The general drift of Hre stock markets is toward a lower level. Though the cost of prime cattle at sources of supply is fully up to last week's prices, it is difficult to maintain figures here to afford a living profit. Light prime butcher beeves alone manage to keep up. Prime heavy cattle and all common and low grades incline downward, as do sheep and hogs.

There were 75 loads of cattle on sale at the East Liberty yards this morning, against 50 loads last Monday, and 57 the previous week. Qualityof offerings to-day was common to fair. There were no prime heavy beeves in carload lots, and not many light primes. Markets opened slow at 25c per cwt. below last week's range, and prospects at noon were that a goodly number would fail to find buyers in this market. The highest price secured, so far as could be traced, was 85 per cwt., which was 35c under the top price of last Monday. Good butcher grades of cattle weighing 1,100 to 1,300 fbs were slow at a range of \$5.4055 do per cwt. The supply of fresh cows was not nearly so large as last Monday, and prices as a consequence were better, though not all of the lost ground was 55.006 per poad. The consequence were better, though not all of the lost ground was 55.006 per wit. Prime Oble and Indiana wethers were quoted at \$5 00@5 25, with one load of fancy selling at \$5 30. The range for yearlings was \$5 20@6 25, according to weight and quality. Spring lambs were in ample supply, and were slow at 70 per fb.

Hoos—There were from 20 to 22 loads on the market and prices were 30 to 40c per cwt. lower than last Monday. The top of the market for selected Philadelphias was 5c per fb. whereas the same were active last Monday at \$5 35 to \$5 40.

Allegheny Yards.

At the Herr's Island yards the offerings of cattle were larger numerically than usual, and quality of offerings was extra good. There have been no better beeves on sale at these yards for a year past than there were to-day. The opening of the market promised an improvement on last week's prices, but later on there was a decline, and sellers and buyers pushed their advantage for all that was in it. At moon there were a few loads unsold.

A piece of property on Sherman avenue, near Highland, 600 feet frontage by a depth of 150, changed ownership yesterday for of 130, changed ownership yesterday for \$17,000. It was purchased by two East End real estate men for subdivision. The activity in that quarter is mainly due to the near completion of the Duquesne electric road. Another bit of ground further up Highland avenue was also picked up yesterday for \$11,000, the purchaser being a business man who will erect a handsome residence for himself.

Down-Town Realty. The fluctuations of demand for real estate vary as to locality almost as much as do the prices of spring vegetables. Referring to this subject yesterday Mr. D. P. Black, of Black & Baird, said: "At present the bulk of the inquiry is for down-town property. A few years ago the drift of business appeared to be north of Fifth avenue. Since the near convolction of the restricted and Arsenal B the near completion of the postoffice and the rising importance of Fourth avenue as a

the rising importance of Fourth avenue as a financial center the demand has been diverted to a considerable extent to the district south of Fifth, bringing into special prominence Smithfield street, Water street and the avenues."

Mr. Black added that this movement indicated a series of improvements which would be of great value to the business community. It is well known that considerable property has changed hands in the district in question within the last few months, the most of it being acquired by men of large means. It is also known to a few that several important transactions are under advisement, with one of which the name of Captain Sam Brown is closely associated. one of which the name of Captain Sam Brown is closely associated.

Values on Smithfield street are rated at from \$1,500 to \$3,000 a foot front, the outside figure being about the best that can be done between Fifth and Second avenues. The average price on Fourth avenue is about \$3,000 a foot, while on Water street, which is unaccountably backward in view of its commanding position as a business quarter, property can be bought all the way from \$500 to \$1,200 a foot for the best.

The Week Begins With Light Trading-Street Railways More Than Hold Their Own-No Vim in Electric-Some Strong Features-Natural Gassers.

Notwithstanding foreign advices were a brighter complexion yesterday, and the sub-sidence of the bear scare in New York, temporarily at least, trading on the local board was of small proportions, sales footing up only 145 shares. The market was narrow as well as dull, only three properters being The tractions maintained their leadership,

and were not strong, but the demand for them was far in excess of the offerings. The

who think they see in them a source of future profit without the risk attending the more distinctly speculative stocks. The identity of these roads with the prosperity of the city seems to afford a good basis for this judgment.

In the natural gas list Philadelphia was weaker, closing a fraction off from the opening. This was attributed by some to a report that the pressure in the mains was very light. Manufacturers' Gas, on the other hand, was bid up on reports of an abundant supply, the pressure in the city pipes being placed at 142 pounds. The first report may turn out to be incorrect, but the latter was vouched for by a responsible gentleman. Wheeling Gas was steady. It, too, was said to have an abundant supply. Airbrake, Underground Cable and Monongahela Water Company added something to their credit. The mifners fell off a triffe.

Very little interest was taken in Electric on call. Although it opened and closed at the same figure, it was really weaker and the demand easily satisfied. It sold in a small way at 14½ and later at 14½, finishing at that figure bid. At Boston it closed at 14½ bid, offered at 14½. The depression was no doubt due to the further postponement of a final settlement, as related in another column. Sales were:

THE DAY IN WALL STREET. FIRST PRICES WENT BEYOND THE

FIGURES OF SATURDAY. The Short Bear Panic Had Disappeared, but

the Traders Arrayed Themselves Upon Their Side—The European Situation and Its Influence.

New York, May 18 .- The principal subject of discussion in Wall street to-day continued to be the European situation and its influ-ence upon the money market here. The short bear panic which existed during the closing minutes of Saturday had entirely disappeared before the opening this morn-

ing.

The traders were arrayed upon the bear side while the bulls hoping that the relief from the late London selling would give a from the late London selling would give a chance to lift prices again were inclined to buy at the opening. First prices, therefore, were generally higher than Saturday's figures, but the impression was soon created that the cliques in the absence of foreign selling were doing some of it themselves and a weak tone was soon developed, the traders being encouraged to make a demonstration against the list and the afternoon saw a serious break in all the active stocks, among which the Grangers, New England, the Villards, Chicago Gas and some others were prominent. There was also pronounced weakness in Missouri Pacific. The bears rely on a continuation of the gold shipments during the balance of this month at least, and the short interest in all the leading stocks was increased materially.

The pressure was begun just after the opening, which was generally higher though irregular, and while little progress was made in the forenoon, the whole list gave way sharply after 12 o'clock, and although there were one or two rallies in the late dealings caused by the covering of shorts, the market finally closed weak at the lowest prices of the day. Outside of the stocks before mentioned, Sugar was prominent for activity and was apparently well supported, but the remainder of the list, was quite ueglected and displayed no feature whatever. The whole list is materially lower this evening, and C., C. & St. L. is down 196, Missouri Pacific 2 per cent; Burlington, Pacific Mail and Northern Pacific preferred each 1½, New England, 1½; Rock Island, St. Paul and Union Pacific each 1½; Atchison, Chicago Gas and Richmond and West Point each 1½, and Lackawanna 1 per cent.

Railroad bonds were again dull, and while sympathizing with the weakness in shares, scored few material losses, those in Reading incomes, Oregon Improvement fives and Atchison incomes being most prominent. The sales were only \$683,000.

Government bonds have been entirely neglected. The following table shows the prices of active chance to lift prices again were inclined to

MONEY MARKET. Improvement in Nearly All Financial Lines and Rates Quite Easy.

Bankers reported a fair demand for loans for the first day of the week, and also some for the first day of the week, and also some improvent in discounting. Checking was also better, while depositing was heavy, as a result of large cash sales on Saturday. Rates were somewhat elastic, being quoted at 567c as the extremes. Both exchange and currency were easy. Bank clearings were \$2,609,710 65 and balances \$435,392 06.

At New York yesterday money on call was easy, ranging from 2 to 5 per cent, last loan 4, closed offered at 2. Prime mercantile paper, 567. Sterling exchange quiet and steady at \$483/4 for 60-day bills, and \$483/4 for demand.

OUR HOME MARKETS.

USUAL MONDAY'S QUIETNESS IN PROD-UCE AND GROCERY LINES.

Butter and Berries Are Lower-The Supply of New Ohlo Cheese Fails to Meet the Demand-Cereal Prices Favorable to Buyers.

Office of Pittsburg Dispatch, Monday. May 18. COUNTRY PRODUCE (Jobbing Prices)-The usual Monday's quietness was reported at produce commission houses. Butter and erries are the weak factors of trade. Country rolls are a drug on the market, and the very best is hard to sell at our quotations. Low grade stuff has only a nominal value, when the good article sells at 15c per h. Receipts of strawberries were large to-day, and will be larger to-morrow. As home berries have been seriously damaged by frosts, it is probable that the lowest price of the season

will be reached this week.

The supply of new Ohio cheese still falls far short of demand. New Wisconsin cheese is coming to our markets with poor keeping qualities, and is for that reason slow. Old potatoes of good quality are fairly steady, but new stock is now coming in from Ber-muda and Florida, and will before long dis-

pince the old.

Grain, Flour and Feed.

At the Grain Exchange there was no sale on call to-day. Receipts as bulletined, 34 cars, as follows: By Pittsburg, Ft Wayne and Chicago Railway, 3 cars of oats, 2 of bran, 2 of straw, 1 of barley, 2 of hay, 2 of flour, 1 of corn. By Pittsburg and Lake Eric, 1 car of hay, 1 of malt 1 of flour, 2 of rye. By Baltiness of the strawn of the hay, 1 of malt, 1 of flour, 9 of rye. By Balti-more and Ohio, 1 car of hay. By Pittsburg, Cincinnati and St. Louis, 2 cars of hay, 1 of straw, 1 of wheat, 1 of corn. Buyers and sellers of cereals are far apart in their views of values. Bullish operators suffered so much from the failure to unload in time last month that buyers have become exceed-

month that buyers have become exceedingly cautious of late. Corn and millfeed are weak, with a tendency to lower prices. Wheat, oats and hay are steady. The dry, cool weather has proved adverse to grass crop, and there is a firmer tone to hay market in consequence.
