TOWARD SMALLER POOLS, THE ATTENTION OF THE OIL FRATER-NITY NOW DIRECTED,

ince the Larger Fleids Have Found Their Limits-A Probable Connection Between the Cornepolis and Moon Districts-A New Well Near Washington. Since Wildwood has received such a

turning, with more interest than formerly, to the fields in which smaller wells only are found. In these there is less temptation to incur great risks, but the operator has no place else just now to which he can go. It is true that the chances of obtaining grand results are very

obtaining grand results are very much less, and therefore operations will not be conducted in such a headlong imperuous manner, but more in accord with the said habits of serious business men. It thus happens that a report of even a small well in new or nearly new territory excites more remark and attracts more attention now than a very much larger one did at Wildwood.

In proof of this a circumstance occurred which quically went the rounds of oil circles, but at other times would not have been so much noticed. The Kanawha Oil Company's venture on the Oastott farm, between the Coraopolis and Moon fields, was last week reported through the fourth sand and dry as a bone. Whether through ignorance of the facts, or because the company desired to conceal them, its members sanctioned the report and it went. Last night the boiler was fired up again, some more drilling was done and the well made a strong flow. Some say no drilling was done, but that the well had been plugged and the plug blew cut. At any rate, the Kanawha people have a well where no well was supposed to be.

The importance of this strike will be understood when it is explained that it goes far to prove the existence of a direct connection between Coraopolis and Moon. If further tests fully demonstrate such a fact, a field seven or eight miles in length, as now known, will be the result.

There are 27 wells being drilled, with rigs up

eight miles in length, as now known, will be the result.

There are 27 wells being drilled, with rigs up for them, in the Moon fields, showing that there are many people willing to drill for 25 to 50-bagrel wells on 80-cent oil. Bradley & Murphy are 1,000 feet deep on the Springer farm. Birgs & Mechling have the tools stuck at 1,000 feet on the same farm. The Orion Oil Company is ready to drill on the Harper lot, near the original No. I Goss, and is down 1,000 feet in the Gordon.

The Kanawha Oil Company, on the Meck's farm, and Captain Grace, on his Doty acre, are due Thursday or Friday, as are also the Hervey Oil Company's No. 2 McCutcheon and No. 3 Goss: Mellon's No. 1 Parry, and Bolen & Co.'s on a farm the name of which was not learned.

SPECIAL TELEGRAM TO THE DISPATOR-1

WASHINGTON, PA., May 5.—The People's Light and Heat Company found an oil well this morning on the A. O. Day farm, some four miles south and west of Washington borough. Some months ago this company leased 5,000 acres in that section for gas purposes, and the present that section for gas purposes, and the present well was the first drilled on it. The oil was found in the Gantz sand, and the well is estimated as good for all the way from 50 to 159 barrels. Mr. Caldwell, President of the company, was in the city yesterday and seemed highly elated over the discovery, for it is made, he said, in entirely new territory, and he thinks opens a new and prollife field. Wells have been drilled in that part of the township (Fracklin) in which this part of the township (Franklin) in which this well is loca ' 6, but not within a mile or so of it.

A d Accidentally Plugged. CORAGE LIS-Galley Bres. struck gas in the "hurry-un" sand on the Mark Watson lot. The
"hurry-un" sand on the Mark Watson lot. The
Forest Oil Company's No. 7 Neeley, completed
last week, is doing 70 barrels a day. The same
company has rebuilt the rig on Hogbar Island, company has rebuilt the rig on Hogbar Island, which was washed away by the flood last winter. The Coraopolis Oil Company is through the 100-feot on the John Watson Iarm.

Black & Emerson shot their Jolley lot dry hole yesterday afternoon. When the shell was lowered it did not explode. The tools were run and the thing went off, olugging the hole with a string of bent and twisted tools.

A Strong New Gasser at McCurdy. their venture on the Mink farm, 1% miles north, their venture on the Mink farm, 1% miles north, 22° east, of McCurdy. The flow is said to be as great as that struck last winter on the Jolley farm at Coraopolis. The sand has not been touched deep enough to develop any oil. The total product of the McCardy field for April was 72,088 barrels, a daily average of 2,482. This week the field is making 2,856 barrels, the increase being due to glycerine, for no new wells have come in to add anything to it.

A Poor Showing for McDonald. McDonald-The Royal Gas Company's Sauters well is making just 160 barrels a day, and the Robb nothing, or so nearly nothing and the Robb nothing or so nearly housing that no oil has been run from it yet. The company began drilling to-day on the McDenald Brothers' farm, and has a rig up on one of the Robb farms. Black & Emerson are building a rig on a town lot north of the Sauters.

H. McC.

TALKING TO THE POINT.

Canadian Legislator Lets Himself Loose on Reciprocity. SPECIAL TELEGRAM TO THE DISPATCH. OTTAWA. May 5.-In Parliament yesterday, Charlton strongly condemned the Dominion Government for the policy of irritation toward the United States and the inthey were reported showering the 65,000,000 people to the upon the 65,000,000 people to the South. He relicated the idea of attempting to negotiate a treaty of any kind with the United States while the people of their republic were flowing over with indigna-tion against Canada. The only sai tion against Canada. The only sal-vation of Canada from bankruptcy and ruin was unlimited reciprocity with the United States, which Sir John Macdonald had United States, which Sir John Macdonald had now made impossible to negotiate. He pointed out the one-sided character of the treaty of 1854, upon which Sir John Macdonald said he expected to hase his negotiations. The United States did not want a treaty that offered Cauada all the advantages. It must admit of the free importation of the products of American labor into Canada of their would be no treaty. He doubted, however, whether, in view of the insulting language Sir John Macdonald had applied to the people of the United States, either President Harrison or Secretary Blaine dare subuit a proposal of reciprecity with Canada to the United States. The Dominion Government had attempted to negotiate commercial treaties with the West Indies, but had failed.

A CHANGE OF VENUE

asked for by W. J. Elliott, Who Killed Os born in Columbus.

PECIAL TELEGRAN TO THE DISPATCE. COLUMBUS, May 5.—The attorneys of W. J. Elliott, indicted for murder in the first degree in killing A. C. Osborn on March 23, have asked for a change of venue. They claim the feeling is so strong against their client that he cannot secure an impartial jury in the county. The case will likely go to Newark, Licking

Pittsburg Has No Competitor as a

Manufacturing Center. SITES ABUNDANT AND CREAP.

Local Stock Trading Lets Down, but Values Only Slightly Changed.

OFFICE AND STREET NEWS AND GOSSIP

The abundance of money at all of the principal trade centers affords a good opportunity for men of enterprise to engage in business. There is a large home market which it is difficult to overlook, while Cauada, Mexico and South America are more than ever looking to this country for sup-plies. The field is so broad that there is no longer much danger of overproduction. A reliable market can be depended upon with a

large degree of certainty,
No place in this country offers so many inucements to the manufacturer as Pittsburg. Her central location and abundant facilities for distribution to all parts of the country are advantages of great weight. If to these be added an illimitable supply of cheap fuel, the experience of large masses of skilled workmen and perfect machinery for the production of anything from a watch spring to a war ship, it

anything from a watch spring to a war ship, it will be seen that she occupies a position that must in all competitions demonstrate her superiority. She is thoroughly prepared to hold her own against the world.

This naturally brings up the question: Can manufacturing sires be obtained at reasonable prices? By consulting the columns of THE DISPATCH it will be seen that there is no scarcity of this kind of property. It abounds in all marts of the city and suburis, and can be purchased at from \$500 to \$1,000 an acre. No manufacturer desiring to locate in Pittsburg should hesitate from fear of difficulty in procuring a site on almost any of the railroads or rivers. There are enough to go round. Pittsburg is full of industrial establishments, but there is room for as many more, and business enough for all.

Business News and Gossip.

Business News and Gossip. Ira M. Burchfield's new subdivision, in the Twenty-third ward, has been named Oliver

Architects are doing next to nothing, on account of the strike. Two or three of them are making arrangements to leave the city. Manchester Traction was wanted at 36, but none was offered below 40. Stock traders yesterday were unusually wide

apart in their views. It was easy to sell on con-cessions, but they were few. The Tractions promise to soon take the lead-ership of the market, so long held by Philadel-phia Gas and Electric. The entire group was Stronger yesterday.

The largest mortgage on file for record yesterday was for \$6,000. Each of 17 was for less

While the corporation meetings on Monday were not satisfactory in all cases, they served to enlighten investors by giving them a better understanding of the situation. The small quantity of light turned on will prove of great J. E. Glass reports a good demand for low and meatum-priced lots. Buyers propose to build in Citizens' Traction 5's were offered at 108, and

Pittsburg Traction bonds at 104.
The annual meeting of the Fue: Gas and Manufacturing Comunny, a Westinghouse interest, called for yesterday was postponed until n. road earnings—Philadelphia and Eric net Railroad earnings—Philadelphia and Eric net for March decreased \$21,085; for three months, net increase, \$45,295. Chicago and Altan declared the regular dividend of 2 per cent on both stocks, nayable June 1. Mostile and Oblo, month April, net increase, \$26,452. Canadian Pacific, fourth week April, net increase, \$18,000. Frost was reneral throughout the West Monday night, but did no serious injury to the cross.

The Transactions Continue to Improve Luster Gains a Point

Trading Light, With More Buyers Than Sellers. There was quite a shrinkage in business at the stock calls yesterday, as compared with re-cent times. The buyer was there, but the seller had the grip and refused to let go. The former class outnumbered the latter, showing firmness and faith in the future. Total sales

former class outnumbered the latter, showing firmness and faith in the future. Total sales were 187 shares, contributed by Philadelphia Gas, Electric and Pleasant Valley.

The feeling was rather bearish and values weak at the start, but the firmness of sellets caused a revulsion of sentiment later on, and the majority of the leading properties finished with substantial gains. These included Philadelphia Gas, the Tractions and Luster, all of which closed from a fraction to a full point better than the opening.

The most important event of the day was a decline of \$1 a share in Pennsylvania Railroad stock, due, it was asid, to the shipment of a considerable bundle to this country from London for a market. London was also a seller, on rumors of a big failure in Berlin. This may be the cause for the break. Railroad shares received no attention here.

A good sized bundle of Solar Carbon Manufacturing Company stock was sold for account of whom it may contern at \$4. This is an outsider, and the transaction the only one within the recollection of the oldest inhabitant. It was probably an echo of the Lawrence Bank failure, as some of the people of that institution were interested in the Solar enterprise.

Electric held its own, but there was no pressure to buy it. It opened and closed at 14%. It ruled practically the same at Boston, with little doing, showing that the postponement of a statement was a wet blanket. As conditions remain as before the meeting there is no reason for a decline. If the stock was good then it is good now. The fact that most of the stock is in strong hands shows that it is not without support. It is believed by some liere that Eastern buyers have acted on information that was withheld from Pittsburg.

In a general way professional stock operators are builtish, but are at the same time cautions and inclined to take profits whenever the market displays hesitation. The foundation for this is undoubtedly the sanguine views encouraged by the favorable crop prospects. Transactions tollow:

At New York yesterday the total sales of stocks were 287,192 shares, including: Atchison, 18,600; Delaware, Lackawanna and Western, 8,855; Lousville and Nashville, 2,175; Missouri Pacific, 5,725; Northern Pacific, 3,140; Northern Pacific, preferred, 5,272; Richmond and West Point, 4,300; St. Paul, 62,550; Union Pacific, 17,200; Wabash, 4,590.

NEW YORK STOCKS.

Feature, Scoring the Only Advance-

Gold Shipments Depress All Other Stocks - Bonds Dull. New York, May 5-To-day there was little in the trading in the stock market outside of Chicago Gas and St. Paul, although the Wheel-ing and Lake Eric stock, were strong on light transactions, and U., C., C. & St. L. continued its movement of yesterday during the forenoon. Silver certificates were weaker, and the Indus-

trials were quite neglected until late in the day, when they became active and weak with the general list.

The market opened firm but quiet, and while a few specialties like Chicago Gas scored ma-terial gains, the general market failed to advance more than small fractions beyond the Reed B. Coyie & Co. sold for Mrs. Harriet level of first prices. London sold its specialties,

local operators, which soon wiped out the early gates.

The afternoon, however, brought with it the announcement of a further engagement of \$1.500,000 gold for shipment abroad, and the selling became general for both sides of the account. The selling was vigorous while the account. The selling was vigorous while the afternoon lasted, and material losses were suffered in all the leading shares, though the final losses for the day are generally confined to fractional amounts. The final dealings were less active and marked by a quieter tone, but the close was, heavy at about bottom figures. The losses of note include Lackawanna, 1½; Sugar, 1; Silver Certificates, 1 per cent, and Northern Pacific preferred, ½, while Chicago Gas, which was the strong feature all the way out, is actually up 1 per cent.

Railroad bonds were again dull, the sales of all issues being only \$985,000, while the tone was generally steady but sympathized with the stock market, late in the day becoming heavy under the effect of realization. The final changes are insignificant, with business widely distributed.

The following table shows the prices of active

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISFARCH by WHITNEY & STRPHENSON, oldest Fittsburg members of the New York Stock Exchange, 37 Fourth avenue:

LOCAL LIVE STOCK.

NEW YORK, May 5.—Alice, 150; Adams Consolidated, 170; Aspen, 350; Colorado Consolidated, 500; Gould and Curry, 390; Homestake, 875; Horn Silver, 360; Iron Silver, 100; Mt. Diablo, 190; Ontario, 3800; Plymouth, 195; Standard, 100; Union Consolidated, 450; Yellow Jacket, 275.

Condition of Markets at East Liberty Stock Yards. OFFICE OF PITTSRURG DISPATCH, TUESDAY, May 5. Receipts, 462 head; shipments, 564 bead; market slow at yesterday's prices; 22 cars of cattle shipped to New York to-day.

Hogs — Receipts, 1,100 head; shipments, 600

The first Tennessee strawberries of the sca-son arrived this week and are selling slowly at \$3.75 to \$4.00 per crate. The cool weather has served as a check to demand. Strawberries and ice cream go slow, such weather as we have been having for a few days past. At the meeting of the Eigin Board on Monday afternoon creamery was advanced 1½c per lb. The advance will go into effect here on Friday. As our markets are very bare of good creamery, and have been for a week or two past, the adhead: market firm: Philadelphias, \$5 25@5 35; best Yorkers and mixed, \$5 00@5 15; pigs, \$4 00 @4 75; 2 cars of hogs shipped to New York toay.
Sheep—Receipts, 2,000 head; shipments, 1,000 head; market strong at yesterday's prices.

and have been for a week or two past, the advance is likely to appear ahead of the usual time. New cheese is not in sufficient supply for wants of trade. Receipts of eggs are fully By Telegraph. By Telegraph.

Sheep—Receipts, \$,800 head; shipments, 600 head; market easy; good to choice, \$4 25@5 70.

\$4.2565 70.

KANSAS CITY — Cattle — Receipta, 3,880 head: shipments, \$80 head: market steady to 10c higher; steers, \$3.5065 85; cows, \$2.50@ 4.90; stockers and feeders, \$2.4064 90. Hogs—Receipts, 12,010 head; shipments, 720 head; market steady; bulk, \$4.5064 80; all grades, \$3.5064 85. Sheep—Receipts, 130 head; market unchanged. Cincinnati — Hogs in good demand and strong at \$3 90@5 15; receipts, 1,400 head; ship-ments, 1,300 head. Cattle steady at \$2 25@5 60; receipts, 710 head; shipments, 1,170 head. Sheep strong and in good demand at \$3 50@5 50. Lambs in good demand for spring at \$6 50@ 8 50 per 100 pounds.

CANNED MEATS Trade in This Line Now More Active Than Ever Before. The trade in this line opens up earlier and more actively this season than ever before. In former years demand has been slow until the picnic seasor drew near. But this year trade has opened up briskly a full month ahead of

the usual time. There has been a much larger export demand for canned meats this spring than ever before.

The advance in live stock and fresh meats has no donbt had much to do with the rise of canned goods. The latter, however, have been advanced almost as much as fresh meats. Said

Wool Markets.

NEW YORK — Wool quiet and steady: do-mestic flerce, 34@37c; pulled, 26@33c; Texas, 17 @24c. @Mc.

Metal Markets. New York, May 5.—Pig iron quiet; copper nominal; lead dull and steady, domestic, \$4 25; tin quiet and firm, straits, \$20 05.

No Report Made by the Committee Con trary to Expectations. [SPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, May 5.—The committee which is to determine whether Dr. Briggs' mangural address on accepting the Edward Robinson chair of Biblical Theology in the Union Theological of Biblical Theology in the Union Theological Seminary was heterodox or orthodox, failed to come to an agreement at its meeting to-day. A report, drawn up by the Rev. Dr. Birch, the Chairman, who is an opponent of Professor Briggs, did not meet with approval, and the matter was left open until the final meeting of the committee, which will not take place until an hour before the meeting of Presbytery, at which the report is to be presented.

When haby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria When she had Children she gave them Castoria

up to demand, but prices are steady. There is no danger of a surplus as all not needed for private consumption are promptly gathered in by cold storage companies. Markets are abundantly supplied with prime apples, and prices have declined since the beginning of the week as our quotations will disclose.

OFFICE OF PITTSBURG DISPATOH,

Lard—reinde, 8½c. Butter extremely scarce, firm, higher: creamery, fancy, 30c; do fair to choice, 25@25c; do. fair to choice

This created almost a panic. July wheat started at 99% co \$1 00%, against \$1 00% at the close yesterday, and sold up on the early bullish reports to \$1 01%, with very little reaction. The bulls let secure in the face of a decline of 14 cents per bushel, within the last two weeks. Then the bears began to unload; prices broke to \$1 01, halted and dropped to \$1, and then slumped on the bearsh cable reports and the bear raid to the lowest point of the day, 97%c, closing at 97% 697%c.

Corn was depressed early by the immense receipts for this time of the year-885 carloads besides \$,000 bushels by canal, and by the fact that Laverpool prices were \$2 lower, then railled with wheat because of estimates of but \$30 cars for to-morrow, and finally broke with wheat, because of sales by the bear crowd.

The weaktness in corn, heavy receipts and the sale of a line of long property can-ed an early break in oats. July opened at 46%c, sold off to 45%c, and then, one good buying railled to 47%c, but it sugged off later and closed at 46%c.

The prices of provisions were highest at the opening and lowest at the close. The net result of the day's trading shows a loss for the July option of 60c in pork, 10c in lard and 17%c in ribs compared with the closing prices yesterday.

The leading futures rapped as 1010ws, as cor. day.

The leading futures ranged as follows, as corrected by John M. Oakley & Co., 45 Sixth street, members of Chicago Board of Trade:

Chicago, & cars of cats, 5 of flour. By Pittsburg and Western, I car of hay, I of corn. The
cereal situation is in favor of the buyer all
along the line. At the Grain Exchange there
was little disposition to bay at any price, as is
always the case when prices are steadily drifting toward a lower level. Bears are now reaping their barvests. There are, thus far, no
signs of a check to the downward movement of
grain or hay. Our quotations on cats, millfeed and hay are reduced in accordance with
stubborn facts.

Prices for carlead lots on track:
