CARNEGIE'S SCHEME, menced five years ago, but was temporarily abandoned.

A Railroad From Steubenville to Lake Eric to Connect With

THE PITTSBURG AND WESTERN.

Cokers Stampede by Thousands, Breaking the Great Strike.

RAIN EXTINGUISHES FOREST FIRES

[SPECIAL TELEGRAM TO THE DISPATCH.] ALLIANCE, May 21.—The Lake Erie, Alliance and Southern Railroad again looms up in a scheme which, if carried to a successful issue, will be a great benefit to this city. F E. Smith, of New York, Secretary and Treasurer of the northern division of this road, is here to inspect it with a view of extending it through to the lake in the north and Steubenyille on the south. As the road now stands, it can scarcely be made to pay operating expenses, having for its terminals Phalanx on the north and Bergholtz on the south. The only through line it strikes is the Eric road, and it has no Southern outlet. The bulk of stock is owned by Eastern enpitalists, who say they will either make ething out of the road or throw it up al-Andrew Carnegie, the iron king, together. Andrew Carnegie, the iron king, is one of the principal stockholders, and it is thought that he will utilize the road for the benefit of his interests in competition with the Peansylvania Company. The plan is to build the road from Bergholtz, 25 miles south of Steabenville. To extend it north to Fairport, the lake port which the officials have in view, only a few nelles of road-bed would have to be constructed to connect with the Pittsburg, Painesville and Fairport branch of the Pittsburg and Western. Whether this plan is to be adopted, or whether an independent line will be built from Phalanx to Fairport, is not known, as the scheme, though often talked of, is yet in its infancy.

its infancy.

The Parihandle has practically no competition in the business between Steubenville and Pittsburg, and by building a competing line between these two points a direct route would be established between Pittsburg and Lake Erie. In this manner Mr. Carnegie would utilize what is now dead property on his hands. The facilities for hauling ore to his Pittsburg mills would be of the best.

Thousands of Strikers Rush Back to Work

in Defiance of Their Leaders. SPECIAL TELEGRAM TO THE DISPATCH. Scorrmans, May 21.—Yesterday after the onvention adjourned and the result was heralded over the region, the element op-posed to continuing the strike took hold of matters, and a general conclusion to go to work was brought about. At the Redstone plant the men became so auxious that they ated to entirely withdraw from the organiration, and all are being given the organi-ration, and all are being given their jobs as fast as ovens can be fired. This same feeling seems to be general all over the region, and from all points comes word of focking to work. The Frick Company estimates its in-crease in force to-day at fully 2,000. It is thought by Monday evening every plant in the region will have been put under opera-tion.

FOREST VILLAGES SAFE AGAIN.

Frugality Citizens Flocking Back to Their Homes, but Need Aid.

FRUGALITY, May 2L-A welcome rain began falling in this section last night and continsed all day.
