lumbus or some club other than Pittsburg
this afternoon the Reds might have won the game. Mr. Rellly was in it with both hands, and the little gentleman with the basso profundo palate to his left, Colonel Miller, lent valuable aid in wiping out memories of the harrowing event of the day before. Half a dozen assists credited to them were made in hits which, had they been a little to one side, would have

been scored as full bearded hits. The Reds ent Pittsburg to bat and Miller cracked out what might be termed a lulu. It left sparks in ts wake left fieldward. The Calliope's musical oice was heard at second, but he got no Biddy McPhee's Hit.

The hit McPhee made was similar to Miller's. after that the story was different. With two eds out of the way Holliday got one of his dd-fashioned '89 insect killers into far left. All the "Bug" did was to race home on Mcbee's beets. It was a drive which caused the tands to explode with joy. There was a lot of excitement in the second, and out of a lot of ed and bad playing the Pennsylvanians got ne run. Bierbauer's low bounder died beneath ith, but he falled to get it over. Hanlon nd Fields were both sent to base. That filled

Smith smothered Reilly's drive nd worked it into a double play, Bierbauer nd worked it into a double play, Bierbauer coring in the meanwhile. A great fool catch by Harrington ended the inning. At the next attempt the score was tied. Miller's hot frounder took a mean shoot through Latham, and after Beckley's safe crack Callope stole hird. He got in on the Gladiator's sacrifice, mith gathered Carroli's tap, and Beckley was saught at third.

Latham got to third on a trie of batting errors

ut he was left there, for Marr poked up a asumptive if the fly for Miller. Pittsburg moved ahead. Hanlon got a hit Pittsburg moved aucad. It allow given the second. He ran home while Marr sas putting a few Hindoo twists on Beckley's trimper. Reilly followed with a safe little hit, staley's hit caromed from Ridnes to McPhee and a pretty double up followed. The Pittsburgs made one on their own account. The made one on their own account. The Ring was sent to hist on dails, but he sad deflijy died together when Berbauer grabbed he ball. There was nothing else that looked like a run until the eighth, when Carroll made he riffle on his own hit and Hanlon's double o center. Attendance 1,351. Score:

TO ENJOIN REILLY.

The Columbus Club Will Petition for an In-Junction To-Morrow at Cincinnati. President O'Neil has been informed that the Columbus Association Club petition for an in-junction against Third Baseman Reilly at Cincinnati to-morrow. Paxton & Warrington, Cincinnati attorneys, have been engaged to take charge of the Pittsburg Club's interests. Speaking about the matter yesterday, Mr. O'Neil said:

"I knew when I was in Chicago that the injunction was to be applied for when Reilly got into Cincinnati but I stated that Reilly would certainly so with the team to Cincinnati. If was certainly go with the team to Cincinnati. If we have no legal claim on his services I want to know it and we certainly will not retain him, nor does Reilly want to stay away from Colum-bus if that club can prove a legal claim to his services. That's all there is in it. I have not services. That's all there is in it. I have not signed a player whom I think was legally bound to any other club. As soon as it is proven that we have players whose contracts with other clubs are valid I am willing to give them up. That is fair enough."

Well, we are not losing any sleep at present about O'Connor, but we won't lose sight of him."

A meeting of the County Baseball League was held last evening. A amended schedule was adopted. The changes were very slight. The Climax club was admitted to take the place of Oaklands, retired. The Acme club was not represented, the other five club being present with their \$50 each. Movers and Bowen Battle. New Obleans, May 7.—The sporting men in this city are speculating on the probable out-come of the fistic encounter between Andy Bowen, of New Orleans, the lightweight cham-pion of Louisiana, and Billy Myer, of Streator, Ill., who are to fight on May 16 for \$3,000, of which \$500 will go to the loser. The fight will be decided in the Olympic Club in the same ring in which Fitzsimmens defeated Jack Dempesy. The men are confined to weight, and neither must weigh over 134 bounds in full ring costome five minutes before the fight. The directors of the Olympic Club have decided that in future all contests shall be fought with the Police Gazette champion boxing gloves, and they have already been secured for this contest. It will be the second time Bowen and Myer have fought in the ring. On May 22, 1890, they fought for a purse of \$3,000 in this city, and Bowen won in 28 rounds, lasting I hour and 51 minutes, Myer claimed that he was in no condition, and he has never been satisfied with the result of that meeting. A large delegation of Western men are expected here next week to witness the contest, and there will be heavy betting on the result. PROTEST SENT TO THE GRAND JURY

PERCHAL TELEGRAM TO THE DISPATOR. NEW ORLEANS, May 7 .- Senor P. Corte has sent the following letter to the foreman of the grand jury:

"W. H. Chaffee, Esq., Foreman of the Grand "SIR-I am surprised to see printed in the report of your honorable body, published in the papers to-day, a great alteration of certain parts of my state-ments made, not only before you, but es-pecially of those made to Mr. Lafaye and another member of the grand jury at my

residence, and not under outh of secrecy.
"If, as it is publicly asserted, some members of the grand jury were in the mob, and that body is trying to excuse their action, it does not concern me personally, but I can-not allow my statements to be altered or partially published, with the object of drawing interences contrary to my declaration. It is my opinion that solidity should exist between good elements in order to guard against bad ones.

Plenty of Italian Criminals. "In this sense, asked by the above two gentlemen if there were any Italian crimi-nals in this city, I did not healtate to reply, without giving the number, that there are not as few as there is of other nationalities, but I added that it would be difficult to get rid of them, either because the most of them are naturalized Americans, who have the support of politicians and certain authori

Esposito, to which most of the American press expressed itself in opposition, and which was successful at a heavy expense, which was successful at a heavy expense, and because the demand to extradite was made in the Northern States. Just because there were a great number of criminals here, I was surprised to see persons accificed whose precedents were good, who were acquitted or not yet tried. As to the incident on the Entella, referred to in the report of the grand jury, I was asked by Mr. Lafaye, on the 1st instant, if what was published in the Della on the 28th ultimo was true; but as I had just returned here from Pensacola. I rehad just returned here from Pensacola, I re-plied that I didn't know to what he alluded.

Fugitives From Justice Landed.

"Having read the article, I saw that by a mistake it referred to the steamer Elysia, of the Anchor Line, and then I said that as to the Entella I was surprised that the parties delegated expressly by the Mayor to examine into the condition of the immigrants did not notice that the SI passengers landed, while the list called for only SEZ. This explains plainly to me how easily fugitives from justice could be introduced in this country if authorities incompetent in such matters were intrusted with said investigations.

"And it is partly to this undue mingling of outsiders in the temple of justice that I ascribe the bloody tragedy. But the agreeable slence, the studied reticence and other accompanying irregularities will never destroy the truth of the facts incurred and which I denounced to my Government, viz: That an extra judicial body, appointed by the Mayor, from the beginning premeditated, as it appeared in its appeal, the killing of the prisoners; that the same body assembled on the night of the 18th of March to take, in cold blood, the necessary steps to kill, for political purposes, defenseless but fearful adversaries. Fugitives From Justice Landed,

To Hon. William Grant, United States District Attorney, New Orleans.

HONORABLE SIR-In reference to my interview with you last Monday, I beg to state, ac-cording to an examination of their passports, the information received from our Minister of Foreign Affairs and to the testimony of the survivors and of relatives and friends of the victims.

Those Who Were Killed. It appears without doubt that the person killed were the following: Antonio Abbagnette (Antonio Bagnetto), Uincenzo Traina (Charles Traina), Antonio Grimuado (Antonio Marheze), Gerolamo Caruso (James Caruso) cheze), Gerolamo Caruso (James Caruso), Emanelle Polizzi (Manuel Politz), Antonio Scuffidi (Antonio Scuffidi), Rocce Geraci, Loreto Comitis, Pietto Monastero, Francesco Romeo (Frank Romeo).

"The proving on this occasion, also the nationality of the deceased persons, and that of those who were robbed of their savings, maltreated and confined in prison for about six months and then acquitted, er released on ball, is, I deem, necessary therefore according to the record in the Registration Office, and to the above named documents which I have, and are at your disposal. There is no doubt that at that time of their death Pietro Monastero, Loreto Comitz and Vicenzo Trama were subjects of His Majesty, the King of Italy, as also Antonio Grimaude, whe arrived here from Italy in November, 1888, although it is asserted without proof that he manifested his intention October 3, 1890, to become a citizen of the United States under the name of Antonio Marchi. All the others killed, except Macheca and Frank Romeo; the first an American by birth and the second by virtue of decree, signed by Judge Theard, dated April 6, 1888, I must consider Italians, either for their not having complied with the formalities required by an article of the Italian civil code to renounce their citizenship, or for not complying with those of 2165, the Revised Statutes of the United States, the only legal way to become an American citizen. Emanelle Polizzi (Manuel Politz), Antoni

cording to the terms of the document given voters, made them American citizens. Independently of these conditions I will prove Independently of these conditions I will prove, if necessary, that the names of several of the Italians are considerably altered; that the registration papers of some appear to have been signed by them when they did not know how to write, and in other papers there are irregularities which destroy their value.

"Of the persons acquitted or released under bail who were, as is said, maltreated and imprisoned for six mounts, with the exception of C. Paterno, Charles Matranga and John Caruso, all are Italians, having the most of them their passports in due order. I am, yours respectfully, "P. CORTE."

It is rumored here that suit will be brought against the city of New Orleans in the United States Court for a large sum on behalf of the heirs of the 11 prisoners lynched in the parish prison.

A NEW COMMITTEE amed to Straighten Out the World's Fai Commission Business,

IFROM A STAFF CORRESPONDENT.1 HARRISBURG, May 7 .- The Senate refuse this morning to concur in the Conference Com mittee's report on the Word's Fair bill. The report appropriated \$300,000 and provided for a commission of fifteen, six of whom should be appointed by the Governor, three by the President of the Senate and six by the Speaker of the House. The main objection to the report was its taking the appointment of the whole commission from the Governor. The Democratic Senators held that this was a reflection upon the Executive, and in this they were sustained by Senators Grady, Filiun and Thompson, all of whom maintained that the Governor should appoint the commission. The Senate refused to concur by a vote of 22 to 23, and Senator Grady moved that a new conference committee be appointed. The motion was adopted, and President Penrose appointed Senators Grady, Filiun and Ross to serve thereon. of the House. The main objection to the re-

Senators Grady, Flinn and Ross to serve thereon.

Senator Flinn favors the creation of a commission of not less than 30, to be appointed by the Governor with the consent of the Senate, He believes that a commission of this size, composed of representative manufacturing and business men, who would take an interest in their duties, would insure the State a creditable representation at the Fair. In his opinion there is not, and there should not be, any question of politics in the matter, and holds that the Governor, even if so disposed, would not care to make his selections of commissioners upon partitisan or political reasons. Senator Ross holds the same views, and believes that Mr. Pattison would be influenced in his selection of commissioners only by a desire to secure men who would aim to give the State the representation there its rank and business interests demand. The committee, will meet early next week. on No. 10, was instantly killed. He was formerly a conductor on the same read and a prominent ex-soldier. Three or four cars were demolished and trains delayed about six hours. At the point of the accident a double track begins, and it is the usual place for the trains to pass. The passenger was running at a high rate of speed, carrying the private car of the superintendent. J. F. Miller, with a party of road officials. Engineer Thomas Irwin, of the limited, states the air brakes failed him at the point of the accident, and he fan out on the single track, and was in the act of reversing to get back when the accident occurred. The two engines were fairly welded together, so great was the force of the collision. The occupants of the rear coaches and mail car were badly shaken up but escaped serious injury. The private our had been taken off at Trinway, a point west of where the accident occurred.

ests demand. The committee will meet early next week.

Over in the House the feeling seems to be against giving the Governor the power to appoint the whole commission. The opponents of this plan argue that, if his past course is any guide in his action in this cause, he will make the commission a thorough-going Democratic body, and that the whole business at Chicago will be run as an adjunct to the Democratic party. It is probable that the conference committee will have some difficulty in arriving at an agreement.

PEPECIAL TELEGRAM TO THE DISPATCH. DENNISON, TEX., May 7.—George Burke, who esides northeast of Stringtown, L.T., relates a HARRISBURG, May 7.—Representative Gil singlar death by lightning which occurred Tuesday evening. A cattle man named the introducer of the anti-discrimination bill, Mr. Seanor, of Indiana county, had attempted Charles Davis remarked that a storm was coming up and that he would ride to the prairie and "round up" some horses which were on the edge of the woods near the prairie. Davis mounted his horse and, on a gallop, started over the prairie. While returning with the horses a bolt of lightning darted from a dark cloud and killed him. The horse which he was riding fell to the ground and remained motiouless for a moment or so, but was not seriously hurt.

When Burke reached Davis he discovered that several Winchester cartridges, which were carried in a belt that circled the waist of Davis, had been exploded by the stroke of lightning, and the left side of the dead man's body was literally torn to pieces, presenting a horrible sight. The entrails of the dead man protruded from the body and dropped to the ground. to talk the measure to death, apologized to the House for anything he may have said reflecting on that gentleman.

sugar tariff, with an incidental offer to resign the Presidency of that road if any charges could be proved against himself. General Traffic Manager Leeds was found guilty, and started to St. Louis to-night to turn over the control of his department to S. H. H. Clarke, the Manager of the Missouri Pacific. What will be:done with Mr. Leeds, or who will be his successor, it is as yet too early to foretell.

As important, almost, as the disciplining of the Missouri Pacific, were the points of a resolution adopted by the Board. They were: First, that the life of the association be extended for a fixed term, say until January 1, 1896; second, that the commissioners of the association prepare a plan for the establishment of joint agencies; third, that the commissioners report on the advisability of the division by percentages of competent tonnage.

W. R. Jennings, of Pittsburg, a Speaker at the Kansas City Convention.

Kansas City, May 7.—At the International Convention of the Y. M. C. A. a paper on "The Correct Relation of the State Committee to the State Secretary and to the State Work," was read by Seiden P. Spencez, of St. Louis. The next order of business was the selection of a place for holding the next convention. This matter was left to a committee composed of one member from each State, Province and Territory represented, instructed to report on the last day of the convention.

An address was made by W. R. Jennings, of Pittaburg, on "Bible Study in the Association." This was followed by an address on "Leading Young Men to Christ, the Crowning Work of the Association," by J. B. Most. The subject was to have been discussed by Bishop Baldwin, but he was unable to be present. The evening session was devoted to railroad work, and Mr. W. W.
