A DUMB BRUTE TURNS IN A FIRE ALARM

(SPECIAL TELEGRAM TO THE DISPATCH.)

SCOTTDALE, May 20.—The strikers' convention adjourned today just before 3 o'clock. As predicted, the vote of the convention was that the strike should be continued with energy. A committee of five of the ablest leaders, headed by Lester Workman, secretary, was appointed to visit the cities and large towns where workmen are employed, to solicit aid. They are going to make a last minute effort to induce the workmen of the country to contribute sufficient funds to pull them through.

The Conciliatory Committee made another effort this morning to get the operators to agree to a conference, and was again refused. General Manager Lynch, of the Frick Company, in order not to be misunderstood, sent the committee back to the convention with the following written reply: "There is nothing to conclude or talk about. This company has decided to employ striking men, under which we propose to operate our works until February, 1892, to the end that we may have a market for our coke. We will start our plant. Any of our former employees who wish to work under that scale can apply to the superintendents of the different plants."

The state of the region was remarkably peaceful today. There appeared to be no trouble as yet. Meetings were held here and there, but no serious disturbances were reported.

Every purchaser of a lottery ticket which he sold for \$1, would draw a gold coin or silver dollar worth \$100, \$50, \$25, \$10, \$5, \$2, \$1, or 50 cents, and the goods were to be shipped by express to Pine Grove on Saturday morning.

He carried the rope up with him, and in some manner two feet of his right hand were caught. The blood was squeezed to the ends of his fingers and dripped down, and the pain was so intense that his hands loosened and he remained hanging by the two alone.

We anticipate a large demand for this brass and iron bedstead. It has all the beauty of outline and good proportion of the brass bedstead, with the cheapness of the iron bedstead, and will last a lifetime.

The balls and upper cross-bars are of richly burnished brass. The remainder, including slats, is of iron in a durable enameled finish of black, ivory-white, maroon, steel-grey, pink or robin's egg blue.

The soft ivory-white and lustrous brass, with pure and spotless bed-clothing, make an especially beautiful and effective combination. Our price cannot help but be satisfactory. If contemplating the purchase of either a brass or iron bed, do not delay giving us your order. The manufacturer we represent is running night and day to fill his orders.
