STRONGER THAN ELECTRICITY. Mike Stable Caught a 3,000 Volt Curren

and Still Lives. Mike Stable, an inspector for the Alle-gheny Electric Light Company, is now ready to do a turn in any first-class museum as "the only living electrocuted man." He was able to be around the streets yesterday, though only a few hours previous he took in 3,000 volts of electricity through his hands. His right hand was burned to the bone, and his left hand and right foot were severely burned. Stable climbed to the top of the tower at the corner of North avenue and Monterey streets to make some repairs. With one hand he grasped a wire, and with the other he used a pair of plyers. The plyers were not properly insulated, and he got the full force of the current. # CLEARING HER CONSCIENCE.

Mrs. Margaret Lane Has Sent \$100 to Pay

for a Stelen Watch. John B. Gasaway, the Allegheny druggist, who many years ago served a term in the Ohio Penitentiary for a crime he didn't commit, received a letter yesterday morning from Mrs. Margaret Lane, the woman who has confessed the crime for which he suffered. The letter was slipped under the door of his place, and he believes the woman put it there herself. In it Mrs. Lane said that she saw by a Cleveland paper that the name of the lady who lost the watch is Conger, and she sent \$100 to that paper to pay her. She will send \$50 more soon, and says her confessor will deal with Mr. Gas-

Mr. Gasaway telegraphed to Cleveland to confirm the letter, and later received a re-ply that the money had arrived. He at first thought the letter a hoax, but now believes that it is just as it appears.

# CEDARTOWN,

the County seat of Polk County, On the banks of BIG CEDAR CREEK, 1,100 ft. above the sea level. 90 miles South of Chattanooga; 80 miles Northwest of Atlanta, and 100

HAS NOW A THRIFTY POPULATION OF 3,500.

miles from Birmingham-

This section of N. W. Georgia offers advantages and inducements to all classes unqualed by any in the South, and the opportunities for profitable investment for the farmer, artisan, skilled laborer, and manufacturer are as great as any have ever been. The climate is salubrious, the soil rich, and the mineral wealth apparently inexhaustible. Abounding in slate of superior quality, marble, granite, and building stone. Fine timber in abundance. Iron ores of unusual quality, in fact nature seems to have especially chosen this section as a place deserving of her greatest liberality. Cedartown has no debt. Its annual revenue is over \$9,000. Very low tax rate. Polk county has more slate and more iron ore than any other county in Georgia. Polk county has more miles of railroad than any other county in Georgia, and Cedartown ships more ore than any point in Georgia or Alabama except Birmingham. Very liberal inducements will be made to manufacturers. We want good, live people, and to such the past of Cedartown is a guarantee of its future management, growth, and prosperity. We have prepared a neat book giving full particulars, and will mall it to anyone who will write for it. We solicit correspondence, a call and the strictest-investigation, feeling well assured that the basis upon which we are conducting this enterprise must result in the approval and to the profit of all who become interested. In the Manufacturers' Record, Robt. P. Porter, Superintendent of the census, says in substance in speaking of the wonderful growth of the Central South: "The class of labor attracted to these rich mineral regions will be of a higher character, and the consuming power of the South made greater in the near future. Comparing the coal and iron produc tion of 1870, when there were bituminous coal 15,000,000, iron ore 3,163,839, pig iron 1,860,000 in the entire United States. He was much disappointed over the veto of the road bill by the Governor, as they had hard work to get the necessary 103 votes to carry the measure through the House. Mr. Stewart said that at least a half-dozen members had to be begged to stand by the bill turned off and Stable was released. He was when the test came. He blames Captain Skinner for the defeat of the bill, as the Fulton county Democrat is a very influen-

In discussing the subject he said: "My people were greatly disappointed when the Governor killed the road bill. It was useless to try to have it passed over his head, as it barely got through the House as it was. My constituents were more interest with the same than t perested in the road bill than in any other legislation, and it was tough to lose on a technicality. The Governor claimed it was an unfair distribution of State funds to spend money to repair the roads in counties in proportion to the amount of State and tax paid. I can t see it in that light, as the people who pay the taxes should be en-titled to the roads. We want highways in

That can be attended to afterward by a special appropriation. What the people want is a road tax paid in money and not worked out. This is one of
