At present no employer is an over an apprentice at all, unless he has been con-tracting at least a year, except a member of the Brotherh od, who has permission to con-tract; and no employer is allowed more than two apprentices at any time. Firms employing forty to sixty, and in many cases eighty men, claim this is an extremely unjust rule. The term of years which an apprentice is required to work, will also be modified by the Master Builders. They hold that the trade can be learned in three years by any boy who is com-perent to learn it at all. But probably the most important clause of all which the employers' list of demands will contain, will be one providing for a sliding scale of wages. It is claimed that if such a scale had been in force there would have been no necessity for the present strike. Most of the employers agree that the carpenters do not receive enough wages. But they say there are so many men working at the trade who can in apprentice at all, unless he has been connances relocating Evaline street, between Penn and Liberty avenues, and changing the grade of Walnut street, from O'Hara to Koup streets. receive enough wages. But they say there are so many men working at the trade who can really not earn more than \$2.75 a day, and those who are worth more are made to suffer on their account. It is thought some such a scale as the employers will suggest would make matters satisfactory for everybody. The Carpenters' Council met last night and indorsed the action of the Strike Committee in declaring Murphy & Diebold's West End Plan-ing Mill non-union, and transacted quite a lot of other routine business. The telegram from Mr. Maguire, the General Secretary, in which the latter proposed to come to Pittsburg, if needed, was discussed. It was decided that Mr. Maguire's presence here would be of no practical benefit just yet. William Knorr, 18 years old was arrested by Henry W. Oliver, of 119 Webster street, last night.
