Hotel this afternoon. It was the outcome of an informal meeting of Pittsburg manufacturers held some time ago in that city. It was stated that there are a number of mills already adapted to rolling sheet for tin plates, and it is thought a comparatively small outley would put many others in shape for this character of work. The manufacturers say that if it becomes possible to leave the rolling of sheets to the mills who are now equipped for the work and have the tinning plants proper in the hands of others, it is thought the industry would be thoroughly

established with less expense. The meeting was to effect a temporary or ganization of manufacturers in the United States, and, as Secretary Britton said, to States, and, as Secretary Britton said, to promote the manufacture of tin and tin plates all over the country. The following were present: B. M. Sommers, of Sommers Bros. & Co.; W. C. Cronemeyer and Mr. Williams, of the United States Iron and Tin Plate Company, Pittsburg; Alfred Marshall, of Marshall Bros. & Co., Brocklyn; P. H. Laufman, of the P. H. Laufman Company, Apollo, Pa.; C. R. and J. W. Britton, of the Britton Rolling Mills Company, of Cleveland, and T. M. Brown, of the St. Louis Stamping Company. Others represented by proxy were: Jennings Bros. & Co., of Pittsburg; Canonsburg Iron and Steel Company, of Pittsburg; Kirkpatrick & Co., of Pittsburg, and the Falcon Iron and Nail Company, of Nice, O.

All the mills mentioned, it is stated, are already in working order, and turning out plates

All the minis mentioned, it is stated, are arready in working order, and turning out plates at the rate of 60,000 net tons per annum. B. M. Sommers acted as Chairman, and the following were elected a committee on permanent organization: A. Marshall, F. G. Niedringham, B. M. Sommers, W. C. Cronemeyer, and J. M. and C. R. Britton, Chairman and Secretary, respectively.

After reading letters from mining companies in the Black Hills, S. D., and San Jacinto, Cal., which said that the mines would be able to supply tin abundantly in July, the meeting was adjourned. The next will be held in Pittburg on May 20. The manufacturers attended the Tariff League dinner in Madison Square Garden last night.

M'CURDY TO THE FRONT.

RECORD OF OIL DRILLING IN THAT FIELD FOR APRIL

Dynamite Used at Jack's Run With Poor Results-Six New Murdocksville Wells During the Month-Manuington Production Is Increasing-Other Fields. INPECIAL TELEGRAM TO THE DISPATCH, I

McCURDY, April 29.-McCurdy's star seems to be in the ascendant. It is the only pool of the southwest family that shows an increase of production, and where the large wells hold up remarkably well. At present there are 25 wells drilling in this field, 10 or 12 of which will soon be due. During the month six wells were be due. During the month six wells were completed, giving a new production of 1,890 barrels a day. B. B. Campbell should soon get in on the Adams' farm, while Vandergrift, on the Edmonson, will be a close follower. Mellon is ramming the end in Scott No. 4, while Murphy & Co. will soon know what their Carr No. 1 is worth. McCurdy No. 6 is making 280 barrels a day. Fisher Oil Company's Hiddle No. 1 is tubed and flowing 20 barrels all hour. The Adams is doing 400 barrels.

A New Use of Dynamite. JACK'S RUN-Everything is very quiet here, Hiber & Co.'s No. 1 Rankin being the only well drilling in this part of the field. They have reached a depth of 1, 200 feet. Straw, Dimmick & Co. gave their No. 2 Kicker, Mrs. Burger farm, a shot last week and it made 120 barrels in the first 24 iours, and is now down to 60 barrels. The Heim Oil Company gave its No. 2a shot last week, whiched id not help it very much. The Neille Oil Company gave their No. 1 feverdants shot about ten days ago and collapsed the casing. They have not been able to put it since. Straw. Dimmick & Co. gave their No. 1 ficker, Mrs. Burger larm, a shot saturday, with poor resulte.

The Southwest Fennsylvania Pipe Line boys in this district are rejoicing that they will have a new boller house at their station here. shot last week and it made 120 barrels in the first

A Farmer Stops Operations WEST VIEW—The Bowman No. 2 well, Schiede farm, which came in nicely two nights ago and started off at a 400-barrel rate, has dropped down to 40 barrels a day. The West View Oli Company, having the adjoining property on the from farm, brought in its No. 5 well last week. It started off at 45 barrels a day, and is still making 40 barrels. The same company, with no bad luck, will reach the interesting spot the last of this week at its No. 6. It is also drilling at 1,000 feet at its No. 7, same farm.

smith & Kleimonds have a rig up for their No.

2 and expect to start drilling this week on their

1 vory farm. Case, Burnsdall & Co. had let the
contract for a rig and drilling for their No. 2.

Ksope farm, but when they went to hand the rig
stuff on the ground the owner of the farm stopped
them and would not let them go on his land, so
the timbers were unloaded along the road until
the difficulty is settled.

Six Producers and Four Dusters. MURDOCKSVILLE - In the Murdocksville pooluring the month ten wells were completed, four of which are dusters, the other six having an aggregate new production of 220 barrels a day, aggregate new production of son barreis a day. The most important of these wells is the Eaccon Oil Company's, on the A. M. Armor, which has a credited production of 125 barreis in 24 hours, and the Forest Oil Company's No. 1, Dunlap, which is also doing 125 barreis a day. A careful complianton of the work here shows ten wells being drilled and three rigs ready for business.

Mannington's Production Increasing. MANNINGTON-In the Mannington and Fair. wisw districts five new wells have been added to the completed list in the past 30 days, making a new production of 605 barrels a day. The monthly report indicates considerable activity, which will be greatly increased in May. At present there are 29 wells drilling, a number of which should soon get in.

A Small Well at Haysville. HAYSVILLE-Guffey, Hummill & Co. brought in their No. 2, Rhoads farm, last week, and white it is not as good as expected, it will make a small H. MCC.

Several New Wildwood Wells. WILDWOOD-Wildwood to-day has partially re-deemed herself by two or three wells coming in, which give promise of making good producers. Forst & Greenice's No. 2, Good farm, is eight feet in the sand to-night, and making six inche an hour. The Beah Oil Company also found the pay in Peebles No. 4 and at six feet in the well made a teu-barrei flow. Campbell's No. 2 and Dibert & Co.'s No. 1 Jennie did not find the sand

A 50-Barrel Well at Noblestown. NOBLESTOWN-The Matthew's well, in its pres NOBLESTOWN - 100 Me a 80-barrel well.

repectal telegram for the disparent.

New York, April 29.—President O. D. Ashley, of the Wabash, has returned from England, whither he went to confer with the voting committee of English bondholders and stock-holders in regard to the proposed extension of the road from Chicago into Datroit. These gentlemen were averse to further building under any circumstances. Nevertheless Mr. Ashley's visit has had a good effect. He met the committee and laid before them the advantages of the new line. The link was not really a parallel to any existing road, such as the Chicago and Erio, whose track the Wabash now uses east from Chicago. The idea was to transfer business from one line to another.

When he came away the English holders were much more favorable to the plan, and on Mr. Ashley's invitation they consented to appoint a representative committee to make a trip over the system and report to the foreign holders. There will be a meeting of directors next week, at which the matter will be discussed. Mr. Ashley is hopeful that the new line will be under construction within a short time. The estimated cost is less than \$3,000,000, and the money is within easy reach.

Don't irritate your lungs with a stubborn cough, when a remedy, safe and certain as Dr. Jayne's Expectorant, can be so easily procured. Sore throats and lungs are speedily helped by it.

The People's Store-Fifth Ave. Gentlemen, 75c ties at 25c to-day. We bought 100 dozen of 'em at a price and give you the benefit: Campbell & Dick.

LADIES'

### TEA GOWNS AND WRAPPERS

Our assortment of Ladies' Fashionable Spring Wear to-day stands unrivaled and for elegance of style and honest workmanship cannot be excelled. Besides, prices, considering quality, are extremely low, and, all things considered, we firmly believe that judicious buyers in search of anything in our line cannot afford to pass us by. Of

### TEA GOWNS AND WRAPPERS

We show an unusually fine selection-one from which the most fastidiously inclined will have little trouble in making a choice.

LADIES' PERCALE WRAPPERS, Mother Hubbard and Princess shape, 85c, 98c, \$1 10, \$1 15, \$1 25, \$1 35, \$1 50, \$1 65, \$1 75, \$2. SATINE WRAPPERS, very pretty shapes, with and without combination fronts, \$1 75, \$2, \$2 25, \$2 50 and up.

ZEPHYR GINGHAMS, made in Mother Hubbard and Princess styles, \$2,

TEA GOWNS, made of figured French Challies, with loose-fitting French backs, \$3 75, \$4 95, \$5 50, \$7 75, \$8 50, \$9 50 and up.

JET WRAPS—A fresh invoice just opened at attractive prices, comprising many new shapes, at \$1 45, \$1 75, \$2, \$2 50, \$3 50, \$4 50, \$5, \$6 50, \$8 50, \$9 75. LACE AND SILK WRAPS, made with high shoulders and long tabs in front, \$9 75, \$10 50, \$11 45, \$12 50, \$13 50, \$15, \$16 50, \$18 50, \$20 and up. All of these are in latest shapes and very popular for middle-aged ladies.

### REDUCTIONS! REDUCTIONS! REDUCTIONS!

By reductions we mean exactly what we say, and you'll soon find it out by looking over our line of Children's Short or First Walking Coats. They come in all the new materials and are made in the latest styles. Just note the extent of the cut as evidenced by the following figures:

\$3 00 Coats reduced to \$1 7%. \$3 50 Coats reduced to \$2 50, \$4 50 Coats reduced to \$3 00, \$5 00 Coats reduced to \$3 50.

Children's Silk Coats reduced 33 and 40 per cent.

Special bargains in new Blazers, Reefers and Jackets for Ladies, Misses and Children, \$1 50 to \$9 75. Over 200 styles of Ladies' Waists from 50c to \$6 50; best value for the money ever offered.

Scintiliations from the lailor shop.

The quotation that "The apparel off proclaims the man" may be more or less hackneyed, but notwithstanding its chesnutty flavor its like the old-time alphabet; must be taught and re-taught so that the rising generation may know that dress plays as important and conspicuous a part in their every day cares as the intellectual side of their make-up.

A quarter century of experience, the best mechanical skill that capital can secure in conjunction with the largest and most complete stock of Woolens has in a measure brought its just renown, so that now the well-dressed men in town are outwardly the virtual products of our craft and handiwork. Suits to order from

LECTRICITY THE CURATIVE AGENT What some of the most noted physicians of the world say of electricity as a curative agent:
Dr. Herbert Tibbits, L. B. C. P., of London, England says: Electricity, properly applied, I and is more beneficial in the treatment of all diseases than all other remedies known, Dr. Robert Barthollow, M. A., LL. D., says: There is no fact more certain than the power of electricity for relieving disease. Dr. S. E. Morrell, San Francisco, Cal., says: I have found in my practice that electricity has cured more of chronic diseases than all other remedies. Prof. Huxley, LL. D., F. R. S., and Dr. Youmans say: We have cured diseases by electricity where all other remedies have failed. Dr. Hershom Huff, of New York, says: I must admit electricity as a curative agent surpasses all other remedies, Dr. R. S. Traill, of London, England, says: I have tried electricity in all forms of female troubles and have never failed in making a cure.

forms of female troubles and have never falled in making a cure.
