THE BEST ON RECORD. That's an Authority's Prediction of the Coming Trotting Season.

POINTERS ABOUT STAKE RACES.

How Galvin Looked at Chicago Friday, Billy Madden Argues That Slavin Is Now and Other Baseball News.

GENERAL SPORTING NEWS OF THE DAY

According to the best authorities on the matter, this year is to be the best on record for trotting races. Interest in the grand circuit and other meetings is increasing every day and the thousands of horse-race patrons derstanding the rules governing such titles, in Pittsburg are keeping in line with everybody else as far as enthusiasm is concerned. In discussing the prospects of the coming trotting season a prominent Eastern authority says:

"This year the monetary value of trotting events is greater than usual, and the growing popularity of stakes for colts and fillies has started a number of rich premiums that will be well worth competing for when the total for-feits are in. By thus taking a leaf from the notebook of experience on the running turf. there promises to come a complete revolution in the distribution of money for the swift step-pers in harness. The old plan was to offer a number of purses for horses in various classes and tax the owner 10 per cent of the premium. As the prize money was distributed in four parts, namely, 50, 25, 15 and 10 per cent of the sum offened, the impost was ont of all propor-tion to what could be won, as on the maximum amount, or first money, the tax was 20 per cent, while the owner who secared the fourth money merely got back what he invested.

A Cumbersome System.

"This cumbersome system gave rise to practices that have been very detrimental to honest racing, and the imgering traces of these will be folt for some time to come. The most repre-busible is known as the "conditional entry," remembers the schewing as the "conditional entry, which, in spite of direct prohibition in the rules of both the American and National As-sociations, continues quicity to work harm. Secretaries of driving clubs and associations come into competition during the season, and those who have star performers or good stables lo not besitute to take advantage of the de-nands for their flyers. A secret treaty is made

(i) not destrict to take automatic of the destrict a state of their flyers. A secret treaty is made that while all the horses shall be named there shall only be payments made on those that actually start. This arrangement swells the entry has, which rivals the circus posters in promising more than is seen in the ring. "Stake events cancot, of course, be thus manual with the first payment. The two largest prizes of the grand circuit, the Flower City stake at Kochester for the 220 citas and the Charter Oak stake at Hartford for 220 tretters, still open by selling the privilege of making a nomination later on. By this method anyone can invest without owning any kind of a trotter, and at a moderate cost have a chance to speculate on a good trotter developing unexpectedly. The Merchants and Manufacturers' stake for the 224 cias at Detroit and a few others are arranged in the same way, and lew others are arranged in the same way, and the first named has always been productive of an interesting contest, and, like the Kochester event, has been won in faster time with each

newal. Both those \$10,000 fixtures for this year closed Both these S10,000 fixtures for this year closed recently, the Detroit stake, with 18 subscrip-tions, and the one at Rochestar, with about the same number. There has always been a cer-tain amount of centrasion about the name of the latter, for Rochester was long known as the Flour City till the scat of the wheat empire moved further west, and the term was no longer appropriate. When the Driving Park Association decided to open a \$10,000 race for 2.50 trateers they called it the Flower City State, but the identity of sound with the old Association decided to open a create the flower City S200 trotters they called it the Flower City strike, but the identity of sound with the old manie proved misleading, and the race is for this reason frequently dubbed "Flour City Stake," instead of the much prettier name

alopted by its projectors."

The same authority has the following to say about the sule of Wallace's Register: "Everydy who knew anything of ex-Register Walace understood that he held out for \$200,000 as be price of his register, merely as a bit of wavado which he boned might specced. While the price agreed on-\$150,000-seems to be in excess of the limit fixed by the breeders, it is a fact only a triffe over the \$100,000 after all, or the profits of the past seven months are in-This brings the actual cost down to

ce's threat that he would prosecute anyone who tried to start another register was pure "Mufi," for there has been one in exist-ence at Roston for several years, and he tried ence at Boston for several years, and he tried legal recourse to suppress that rival without success. The fact is that Wallace made a fatal mistake when he estranged Lessie E. MacLeod, who has done most of the editorial work for him in recent years. When MacLeod left him last March his downfall began. He was too old to fight as he once could, and his enemies closed in on him. When he was robbed by his treasurer, a near relative, he arrested Mr. Mac-Leod out of petty spite. Mr. MacLeod severed his connection with the Wallace Register Com-his connection with the Chicago Hockman. Left without his first leatenant, the Register did not has tong, for in less than a the Register did not last long, for in less than a year he has had to surrender, and will only be embered as a most disagreeable old man who might have retired with an ho

Champion of the World. The following letter has been received at

this office: NEW YORK, May 2. Sporting Editor of The Dispatch.

DEAR SIR-At the Slavin and Mitchell reception tast Thursday, April 30, some people in the audience objected to my introducing Frank P. Slavin as champion of the world. Everyone posted on the championship question, and unwill indorse my action. If an athlete holds the premiership in any sport and refuses to contend according to the rules for that title, he ceases to occupy that

position. Slavin went to St. Louis to arrange a match with the champion, and Sullivan refused to again battle for the title. From that time Sulli-

gain the fame attached to it unless he stands ready to defend it. If I had not introduce Slavin as the champion of the world, I would

Slovin as the champion of the world, I would have insulted the Australian by not giving him a title which belongs to him. Independent of the St. Louis episode, Slavin held the title. After Sulfivan won the contest with Kilrain for \$20,000 the *Police Gozetle* championship belt, Joe McAuliffe challenged Sulfivan declined to again fight, stating he had retigd from the ring. Slavin, who was then in Eugland, challengee McAuliffe to battle for £500, a purse and the championship of the world. McAuliffe went to England, fought Slavin, and the latter won the belt and the championship. Why then is not Slavin champion of the BILLY MADEN, Manager of Frank P. Slavin.

Jackson and Corbett Getting Into Good Con

SAN FRANCISCO, May 3.-Reports from the training quarters of Jackson and Corbert show that both are in fine trim. Jackson's ankle is still lame, but this isn't any detriment, as it has

prevented him from doing too much running. Some of his backers are ready to bet he can best Corbett in ten rounds. Betting is practi-cally at a standstill on the match because Cor-

cally at a standstill on the match because Cor-bett's friends want odds of 2 to 1, which they claim because of the longer experience of the Australian. Jackson's champions claim even money is fair because of Corbett's youth and skill as a boxer. Corbett to-day authorized a denial of the re-port sent out two days ago that in answer to a telegram from Stavin's manacer he declared he wouldn't fight again for a year and a half. Cor-bett says what he renied was he would fight Slavin, win or lose in the match with Jackson. Australians here who know Slavin well pre-dict he will kill someone pet with his vicious right-handers. It was this blow in the first round of the fight with Joe McAuliffe that broke one of Joe's short ribs. This fact was kept secret at the time, but it illustrates Slavin's tremendous hitting power.

The one article m this department of trade, of which there was an abundant yield in this region last season, was hay. Had it not been that the Southern hav crop was very light last year markets here would have dropped to \$5 per ton. But, thanks to the law of compensation, our beautiful hay crop has found new outlets in regions where the yield was light. A new thing under the sun in trade lines has developed of late. Hay is being shipped from this section to New Orleans, Mobile, Memphik, Norfolk and Lynchburg. As it will be three months yet before the new hay crop can be counted on for supplies, it is plain that we are to have firm markets for some time to come. Said a lead-ing operator of 25 years' or more experience in the trade: "This is the first time in my recol-icction when hay was shipped from Pittsburg to the Lower Mississippi, and if we had not have been a drug on the market." Vegetables from the South have been coming to our markets of late in bad shape. Large quantities of Southern cabbage and strawquantities of Southern cabbage and straw-berries have been offered the past week, for which there was no demand, for the reason that the quality of offerings was inferior. Home-raised vegetables are now coming in freely, and far-away stuff begins to suffer. New peas from Georgia are in good supply, but demand is light. Said a Liberty street commis-sion merchant: "There is a great cry for fresh vegetables when we cannot get them, but now that we have plenty, there is little demand." Nearby gardeners roport a great need of rain. Neville Island is famishing for lack of moist-ure, and gardeners there earnestly long for a downpour from the skies. Hides and Calf Skins.

NEW YORK STOCKS.

The Market Again a Waiting One, Owing to the Strikes, but Strong-St. Paul an Active Stock-Large Trading

in Silver-Specie Exports. NEW YORK, May 2-The stock market was quiet to day, but there was a firm tone through-out, which advanced prices slowly, but steadily, without material changes in prices at the close, the close of the state of t

out, which advanced processingly, outstandig, without material charges in prices at the close. The street is sgain in a waiting attitude. The situation in the bitaminous coal districts had some effect to create a leverish market, but it seems to be recognized now that the strikes will not last long, from the fact that the leaders do not promotly make known the outcome of their conferences with the coal operators. There was no life in the market at any time, and while there was considerable animation at times in St. Paul. Buillington, Cordace and sil-ver certificates, the general list presented no leature whatever. St. Paul was the only really active stock, and it succeeded in scoring a larger gain than the others, but the movement was without life. Silver furnished the only feature of the trad-ing. Rumors were prevalent that a large amount of silver was to be shipped, and that London would be compelled to take a targe amount in connection with its Argenine com-plications. The stock of silver has again began to increase, and there was evident manipulat-tion of the pr ce to-day, which on large trans-actions reached \$1, but reacted again, leaving it at the close 36 of a cent higher than last night. Exports of specie from the port of New York

it at the close % of a cent night was have night. Exports of specie from the port of New York last week amounted to \$4,633,632, of which \$4, 570,770 was in gold and \$82,859 in silver. The im-ports of specie for the week amounted to \$18, 099, of which \$7,042 was gold and \$11,657 silver. Describing Old Jimmy.

Referring to Galvin in Friday's game the Chicago Times says: "As he appeared yesterday on the grounds Galvin was the antithesis of the ideal ball player. He is only about 5 feet nothing in height, but he displaces more cubic four of air than Anson. He is so fat that his checks stand out like a pair of toy ballooms and his calves hang over his shoe tops. But the Chicagos could bit him safely but six times, and he kept those six hits well scattered. At the hat he made the first hit in the game and cored the first run. Another hit was credited o him in the sixth linning, making two out of four times at bat.

A Probable Sprint Race.

Grant White, the well-known sprinter, is again in this city. It is understood that he has been brought here to rue a match race against Lehman, the local sprinter. The backmake a match. If a race is arranged between them it ought to be of great interest, as both men are good runners. It is stated that White is also willing to run Tom Hammond.

Tenny's Next Race.

it is now the general belief among owners and trainers that Tenny's first race this season will be the Metropolitan Handicap, at Morris Park, says the New York Tribune. The distance is a mile and a forloug, and the added money 25,000. Of the original 73 nomination e mive been declared at \$25 each, leaving 70 horses eligible to start. Probably 20 horses will go to the post, for which privilege they will pay \$100 each. Fifty will pay half forfeit.

BETTING on the Relity-Collenge wrestling match, which takes place this evening at McKee's Rocks, promises to be exceedingly lively. Both men are extremely confident of winning. The contest starts at So'clock.

contest starts at 3 o'clock. GALES, the rolt that finished third in the Fu-turity to Proctor Knott and Salvator, has arrived at Green Morris' stable, in Gravesend. He is owned by Jockey George Covington, and is said to be sound enough to again stand training. IT is said that Secretary Crickmore, of Mon-mouth Tark, will act in a like capacity at Morris Park. If such is the case a better appointment could not have been made, for Mr. Crickmore is thoroughly conversant with what horse owners want, as was proved by his work last year at Monmouth. All of the early news was bearish, and wheat developed so much weakness dur-ing the first half hour that it could not reing the first hair nour that it could not re-cover during the rest of the session. Grop reports were uniformly favorable and receipts continued coormous. There was some uncasi-rises over the financial outlook in the East, and the exports for the last week and the last ten

the exports for the last week and the last ten months compared very unfavorably with those of the corresponding period a year aco. Under these influences July opened at \$1 05% arainst \$1 06% at the close yesterday, and sold off without mention about reaction to \$1 04%. The fact that some of the May wheat which had been delivered sold rather depre-ciated values, and the premium of May over July was considerably narrowed. As the se-sion advanced considerable builts news was received. On the strength of this wheat rallied to \$1 05% hut sagged off and closed near the bottom at \$1 05%. The raling influences were the weakness in cereals, heavy receipts and the enormous stocks of hog products on hand. The leading tutures ranged as follows, as cor-rected by John M. Oakley & Co., 45 Sixth street, members of Chicago Board of Trade: \$7 00@9 00 per 100 pounds. The better outlook for business an reported by careful observers whose vocation is to note the ebb and flow of trade is strongly reflected in the stock market where increased activity and better prices are the rule. This is distinctively true of the local market. Nearly all the changes during the week were advances, and the floish for almost everything was at top prices. All the Tractions were higher, Chizens' making a gain of \$1 a share. The miners solidined. Hank stocks improved. Electric added over a point to his creait. The matural gassors swing upward—in fact every-thing worth trading in was strong and buoyant. Saturilay's market was no exception to the rule. During the hour while the call lasted,
