which would demand more gold if it can be obtained.

The evident disposition of the foreigners to buy stocks at the concessions in prices which have been made in the last few days is regarded as a good sign, though there has been, undoubtedly, heavy covering of shorts for the account of foreign houses. It is a matter of conjecture whether the movement will cease with the elimination of the foreign short interest, or whether the purchases for the long account will be continued. To-day the purchases for foreign account were an influential factor in keeping prices up, though the trading element is still bearish and supplied the stocks wanted as usual of late.

Railroad bonds were dull, but became strong in the afternoon, though outside of Kansas and Texas seconds there was no material improvement in prices. Everything material improvement in prices. Everything is higher, however, and the market closed strong though remaining without special feature during the day. The total sales were existence.

LIVE STOCK REVIEW

The Large Receipts of Cattle at East Liberty Yards Cause a

SHARP DECLINE ON ALL GRADES.

Prime Butcher Beeves of Light Weight Suffer Least by the Drop.

SHEEP AND HOGS ALSO DRIFT LOWER

OFFICE OF PITTSHURG DISPATOR, WEDNESDAY, May 20. There were 80 carloads of cattle, all told, on sale at East Liberty this week, against 60 loads last week. In this week's offerings there were no heavy prime beeves and few light primes. About 50 of the 80 loads on ale were from Chicago, and were in quality from common to fair butcher beeves. The alance were from Ohio and Indiana. The markets opened slow on Monday

orning at a decline of 10c to 15c per hun-ed weight on the better grades and 20c to on common and low grades, and at the drop it was found impossible to dispose of all offered, so that a number of loads were ent East in thest hands. There were some sent East in first hands. There were some grades of cattle sold at 40c per hundred weight below prices of last week. The highest price obtained for a carload was \$5.00. This car was from Indianapolis, and was very fine, averaging in weight about 1.50c pounds. The came grade would have sold quick last week at \$6.20. Good butcher beeves felt the drop least, but suffered not a little in sympathy with the decline on all common and low grades. Fresh cows were not in as liberal supply this week as last, and those of good quality brought better prices than a week ago. But everything common was dull and slow at ruinous prices. Veal calves did not show up in as large quantities as for a few weeks up in as large quantities as for a few weeks past, and prices were fairly well sustained at a range of 52254c per pound. Grassers ranged from \$2 306,325 per cwt.

They Depend on Chicago. The best heavy prime beeves were sold in in our local markets at \$6.75. The demand for this grade of cattle is limited in this market, and a few of the butchers who cater to the best trade and a few of the butchers who cater to The local trade and the second state of the best trade order direct from Chicago. The grade of cattle which is most in demand re is the light, smooth butcher stock sighing from 650 to 1,200 pounds. Of this ale there is rarely a surplus. Smar and Lams—Offerings for the week we been \$5 to 50 carloads, the largest run is season. Markets opened slow on Mon-yat a decline of 25c per ext. on good sheep d a still further decline on common

at a decline of 25c percext, on good sheep a still further decline on common des, which were largely in the majority, amon sheep are 5c lower than they were week. Yearlings are now bringing little to than sheep, as spring lambs are taking ir phace. The top of the market spring lambs was 7c and range was 5 to cr h. Prime Ohto and Indiana wethers a quoted at \$5 00 to \$5 25. One extra load with \$5 30 cm Monday. With heavy reds since Monday, markets have weaked and to-day it would have required a good article to bring over 5c per h. oss—from 25 to 30 leads lave been on this week and prices were fully 35c per sale this week and prices were fully 35c per two below last week. There were only three or four loads on sale this morning and \$5 was the top against \$5 35 last week. There is searcely any demand for pork from burchers at this season of the year and packers are resting on their oars in hope of lower prices. McCall & Co.'s Weekly Review. The supply of cattle was in excess of de

and, and market the dullest of the season, at a decline of 40 to 60c per hundred on all grades except prime, which are quotable 15 25c lower. #### THE BULLS ROUTED.

Copious Rains Throughout the West Banish Fears of Short Crops-Cereals Tumble and a Rush to Take Profits-Provisions Join the Downward Movement.

the hear side of the cereal markets to-day, and, as a consequence, bull profits, not only in grains, but in provisions also, went glimmering. Copious rains were reported throughout the wheat, corn and cats belts, with more promised, and the fears of short crops on account of drought were dissipated, at least for the present. As a consequence, the markets all opened weak, and operators on the bear side proceeded to take their profits, though the marked recession in prices was less due to their efforts than to a

desire on the part of holders of long property

to market their stuff. To add to the disco

desire on the part of holders of long property to market their stuff. To add to the discomfort of holders the receipts at all points were more liberal, the foreign markets were lower, and to-day's steamers took out heavy shipments of gold.

The only important point which the bulls had in their favor was the Brodstreef report that available stocks of wheat east of the Rockies had decreased 2,321,000 bushels last week. Buying against puts early absorbed a large quantity of wheat that had been thrown overboard at the start on stop loss orders. After this buying was over the market again broke badly. Several of the large shorts bought on this break and caused a respectable rally. The Bradstreef report gave it another little lift after it had again sagged, but its course thereafter was generally downward.

## A NORTHSIDE DEAL

'An Oil Cresus Dickering for Valuable Property Near the Park. CHICAGO-Jupiter Pluvius put in an oar on

> BUILDERS MAKING A GOOD RECORD Allegheny Parochial School Postponed Until Next Spring.

THE FEATURES OF LOCAL SPECULATION

It is likely that Allegheny City will fur nish an important item of real estate news before many days elapse. Liggett Brothers are working on a deal involving over \$50,000. The property is unimproved, and is situated within a square or two of the West Park The probable purchaser is a wealthy oil operator. He has been looking around for a operator. He has been looking around for a site for a fine residence for some time, and four or five days ago opened negotiations with the firm named above for the property in question. If the deal goes through, as is probable, he will as soon as possible begin one of the handsomest dwellings on the

Northside.
As a general thing uncompleted transa tions are as unreliable as a bird in the bush, but sometimes buyers mean business from the start. This is the case when they get "red in the face," as an agent put it ye day. The above is a case of this kind. Two or three other good things are progressing favorably. They are mentioned merely to show that there is more doing in real estate than appears upon the surface.

Building Present and Prospective.

The anticipations early in the season that building operations this year would exceed those of 1890 are not likely to be fulfilled by reason of the carpenters' strike. The decrease will, however, be smaller than is generally supposed; and there is a bare possibility that there will be no decrease worth speaking of. This, however, depends upon the early set-tlement of the labor troubles, and exception-ally good conditions thereafter. But, as stated, the possibilities are that last year's record will not be broken.

So far this year permits have been taken out for the erection of 925 buildings and additions against 1,193 for the same time last year. This is doing remarkably well under the circumstances. It is fair to assume that much of the work of the year will be done in the last half of it, and as several hundred in the last half of it, and as several hundred buildings are in a position to be started as soon as the carpenters are ready no time will be lost on preliminaries, but operations will be pushed with such vigor as to make up for much, if not all, of the lost time.

Whatever the result of the year's operations may be it should be remembered that last year was one of remarkable activity in the building line, not only in Pittsburg, but in nearly every city in the country. Here permits were issued for 3,141 houses; in New York for 3,537; in Brooklyn for 4,800, and in Chicago buildings occupying a frontage of 50 miles were erected. Failure, therefore, to equal last year's record cannot by any known method of figuring or reasoning be construed to mean that the

cannot by any known method of figuring or reasoning be construed to mean that the demand for houses in Pittsburg is abating. Any real estate broker in the city is prepared to disprove this notion.

The fact is, there are not enough dwellings and business stands by at least 1,000 to supply the immediate demand from insiders and outsiders. Of the latter, between 50 and 100 have made application in the last few months for business places in Pittsburg and Allegheny without being able to secure them. This fact is sufficient to keep builders on the jump.

The property on the corner of North and West Diamond streets, Allegheny City, lately purchased by Bishop Phelan through J. B. Larkin & Co. as a site for a parochial school in connection with St. Peter's Pro-Cathedral, has been rented for the remainder of the year, and consequently work on the proposed building will not be started until next spring. This will be one of the finest structures of the kind in the State. It will cost between \$75,000 and \$100,000. Business News and Gossip.

The annual meeting of the stock and bondholders of the Pittsburg, Fort Wayne and Chicago Railway was held in this city vesterday. Senator John Sherman, L. B. Harrison and G. B. Roberts were elected directors to succeed themselves. The report of the President shows that the total income for the year 1830 was \$12,634,682 36, and the expenses of operating and maintaining, \$7,359,834 26. The lessee company paid to the Ft. Wayne Company as rental for the year \$3,134,649 75, leaving a net profit to the lessee of \$340,198 25. The report of the Consulting Engineer was read, and showed the property of the company to be in a satisfactory condition.

### HOME SECURITIES.

BUSINESS LAGS, BUT THE MARKET DE-VELOPS A STRONG TONE.

Holders Willing to Take Profits, but Demand Outside Figures-Most of the Leaders Higher-Boston Gossip About Electric. The business end of the local stock marke yesterday was suspended between wind and water, as it were. Little was accomplished

in the way of sales, the total footing up only
14 shares, furnished by Philadelphia Gas,
Electric, Switch and Signal, Pipeage and
Birmingham Traction. The range of properties was wide enough, but buyers held
back back.

back.

Selling orders predominated, holders of stocks evidently thinking it a good time to take profits, in view of possible complications in one or two local interests and the unsettled condition of affairs abroad. It was noticeable, however, that they resisted the pressure for concessions, showing that they had too much faith in the future of the market to realize at a sacrifice. This feature was especially prominent in the street railway list. Nearly all the price changes were improvements. The close, as compared with that of the previous day, shows gains in Philadelphia and Wheeling Gas, Central and Pittsburg Tractions, Second Avenue Passenger Railway, Electric and Airbrake. Second Avenue added \$1 to its credit.

Speaking of the Tractions yesterday a broker remarked: "If the Birmingham people want to market their stock in this city, they should arrange for the transfer of certificates here, instead of Philadelphia. It looks strange for a Pittsburg company to do a material part of its business in an outside city. The change suggested would be greatly to the convenience of both brokers and investors."

While electric held its own and a little

to the convenience of both brokers and investors."

While electric held its own and a little more, it was entirely featureless, both here and at Boston. The Traveller, of that city, of Tuesday, says of it: "Some of the Pittsburg stockholders of the Westinghouse Company are, it is said, disposed to object to the plan of reorganization, and are raising the question as to the legal right of the company to make a discrimination in the way of dividends against the non-assenting stock. The opposition, however, is not serious, and no trouble from it is anticipated. It is now reported from Pittsburg that 40,000 shares of stock have already assented to the plan of reorganization, and that 12,000 more are expected to be deposited to-day. The present total outstanding stock is about 134,000 shares."

Eastern advices say the copper market is full. Reports have here even the plan of the control of the plan of the plan

total outstanding stock is about 134,000 shares."

Eastern advices say the copper market is dull. Reports have been circulated that large purchases by manufacturers have been made but they lack confirmation. The price of Lake copper is uncertain, but it seems to be a fact that no more can be placed at 13%c. Arizona ingot can be bought at 12%c and casting brands at 11@11%c. The English market is somewhat better.

New York was moderately active and strong, last prices being in many cases the best of the day. At London values were strong, the majority of stocks being ½ per cent in two days. The feeling abroad was much improved, according to one report, but another said that the Belgrade incident of the expulsion of Queen Natalie had disquieted Continental markets generally. As

this was not reflected in London there is ground for doubting the accuracy of the statement.

Sales on the local stock board yesterday were: First call—Fifty Philadelphia Gas at 1234, 10 at 1234, 10 Electric at 1434, 9 Switch and Signal at 834, 25 Pipeage at 10. Second call—No sales, Third call—Fifteen Birmingham Traction at 214, 25 at 214.

CREAMERY RUTTER HAS TAKEN A REMARKABLE TUMBLE. Fresh Eggs Are Scarce and Higher-The

Grain Market in a Condition of Suspended Animation-Lumber Is Still in Light Demand. OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, May 20, Country Produce-(Jobbing Prices).

Creamery butter has found a lower level, as our quotations will disclose, and it is now only a question with dealers here as to the amount of their losses. The drop in the past week has been equal to 10c per pound. At the regular Monday auction sales at Elgin there was a slow market, with 17c per pound as the top price. In the early part of May there was an active market at 27c per pound. Dealers here are doing their best to unload at 21 and 22c that which cost them 25½c per pound. Ohio creamery and country rolls are very slow at our quotations. Following is the advice of a Chicago dealer to one of our commission firms: "We believe that to day's quotations from Eigin will have a tendency to settle the butter market, and that, instead of further decline in the very near future, the market will tone up and be firm at quotations, and there should be liberal trading. The weather has been dry; it is dry now throughout the dairy districts; farmers are entirely out of feed to help their cows out with night food, and the milk is shrinking. There will not be as much butter made this week as there was last, and we do not look for lower prices than now for the balance of this month; what it will do in June remains to be seen; but from the present outlook the flow of milk will not be equal to what it was last June, and we do not look for as low prices for June as we had last year." The supply of fresh eggs is limited and prices are advanced.
