McCurdy Reaches Its Zenith and Beats Wildwood's Production.

WILDWOOD CLAIMS ATTENTION.

A Big Well Struck on the Extreme Northern Edge of the Field.

THE OTHER POOLS REMAIN INACTIVE

The McCurdy field broke the record yes serdsy. It came to the front with two 1,000barrel wells and a daily production of 6,000 barrels strong. This gives it a lead on Wildwood by several hundred bar-rels. Leases in the McCurdy went up by jumps early yesterday afternoon, when the reports commenced to come in, and every man who held a piece of territory in the vicinity was a subject for congratulation. The two big wells belong to the Fisher Oil Company, Hackett & Shirley and N. Gillespie & Co. The first came in about-7 o'clock yesterday morning. It is located on an H-acre lease owned by W. E. Riddle and an H-acre lease owned by W. E. Riddle and is about 340 rods northeast of the McCurdy No. 1, and 1,600 feet northeast of Gillespie's Jane Riddle No. 2, and the casing was split and only about one-half the product was saved, but during the first 90 minutes it put 900 harrels in the tank. During the first five hours and 20 minutes the gauge showed that it had made 420 barrels. This would rate it at over 2,000 barrels a day, but toward evening it had settled down to a little more than 60 barrels an hour.

Gillespie's gusher is known as the Jane Riddle No. 4, and is located about 100 feet

Biddle No. 4, and is located about 100 feet east of the Fisher, flackett & Shirley well. It started off at 30 barrels an hour, and kept steadily increasing until it reached over 30 barrels.

Those wells created a great deal of excitement among the oil fraternity last night, and from the talk heard on the streets, the field will be overrun with crowds of open-

The Field in General.

McCumpy-The Forest Oil Company's well on the Wright farm, a mile and a half southwest from McCurdy No. 1 on a 45° line is spraying three or four barrels of oil a day. It was shut down for a short time, but it was finally decided to drill it deeper. Considerable gas was found and only a showing of oil. The same company is drilling a well on the Ewing farm, 80 rods east of the Wright. They have a fishing job on hand at present. These wells are in advance of everything toward the southwest and ary looked upon as two of the most important wells in the field. It was stated vesterday that the Wright would not be drilled any deeper for fear it would not like the McKee well half a mile northwest. This well was spraying oil and when drilled in struck a heavy wein of salt water which practically ruined. west from McCurdy No. 1 on a 45° line is vein of salt water which practically ruined it as far as oil was concerned. Black & Com-

wein of salt water which practically ruined it as far as oil was concerned. Black & Company's Ewing well No. 1. a mile in the northeast of developments was reported last night to be good for 40 barrelsa day. The Kerr No. 2 of J. M. Guffey and M. Murphy expected to get the sand at 11 o'clock last night. It is between Aiken's parsonage No. 2 and Gillespie & Co.'s Jame Riddle No. 3, both big wells, and Mellon & Co.'s James Riddle No. 2 was on top of the sand last night and showing for a good well. It is 150 feet east of the Kerr well. The following is a reliable gauge of the big wells in the fields last night. The first two wells are rated at 60 barrels an hour. Fisher & Co.'s Riddle No. 4, 1440; 4. Aliken's Parsonage No. 2, 52; Gillespie's Riddle No. 3, 489; Mellon's Riddle No. 2, 200; Mellon's Palmer No. 2, 350, and Mellon's Scott No. 3, 280, making a total of 4,718 barrels. This, with the production of the other wells in the field, brings the production up to 6,000 barrels. -Yesterday morning a row of five-story brick apartment houses on Sixth avenue, New York, were totally destroyed by fire, and a dozen families narrowly escaped death. -Nella R. Goodwin, the wife of Nat C. Goodwin, has been awarded \$75 a week alimony, pending her action for a limited divorce from her husband, on the ground of descrition

Willpwoop-This field was not far behind

enheisen No. 6 was expected in late last night. The Smith Farm Oil Company's No. 16, on the Smith farm, is expected in to-day. The Roth Oil Company's W. W. McIntyre, in the extreme southeast, was drilled three bits in the sand yesterday and made a 22 barrel flow. It is not looked

upon as likely to prove astonishing by its magnitude, but it indicates a cut-off from

magnitude, but it indicates a cut-off from there main field in that direction. The same company's L. P. Peebles No. 4 was drilled deeper but made no improvement. Guffey & Queen's well on the Lucky was expected to reach the sand last night. Lydecker & Markell's well on the Permer is 650 deep. They have a fishing job on hand.

A Dry Hole Reported.

BEYANT-Ireland & Hughe's No. 2 on their

Bryant farm was reported last night to be through the sand and dry.

That English Well. PERMYSVILLE-One of the owners of the English farm well, a mile and a half west of

here, reported that the well had put 42 inches in the tank from Saturday night until yes-

terday morning, and that it had pumped over 20 barrels vesterday. He estimates it as a good 30 or 40 barrel pumper.

Dry Hole Down the River.

Convolus-The Cornopolis Oil Co's well on the John Watson farm is reported dry.

The Kanawha Oil Co. shot their Onstott well vesterday and it responded nicely. Their Springer No. 2 is expected to get the sand to-day.

An Elizabeth Wildcat.

ELHABETH-The Enterprise Drilling Co. is

putting down a wildcat on the McConnell farm, two and one-half miles south of this

are building a rig on the Samuel Smith lot.

are building a rig on the Samuel Smith lot. Vankirk & Co. have commenced a rig on the Cook lot. Southside. The U. P. Church property has been leased to the Royal Gas Company. Drilling has been commenced in the Monjot, the J. H. Robb and the Steinhaiser wells, in the Robb valley. The Neel well, near the Candor, is making two barrels a day and considerable gas. Craig & Co. are putting up a rig on the J. J. Chartier place. Jennings & Co. have commenced drilling their Sauters No. 2. The Matthews well, pear Noblestown, is making 29 barrels a day.

The Sauthwest Pool.

The Southwest Pool.

WASHINGTON-The Caldwell Oil Company

has just completed a well on the S. Caldwell farm, in the Taylorstown field, to the depth of 3,000 feet. It is dry in every sand. The No. 8 on the A. B. Caldwell is making 40 barrels a day from the fourth sand. It will be drilled to the fifth. The Neal farm wild-sat is a dayster.

Personal.

member of the firm of Black & Emerson,

W. J. Sherwood, of Ithaca, N. Y., is visiting his brother-in-law, A. C. Carroll, the oil well machinist of Cornopolis. John Potts, the producer and tool manu-facturer, came down from the Bradford field vesterder.

The history of this dis-dates back to last November, George Tunnel had a hole when George Tunnel had a hole drilled for water, and being on the top of a high range of hills he expected to have to go deep for the water. He was very much surprised when at the depth of 130 feet he drilled through a 6½ foot vein of galena and jack of the best quality.

A local company was organized who let the contract at once to Amos & McAdams to sink a shaft 5 by 7 feet. They have just reached the mineral. The last shot brought up fine galena and No. 1 jack, surpassing the expectations of the most sanguine. Experienced miners say it is a fissure vein nese immigration, that in view of the efforts the Government were making to secure increased trade relations with China, it would be prejudicial to the interests of China to pass any legislation which might raise up a feeling of hostility in China sgainst Canada, as had been the result of the action of the United States in excluding Chinese from that country. For the present the tax, therefor, would remain as it was, \$50 per capita, which was imposed upon all Chinamen landing in the Dominion.

Sir John further stated that nearly every Chinaman now arriving in Canada made his way across the border into the United States and therefore the country suffered nothing through the alleged emigration from China to the Dominion.

Experienced miners say it is a fissure vein and the richest "find" in this entire coun-

POINTS FOR DR. GARRISON.

Witnesses Tell How Dr. Baird Had Repeatedly Threatened the Defendant. WHEELING, May 18 .- The third week of the Garrison murder trial opened this morning by the defense putting witnesses on the stand to prove the character and reputa-tion of the defendant. John Lashley, an

tion of the defendant. John Lashley, an employe of the City Gas Board, testified as an eye witness to the encounter between Dr. Baird and Dr. Garrison when Dr. Baird had both of his eyes blacked. The witness said that Dr. Baird called Dr. Garrison a "nigger —," and after the fight went to the private office of the gas board, where Garrison had been taken and said, "I'll kill you yet, you —." The only reply Dr. Garrison made was, "What's that, doctor." Dr. Baird was then taken away by the witness and his sons. Witness knew of no attempt made by the deceased to put his threat into execution afterwards. Dr. Baird was very much excited at the time and was bleeding from the blows he received.

In the afternoon Councilman A. G. Hadlich testified that one day in January Dr. Baird passed Dr. Garrison, while the latter was scated in a buggy, talking to the witness, and called the defendant a barsh name. Garrison attempted to draw a pistol, dropping his rein and putting his lead in his

Garrison attempted to draw a pistol, drop-ping his rein and putting his hand in his pocket. The witness said, he expected trouble and at once took steps to prevent it. FRAUDS ON HE-NO.
