AS FAST AS THE LIMITED.

Another Express to Be Put on the Ft. Wayne to Chicago.

General Manager Wood, General Superintendent of Transportation, E. B. Taylor and General Passenger Agent Ford, of the Pennsylvania Company, left for Philadelphia last evening to attend the summer meeting.

Mr. Ford said the New York Central had shortened its time between New York and Chicago to 27 hours without extra fare, and to meet them the Ft. Wayne would reduce its to 26 hours, giving patrons another train as fast as the limited with no extra charge.

Mr. Ford thinks the boycott against the Alton will be successful this time. He says the bluster of the Alton officials reminds him of the boy who whistled in the dark to keep up his courage.

A FAMINE OF FUEL.

The Iron Industry of the Shenango and Mahoning Valleys

PROSTRATED BY THE COKE STRIKE.

The Men Still Determined, and Still Seem to Hold Their Ours.

NO JURY YET IN THE GARRISON TRIAL

SPRINGFIELD, May 8.—At the time the blast furnaces of the Shenango and Mahoning valleys shut down last week, the operators did not apprehend a suspension of more than 30 or 60 days. Just as they were more than willing to resume and handle orders that have been piling upon them the big Conellville coke strike began to be felt all along the valley, and they found they were unable to secure coke to run their furnaces.

This shutdown of five months means that the production of iron in the Shenango Valley has already fallen to 350,000 tons in the year, and every day added to the idleness means hundreds of tons of iron added to this loss.

The importance of the present entire suspension of work in the valley means that at least one-eighth of the pig iron production of the United States is lost. The valley turns out one-eighth of the entire production, but this year it will lose its record and fall away below other localities. Operators are ready and anxious to resume work, but they cannot get coke, owing to the mammoth strike in the Conellville region, and even today, when it is stated the men are beginning to resume, no coke can be had here. A full resumption of work in the coke region, when it comes, means that there will be a great boom in the valley, and the thousands of men thrown out of employment and idle as present will be turned into the furnaces that have been shut down.

Manufacturers say the price of iron is not so high as might be wished, but that they can store it in their yards, which are now as bare as a floor. They also believe that the effect of the shutdown will be felt soon enough in prices, whether they return now or later on. Sales since the shutdown have been very active, and it is doubtful if there is a pound of iron in the valley which is not being sold by the Shenango Valley Furnace Company to the Carnegie Edgar Thomson Works, some 600 tons being shipped daily to fill the order. The greatest loss is thought to be sustained by the railroads that have lost the freight on millions of tons of coke that has been shut down in sight yet.

THE BEDFORD JUDGESHIP.

Hot Fight Between Longenecker and King

SPRINGFIELD, May 8.—Not in the history of Bedford county politics has there been a more stubborn contest waged than that now going on between ex-Secretary of the Commonwealth Hon. J. H. Longenecker and Alexander King, Esq., to secure the judgeship of Bedford County for the month of the President Judge. The members of the bar, with but few exceptions, are keeping hands off, the exceptions being a few of the younger members, who are about equally divided between the candidates. The question of fitness is admitted by both sides. Both Longenecker and King have been shining lights and successful practitioners for upward of 25 years. The question of the right to the judgeship is admitted by both sides. Both Longenecker and King have been shining lights and successful practitioners for upward of 25 years. The question of the right to the judgeship is admitted by both sides.

TRISTATE BREWERY.

SPRINGFIELD, May 8.—Delegates from the various branches of the Farmers' Alliance of Hancock county met here to-day and formed a regular county organization. The State Alliance was present, and there was some interesting talk.

INQUIRIES INTO THE MINE EXPLOSION.

CLARKSBURG, W. VA., May 8.—The Coroner has in passed a jury, and Mine Inspector Blair has commenced an investigation into yesterday's mine explosion.

COUNTING UP THE LOSS.

The Trustees of the Pittsburgh Female College Waiting for the Insurance Companies—Upon the Actual Damage May Depend a Change of Location.

The question as to whether the Pittsburgh Female College will be rebuilt, or the location changed to Fresno, East. The decision is still undecided. The executive committee of the Board of Trustees met yesterday afternoon. John N. Holmes presided. There was a lengthy session, but the only thing done was to consider the matter of insurance. An adjournment was then had to next Monday. The advisability of building the college in another section of the city was considered, but it was thought best to let it go over until the insurance is settled.

STRIKERS REMAIN FIRM.

Coke Operators Find It Difficult to Keep Their Men at Work.

SCOTTSBURG, May 8.—Evictions continue to be the order of the day in the coke region. Guards were placed at Ideals last night and an effort made to start the works this morning, but none of the old men would return to work. The company say they will import new men at once. A committee from Calumet reported at labor headquarters that not more than 20 men were working there. Fifteen of the Italians taken there yesterday refused to return to work this morning. A cartload of foreigners was sent up the Scottsburg branch this evening, reported to be for the West. Overseer plant of A. C. Overholt & Co.

STILL FISHING FOR A JURY.

The Court in the Garrison Murder Trial Has a Very Difficult Task.

WHEELING, May 8.—The Garrison murder trial has been in progress very nearly a week, and the jury is still incomplete. There are no prospects that evidence will be added to the case until Monday. This morning Judge Campbell, after hearing arguments of counsel, decided that J. J. Campbell could still be called as a witness, but he was accordingly dismissed, counsel for the defense excepting. Jurors R. J. Hullard and J. R. Chambers pleaded like exemptions and were excused. Juror James Fias said he had at one time held a grudge against the prisoner, and had threatened to get even with him, but means that his threat should only apply to politics. He had no ill-will toward the defendant at present, but was excused, nevertheless. He was challenged by the State for cause. By consent he was summoned in the morning to show that he had expressed a leaning against the prisoner.

ONE CONTRACTOR MAKES TERMS.

One Hundred Erie Carpenters Will Resume Work Monday Morning.

ERIE, May 8.—Next Monday morning about 100 of the striking carpenters will return to work for their old employer, Henry Shank, the contractor, the Carpenters' Union having voted to accept his proposition to recognize nine hours a day's work, and pay them the same wages they received hitherto for 10 hours work. Mr. Shank is the only contractor of this city who has as yet shown any willingness to conclude anything to the men.

PITTSBURGH'S NEW FEEDER.

The Pittsburgh, Washington and Southern Railroad to Be Running by October.

MILLIONS of rolls wall paper to be sold at a price, at 71 1/2 Federal street, 65, 67, and 71 Park way.
