WANTS MORE POWER

Mayor Gourley Thinks He Should Have Supervision Over All the City Departments.

HE WILL MAKE A HOT FIGHT FOR IT

Provided the Governor Is Influenced Enough by His Letter to Veto the Supplement Act.

SOME FIREWORKS BEFORE THE FOURTH.

Sanator Flinn Says a Man Has a Right to Be a Re former if He Chooses,

Mayor Gourley wants more power. He feels that he should have more to say about the city government than he is at present allowed. Before he gets it, or before he is satisfied that he cannot get it, there will be some lively times about City Hall. The hatchet has been uncarthed and war is inevitable. Both sides have thrown up their intrenchments and trained their batteries on each other's strongholds. What the outcome will be is hard to determine. It will depend very much on whether or not Governor Pattison signs the bill defining the powers of the chiefs of departments. If the bill is vetoed there will be fireworks before the Fourth of Aly. If it becomes a law the Mayor will fail to secure what he

The Mayor believes that the chiefs of de partments should not be allowed entire control of their portions of the city government, and that Councils never gave to him the power over these departments granted in the city charter. Section 21 of the charter

The Mayor shall have general supervision of all the departments, with power to direct their officers within their duties, under the

Mayor Gourley's Little Hatchet.

This is the weapon His Honor proposes to shake at his opponents in his fight for power. He wants supervision of the departmentstherefore the famous letter to Governor Pattison. The letter was written over two weeks ago and has been on file since then. In speaking of the matter yesterday the

"The city charter does not intend that chiefs of departments shall be responsible to nobody for their acts. It provides that the Mayor shall have general supervision over all departments, but there is nothing to signify what that supervision means. Conneils in making up the charter ordinance should have designated what the Mayor's powers are in relation to the departments. Up to this time the only connection the Mayor has had with the departments has been to receive their annual reports. That could hardly be called 'general supervision.""

supplement to the charter do you intend to do anything on this matter?"

"Most assuredly I do. I will find out just what powers are granted to the Mayor under the charter and will see what can be done. In regard to the statement that I proposed to take personal charge of Chief Brown's department, all I have to say is that I never made such a statement.

The Point Made by His Honor. "My point is that the chiefs of departments should be responsible to somebody, and the charter intended it should be to the Mayor, who should have power to enforce certain things in connection with their operations. For this reason I am opposed to the supplement conferring more powers on the chiefs. Councils should be the bodies

to regulate the duties of the chiefs. It is wrong for the Legislature to do this," Everybody is on the anxious seat over the prospects of a battle. All eyes are turned on the Executive at Harrisburg, as the fight depends on his decision. There were several sensational rumors about City Hall crain sensational rainors about City Hall vesterday, one of which was that Mayor Gourley was being backed by Senator Quay in his attack on his Republican colleagues. This the Mayor denied emphatically, and obody could be found who knew anything definite about it.

Senator Flinn returned from Harrisburg yesterday morning. He is apparently not greatly agitated over the attack of the Mayor, and smiled when approached about

Has No Fight With the Mayor.

"I have no fight with Mayor Gourley," said he, "and do not propose to have any. I have no time for fighting. His Honor seems to have plenty of leisure for it, though, and it would be wrong to disturb him. He was part and parcel of what he styles the 'ring' for 15 years, but now he has come a reformer, which is a privilege of his. In this country every man has some privileges, you know."
"How about the withdrawal of the charter

"It was withdrawn on the advice of attorneys, as it contained more than one sub-

THE SWITCHMEN'S LOCKOUT.

Grand Master Sweeny Says the Men Will Win in the End.

CHICAGO, May 15 .- Grand Master Sweeny, of the Switchmen's Mutual Aid Association, in regard to the discharge of switchmen by the Chicago and Northwestern Rail-

road Company, said: "This is not a lockout now; it is a strike. Nothing but passenger trains are moving, and those only by the aid of trainmen whose order seems to have an understanding with the officials. No freight trains will move, for it is beyond the power of the road to secure experienced help. We will win the fight as we have won others."

Jan Struck here this morning. This is the result of the recent order of the company requiring their employes to furnish bond. The strike is likely to spread over the country.

General Manager Whitman is constantly in receipt of telegrams from all points on this system, and without exception they report an encouraging state of affairs. At some places the work is being done by a less number of men and switch engines than usual, but it is being done, and the trainmen wherever called upon are proving their loyalty to the company by doing switching duty in addition to their own.

AN EMBEZZLER CAPTURED.

Arthur Swartz Arrested in Chicago and Taken Back to Boston.

CHICAGO, May 15,-Arthur Swartz, alias Samuel Udell, who is wanted in Boston for the embezzlement of \$2,000, has been arCHARMED WITH HER WEIGHT.

The Lover of a Mountain of Flesh Refu to Testify Against Her. NEW YORK, May 15.-John French is the lean boarder in Josephine Williams' boardng house at No. 33 Bayard street. Mrs. Williams and her two daughters also appear on the museum stage. Williams is known as Mme.

Mrs. Williams is known as Mme. Mozelle Cordini, "the greatest living mountain of flesh," and is advertised as weighing 700 pounds. Candidly speaking, she weighs about 350 pounds. Her two daughters are known as Zella and Josephine, and they jointly tip the scales at 600 pounds.

Some months ago Mrs. Williams' son Charles stole from his sister Josephine and attempted suicide while in a cell in police headquatters. She did not prosecute him. The boarder French is a man of fastidious habits. He put a clean handkerchief in his closet on Wednesday night, and afterward closet on Wednesday night, and afterward saw it in Charles' possession. There was a quarrel and Josephine took the part of her brother, notwithstanding that the boarder was her suitor. In the struggle French was stabled in the back and caused the arrest of Charles. The latter was arraigned at the Tombs Police Court yesterday, where Josephine appeared as a witness in her brother's behalf.

brother's behalf.

"It was I who stabbed him," she explained. "He won't make no complaint against me. John loves me." She was correct in her judgment. He had no desire to prosecute. Charles was dischauged.

THE EXPORT OF GOLD.

It Is Used for the Purpose, It Is Said, of Depressing the Stock Markets.

NEW YORK, May 15 .- In regard to the sports of gold the Post, in its financial article, says: "There is still an apparent desire in some quarters to create a mystery about the gold exports. The news bulletins in the street this morning report one exchange house' as saying 'it is an open secret that the gold is needed by large interests on the other side, who are converting securities and property into cush as rapidly as the markets of the world will permit.' Another foreign exchange house is reported as saying: The outward movement of gold would be checked if the morey rate here advanced but this rate is oney rate here advanced, but this rate is kept down by people interested in getting the gold. When the demands for gold are met, there is likely to be a sharp advance in the money here,' and finally this ambiguousness was condensed in another bulletin which said: 'Foreign houses and people having foreign connec-tions were quite pronounced bears, declar-ing the situation abroad to be worse, and hinting at unfavorable news of importance

"All of this hinting and ambiguity always have such a decided depressing effect on price; of stock that it looks as though this ambiguous 'news' might have been invented for that purpose."

COAST DEFENSE AT BOSTON.

Old Fort Warren Is Being Greatly

BOSTON, May 15 .- Fort Warren, on Gallup's Island, eight miles down the harbor, is being improved. On the northeast corner a bed for a heavy gun is being laid. The 15inch guns formerly commanding the different channels and entrance to the harbor are being dismounted and a breastwork of 60 feet in thickness is being built. The 10-inch guns will be supplanted with breech-loaders. An immense reservoir has been built in the center of the parade ground, from which pipes will be laid to supply the squad

Work on the torpedo station is being rapidly pushed forward. The laborers have nearly reached the outer wall bordering on the sea, from which the tunnel for the torpedo wires will extend 90 feet out to sea. A large number of shells have been collected from the ramparts and torpedoes have been taken from the old magazine and more safely housed. A large force of men is at work and it is evident that every effort is being made to get things into shape. The officials will give no information.

VIOLATED THE COMMERCE LAW.

In Iowa Shipper Who Can Recover From

the Northwestern Road. DES MOINES, May 15 .- Judge Shiras, of the Federal Court, rendered an important decision under the inter-State commerce law to-day. The plaintiffs were grain shippers of Carroll, Ia., and the defendant the Chicago and Northwestern Railway Company. The plaintiffs claimed they were charged 19 cents per 100 pounds of grain shipped to Chicago, while shippers at Blair, Neb., had an 11-cent rate for the same dis-

The Judge ruled that the rate was in violation of the inter-State law and the plaintiffs have the right to recover the diference between the rates, and also interes on the money paid in excess of the Ne-braska rate. A large number of similar cases are still pending and the same de-cision will no doubt be given.

BRITISH COLUMBIA LEPERS.

The Disease So Threatening That a Colony Is Being Established.

OTTAWA, May 15 .- The alarming increase of leprosy in British Columbia has aroused the people of that province to the necessity of isolation, for which purpose Darcy's Island, lying off the coast, has been secured.

A leper colony is to be established. The
afflicted ones are to be at once removed

The Dominion Government has ordered an immediate investigation, and for that purpose Dr. Smith, in charge of the leper colony at Tracadie, New Brunswick, ha been ordered as an expert to investigate the prevalence of leprosy on the Pacific.coast.

KILLED BY FALLING BRICKS.

Singular Accident to Several Children at a Alabama School.

BIRMINGHAM, ALA., May 15.-This norning while several hundred school children were entering the Henly School, about 20 bricks fell from a building being erected nearby, onto the roof of the school ouse, rolled off and fell on the heads of the children, fatally injuring Albert Meyer, aged 11, and seriously injuring James Oden, Ed Macky, Fletcher Summer and George Wiley. The responsibility for the accident has not yet been fixed.

ffering Very Great. Best Doctors Fail Uses Cuticura with Marvelous

My little girl, 5 years of age, had a breaking out on her face, hands and skin. I called in a doctor; he said it was sait rheum or Eczeina. He left a prescription, which did not relieve her any; she kept getting worse. I called in another; he said the same thing as the first. I doctored with him six months to no effect. I then tried two ominent physicians in Newark, three months each, to no effect. I then tried a homeopathic doctor; he said he could cure her. He gave her medicine for eleven weeks; and it had kept giving it to her another week. I do believe she would have been dead now. I was told of another doctor that was recommended very highly on diseases of the skin and blood. I was going with my child to see him, but stopping in a drug store on my way, I was advised by the druggist, Arthur Rodeman, to try the CUTICURA REMEDIES for her, which I did, to a noble effect. At this time the ecabs on her hands and face were one-fourth inch thick; she could hardly close her hands, her fingers were swollen so they would burst open. I had hardly given her the medicine three or four days when the scabs began to peel off. She kept on improving, and inside of one month the sores had entirely dried up.

CATARRH IN CHILDREN. Children are as subject to catarrh as adults, and much of the trouble referred to other diseases, such as habitual headache, cough, worms, colle, etc., is caused by this disease. They become weak and puny, and look like little dried-up old men and women, when they should be sleek and fat and rosy. Children who have become weak and puny soon take ou new life and growth under the combined local and internal treatment as practiced by Dr. Byers.

Master Willie Hannam.

Master Willie Hannam.

A case in point is Master Willie Hannam, aged 7, whose parents live on Stanwix st., Mt. Washington. When first brought to the office of Dr. Byers he suffered with continual headaches, coughed all the time, was always hawking and spitting to clear his throat, had pains in the cheet, both ears troubled him a great deal and he frequently had spells of sickness at the stomach, etc., etc. His mother said "he just laid around all the time and didn't feel like playing." Dr. Byers directed his treatment to the nose, throat and ears, and gave him medicine internally for his stomach, and was soon rewarded by noticing an entire disappearance of all the annoying symptoms—the little fellow has now all the vim peculiar to children of his age, is feeling well and growing rapidly.
