AMUSEMENTS.

BUSINESS VERY BRISK IN SPOTS.

More Hopeful Prospect in Manufactured

to Bradstreet's as in preceding weeks, did not show a general growth in the volume of trade in staples, although there are instances where business is reported quite actions are, the new clip comes forward freely.

Returns from other points show a rather quiet trade: At Boston only fair, with complaints in many quarters; at Philadelphia fine wool is 2 cents lower. Collections are, trade in staples, although there are intive and equal to expectations, even exceeding records of the like week a year ago. Minneapolis tells such a story, as does St. Paul, and, somewhat modified, the like is true of Omaha. There has been a pronounced gain at Chicago. Nowhere else are announced expanding volumes of business and records in excess of 1890.

Cold weather has interrupted buying of some seasonable goods, but not seriously. West and South the crop outlook is all that could be desired. Sugar is said to be a little late in St. Louis and spring wheat in the Northwest, but except the probability of a smaller area planted to cotton this month, all agricultural staple promise heavier yields than last year.

The General Strike Situation. Industrial disturbances the first week in

May have been numerous and costly. Nearly 25,000 coal miners struck for various causes, aithough a general eight-hour demand was not made. The building and allied trades have been disturbed by the eight-hour movement, and the total number of industrial workers on strike is not far from 50,000, as compared with 54,000 one year ago. Crude iron, on the whole, has not gained any strength, although a shade of improvement in demand is reported from Bt. Louis and Philadelphia. Coal is in rather better demand, noticeably anthracite, although the total quantity shipped from the mines from January 1 to date is nearly 2,000,000 tous heavier than in a like portion of 1800—the result of the prolonged policy of restricted production this year. There is no improvement among yarn

spinners or manufacturers of print cloths, prices of the latter baving declined to 2 15-16 cents, less by 1 per cent the lowest ever reached. Late reductions in blenched notious have been met on several makes with an advance.

Drygoods and Wool Markets.

Boston reports an improvement in de-mand. Announcements of the suspension of the usual flannel sales have lest strength to the tone of the woolen goods market gen-erally. Wool is dull, with low grade Australians in large supply and poor demand. Low grade domestic wool is 1 cent lower, Leather and hides are dull without change. Timber, if quite variable, is in disappointingly slow demand at Boston and Philadelphia, but in good demand at Minneapolis and St. Louis. Tobacco is somewhat more active and a shade higher at Cincinnati, but is slow of sale at Philadelphia. Live stock is firm and higher at Kansas City. At Omaha cattle are higher on a light supply, but hogs are 5 cents

Tin plate lis advancing in California on the prospect for a very large fruit crop there. Sugar is weak and 1/2c off on raw and refined, on weakness abroad. Domestic demand is still good, but prices promise to

Business Failures and Money Markets. Business failures in the United States number 166, against 190 last week, and 152 this week last year. The total from January 1 to date is 4,439, against 4,290 last year Money has been more sensitive during the week, owing to continued exports of gold, with a prospect of further disturbance in European money markets, owing to Russia's demand for gold. Domestic funds are returning to New York with freedom, but country collections, with exceptions, are not made so promptly as expected.

Bank clearings at 58 cities for the week ended May 7 amount to \$1,321,138,064, a decrease from this week last year of 17 per At 57 cities-New York's total excluded-a gain of 2 per cent is shown. Gold shipments, fears of tight money and

nuessy conditions abroad have created a depressed tendency in share speculation, although the harmonious railroad meeting, the punishment of rate cutting and the adoption of plans to render the Western railroad agreement more stringent has sustaining effect. Bonds are dull and Exports of Wheat and Flour.

Exports of wheat, and of flour as wheat, from both coasts, increased again this week, equalling (from the United States exclusively) 2,273,174 bushels, against 1,873,-270 bushels in the first week of May, 1890; 1,278,000 bushels in 1889, and 1,455,000 bushels in 1888 The total from July 1 to May 7 is 84, 10,043 bushels. In a like portion of 1889 90, it was 93,270,000 bushels 1888 89 it was 75,000,000, and in 1887-88. 110,199,000 bushels. Official reports, with estimates, indicate that only about 77,000,000 bushele of wheat, visible and invisible, re-mained in the United States on May 1.

Bradstreet's and Buerbohm's totals of stocks of wheat, United States and Canada, affoat for Europe and available in Europe, show that supplies have fallen off from January 1 to May 1, 1891, only 16,075,000 bushels, as compared with 38,000,000 bushels in a like partion of 1890, and 43,968,000 bushess in four manths at 1889. The price or wheat advace to show renewed strength after dropping 10 cents a bushel from the highest point reached.

The State of Canadian Trade. In the province of Ontario general wholesale trade is only fairly active, with sollections moderately prompt. Staple grocuries are more active at Toronto. Drygoods sale at Montreal have been curtailed by colder weather. Throughout Quebec trade is quiet. Cattle expert business is cond. The Panisher, experts 31 business. good. The Dominton reports 31 business milures this week against 41 last week and 26 this week last year. The total number from January 1 to date is 777 against 724

R. G. Dun & Co.'s weekly review says! The struggle to sustain Russian securities against the disfavor of the Rothschilds, the demand for gold by German bankers and the threatened withdrawal of Russian gold from deposits in England, France and Germany, account for much of the unusual movement of specie which has been in progress. The advance of half of 1 per cent at once in the rate charged by the Bank of England, is rightly regarded as a notifica-tion that England means to fortify itself in

the great struggle by drawing gold from Comes at the Most Convenient Time, The sudden demand comes at the season when this market can spare gold with less inconvenience than at any other, and the continued rashes of silver notes make the from circulation less felt,

Though the fact that 47 per cent of customs receipts at New York are now in silver paper, it shows that the remedy cannot last always. May starts off with the great plunge in speculative prices, which has for some weeks been auticipated. Wheat fell 15 cents in as many days. Sales here last week were 65,000,000 bushels, with a net decline of 5% cents, and while corn has declined 31/4 cents sympathy, and many speculators have

auffered, the sales have been but 11,000,00 An element of great strength is the no cumulating evidence that the wheat pros-pect at the West is remarkably good, the acreage having increased heavily, a third in Kansas and a quarter in Washington. The unusually cold weather, while injuring fruit

NO GENERAL REVIVAL and vegetables at many points, does not appear to have seriously affected the larger crops, which promise exceptionally well.

Hopeful for Manufactured Products. After such high prices as have been realized, farmers are widely inclined to put in a greater acreage of wheat, oats and corn, especially as the foreign advices foreshadow a larger demand for wheat. With such an agricultural outlook the demand for manufactured products of all kinds is likely to improve and thus the great industries will improve, and thus the great industries will be helped. Iron already feels the stiffening Goods Is Reported.

INDUSTRIAL AND MONEY SITUATION.

INDUSTRIAL TELEGRAM TO THE DISPATOR.1

NEW YORK, May 8.—Special telegrams

The demand for structural iron is, for the time, lessened by the extensive strikes in building trades, but for bur and plates there is more demand. Wool is scarce, and the manufacture not inclined to activity until

on the whole, somewhat improved, but there is yet much complaint. At Hartford trade is picking up, and at Pittsburg light improvement is seen in Bessemer and some kinds of manufactured iron,

Business at Western Points.

At Cleveland, trade is fairly good in hard-ware, shoes and groceries, but light in dry-goods and clothing, and dull in iron. At Detroit cold wenther makes trade slack. Lake freights are lower than at the opening, and at Milwaukee building strikes affect trade, but at St. Paul trade is fair and crop

rospects are excellent.
The extensive private advices received at Chicago as to crops have the same tenor, and drygoods, trade is better, with clothing, and in shoes satisfactory. Receipts of cured meats and lard fall behind last year's, but is an increase of 25 per cent in wool and 33 per cent in cheese and butter. Cincinnati and Chicago report fair trade, with shoe manufacturers busy. At St. Louis the promise is excellent, and at Kansas City there is some improvement, as at Denver

New Orleans reports fair trade, with cotton in moderate demand, at somewhat better prices, and sugar active, but lower. At Savannah trade falls off some, but prospects are bright, and at Jacksonville business is brisk and hopeful in all branches. In short, while present trade is not quite as active as usual, the outlook would be highly encouraging but for foreign and monetary uncertainties.

FANNIE B. WARD's letter from Chile for THE DISPATOR to-morrow treats of the possibilities of American trade in the Latin republics. A paper for all classes, Ahead of

BULKELEY IS PATRIOTIC.

He Will Make Good the Fatlure of the Legislature to Make an Appropriation. MIDDLETOWN, CONN., May 8,-At a meeting of the trustees of the Connecticut Asylum, to consider the lack of means owing to the failure of the Legislature to make an appropriation, Governor Bulkeley said that as long as he held the office of Governor he would furnish the money to carry them on. He said that on one day's notice he would furnish the necessary funds.

BEN BUTLER'S PROPERTY ATTACHED. A Suit Against the General by a National Bank at Lowell, Mass.

LOWELL, MASS., May 8.-The Prescott National Bank of this city, has placed an attachment on the property of General Butler for \$12,000.

The money consideration was given about four years ago on a personal note which the bank discounted. When the note fell due it was not paid, from some reason not at present explainable.

The Three Kings

Among pianos are the Decker Bros., Knabe and Fischer; their qualities are known everywhere and by everyone. There are more of them in use in and around Pitts-burg than any others, all placed by the well-known music house of S. Hamilton, 91 and 93 Fifth avenue. Go into our schools, colleges, churches and homes, and in fact everywhere that a piano is required and used, and you will find them leading. "Why? Because they have earned a reputation for tone and durability. As you pur-chased them to-day, so are they true in workmanship, material and tune years hence." Hamilton sells them at just as low prices and easy terms as you can buy new and untried makes for at other music stores. No other dealers sell these pianos in the city but Hamilton. Go to Hamilton's and see and hear them and you will buy no other.

Boys' Fine Suits Only \$1 50.

To-day we will sell 500 boys' pleated cassi-mere suits, 25 different patterns, including checks, plaids, mixtures and stripes (worth \$3 50), for the astonishingly low price of \$1 50. Sizes 4 to 14. Dress the boys well and make 'em happy. It won't cost much if you come to the P. C. C. C., Pittsburg Combination Clothing Company, corner Grant and Diamond streets.

NEWLY licensed saloonkeepers can much increase their sales of beer if they procure supplies from the Iron City Brewing Co.

LACE CURTAINS at any price you may want, at Welty's, 120 Federal street, 65, 67 69 and 71 Park way.

NEW ADVERTISEMENTS. FINE HEALTHY SKIN MAY

Cure of a Distressing Skin Disease Gratefully Acknowledged by a New York Gentleman.

My little grandson having been cured of an ecsema by the CUTICURA REMEDIES, I was prevailed upon by my wife and daughters to try it myself for a distressing skin malady that has been the bane of my life for twenty years.

It required a good deal of persuasion to get me to try it, for I arrued that a man seventy years of age could not be cured by the same remedy that a two-year-old child was. I was perfectly astonished at the result, however. In one week my reuption had nearly disappeared, and in two weeks there was not a vestige of it left. A transformation took place from a leprous to a fine, healthy skin. My head, before I commenced the see of the CUTICURA REMEDIES, was covered with scales and patches of dead skin, which I could not be the size of a dime, while from my elbows, knees, and other parts of my body, I could deach strips the size of a hair dollar. My head had such an appearance that I avoided society, but now, thanks to the CUTICURA REMEDIES, I can once more go out with confort, and enjoy all the pleasure of society with a satisfaction I was long a stranger to.

THOS. 8. NEDHAM. 22 W. 824 St. New York. THOS. S. NEDHAM, 23 W. 824 St., New York

Cuticura Remedies

Words can scarcely do justice to the esteem in which these great skin cures, blood purifiers, and greatest of humor remedies are held by those who have found them the only relief and apeedy cure for skin, scalp and blood diseases which have rendered life almost unendurable by reason of personal disfigurement and great physical suffering. CUTICHEA RESOLVENT, the new Blood and Skin Purifier internally (to cleanse the blood of all impurities and thus remove the cause), and CUTICHEA the great Skin Cure, and CUTICHEA SOAP, an exquisite Skin Heautifier, externally (to clear the skin and scalp and restore the hair), speedily cure every disease of the skin, scalp, and blood, with loss of hair, from infancy to age, from plimples to serofuls.

Bold everywhere. Price, Cuticuna, 80c; Egar, 15c; Hesolvent, \$1. Prepared by the Putten Dung and Chemical Componation, Hoston, #2-Repd.for "How to Cure Skin Diseases," 64 pages, 80 lilustrations and 100 testimonials. PIMPLES, black-heads, red, rough, chapped and

ALMOST FATAL FALL

NEW ADVERTISEMENTS.

An "Evening Leader" (Grand Rapids) Newsboy Sustains Serious Injury.

Brief History of a Brave Little Fellow's Patient Suffering.

It will be a year in November since one of the brightest faces among the Evening Leader's throng of happy newsboys was sud-

Leador's throng of happy newsboys was suddenly missed from his regular daily visits at the counting rooms. His rosy cheeks and sparkling eyes, full of fun and enthusiasm, intensified by the knowledge that he was earning money by his own efforts, made him a conspicuous figure among his host of little competitors.

By inquiry it was learned that the little business man (whose name is Gilbert C. McDonald) had sustained painful and probably fatal injuries by falling from a fence post, striking heavily upon his head and hip, while playing near the home of his father, John McDonald, at 437 South Ionia street. Since that time up to last March the little sufferer had gradually lost the use of his limbs and body, finally becoming a confirmed and helpless invalid. In vain did anxious parents seek the medical profession for help; the best talent was powerloss. Times without number were the heartbroken parents and sympathising friends called to watch the terrible agony of the little wasted body, expecting every moment to see their precious one torn from them by the dead destroyer.

It was with this knowledge of the ease, together with the fact that his same little bey is now a happy youth among his play-fellows that the Leader, with a natural interest for one of its many newsboys, gives its readers a brief history of his terrible sickness and mirraculous recipiors.

THE MOTHER'S STORY.

THE MOTHER'S STORY.

Mrs. McDonald was seen at her home yesterday, and that lady told the story of her son's sickness and final recovery which that Interest only to be found in a mother's heart. Gilbert was present, and apparently enjoyed a retrespective history of himself "Gilbert will be 12 years old in Ostober," said Mrs. McDonald, "and were you familiar with his past suffering, you would censider it a miracie that he is with us looday. His suckness was caused by the socialental fall from a post, striking on his head and his, last November. After the accident he gradually lost the use of his limbs until he was unaude to move hand or foot. We employed several good physiciana, but he grew worse, becoming perfectly paralyzed; there was no feeling in his limbs. The doctors run pins into his legs and arms and he could not feel it. His hair stopped growing, became dry, teeth loose, and his tongue became swellen and speechless; he could not even move his eyelids. He would go into convulsions for hours and suffer the most terrible agony, shortly before we employed the doctors who finally cured him he went into a convulsion at a circle with the morning, lasting until 9 o'cleck at night. I sent for my husband at the cable company's power hours, and we looked every moment to see him die. That night my husband noticed in the Evening Leader the advertisement of the Electrical and Mcdical Institute, and although one doctor told us that electricity would kill him he resolved to try it, as every other resource had been exhausted. He went down and consulted with the medical director of the Institute. The doctor came and examined the case and informed us that if the brain was not too badly afforced he could cure him. For 10 days before the doctor came he had been entirely speechless and as a dead person, at no time giving any signs of recognition. That night the doctor treated him, and the next morning he was better, speaking for the first time in 10 days. You may well imagine my feeling of gratinde and joy as I saw my boy re THE MOTHER'S STORY.

THE FATHER TALKS.

THE FATHER TALKS.

The father, John McDouald, is a blacksmith in the employ of the cable company. "As often as every other day I was telephened to come home, expecting every time to see him die. I gave up all hope of his recovery. It was heartrending to hear his pitiful moans all through the night and day. I read in the Leader that the Electrical and Medical Institute treated diseases of this nature and consulted with them; you know the result. It is most wonderful, and I shall never cease to thank them for what they have done for us."—Evening Leader, Grand Rapids, Mich.

THE INSTITUTE referred to in the above is at present treating from 100 to 200 people daily—which was established two years ago on the same basis that the ELECTRICAL AND MEDICAL TISTITUTE now located on the corner of Fifth street and Penn avenue, and have in operation the same MEDICAL ELECTRICAL INDUCTION BATTERIES AND APPILIANCES which are PATENTED and used only in these INSTITUTES.

This treatment, combined with medicine and surgery, which are all supplied in the Institute, has proved successful in such diseases as

Rheumatism, Neuralgia,

Paralysis, Spinal Diseases, Locomotor Ataxia,

Liver and Kidney Troubles,

Catarrh, Dispepsia,

Blood and Skin Diseases, And all morbid conditions peculiar to either sex arising from debility of the nervous system, produced from whatever causs.

Hences and instruments for all deformities supplied.

No matter what alls you call and procure a diagnosis of your case Fig. OF OHAROE, or communicate a description of your case by letter. Advice in all cases will be strictly honest and based on knewledge and experience, Male and female attendants.

THE AFTER MATH. LA GRIPPE AND ITS AFTER EFFECTS, NOW THE PROPER TIME FOR SPECIAL TREAT-

MENT BY DR. BYERS' METHOD. MENT BY DR. BYERS' METHOD.

Many people were no doubt surprised that Dr. liyers let so good an opportunity as the "La Grippie" afforded to advertise himself and his practice go by, when the papers were full of advertisements of empirical treatments and patent medicine oursealls. But his time to apeak had not yet arrived. He goes on the principle never to advertise treatment for any disease unless he is sure he can do some good, and all nose and throat specialists know that during the acute inflammatory stages of la gripps local treatment was worse than useless. Nearly one-insit of all Dr. Byers' catarrhal patients suspended treatment by his advice during the epidemic, as he considered it imperative for them to stay closely indeers. This honest stand on his part has won him the confidence of all right-'hinking patients.

Wm. C. Byers, M. D., No. 121 Penn Avenue Graduate Jefferson Medical College

Now is the proper time to take special treatment for la grippe and its after effects, such as masal catarrh, bronchitis, catarrhal pneumonia, incipient consumption, chronic coughs, etc., as the acute inflammatory symptoms have given way to the sub-acute and chronic forms. In stubborn cases of chronic coughs, and in consumption. Dr. Byers continues to use the pneumatic cabinet treatment with satisfactory results.

ELECTRICITY IN SPECIAL DISEASES. ELECTRICITY IN SPECIAL DISEASES.

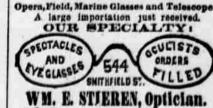

Dr. Byers and his associates have employed electricity in the treatment of suitable cases continuously during the past six years with considerable benefit. When carefully and scientifically applied there is no doubt of its great therapeutic value in certain chronic allments, such as muscular rheumatism, neuralgia, partial paralysis and netvous affections. This branch of Dr. Byers' practice is in charge of an experienced specialist, a graduate of the of an experienced specialist, a graduate of the well-known Bellevue Hospital Medical College of New York. \$5 PER MONTH.

All cases will be treated for \$5 per month, including medicine, until July 1. Parties taking treatment before that time will be treated at the same fee until cured.

Dr. Byers gives his personal attention to all diseases of the eye, ear, cose, throat and lungs. All nervous diseases, skin diseases, eczema, hives, pimples, blutches, etc., blood diseases, scrofula, rheumatism and all kidney, bladder and rectal troubles successfully treated by an experienced associate specialist.

Office, No. 421 Penn avanue. Established 1883, Hours, 9 A. M. till 4 P. M.; 7 P. M. till 5 P. M. Sunday, forencon only. Out of town patients write for symptom blank for home treatment for catarrh.

Plain Swiss, 18c, 18c, 25c and Sec.

Every person knows how much tidier any woman looks with a neat apron. We show an immense assortment-much larger than you'd believe until you see it. Three special lines of aprons are offered this week at 25c. One is trimmed with lace inserting, another with dotted Swiss edging and tucks, and the third with satin stripe, hemstitched border. Nothing like them ever offered for the money. An extra large apron for nurses, plain, with deep hem, is selling here at 30c. At 50c we offer a fancy Swiss-embroidered apron, with embroidered border, very handsome and remarkably cheap. Good, serviceable aprons as low as

See the new patterns in children's embroidered, hemstitched skirtings at 50c, and same patterns in ladies' skirtings from 62c up.

12c and up to \$2, if you want something unusually fine.
